10. THE CHILD OF A NATURALIZED CITIZEN CLAIMING CITIZENSHIP THROUGH THE NATURALIZATION OF THE PARENT—In addition to the statements required by rule 5, the applicant must state that he or she is the son or daughter, as the case may be, of the person described in the certificate of naturalization, which must be submitted for inspection, and must set forth the facts of emigration, naturalization, and residence as required in the rules governing the application of a naturalized citizen.

11. A RESIDENT OF AN INSULAR POSSESSION OF THE UNITED STATES WHO OWES ALLEGIANCE TO THE UNITED STATES—In addition to the statements required by rule 5, he must state that he owes allegiance to the United States and that he does not acknowledge allegiance to any other government, and must submit affidavits from at least two credible witnesses who are able to corroborate his statements as to birth, residence, and loyalty.

12. EXPIRATION OF PASSPORT—*A passport is valid for twelve months from date of its issuance, and may be renewed for another twelve months.* A new one will be issued upon a new application. If the applicant is a naturalized citizen, the old passport will be accepted in lieu of a certificate of naturalization, provided the application upon which a previous passport was issued is found to contain sufficient information as to the naturalization of the applicant. If the applicant is a native citizen, a reference to a previous application with which the required evidence of birth was submitted will be sufficient, provided the application upon which the previous passport was issued is found to contain the necessary record of the evidence submitted.

13. WIFE, MINOR CHILDREN, AND SERVANTS—When the applicant is accompanied by his wife, minor children, and maid servant, who owes allegiance to the United States, it will be sufficient to state the fact, giving their names in full, the dates and places of their births, and the allegiance of the servant, when one passport will suffice for all those under twenty-one years of age. In such case, however, photographs of each person should accompany the passport application. For a man servant or any other person in the party a separate passport will be required. A woman's passport may include her minor children and maid servant under the above-named conditions. (The term "maid servant" does not include a governess, tutor, pupil, companion, or person holding like relation to the applicant for a passport.)

14. TITLES—Professional and other titles will not be inserted in passports, but an applicant's name in religion, an author's nom de plume, a stage name, etc., may be included in parentheses.

15. SURRENDER OF OLD PASSPORTS—An applicant for a new passport who holds an expired or unexpired passport or passports should submit the latter to the clerk of court or agent of the Department of State before whom he executes his application for a new passport. In such case the clerk of court or agent of the Department of State will cancel the old passport by cutting out a piece of the seal thereon and stamping, or writing in indelible ink, the word "Cancelled," across the face of the passport, which may then be returned to the applicant. After cancelling an old passport the official who takes the application should make a notation on the margin thereof, giving the number and date of issuance of the passport cancelled.

16. BLANK FORMS OF APPLICATION—They will be furnished by the department free of charge to persons who desire to apply for passports. Supplies of blank applications are also furnished by the department to clerks of courts and are held by the department's agents.

17. ADDRESS—Communications should be addressed to the Department of State, Division of Passport Control, Washington, D. C., and each communication should give the post office address of the person to whom the answer is to be directed.

No passports are required from Cubans, Santo Dominicans, or Haitians. Aliens regularly residing in the United States going to Canada, New Foundland, Bermuda, the Bahamas, St. Pierre-Miquelon, Mexico, Cuba, Santo Domingo or Hayti, may return within six months without passports.

After passport has been received it is necessary to obtain a Clearance Certificate at port of departure to show Income Tax laws have been complied with. It is necessary to obtain vises from the consuls representing countries named in passport.

## GRAIN FUTURES ACT.

THE Grain Futures Act, authorizing the Secretary of Agriculture to supervise trading in grain futures on the Chicago Board of Trade and other Exchanges in the United States, was signed Sept. 21, 1922, by the President.

"The new law takes the place of the regulatory provisions of the Future Trading Act of Aug. 24, 1921, which was declared unconstitutional by the Supreme Court of the United States last May," said Secretary Wallace. "In substance the new law is the same as the old, but the new law is based on the power of Congress to regulate interstate commerce, while the former statute was based on the taxing power of Congress.

"The new law does not become operative until Nov. 1, 1922. As all of the Exchanges were fully acquainted with the requirements of the former law, there should be no difficulty or delay in complying with the new law. The Exchanges affected are those at Chicago, Minneapolis, Duluth, Kansas City, St. Louis, Toledo, Milwaukee, San Francisco, Los Angeles, and Baltimore.

"This law does not interfere with hedging transactions on the Boards of Trade. Neither does it interfere with ordinary speculation in the buying or selling of contracts for future delivery. If, however, there should be evidence of undue manipulation or attempts to corner the market, or of the dissemination of false or misleading information about crop or market conditions by members of the Exchanges, such conduct would be inquired into and promptly dealt with as required by the law. In addition it prohibits the Exchanges from discriminating against co-operative associations of grain producers who may desire membership in order to obtain the use of the facilities of the grain Exchanges."

## NARCOTIC (FEDERAL) LAW AMENDED.

President Harding signed, May 26, 1922, the bill passed by Congress to strengthen the Harrison Anti-Narcotic Act.

The new law establishes a Federal Narcotics Board, composed of the heads of the State, Treasury and Commerce Departments, which is empowered to authorize the importation of such quantities of crude opium and cocoa leaves as may be found necessary for medical and other legitimate purposes. Any alien convicted of violating the act is to be deported, while for others a fine of $5,000 or ten years' imprisonment is provided.

## WORKMEN'S COMPENSATION LAWS.

(Year named is date of basic act. Text includes amendments to 1922.)

### ALASKA, 1915.

**Administrative System**—The courts. **Security for Compensation**—Attachment pending action, or employer may deposit cash or bond with court. **Employments Covered**—Elective, as to mining operations having five or more employees. **Waiting Period**—Two weeks. **Medical and Surgical Provisions**—Only in fatal cases involving no dependents, maximum, $150. **Compensation for Disability: Total, (a) Temporary; (b) Permanent**—(a) 50% of wages during disability, maximum, 6 months. (b) $3,600; $1,200 additional for wife, and $600 for each child under 16; if single, $600 for each dependent parent, maximum, $6,000. **Partial, (a) Temporary**—(a) 50% of wages; maximum period, 6 months; maximum amount, $4,800. If permanent, lump sums proportioned to number of dependents, ranging from $120 to $3,000, less payments for temporary disability. **Death Benefits (a) Dependents, (b) No Dependents**—(a) $3 000 to widow or minor orphan; $600 to each child under 16 and to dependent parents, maximum, $6,000; if single, $1,200 to each dependent parent. (b) $150 for burial; $150 for other expenses between death and burial.

### ALABAMA, 1919.

**Adm. Sys.**—Circuit Courts with appeal to Supreme Court, and Insurance and Compensation Commission. **Sec. for Comp.**—Right to compensation, and award has same preference as other unpaid wages. **Employ.**—Where sixteen or more are regularly employed, excluding casuals domestic servants, farm laborers, common carriers engaged in interstate commerce, and municipalities (cities towns, villages, school districts); but municipalities and employers of less than sixteen may elect to come under provisions of act. **Wait.**—Sixteen days. **Med. and Surg.**—Reasonably necessary medical and surgical treatment and attention, medicine, supplies and apparatus during first sixty days of disability not to exceed $100. **Comp. for Dis.: Temp. Total**—Fifty per cent. to 60% of average weekly wages, not less than $5, nor more than $15, during disability not more than 300 weeks. **Temp. Partial**—Fifty per cent. of difference between amount earned before injury and after; during disability not more than 300 weeks. **Perm. Partial**—Schedule of rates of payment according to extent and character of injury. **Perm. Total**—Fifty per cent. of average weekly wages ($5 to $15) for 550 weeks, reduced to 35 after 400 weeks; increased 5% for each totally dependent child; not over 60%, and per week to not over $15. **Death Ben.**—To dependen widow or husband and no child, 30%; widow or husband and one child, 40%; widow or husband and 2 or 3 children, 50%; 4 or more children, 60%; to dependent orphan 30%; 10% added for each additional orphan, not to exceed 60%; dependent husband and no child, 25%; if no husband, widow or child, to one parent, 25%; to two, 35%; grandparent, brother, sister, mother-in-law, or father-in-law, to one, 20%; more than one 25%. Total compensation not to exceed $5,000. Expenses of last illness and burial not to exceed $100.

### ARIZONA, 1912.

**Adm. Sys.**—Agreement; arbitration; reference to Attorney-General; courts. **Sec. for Comp.**—A judgment is collectible without relief from valuation or appraisement laws, and has same preference as unpaid wages or claim for personal services. **Employ.**—All especially dangerous employments. Elective as to other industries. "Especially dangerous" as specified in law include building and running of railroads, mining, using, making or working near explosives; places where power machinery is used; working on derricks and scaffolds, etc. **Wait.**—Two weeks. **Med. and Surg.**—In fatal cases where there are no dependents the reasonable expenses of medical attendance and burial. **Comp. for Dis. Total**—A semi-monthly payment equal to one-half the wage decrease. Fifty per cent of semi-monthly earnings during time unable to work at any gainful occupation. The total for partial or total disability caused by a single injury not to exceed $4,000. **Death Ben. (a) Depen.**—(a) To persons wholly dependent, a lump sum equal to 2,400 times one-half the daily wages or earnings of the deceased; not to exceed $4,000, payments to children to cease at 18 years of age. See under column for medical and surgical provisions for death cases where there are no dependents.

### CALIFORNIA, 1918.

**Adm. Sys.**—State Industrial Accident Commission. Subject to limited review by the courts. **Sec. for Comp.**—Insurance is required. Policies inure directly to benefit of employee, who also has first lien on amounts due employer. Self-insurers may be required to give bond or deposit securities. Claims or awards have same preference as those for wages. **Employ.**—All excepting agriculture, casual and domestic service, which may come under the act by joint election. **Wait.**—Seven days. **Med. and Surg.**—Such medical, surgical, and hospital treatment as may reasonably be required to cure and relieve. In case of death, the reasonable expense of burial, not exceeding $100. **Compen. for Dis. Total, (a) Temp. (b) Perm.**—(a) 65% of average weekly earnings during such disability. (b) When the degree of disability reaches or exceeds 70%, after the expiration of 240 weeks, a further benefit varying from 10 to 40% of the weekly earnings is payable during the remainder of life. **Part., (a) Temp. (b) Perm.**—(a) 65% of weekly loss of wages during such disability. (b) 65% of average weekly earnings, for periods varying from 4 to 279 weeks, according to the degree of the disability. In case of permanent incapacity or death a lump sum may be substituted for benefits, to equal the present value of the benefits commuted at 6%. Average weekly earnings shall be considered as not less than $6.41, nor more than $32.05. **Death Ben.**—To persons wholly dependent three times the annual earnings of the deceased; not less than $1,000, nor more than $5,000, payable at least monthly in instalments equal to 65% of the wages. If only partial dependents survive, three times the annual contribution of the deceased to their support, subject to same limitations as above. Disability payments and burial expenses to be considered as parts of above totals.

### COLORADO, 1917.

**Adm. Sys.**—Industrial Commission, with limited appeal to the courts. **Sec. for Comp.**—Insurance is required. Insurers are primarily liable to a workman or his beneficiaries. Notice to employer is notice to insurer. Claims are not assignable, and payments are exempt from attachment or execution. **Employ**—All except interstate commerce and domestic and agricultural labor by which four or more are employed in which employers elect to come under the act, but lose no defenses if they do not, except elective staff officials and State National Guard. Includes firemen and policemen. **Wait.**—Ten days. **Med. and Surg.**—Medical and surgical assistance for first 60 days not more than $200 in value. In death cases where there are no dependents, $75 for funeral expenses. **Compen. for Dis., Total**—Fifty per cent. of weekly wages during continuance, $5 minimum, $10 maximum; full wages if less than $5. **Part.**—Fifty per cent. of the weekly wage decrease, $10 maximum. Total not to exceed $2,600. Special schedule for specified injuries, 50% of weekly wages for periods ranging from 4 to 208 weeks. Facial disfigurement may be compensated for in an amount not exceeding $500. Payments may be commuted to a lump sum after six months. **Temp. Part.**—Fifty per cent. of wage loss, maximum $10 weekly, minimum $5; aggregate maximum $1,300. **Death Ben.**—To persons wholly dependent, including acknowledged illegitimate children, 50% of the weekly wages for 6 years, $10 maximum, total not to exceed $3,125, nor to be less than $1,560. If no dependents, medical services and $75 funeral expenses. Benefits to aliens one-third those payable to citizens and not to exceed $1,041.66. If death occurs during receipt of disability benefits any unaccrued and unpaid remainder goes to dependents; if only partial dependents survive, 50% of weekly wages for such part of 6 years as commission may determine, total not to exceed $3,125. **Insurance**—Required in State fund, stock or mutual company; or proof of financial ability; public employees must be insured in State fund.

### CONNECTICUT, 1914.

**Adm. Sys.**—Compensation Commissioners. Each Commissioner has jurisdiction within the Congressional District in which he resides. Appeals from findings and awards to the Superior Court of the county. **Sec. for Comp.**—Employer must furnish proof of solvency and financial ability, file security, or insure in approved stock or mutual companies or associations. Payments are not assignable, are exempt from execution, and have same preference as wage debts. **Employ.**—All industries in which five or more persons are employed, in absence of contrary election by employer. **Wait.**—Seven days. **Med. and Surg.**—Medical and surgical aid and hospital service during such time as needed. $100 for burial expenses. **Compen. for Dis., Total**—For total disability a weekly compensation equal to one-half the employee's earnings, not more than $18 nor less than $5 weekly, or for longer than 520 weeks. **Part. (a) Temp. (b) Perm.**—(a) A weekly compensation equal to one-half the wage loss, but not more than $18 per week or for longer than 520 weeks. (b) For specified injuries one-half the average weekly earnings for fixed periods in lieu of all other payments. Lump sum payments may be approved by the commissioner, provided they equal the value of the compensations. **Death Ben.**—To persons wholly dependent, a weekly compensation equal to one-half the

earnings of the deceased employee. If only partial dependents survive, a weekly compensation determined according to the measure of dependence, not exceeding one-half the earnings of the deceased employee. Compensation shall in no case be more than $18 nor less than $5 weekly, and shall not continue longer than 312 weeks. A widow's or widower's dependence ceases upon remarriage, and a child's upon reaching 18 years of age, unless physically or mentally incapacitated. If a widow or dependent widower dies during the term of benefit payments, subsequent payments go to other dependents, if any.

### DELAWARE, 1918.

**Adm. Sys.**—Industrial Accident Commission of three, whose award is final unless appeal is taken to the Supreme Court of the county within ten days. **Sec. for Comp.**—Payments have same priority as wage debts and are not subject to assignment or execution. Policies must inure directly to benefit of person entitled. **Employ.**—All except domestic servants, farm and casual laborers, outworkers, State officers and employees in interstate or foreign commerce. **Wait.**—Fourteen days. **Med and Surg.**—Medical care up to $100 during waiting period; $100 for burial. **Compen. for Dis.**—Fifty per cent. of wages for 475 weeks, not less than five nor more than 15 weeks, not to exceed in aggregate $4,000. **Death Ben.**—For a dependent widow or widower, 25% of wages with additional percentages up to 60% in proportion to number of dependents and children under 16. Aliens (widows and children only) receive one-half above amounts. Payments are for a period of 285 weeks, minus any disability benefits paid prior to death, but cease on death of beneficiary, or remarriage, or child reaching 16; compensation continued to children until 16, even beyond 285 weeks. Shares lapsing redistributed. Orphan children or those abandoned by surviving parent continue to receive benefit until 16 even beyond 285 weeks. Wages in computing death benefits reckoned as not less than $10 nor more than $30 per week.

### GEORGIA, 1921.

**Adm. Sys.**—Industrial Commission. **Sec. for Comp.**—Insurance required or proof of financial ability. Comm. may require deposit of security. **Employ.**—Any individual, firm, association or corporation in business for gain or profit, municipal corporations in State and political divisions. Common carriers whose motive power is steam are excluded and public service corporations having less than 10 employees. Employees do not include farm hands, domestic servants nor casuals. **Wait.**—Fourteen days. **Med. and Surg.**—Not more than 30 days and over $100. **Comp. for Dis.: Total**—One-half weekly wages, not over $12, nor ess than $6; not more than 350 weeks, nor to exceed $4,000. **Temp. Part.**—One-half of loss in earning capacity, not to exceed 300 weeks. **Perm. Part.**—Fifty per cent. of average weekly wages from 10 weeks to 200 weeks according to injury. **Death Ben.**—Reasonable expenses of last illness and burial not to exceed $100. To dependents, 50% of average weekly wages, not more than $10, nor less than $5. To partial dependents proportionate to amount theretofore contributed by employee. If dependents do not reside in U. S. or Canada at time of accident, compensation not to exceed $1,000, in no case not over $4,000. Dependence of widow or widower ceases on remarriage, of children at 18, unless mentally or physically unable to earn a livelihood.

### HAWAII, 1917.

**Adm. Sys.**—Industrial Accident Boards for each county; appeals to courts. **Sec. for Comp.**—Payments are preferred the same as wage claims. Employees have direct recourse to insuring company. Insolvency of employer does not release insurer. **Employ.**—All public and all industrial employment for pecuniary gain. **Wait.**—Seven days. **Med. and Surg.**—Reasonable surgical, medical and hospital services during disability, not exceeding $150: $100 funeral expenses if death within 6 months. **Compen. for Dis.: Total**—Sixty per cent. of weekly wages, $3 minimum, $18 maximum, for not longer than 312 weeks; total not to exceed $5,000. If wages are less than $3, full wages will be paid unless disability is permanent, when $3 will be paid. **Partial**—Fifty per cent. of wage decrease, $12 maximum, not over 312 weeks; total not to exceed $5,000. Fixed awards for specified injuries in lieu of all other benefits. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To widow or dependent widower alone, 40% of average weekly wages; if one or two dependent children, 50%; if three or more, 60%; 30% to one or two orphans; 10% additional for each child in excess of two; total not to exceed 50%. If no consort or child, but other dependents, 25% to 40%. Payments to widow to cease on death or remarriage, and to widower on termination of disability or remarriage; to children reaching 16, unless incapable of self-support, then to 18; to other beneficiaries on termination of disability. No payments except to children for more than 312 weeks. Wages not less than $5 nor over $36.

The act does not apply to elective officials, nor to employees receiving over $1,800 a year.

### IDAHO, 1918.

**Adm. Sys.**—Industrial Accident Board of three. Awards final unless appeal is taken to the District Court within 30 days. **Sec. for Comp.**—Private employers must either insure in the State Insurance Fund, insurance companies authorized to do business in the State of Idaho, or deposit security according to the law and Board's regulations entitling them to self-insure. **Employ.** — All public or private carried on for pecuniary gain. Employees injured outside State are covered as well as those hired outside of State if they would be entitled under law of State where hired. Agricultural, domestic and casual employees, outworkers, employees of charitable organizations and members of employer's amily, although excluded may be included by agreement. **Wait.**—If disability is 4 weeks or less no compensation is paid for first 7 days. If disability exceeds 4 weeks, the 7 days waiting period is absorbed at the rate of 1 day for each week. No deduction if disabled 7 weeks or more. **Med. and Surg.**—Reasonable medical, surgical and hospital service. In death case $200 for burial and if there are no dependents employer must pay $1 000 to Industrial administration Fund. **Compen. for Dis.**—Total compensation for time lost at rate of 55% average weekly wage but not more than $12 or less than $6, if single, additional 5% with a maximum of $13.10, minimum of $6.55, if there is a dependent wife, plus an extra 5% for each dependent minor child, but in no case to exceed $16 per week. Limit 400 weeks, $6 a week thereafter. **Part.**—Fifty-five per cent. difference between wages before and after accident, maximums as above, the same if no total disability, limited to 150 weeks. **Death Ben.**—To dependent widow or widower, 45% of average weekly wage with additional percentages up to 55% in proportion to the number of dependents and children under 18. No payments cover over 400 weeks except dependent children, who are paid up to the age of 18 and may be paid 400 weeks thereafter if incapable of self-support. Except as otherwise provided by treaty, alien dependents of countries having reciprocal laws get only one-half of the usual income. If law excludes citizens of the United States, either residents or non-residents, the fu l amount due to dependents is paid to the Industrial Administration Fund of the State of Idaho. The act does not apply to public officials who are elected by popular vote or who receive salaries exceeding $2,400 a year.

### ILLINOIS, 1917.

**Adm. Sys.**—Disputes determined by the Industrial Board through an arbitrator or arbitration committee, subject to review by the board. Questions of law and fact may be reviewed by the courts. **Sec. for Comp.**—Awards constitute liens on all property of employer within the county paramount to all other claims, except wages, taxes, mortgages or trust deeds. Injured employees are subrogated to right of insolvent employer to insurance. **Employ.**—Building trades; construction, excavating and electrical work; transportation; mining and quarrying; work with or about explosives, molten metals, injurious gases or vapors or corrosive acids, and all enterprises in which the law requires protective devices. Other employers may elect, but forfeit no defenses if they do not. **Wait.** Six days. **Med. and Surg.**—Medical and surgical aid for not over 8 weeks, not over $200; hospital services unlimited. If no dependents, a burial benefit not over $150. **Compen. for Dis.: Total**—Fifty per cent. of employee's weekly arnings, $7.50 minimum, $14 maximum, during disability, or until payments equal death benefit; thereafter, if the disability is permanent, a sum annually equal to 8% of a death benefit, not less than $10 per month. **Partial (b) Perm.**—(b) 50% of loss of earning capacity not more than $14 per week. For certain specific injuries (mutilations, etc.), a benefit of 50% of weekly wages for fixed periods, in addition to temporary total disability. The basis of 50% is to be increased 5% for each child under 16 years of age, maximum 65%. The minimum of $7.50 per week is to be increased for each such child, the total not to exceed $10. The maximum of $14 is to be increased $1 for each child, the total not to exceed $17. For serious and permanent disfigurement, not causing incapacity and not otherwise compensated, a sum not exceeding one-fourth the death benefits. No payments are to extend beyond 8 years, except in case of permanent total incapacity. **Death Ben.**—To persons wholly dependent, a sum equal to 4 years' earnings, not less than $1,650 (to a widow with one child under 16, $1,750, if two or more children, $1,850), nor more than $3,750. To a widow with one child under 16, $4,000; and if two or more children, $4,250. If only dependent collateral heirs survive, such a percentage of the above sum as the support rendered the last two

years was of the earnings of deceased Lump sum payments for either death or disability may be substituted by the Industrial Board for periodic payments. Employers may maintain a benefit system.

### INDIANA, 1917.

**Adm. Sys.**—Industrial Board, with appeals to courts on questions of law. **Sec. for Comp.**—Contracts of insurance must inure directly to benefit of persons entitled to payments under an award. Payments have same preference and priority as unpaid wages, and are exempt from claims of creditors. Insurance required, or proof of financial ability to meet payments. **Employ.**—All except interstate and foreign commerce, for which Federal laws make provision; railroad emp oyees engaged in train service and domestic and agricultu al labor, unless employer makes contrary election; compulsory as to State and its municipalities. **Wait**—Seven days. **Med. and Surg.**—Medical and hospital services for first 30 days, and 30 days longer if ordered by Industrial Board; employee must accept unless otherwise ordered by Industrial Board; $100 for funeral expenses if death from the injury occurs within 300 weeks. **Compen. for Dis.: Total**—Fifty-five per cent. of wages for not more than 500 weeks. **Partial**—Fifty-five per cent. of wage loss for not more than 300 weeks. For certain specified injuries, 55% of wages for designated periods ranging from 10 to 200 weeks. Wage basis and total amounts are limited as fo death benefits. Any payments may be commuted to a lump sum after 26 weeks. **Death Ben.**—To persons wholly dependent, 55% of weekly wages in equal shares; to those partially dependent amounts proportionate to decedent's contribution to their support. Term of payment limited to 300 weeks. Payments cease on remarriage of widow o dependent widower; or on children attaining the age of 18 years, unless mentally or physically disabled for earning. Wages are to be considered as not above $24 nor less than $10 weekly, no total to exceed $5,000.

### IOWA, 1917.

**Adm. Sys.**—Committees of Arbitration, with the Industrial Commissioner as Chairman; limited appeals to courts. **Sec. for Comp.**—Employers must insure in approved companies or mutual associations, furnish proof of financial ability, deposit security or contract with employees. Claim for compensation is first lien. If insured is incapable, insurer must settle direct with beneficiary. **Employ.**—All industries except agriculture and domestic service, clerical and casual, in absence of contrary election by employer. Compulsory as to State and municipalities. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable surgical, medical and hospital services, and supplies for first 4 weeks, not exceeding $100; if injury exceptional, an additional $100 may be ordered on application. Reasonable expenses of last sickness, and burial not to exceed $100. **Comp. for Dis.: Total (a) Temp.: (b) Part.**—(a) 60% of wages, not more than $15 nor less than $6 (unless wages are less than $6, then fu l wages), for not more than 300 weeks. (b) The same as for temporary disability, to be paid for a period of not more than 400 weeks. **Partial, (b) Perm.**—(b) Specified maimings—60% of average weekly wages for fixed periods, beginning with the date of injury. Payments for total temporary and total permanent disability for fifth, sixth and seventh weeks are 60% of the weekly earnings plus two-thirds of weekly rate of compensation. If disability continues beyond those dates, 60% continues. Lump sum payments may be substituted on approval of the Industrial Commissioner and an order of the court. **Death Ben.**—To persons wholly dependent, a weekly payment equal to 60% of the wages, but not more than $15 nor less than $6 per week, for 300 weeks. If only partial dependents survive, such a proportion of the above as the amounts contributed by the employee to such partial dependents bear to his annual earnings. If employee was a minor whose earnings were received by the parent, a sum to the parent equal to two-thirds of the amount provided for persons wholly dependent. If the spouse dies during compensation period, unpaid benefits go to other dependents if any; if she remarries and there are no dependent children, payments cease.

### KANSAS, 1917

**Adm. Sys.**—Disputes not settled by agreement may be referred to arbitration, subject to an appeal to the courts. **Sec. for Comp.**—Lump sums awarded by the court may be secured by order of the court by a bond. If employer was insured, insurer is subrogated to the rights and duties of the employer. Claims and awards are not assignable or subject to execution, etc. **Employ.**—Railways, factories, quarries, electrical, building or engineering work, laundries, natural gas plants, county and municipal work, employments requiring the use of dangerous explosive or inflammable materials, if employing five or more and mines; employers in other industries and those employing less than five persons may also elect. **Wait.**—One week. **Med. and Surg.**—On demand, medical, surgical and hospital treatment, not over $150 in value, for not more than 50 days. If no dependents, a reasonable expense for burial, not exceeding $150. **Comp. for Dis.: Total**—Payments during incapacity, after the first week, equal to 60% of the earnings, not less than $6 nor more than $15 per week. **Partial**—Sixty per cent. of wage loss during incapacity after first week. Lump sums equal to 50% of the wages for specified periods are to be paid for designated injuries in lieu of all other compensation. No payments for total or partial disability shall extend for over 8 years. After 6 months lump sum payments may be substituted at the employer's option, the sum to be agreed upon or determined by the court. **Death Ben.**—To persons wholly dependent, a sum equal to 3 years' earnings of the deceased, not less than $1,400 nor more than $3,800. For non-resident alien beneficiaries (except in Canada) the maximum is $750. If only partial dependents survive, a sum proportionate to the injury to such dependents. Compensation ceases upon the marriage of any dependent or when a minor becomes 18 unless physically or mentally incapable of wage earning.

### KENTUCKY, 1916

**Adm. Sys.**—Workmen's Compensation Board, a member thereof, or a referee appointed by it. Limited appeals to courts. **Sec. for Comp.**—Employers accepting act must insure in a stock or mutual company or the State Employees' Insurance Association, or give proof of financial ability. Policies must provide for direct liability to beneficiaries. Self-insurers must furnish bond or other security. Benefits have same priority as wages and are not subject to assignment or attachment. **Employ.**—All except domestic service and farm labor where three or more are employed; excepted industries may become subject to act by joint application of employers and employees. **Wait.**—Seven days. **Med. and Surg.**—Medical, surgical and hospital aid for 90 days, unless by order extended to not exceed $100. Reasonable burial expenses, not over $75. **Comp. for Dis.: Total**—Sixty-five per cent. of average weekly wages for 8 years, not over $15 nor less than $5; total not to exceed $6,000. **Partial**—Sixty-five per cent. of the weekly wage loss, not to exceed $12, for not more than 335 weeks; total not to exceed $4,000. Compensation periods are fixed for specified injuries. Lump sums may be awarded after six months, if approved by the board. **Death Ben.**—To persons wholly dependent, 65% of the average weekly earnings, not more than $12 for 335 weeks; total. If only partial dependents survive, a proportional of the amount for total dependency, determined by the degree of dependence. If no dependents, $100 to the personal representative. Payments to a widow or widower cease on remarriage, and to a child on reaching the age of 16, unless incapacitated for wage earning. Payments thus terminated go to other beneficiaries, if any.

### LOUISIANA, 1915.

**Adm. Sys.**—Disputes are settled by Judges of the courts in simple, summary procedure. **Sec. for Comp.**—Insurance is required, or bond. Policies must give claimants right to direct payment. Compensation payments have same preference as wage debts. **Employ.**—Hazardous trades, businesses or occupations in absence of contrary election; extensive list, and others may be so adjudged or brought within act by voluntary agreement. Compulsory as to State employees, its municipalities and public boards. **Wait.**—Two weeks. **Med. and Surg.**—Reasonable medical, surgical, and hospital service, not over $150. $100 expenses for last sickness and burial. **Comp. for Dis.: Total**—Sixty per cent. of the weekly wages, $3 minimum, $18 maximum, for not more than 400 weeks. **Partial**—Sixty per cent. of the wage loss, not over $18, for not more than 300 weeks. Fixed schedule for specified injuries for periods from 10 to 150 weeks. Payments in any case may be commuted to a lump sum on agreement of the parties and approval by the courts. **Death Ben.**—To widow or dependent widower alone, 30% of weekly wages, 45% if one child, 60% if two or more. If one child alone, 30%, 45% for two, 60% for three or more. For one dependent parent, 30%; for two, 60%. If one brother or sister, 30%, and 10% for each other. The total in no case to exceed 60%, $3 minimum, $18 maximum, for not over 300 weeks. Payment to any beneficiary ceases on death or marriage; to children on reaching the age of 18, unless mentally or physically incapacitated.

### MAINE, 1915.

**Adm. Sys.**—Industrial Accident Commission; appeals to courts on questions of law. **Sec. for Comp.**—Insurance required unless employer gives proof of solvency and makes deposit or bond to secure payments. Claims not assignable, subject to attachment or liable in any way for debt. **Employ.**—All except agricultural and domestic labor, and seamen

in interstate or foreign commerce, if employer elects. Abrogation of defenses does not affect employers of five or less, or the cutting, hauling, driving, or rafting of logs. **Wait.**—Seven days. **Med. and Surg.**—Reasonable medical and hospital services during 30 days, not over $100 unless by agreement or order of commission a larger amount or a longer period is provided for. If no dependents not over $200 for last sickness and burial. **Comp. for Dis.: Total**—Two-thirds of the wages, for not more than 500 weeks, $6 minimum, $16 maximum, total not to exceed $6,000. **Partial.**—Two-thirds of the weekly wage loss, not over $16, for not more than 300 weeks. For specified injuries causing permanent partial disability, two-thirds of the wages for various fixed periods, then compensation on basis of wage loss, if any, for not more than 300 weeks in all. Lump sum payments may be approved by the commission, after weekly payments for not less than six months. **Death Ben.**—Not to exceed $4,000 to persons wholly dependent, two-thirds of weekly wages for 300 weeks, $6 minimum, $16 maximum. If only partial dependents survive, amounts proportionate to their degree of dependency for 300 weeks. If no one wholly dependent and more than one partly dependent, payments are to be divided according to the relative extent of dependency. Payments to children cease at age of 18, unless mentally or physically incapacitated for earning a living; payments to widows cease at remarriage.

## MARYLAND, 1914.

**Adm Sys.**—Industrial Accident Commission, with appeal to the courts. **Sec. for Comp.**—Insurance in State fund, stock, or mutual company, or proof of financial ability is required. Policies must permit action by commission to secure payments to persons entitled. Payments not assignable, nor subject to execution or attachment. **Employ.**—Extra hazardous (enumerated list); others by joint election of employer and employees. Farm and domestic labor, country blacksmiths and wheelwrights are excluded. **Wait.**—Three days. **Med. and Surg.**—Medical, surgical, etc., not over $300. Funeral expenses not over $125. **Comp. for Dis.: Total**—Sixty-six and two-thirds per cent. of weekly wages, $8 minimum, $18 maximum for not over eight years, total not to exceed $5,000. If wages less than $8, full wages will be paid. **Partial**—Sixty-six and two-thirds per cent. of weekly wage loss, $18 maximum, total not over $3,750, specific periods for specified maimings. Where the injured employee is a learner, with prospect of increase of wages, this fact may be considered in fixing awards. Payments may, in the discretion of the commission, be made in part or in whole in lump sums. **Death Ben.**—To persons wholly dependent, 66⅔ % of the weekly wages for eight years, not more than $5,000 nor less than $1,000. To persons partly dependent, 66⅔ % of the weekly wages for such portion of eight years as the commission may fix, amount not to exceed $3,000. If no dependents, funeral expenses only. Payments to widow close on remarriage, and to children on reaching the age of 16, unless mentally or physically incapacitated.

## MASSACHUSETTS, 1917.

**Adm. Sys.**—On request of either party, Industrial Accident Board assigns case for hearing to single member, whose decision is subject to review by the entire Board. **Sec. for Comp.**—Employer must become a subscriber of some authorized liability insurance company. All risks must be insured in approved companies. Payments are not subject to assignment, attachment or execution. **Employ.**—All industries, if the employer so elects. The State shall, and any county, city, town or district accepting this act may, compensate its laborers, workmen and mechanics. **Wait.**—Ten days. **Med. and Surg.**—Reasonable medical and hospital services, and medicines as needed, for the first two weeks, and in unusual cases for a longer period, in the discretion of the board. Reasonable expenses of burial, not over $100. If dependents survive, this sum shall be deducted from the compensation payable. **Comp. for Dis.: Total**—A sum equal to two-thirds the average weekly wages, not less than $7 nor over $16 per week, not exceeding 500 weeks nor $4,000. **Partial**—Two-thirds the wage loss, not over $16 or less than $7 per week for not longer than 500 weeks. In specified injuries (mutilations, etc.), two-thirds the weekly wages, not exceeding $10 nor less than $4 per week, for fixed periods, not to exceed $4,000, in addition to other compensation. Lump sum payments may be substituted in whole or part, after payments for injury or death have been made for not less than six months. **Death Ben.**—To persons wholly dependent, weekly payment equal to two-thirds the average weekly wages of the deceased employee, not less than $4 nor more than $10, for a period of 500 weeks, the total not to exceed $4,000. If only partial dependents survive, a sum proportionate to the portion of the annual earnings contributed to their support by the deceased employee. Children cease to be dependents at 18, unless mentally or physically incapacitated from earning a living. If no dependents, payment to State treasury of $100 is made by the employer.

There is a limited appeal to the courts.

## MICHIGAN, 1917.

**Adm. Sys.**—Either party may notify Dept. of Labor and Industry, the hearing to be conducted by member or deputy member of Department, whose decisions are subject to review by the commission. The Supreme Court may review questions of law. **Sec. for Comp.**—Employers may insure with the State Accident Fund or in approved companies, or furnish proof of financial ability. Claims are a first lien on all property of employer. **Employ.**—All industries if employer elects; compulsory as to State and its municipalities, public boards, etc. **Wait.**—One week. **Med. and Surg.**—Reasonable medical and hospital services for the first 90 days. If no dependents, the reasonable expense of the last sickness and burial, not exceeding $200. **Comp. for Dis.: Total**—A weekly payment equal to 60% of the earnings, not less than $7 nor more than $14 per week, nor for a period longer than 500 weeks from the date of the injury, and not exceeding $7,000. **Partial**—A weekly payment equal to 60% of the wage loss, not over $14 per week nor for longer than 500 weeks. For certain specified injuries (mutilation, etc.), 60% of average weekly earnings for fixed periods. Payments begin with the eighth day after the injury, but if the disability continues for six weeks or longer, compensation is computed from the date of the injury. After six months lump sums may be substituted for weekly payments. **Death Ben.**—To persons wholly dependent, a weekly payment equal to 60% of the deceased workman's earnings, not less than $7 nor more than $14 per week, for a period of 300 weeks. If only partial dependents survive such proportion of the above as the amount of previous contributions bears to such earnings.

Where a principal contracts with another, the principal shall be liable to pay to any workman employed any compensation under this act he would have been liable for if directly employed by him.

## MINNESOTA, 1917.

**Adm. Sys.**—Industrial Commission, or commissioner, or referee, hears evidence; the Commission makes all decisions; appeals may be taken to Supreme Court. **Sec. for Comp.**—Employers shall insure or show financial ability to Commission or maintain co-operative schemes. Insured workmen have an equitable lien on any policy falling due. Claims have same preference as unpaid wages. **Employ.**—All excepting common carriers by steam railroad and farm and domestic service, in absence of contrary election by employers. **Wait.**—One week. **Med. and Surg.**—Reasonable medical and surgical treatment, not exceeding 90 days nor $100, unless ordered in exceptional cases, when limit is $200. $150 funeral expenses. **Comp. for Dis.: Total**—66⅔ per cent. of wages, maximum $18; minimum $8, not to exceed $10,000. **Partial**, (a) **Temp.** (b) **Perm.**—(a) 66⅔ % of the wage loss, not beyond 300 weeks. (b) For specified permanent partial disability (mutilations, etc.), 66⅔ % of the earnings for 15 weeks, and after that fixed by a schedule, 10 weeks to 200 weeks. **Death Ben.**—To a widow alone, 40% of monthly wages of deceased, increasing to 66⅔ % if four or more children; to a dependent husband alone, 30%, to a dependent orphan, 45%, with 10% additional for each additional orphan, with a maximum of 66⅔ % to the dependent parent or parents; if no dependent widow, widower, or children, 35% if one parent, and 45% if both survive; if none of the foregoing, but a brother, sister, grandparent, mother-in-law, or father-in-law is wholly dependent, if but one such relative, 30%, or if more than one, 35%, divided equally. If only partial dependents survive, that proportion of benefits provided for actual dependents which contributions bore to wages earned. Payments continue for not more than 300 weeks, and not over $7,500, and cease upon marriage or when 16, unless mentally or physically incapacitated. There is provision also for education and rehabilitation of persons incapacitated or handicapped by injuries. If no dependents, payment to State treasury of $100 is made by employer. Occupational diseases incurred are included as accidents.

## MONTANA, 1915.

**Adm. Sys.**—Proceedings to determine disputes must be instituted before the Board and not elsewhere; limited appeals to courts. **Sec. for Comp.**—Employer may carry his own insurance on proof of financial ability; may insure in any company in State, or may contribute to State fund. Liabilities under act are first lien upon any deposit, and on other property pro-rata with other lienable claims. **Employ.**—All inherently hazardous works and occupations, including manufactures, construction work, transportation and repair of means thereof, and any hazardous occupations not enumerated, in which employers elect, but not including agricultural,

domestic or casual labor. **Wait.**—Two weeks, unless injury incapacitates longer than six weeks, in which event compensation is paid from date of accident. **Med. and Surg.**—Medical and hospital services during first two weeks, not over $100, unless there is a hospital contract. $125 for funeral expenses if death occurs within six months. **Comp. for Dis.: Total, (a) Temp.: (b) Perm.**—(a) 50% of wages during disability, $12.50 maximum, $6 minimum, unless wages are less than $6, when full wages will be paid, for not more than 300 weeks. (b) Same scale as above for 400 weeks, then $5 per week, while disability continues. **Partial, (a) Temp.: (b) Perm.**—(a) 50% of wage loss, wages and benefits not to exceed $10 nor fall below $6, unless wages were less than $6; total payments in no case to exceed one-half of payments allowed for temporary total disability; payments to continue not more than 150 weeks for permanent cases and 50 weeks where disability is temporary. (b) For maimings, compensation of same scale and limits as in total temporary, for terms ranging from 3 to 200 weeks. **Death Ben.**—To widow, widower, child, or children under 16, or invalid child over 16, 50% of wages of the deceased if residents of the United States, if not, 25%, unless otherwise required by treaty. To major dependents (father or mother), in case there are no beneficiaries, 40%. To minor dependents (brothers or sisters actually dependent), if no beneficiary or major dependent, 30%. Non-resident alien dependents receive nothing unless required by treaty. Terms of payment may not exceed 400 weeks. $12.50 maximum, $6 minimum; if wages less than $6, then full wages. Payments cease on remarriage of widow or widower, or when child, brother, or sister reaches the age of 16, unless an invalid.

## NEBRASKA, 1917.

**Adm. Sys.**—Compensation Commissioner; appeal to District Court of county, with further appeal to Supreme Court. **Sec. for Comp.**—Employer must insure or give proof of financial ability. Policies must inure directly to beneficiaries. Awards have same preference as wage claims. **Employ.**—All industries, except domestic service, agriculture, and interstate or foreign commerce in absence of contrary election. Exempt employees may make affirmative election. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service as and when needed. A reasonable sum, not over $150, for expenses of last sickness and burial. **Comp. for Dis.: Total**—66⅔% of the weekly wages, not less than $6 nor more than $15 per week for 300 weeks; thereafter, while disability lasts, 45%, not less than $4.50 nor more than $15. If weekly wages are less than minimum, full wages are paid. **Partial**—66⅔% of loss of earning capacity, not over $15 per week nor for more than 300 weeks. For certain specified injuries (mutilations, etc.) 66⅔% of wages for fixed periods in lieu of other payments, $15 maximum, $6 minimum, unless wages are less than $6, when full wages are to be paid. Payments begin with the eighth day, but if disability continues six weeks or more compensation is computed from date of injury. Lump sums may be substituted for periodic payments, but if for death or permanent disability, the approval of the court must be obtained. **Death Ben.**—To persons wholly dependent, 66⅔% of the employee's wages, not less than $6 nor more than $15, not exceeding 350 weeks; if wages were less than $6, full wages. If only partial dependents survive, a proportion of the above corresponding to the relation the contribution of deceased to their support bore to his wages. Compensation to children ceases when they reach 18, unless mentally or physically incapacitated from earning. Occupational diseases are not included as accidents.

## NEVADA, 1917.

**Adm. Sys.**—Industrial Commission. **Sec. for Comp.**—Employers may insure in State Insurance Fund; where employer elects to reject provisions of act, he is presumed guilty of negligence in all accident cases; burden of proof is on him to prove absence of negligence. State management of fund and collection of premiums by the State. Payments not assignable, exempt from attachment, etc. **Employ.**—All except domestic and farm labor, provided the employer elects; compulsory as to the State and its municipalities. **Wait.**—Seven days. **Med. and Surg.**—Reasonable medical, surgical, and hospital aid for 90 days, but may be extended to one year by the Industrial Commission. Burial expenses not to exceed $125. **Comp. for Dis.: Total**—60% of the average monthly wages, not less than $30 nor more than $72; $10 additional per month where total dependents. **Partial**—60% of the loss of earning capacity, not more than $40 per month for not more than 60 months, wages in excess of $120 need not be considered. For certain specific injuries (mutilations, etc.) a monthly payment equal to one-half the monthly wages, not less than $30 nor more than $60 for fixed periods, in addition to payments for temporary total disability. No compensation is payable for the first week of disability, but if it continues two weeks or longer compensation is paid from the date of the injury. The Industrial Commission may permit the substitution of lump sums for monthly payments in an amount not exceeding $5,000, except in cases of total dependents. **Death Ben.**—To widow or dependent widower, 30% of the average wages, with 10% additional for each child under 18 years of age, total not to exceed 66⅔%. If only children survive, they receive 15% each, the total not to exceed 66⅔%. In addition to foregoing dependent parents may receive 25% of the average monthly wage during dependency; if dependent brothers or sisters under 18, 20% for one and 30% if more than one, other cases according to the facts. Payments to a widow or dependent widower cease on remarriage, but the widow shall receive two years' benefits in a lump sum. Payments to children cease at 18, unless incapable. Payments to non-resident aliens 60% of above. No excess of wages over $120 per month considered.

## NEW HAMPSHIRE, 1911.

**Adm. Sys.**—Disputes settled by agreement or action in equity. **Sec. for Comp.**—No provision for insurance. Employer must satisfy Commissioner of Labor of financial ability or file a bond. Payments have same preferences as claims for unpaid wages, or for personal services. **Employ.**—Industries dangerous to life or limb, including operation and maintenance of steam and electric roads, work in shops, mills, factories, etc., employing five or more; work about quarries, mines, foundries. **Wait.**—Two weeks. **Med. and Surg.**—If no dependents, expenses of medical care and burial not in excess of $100. **Comp. for Dis.: Total**—Beginning with the fifteenth day, a sum not exceeding 50% of average weekly earnings. **Partial**—A sum not in excess of 50% of loss of earning capacity. In no case is compensation to exceed $10 a week, nor run for a longer period than 300 weeks. The court may determine the amount of lump sums payable as a substitute for weekly payments. **Death Ben.**—To persons wholly dependent, a sum equal to 150 times the average weekly earnings of deceased, not to exceed $3,000.

## NEW JERSEY, 1914.

**Adm. Sys.**—Workmen's Compensation Bureau, subject to appeal to courts. **Sec. for Comp.**—Employers must furnish proof of financial ability or insure. Policies must be for benefit of employees. Right of compensation has same preference as claim for unpaid wages. **Employ.**—All employments in absence of contrary election. **Wait.**—Ten days. **Med. and Surg.**—Reasonable medical services up to $50, also hospital services up to $50, additional for either without limit upon order of Bureau. Expense of last sickness and of burial, not exceeding $100 for burial. **Comp. for Dis.: Total, (a) Temp. (b) Perm.**—(a) 66⅔% of wages, payable during disability, but not beyond 300 weeks. (b) 66⅔% of wages during such disability, not beyond 400 weeks. **Partial, (b) Perm.**—(b) For certain specific injuries (mutilations, etc.), 66⅔% of wages during fixed periods. All weekly payments are subject to maximum and minimum of $12 and $6. A lump sum payment may be substituted at the discretion of the Compensation Bureau. **Death Ben.**—To one dependent, 35% of the wages of the deceased, and for each additional dependent 5% additional, the total not to exceed 60%, payable for not more than 300 weeks. Compensation not to be less than $6 nor more than $12 per week, unless the earnings are less than $6, when full wages are paid. Payments to widows cease on remarriage, to orphans at 18, unless mentally or physically deficient. Provision is made also for education and rehabilitation.

## NEW MEXICO, 1917.

**Adm. Sys.**—District courts. **Sec. for Comp.**—Employer must file bond or certificate of guarantee, mutual, or other insurance, unless he can satisfy the Judge he is solvent. **Employ.**—Extra hazardous (enumerated), where four or more are employed, or where work is carried on upon a derrick, scaffolding, pole, or other structure ten or more feet above the surface of the ground; others by election. **Wait.**—Ten days. **Med. and Surg.**—Medical care up to $150, during "waiting" period of 10 days. $75 for funeral expenses. **Comp. for Total Dis.**—Fifty per cent. of earnings for 520 weeks. Compensation is increased 50% if caused by employer's failure to provide safety devices provided by law, and decreased 50% if caused by the employee's failure to observe a statutory regulation concerning safety, or to use a safety device provided. **Death Ben.**—To a dependent widow or widower, 40% of earnings, 5% additional for each child up to 60%.

There is a special schedule for permanent partial disabilities, ranging from 6 to 150 weeks, and from $6 to $12 per week. Lump sum settlements can be made.

## NEW YORK, 1913.

**Adm. Sys.**—State Department of Labor with

limited appeals to the courts. **Sec. for Comp.**—Employer must give proof of financial ability, or must insure in State fund, or mutual, or stock company. Policies must inure directly to beneficiary. Payments have same preference as unpaid wages. **Employ.**—Enumerated industries, employers having four or more "workmen or operatives," except farm and domestic service, and employers voluntarily insuring. **Wait.**—Two weeks, except when disability lasts more than forty-nine days or where permanent partial disability paid from date of accident. **Med. and Surg.**—Care and treatment until recovery unlimited as to time; costs to be approved by department; $100 for funeral expenses. **Comp. for Dis.: Total**—Two-thirds of wages during continuance. **Partial**—Two-thirds of wage loss. For permanent loss or partial loss of limb or vision or total hearing, two-thirds of wages for fixed period. For facial or head disfigurement an equitable amount not to exceed $3,500. Compensation rate, minimum, $8; maximum, $20 per week. If employee dies, amounts for disability due or remaining payable to dependents. **Death Ben.**—To a widow or dependent widower alone, 30% of wages of deceased, 10% additional for each child under 18; or if no surviving parent, children under 18 receive 15% each, and dependent parents or grandparents, 25%; brothers or sisters, 15% each; aggregate payments in no case to exceed 66⅔%. Payments to widow or widower cease on death or remarriage, with 2 years lump sum to widow on remarriage; payments to children, brothers and sisters cease at 18 and to parents when dependency ceases. In computing the above death benefits no wages in excess of $125 monthly are considered. The law covers certain occupational diseases. Municipalities are self-insurers, if not insured otherwise. Acceptance of premium estops carrier from denying coverage. Contractors are responsible for sub-contractors. The State fund pays its entire expenses and makes its own budget. Failure to insure is punishable by a fine of $500 or prison for one year or both. Awards may be recorded as judgments.

## NORTH DAKOTA, 1919.

**Adm. Sys.**—Workmen's Compensation Bureau. **Sec. for Comp.**—Insurance compulsory; self-insurance not permitted. **Employ.**—All public and private, other than agricultural and domestic service, and common carriers by steam railroad (which may come in by election). **Comp. for Dis.**—66⅔% of wages during total, and 66⅔% of wage loss during temporary partial, not to exceed $20 per week. **Death Ben.**—To widow or dependent widower until death or remarriage; to children up to 18; payments to parents until death, remarriage or cessation of dependency; to other beneficiaries, eight years, not to exceed $20, nor less than $6 per week; funeral benefit up to $150.

There is a limited appeal to the courts. When the widow of a victim remarries she receives 156 weeks' compensation as a lump sum settlement.

## OHIO, 1917.

**Adm. Sys.**—Industrial Commission; limited appeal to civil courts. **Sec. for Comp.**—State Insurance Fund. Employers must insure or give proof of ability to pay benefits. Non-insurers must give bond or security. Insurance is under State control. Claims have same preference as on tax judgments. **Employ.**—All employing five or more regularly; also establishments employing less than five, if employer elects to pay premiums. **Wait.**—One week. **Med. and Surg.**—Medical, hospital, etc., not over $200, but more may be allowed in case of necessity. Burial expenses not to exceed $150. If no dependents, medical and hospital services, not over $200, and burial expenses as above. **Comp. for Dis.: Total, (b) Temp.** (a) **Perm.**—(a) Weekly payments of 66⅔% of average weekly wages during disability, not less than $5 nor more than $15; but not for longer than six years, nor exceeding $3,750. (b) A weekly payment as above, continuing until death. **Partial, (a) Temp.** (b) **Perm.**—(a) 66⅔% of loss of earning capacity during continuance, but not exceeding $15 per week, or a total of $3,750. (b) In certain specified injuries (mutilations, etc.), 66⅔% of wages for fixed periods, with the same maximum and minimum limitations as noted above, in addition to payments during temporary total disability. In all cases, if wages are less than prescribed minimum, then total wages are paid as compensation; an expected increase in wages may be given consideration. **Death Ben.**—To persons wholly dependent, 66⅔% of the average weekly earnings of the deceased for eight years, not less than $2,000 nor more than $5,000. If only partial dependents survive, a proportionate sum to continue for all or such portion of the period of eight years as the Industrail Commission may determine in each case, not exceeding a maximum of $5,000.

## OKLAHOMA, 1915.

**Adm. Sys.**—Industrial Commission. Appeals to the Supreme Court. **Sec. for Comp.**—Insurance companies or fund systems must be approved by the commission. Claims cannot be assigned and payments are exempt from levy, execution, etc. **Employ.**—"Hazardous" (enumerated list and general clause), in which more than two are employed; agriculture, stock raising, retail stores, and interstate railways not included; work by State or municipalities is included. **Wait.**—One week. **Med. and Surg.**—Necessary medical, surgical, or other treatment for first sixty days, or $100 or more if approved by Commission. **Comp. for Dis.: Total, (a) Temp. (b) Perm.**—(a) 50% of average weekly wages for not more than 300 weeks. (b) 50% of average weekly wages for not more than 500 weeks. **Partial, (b.) Perm.**—(b) 50% of wage loss for not more than 300 weeks; for specified injuries, 50% of weekly wages for fixed periods in lieu of other compensation. Payments may not exceed $18 per week nor be less than $8, unless wages were less than $8, when full wages will be paid. Periodical payments may be commuted to lump sums, and aliens who are non-residents may have payments commuted to lump sums equal to one-half of the value of the present worth.

## OREGON, 1916.

**Adm. Sys.**—State Industrial Accident Commission. Review by Circuit Court. Appeals therefrom as in other civil cases. **Sec. for Comp.**—Exclusive State fund. State contributes one-half of administrative cost, contributions by employer of one cent per day worked deducted from employee's wages and a percentage of monthly payroll varying from one-tenth of one per cent. to eight per cent, according to hazard. **Employ.**—All hazardous occupations involving power driven machinery and general construction work automatically subject unless notice to contrary. All non-hazardous occupations (includes farming) may become subject by election. **Med. and Surg.**—Transportation, medical, surgical and hospital expense not to exceed $250. **Comp. for Dis.: Total, (a) Temp. (b) Perm.**—(a) Per cent. of injured workman's wages according to marital condition as follows: Single, 40%, maximum $55; with wife, 48%, maximum $65; wife and one child, 53%, maximum $73; wife and two children, 58%, maximum, $81; wife and three children, 63%, maximum $89; wife and four children, 66⅔%; maximum $97. Widow or widower same as single workman and add 5% of wage, but not more than $8 per month, for each child under 16. Minimum for single workman, $30 per month, and $40 for workman having wife or invalid husband, unless actual wage be less than these amounts, in which event compensation equal to wages is paid. (b) Monthly payments as follows: If unmarried, $30; if with wife or invalid husband, but no child under 16, $35; if husband is not invalid, $30; if married or a widow or widower with a child or children under 16, $8 additional for each child until 16, no maximum. **Partial, (a) Temp. (b) Perm.**—(a) A proportionate amount, corresponding to loss of earning power for not exceeding two years. (b) For certain specified injuries (amputations and functional losses), monthly payments of $25 in addition to compensation for total disability, maximum 96 months. Lump sum optional with injured party in cases for which the period of payments does not exceed twenty-four months and at the discretion of the commission not to exceed 50% of the amount due in other cases. All lump sum payments based on present worth computed at 4% interest. **Death Ben.**—To widow or invalid widower, monthly payment of $30, and to each child under 16, $8 per month, no maximum. To orphans under 16 (female 18) a monthly payment of $15 each, no maximum. To other dependents, there being none of the foregoing, a monthly payment to each equal to 50% of the average support received during the preceding year, not to exceed $30 in all. To parents of an unmarried minor, a monthly payment of $25, until such time as he would have become 21, after which compensation is paid according to average support. Payments to widow or widower until death or remarriage. On remarriage of a widow a lump sum of $300. **Vocational Rehabilitation**—Commission is authorized to provide such retraining to injured workmen as may be deemed advisable and pay for such expense as board and room, tuition, school supplies and financial aid to dependents in connection therewith.

## PENNSYLVANIA, 1916.

**Adm. Sys.**—Workmen's Compensation Board. Appeal to courts. **Sec. for Comp.**—Employers must insure in State Fund, a stock or mutual company, or give proof of financial ability. Agreements are filed with a prothonotary, if approved becomes a lien as a judgment. Act provides for direct payments to beneficiaries. **Employ.**—All, unless employer elects to contrary. Agricultural and domestic employees are excluded. **Wait.**—Fourteen

days. **Med. and Surg.**—Reasonable medical, surgical, and hospital expenses for first 30 days, cost not to exceed $100. $100 funeral expenses. **Comp. for Dis.: Total**—Sixty per cent. of weekly wages for 500 weeks, $6 minimum, $12 maximum, total not to exceed $5,000; if wages are less than $6, full wages will be paid. **Partial**—Sixty per cent. of weekly wage loss, $12 maximum; for not over 300 weeks, fixed periods for specified injuries, $6 minimum, $12 maximum; full wages if less than $6 payments may be commuted to lump sum. **Death Ben.**—Forty per cent. of weekly wages to widow or dependent widower, 10% additional for each child, total not to exceed 60%; if no parent, 30%; if one or two children, 10% additional for each child in excess of two, total not to exceed 60% if no consort or child under 16, but dependent parent, 20% if partially dependent, 40% if totally dependent; brothers, or sisters, 15% to 25% of wages. Payments cease on death, remarriage of widow or widower, or child, brother or sister at 18; not to continue beyond 300 weeks, unless for children under 16, when 15% will be paid for one, and 10% additional for each succeeding child, total not to exceed 50%. Basic wages are not less than $10 nor more than $20 weekly.

## PORTO RICO, 1917.

**Adm. Sys.**—Workmen's Relief Commission, with limited appeals to the courts. **Sec. for Comp.**—A Workmen's Relief Trust Fund is administered by the Treasurer of the island. Rights not assignable nor subject to attachment. **Employ.**—All employing three or more, except domestic service and agricultural work without mechanically driven machinery, and common carriers by railroad. **Med. and Surg.**—Necessary medical attendance and such medicines and necessary food as the Workmen's Relief Commission may prescribe; food supplies granted to be deducted from the award. Burial expenses not exceeding $40. **Comp. for Dis.: Total, (a) Temp. (b) Perm.**—(a) An amount equal to 50% of the weekly wages, not less than $3 nor more than $7, for not more than 104 weeks (b) Not less than $2,000 nor more than $4,000. **Partial, (a) Temp. (b) Perm.**—(b) Not more than $2,500. The time and manner of payments are to be determined by the Workmen's Relief Commission. **Death Ben.**—Not over $3,000 to $4,000. Benefits may be apportioned among the dependent legal heirs by the Workmen's Relief Commission.

## RHODE ISLAND, 1917.

**Adm. Sys.**—Any party interested may petition Superior Court. Appeals to the Supreme Court. **Sec. for Comp.**—Employer must insure, give proof of financial ability, or furnish security or bond. Insurers directly liable to claimants. Beneficiaries have first lien. **Employ.**—All except domestic service and agriculture, if employer elects. Defenses in suits for damages not abrogated unless more than five persons employed. **Wait.**—Seven days. **Med. and Surg.**—Necessary medical and surgical care and hospital services for the first eight weeks, not to exceed $200. If no dependents, the expense of the last sickness and burial, not over $200. **Comp. for Dis.: Total**—A weekly payment equal to one-half the wages, not less than $7 nor more than $16 per week, for not more than 500 weeks. **Partial**—A weekly payment equal to one-half the loss of earning power, not exceeding $10 per week, for not longer than 300 weeks. For certain specified injuries (mutilations, etc.), in addition to above, one-half the wages, weekly payments to be not less than $4 nor more than $10 per week, for fixed periods. Payments begin on the eighth day, but if incapacity extends beyond four weeks they begin from date of injury. Lump sum payments may be substituted by order of the Superior Court after compensation has been paid for six months for either death or injury. **Death Ben.**—To persons wholly dependent, a weekly payment equal to one-half the average weekly earnings, not less than $4 nor more than $10 per week, for a period of 300 weeks. If only partial dependents survive, a sum proportionate to the amount which the annual contributions bear to the annual earnings of the deceased, for not over 300 weeks. Payments to children cease on their reaching eighteen unless physically or mentally incapacitated.

## SOUTH DAKOTA, 1917.

**Adm. Sys.**—Industrial Commissioner. Arbitration Committee, one representative of each side and the Industrial Commissioner. **Sec. for Comp.**—Insurance required unless employer can furnish proof of financial ability, when security may be required. **Employ.**—All except domestic, farm and casual laborers, and employees in interstate and foreign commerce. **Wait.**—Ten days, but payment dates from time of disability if physician will certify that disability existed for any portion of the ten days. **Med. and Surg.**—Medical care up to $150 for 12 weeks. If no dependents, $150 for burial. **Comp. for Total Dis.**—55% of earnings up to a maximum of $3,000 or four times average annual earnings. Compensation for partial disability is on basis of 55% or not more than $15 a week for not longer than six years. **Death Ben.**—In death cases practically the same as for total disability.

## TENNESSEE, 1919.

**Adm. Sys.**—The courts. **Sec. for Comp.**—Insurance is required. Self-insurers may be required to give a bond, or file security; policies inure directly to benefit of employees; same preference as for unpaid wages and exemption from claims of creditors. **Employ.**—Employees where ten or more employees are regularly employed, other than of State, counties thereof, and municipal corporations; except those engaged in agriculture, domestic service, coal mines, common carriers doing interstate business, casual employees. Employers of less than ten, mine operators and State and municipalities may accept provisions. **Wait.**—Ten days. **Med. and Surg.**—Such medical and surgical treatment, medicines, supplies and apparatus as may be reasonably required for thirty days after notice by employee to employer of accident. In case of death, reasonable burial expenses up to $100. **Comp. for Dis.: Total, (a) Temp.**—Fifty per cent. of average weekly wages up to $11 per week; minimum, $5 per week; during disability, not to exceed 300 weeks. **(b) Temp. Part.**—Fifty per cent. of difference between amount earned at time of injury and amount since able to earn; not to exceed 300 weeks; special schedule for specified injuries. **Perm. Total**—Fifty per cent. of average weekly wages, not exceeding 550 weeks, not over $5 per week after 400 weeks; total not to exceed $5,000. **Death Ben.**—To widow, 30% of average weekly wages; to widow and one dependent child, 40%; to widow and two or more dependent children, 50%; to dependent orphan, 30%; and 10% additional for additional orphans, not to exceed 50%; to dependent husband, 20%; to a parent, 25%; to two parents, 35%; if no widow, child, husband, or parent, to dependent grandparent, brother, sister, mother-in-law, or father-in-law, if but one, 25%, if two or more, 35%. This compensation during dependency for not more than 400 weeks

## TEXAS, 1917.

**Adm. Sys.**—Industrial Accident Board. Appeals to courts. **Sec. for Comp.**—Employers may insure. Compensation is payable directly by the insurance association. Benefits are unassignable, and exempt from garnishment attachment, etc. **Employ.**—All except domestic and farm and ranch labor, railways operated as common carriers, and those who have less than three employees, and vessels in interstate and foreign commerce. **Wait.**—One week. **Med. and Surg.**—Medical and hospital care for first two weeks and hospital care for such additional time as may be needed, provided procedure prescribed is followed. If no beneficiaries or creditors, expenses of last illness and a funeral benefit not over $100. **Comp. for Dis.: Total**—Sixty per cent. of average weekly wages, not less than $5 nor more than $15, for not more than 401 weeks. **Partial**—Sixty per cent. of loss of earning power, not over $15 per week nor more than 300 weeks. For certain specified injuries (mutilations, etc., an additional compensation equal to 60% of the average weekly wages for fixed periods, not less than $5 nor more than $15 per week, in lieu of all other compensation. A lump sum payment may be substituted for weekly payments in cases of death or total permanent disability, subject to the approval of the Industrial Acciden Board, and may be directed by Board if case appears to be one where requirements of person entitled to receive it. **Death Ben.**—To the legal beneficiary a weekly payment equal to 60% of his wages, not less than $5 nor more than $15, for a period of 360 weeks, distributed according to law governing property distribution.

## UTAH, 1917.

**Adm. Sys**—Industrial Commission. **Sec. for Comp.**—Employers must insure or be liable to respond in damages. **Employ.**—Public and private employers of three or more. Agricultural, domestic and casual laborers, elected officials, and employees in interstate and foreign commerce are excluded. **Wait.**—Three days. **Med. and Surg.**—Medical care up to $500, which may be increased upon application and after investigation. $150 for burial. **Comp. for Total Dis.**—Sixty per cent. of the average weekly wages for five years and 45% thereafter; temp. tot. dis. not over $5,000 for six years. **Death Ben.**—Dependents are paid 60% of wages for a minimum period of six years. There is a limited appeal to the courts.

## VERMONT, 1915.

**Adm. Sys.**—Commissioner of Industries. Appeal to courts. **Sec. for Comp.**—Insurance required

unless deposit of security or proof of financial responsibility. Employees have direct recourse to insurer. Compensation rights are preferred claims. **Employ.**—All industrial establishments in which more than ten are employed, commerce as far as permissible under Federal laws, domestic and casual labor excluded. **Wait.**—Seven days. **Med. and Surg.**—Medical and hospital service for fourteen days, not over $100. $100 for funera expenses if death within two years. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages for not more than 260 weeks, $6 minimum, $15 maximum, total not to exceed $4,000. If wages less than $3, full wages will be paid. **Partial**—Fifty per cent. of wage decrease, maximum $10, for not more than 200 weeks. For certain specified injuries, 50% of weekly wages, but not more than $15, for designated periods runn ng from 4 to 170 weeks. Payments may be commuted to one or more lump sums in any case. **Death Ben.**—To dependent widow or widower, 33⅓% of weekly wages, 40% if there be one or two children, 45% if more than two; if no parent, 25% to one or two children, 10% additional for each child in excess of two, total not to exceed 40%; if no consort or child under eighteen, and dependent parent, grandparent, or grandchild, 15% to 25%. Payments to widow cease on death or remarriage; to widower on remarriage or cessation of dependency; to children on reaching eighteen, unless incapable, in no case to exceed 260 weeks or $3,500. Payments to other classes end in 208 weeks at most. Basic wages not less than $5 weekly.

## VIRGINIA, 1918.

**Adm. Sys.**—State Commission of three. **Sec. for Comp.**—Policies inure directly to employee. Claims or awards have same preference as those for wages. **Employ.**—All except domestic service and farm labor, and steam railroads; includes public employment. **Wait.**—Ten calendar days. **Med. and Surg.**—Medical and surgical aid by employers for sixty days. Funeral expenses not over $100. **Comp. for Dis.: Total**—Fifty per cent. of weekly wages, maximum $12, minimum $5, total for disability not over 500 weeks or $4 500. **Partial**, (a) **Temp.** (b) **Perm.**—(b) Act has schedule for permanent partial loss of thumb so much, index finger so much, and so on. (a) 50% of weekly loss during disability, not more than $12 nor over 300 weeks. **Death Ben.**—Not more than 300 weeks or $4,500; to alien dependents (except Canadians), not over $1,000. Fifty per cent. of average weekly wages to dependents. There is an appeal to the courts.

## WASHINGTON, 1917.

**Adm. Sys.**—Department of Labor and Industries. Review by Superior Court. Appeals from Superior Court as in other civil cases. **Sec. for Comp.**—Accident fund, under State control. **Employ.**—All extra-hazardous employment, including mills, factories, workshops where machinery is used; blast furnaces, mines, quarries, and wharves, engineering, logging, lumbering, building trades, telegraph, telephone, and electric lights, etc. Railroads are excluded. **Wait.**—Seven days. **Med. and Surg.**—Proper and necessary medical and surgical services, and hospital care if injuries temporary; if permanent, until awards are made on basis of nature of disability. Expenses of burial not over $100. **Comp. for Dis.: Total, (a) Temp. (b) Perm.**—(b) If unmarried, $30 per month; if with a wife or invalid husband, but no child under sixteen, $30 per month; if husband not an invalid, $22.50 per month; if married or a widow or widower with a child or children under sixteen, $5 additional for each child, total not to exceed $52.50; if so helpless as to require attendant, $20 per month, in addition to other benefits. **Partial, (a) Temp. (b) Perm.**—(a) Payment as for total disability continues in proportion to loss of earning power, provided this exceeds 5%. (b) For specified permanent partial disabilities, lump sums ranging from $500 to $2,000; others to be compensated proportionately; if the injured person is a minor, the parents receive an additional sum equal to 10% of the award to the injured person. Monthly payments may be converted into a lump sum, payment not over $4,000, in case of death or permanent total disability. No benefits are to be paid for the first seven days, unless the disability continues for more than thirty days. **Death Ben.**—To widow or invalid widower, a monthly payment of $30; to each child under sixteen, $5 per month, total not over $50; if no parent, $10 to each child under sixteen, total not to exceed $40. To other dependents, if none above survive, a monthly payment equal to 50% of the average amount previously contributed, total not to exceed $20. To the parent or parents of unmarried minor, a monthly payment of $20, until he would have been twenty-one. Payments to widow or widower continue until death or remarriage, and to a child under sixteen. If a widow remarries she receives a lump sum of $240. If burial expense does not exceed $100, widow receives an immediate payment of $250.

## WEST VIRGINIA, 1915.

**Adm. Sys.**—Compensation Commissioner; limited appeal to Supreme Court. **Sec. for Comp.**—Insurance through a State fund. Employers of approved ability may carry own risks, giving bond. Payments only to beneficiaries, and exempt from claims of creditors, attachment or execution or assignment. **Employ.**—All except domestic or agricultural labor, if the employer becomes a member of the State Insurance Fund. **Wait.**—One week. **Med. and Surg.**—Medical, surgical and hospital services, not over $300 ($600 in special cases). Reasonable funeral expenses, not over $150. **Comp. for Dis.: Total**—For permanent total disability (85% or above); 50% of the average weekly wages during life. **Partial, (a) Temp. (b) Perm.**—(a) 50% of average weekly earnings, not more than $12 per week nor exceeding 52 weeks, except that for certain ununited fractures, etc., may be 78 weeks. (b) 50% of wages for periods varying with degree of disability (from 2% to 85%), from 8 to 340 weeks. Lump sum payments may be substituted for periodic payments. **Death Ben.**—To widow or invalid widower, $20 per month and $5 per month additional for each child under the age of fifteen years. To other persons wholly dependent, if no widow, widower or child, 50% of average monthly support received from deceased during preceding year, not exceeding $20 per month for six years. If deceased was a single minor, to a dependent parent 50% of earnings, not over $6 per week until he would have become twenty-one. If only partial dependents survive, compensation computed. Payments to widow or widower cease on remarriage, and to children at fifteen. If widow or widower remarry within two years, to be paid 20% of balance of 10 years.

## WISCONSIN, 1917.

**Adm. Sys.**—Industrial Commission; limited review by the courts. **Sec. for Comp.**—Employer must give proof of financial ability or insure. Claims have preference, are non-assignable, and exempt from attachment or execution. Commission may require deposits, purchase of annuities, or the giving of bonds. **Employ.**—All, if the employer elects. Election is presumed where there are three or more employees, except as to agriculture and railroads. **Wait.**—One week. **Med. and Surg.**—Medical, surgical, and hospital treatment for ninety days, and for such additional time as will in judgment of commission lessen the period of compensation. Christian Science healing permitted if both employer and employee agree. Occupational disease is subject to compensation same as industrial accidents. Artificial limbs supplied. Reasonable expense of burial, up to $100. **Comp. for Dis.: Total**—Sixty-five per cent. of average weekly earnings. **Partial**—Sixty-five per cent. loss of earning power. For certain specific injuries (mutilations, etc.), a sum equal to 65% of average weekly earnings for fixed periods, ranging from 6 to 320 weeks, which include the time for healing. For serious permanent disfigurement, a lump sum may be allowed, not over $1,300. Payments begin with the eighth day, but if disability continues for twenty-eight days, benefits are payable for first seven days. In case of temporary or partial disability, aggregate compensation not over four years' earnings; for permanent total disabilities payments are limited—nine to fifteen years, according to age of injured person. Lump sum payments may be substituted at any time. **Death Ben.**—To persons wholly dependent, a sum equal to four years' earnings, but which when added to any pr or compensation will not exceed six years' earnings. If only partial dependents survive, a sum not to exceed four times the amount provided for their support during the preceding year. All payments are to be made in weekly instalments equal to 65% of the average weekly earnings. Dependenee of children ceases at eighteen, unless physically or mentally incapacitated.

## WYOMING, 1917.

**Adm. Sys.**—Disputes settled by District Courts of the Counties with appeal to the Supreme Court of the State. **Sec. for Comp.**—Insurance in State fund required. Insurance under State control Payments not assignable nor subject to attachment, execution, etc. **Employ.**—Extra-hazardous (enumerated list) in which one or more are employed, nterstate railroads excepted, use of explosives included. **Wait.**—Seven days. **Med. and Surg. and Hosp.**—$200, unless other arrangements exist. $100 for funeral expenses, unless other arrangements exist under agreement. **Comp. for Dis.: Total, (a) Temp. (b) Perm.**—(b) Lump sum of $4,000 and a sum equal to $120 per year for each child under sixteen years of age—total for children shall not exceed $4,000. (a) $50 per month if single,

$60 if married, and $7.50 per month for each child under sixteen. Total monthly payments shall not exceed $90 per month, and aggregate not to exceed the amount payable if the disability were permanent. No payments for first seven days unless the disability continues for more than 21 days. **Death Ben.**—Lump sum payment of $2,000 to widow or invalid widower and an additional sum equal to $120 per year until sixteen, for each child. Total for children not to exceed $3,600. If there are dependent parents and no spouse and no children under sixteen, a sum equal to 50% of the average monthly support received during the three years next preceding the accident, not exceeding $1,000. Payments to non-resident aliens. Beneficiaries are limited to 33⅓% of the above amounts and only the widow and children under sixteen are considered.

### UNITED STATES, 1916.

**Adm. Sys.**—United States Employees Compensation Commission. **Sec. for Comp.**—No provision for insurance. Payments made from special compensation fund. **Employ.**—All civilian employments of the United States Government, the Panama Railroad and the Alaska Engineering Commission. **Wait.**—Three days. **Med. and Surg.**—Reasonable medical, surgical, and hospital services and supplies. $100 burial expenses and transportation of bodies of residents of the United States dying away from home station, if relations desire it. **Comp. for Dis.: Total**—66⅔% of the monthly pay during continuance of the disability. **Partial**—66⅔% of the difference in wage earning capacity due to such disability. Payments are subject to the same maximum and minimum amounts as in case of death. Payments on account of death, or permanent disability, may be computed to a lump sum. **Death Ben.**—To widow or dependent widower alone, 35% of the monthly wages, with 10% additional for each child, total not to exceed 66⅔%. To dependent parents, 25% if one, 40% if both are dependent. If there is a widow, widower, or child, the parents' rights are subordinate, and the total awards may not exceed 66⅔%. Other dependent relatives receive benefits in smaller amounts, subject to claims of foregoing. Payments to widow or widower terminate on death or remarriage, to a child on marriage, reaching eighteen. Payments to other beneficiaries in death cases in no case extend beyond eight years. All payments subject to maximum of $66.67 per month, and minimum of $33.33, unless actual earnings are less, when compensation will equal earnings. If only children survive, one child gets 25%, and each additional child 10%, total not to exceed 66⅔%.

## THE SINGLE TAX.

THE following statement of the single tax principle was written by Henry George, Sr.:

We assert as our fundamental principle the self-evident truth enunciated in the Declaration of American Independence, that all men are created equal and are endowed by their Creator with certain inalienable rights. We hold that all men are equally entitled to the use and enjoyment of what God has created and of what is gained by the general growth and improvement of the community of which they are a part. Therefore, no one should be permitted to hold natural opportunities without a fair return to all for any special privilege thus accorded to him, and that value which the growth and improvement of the community attaches to land should be taken for the use of the community; that each is entitled to all that his labor produces; therefore, no tax should be levied on the products of labor.

To carry out these principles we are in favor of raising all public revenues for national, State, county, and municipal purposes by a single tax upon land values, irrespective of improvements, and of the abolition of all other forms of direct and indirect taxation.

### A TAX ON LAND VALUES.

Since in all our States we now levy some tax on the value of land, the single tax can be instituted by the simple and easy way of abolishing, one after another, all other taxes now levied and commensurately increasing the tax on land values until we draw upon that one source for all expenses of government, the revenue being divided between local government, State government, and the general government as the revenue from direct taxes is now divided between the local and State governments, or by a direct assessment being made by the general government upon the States and paid by them from revenues collected in this manner. The single tax we propose is not a tax on land, and therefore would not fall on the use of land and become a tax on labor.

It is a tax not on land, but on the value of land. Thus it would not fall on all land, but only on valuable land, and on that not in proportion to the use made of it, but in proportion to its value—the premium which the user of land must pay to the owner, either in purchase money or rent, for permission to use valuable land. It would thus be a tax not on the use and improvement of land, but on the ownership of land, taking what would otherwise go to the owner as owner, and not as user.

### NO TAX ON IMPROVEMENTS.

In assessments under the single tax all values created by individual use or improvement would be excluded, and the only value taken into consideration would be the value attaching to the bare land by reason of neighborhood, etc., to be determined by impartial periodical assessments. Thus the farmer would have no more taxes to pay than the speculator who held a similar piece of land idle, and the man who on a city lot erected a valuable building would be taxed no more than the man who held a similar lot vacant. The single tax in short would call upon men to contribute to the public revenues not in proportion to what they produce or accumulate, but in proportion to the value of the natural opportunities they hold. It would compel them to pay just as much for holding land idle as for putting it to its fullest use. The single tax, therefore, would—

1st. Take the weight of taxation off the agricultural districts, where land has little or no value irrespective of improvements, and put it on towns and cities, where bare land rises to a value of millions of dollars per acre.

2d. Dispense with a multiplicity of taxes and a horde of tax-gatherers, simplify government, and greatly reduce its cost.

3d. Do away with the fraud, corruption, and gross inequality inseparable from our present methods of taxation, which allow the rich to escape while they grind the poor. Land cannot be hid or carried off, and its value can be ascertained with greater ease and certainty than any other.

### FREEDOM OF TRADE.

4th. Give us with all the world as perfect freedom of trade as now exists between the States of the Union, thus enabling our people to share through free exchanges in all the advantages which nature has given to other countries, or which the peculiar skill of other peoples has enabled them to attain. It would destroy the trusts, monopolies, and corruptions which are the outgrowths of the tariff. It would do away with the fines and penalties now levied on any one who improves a farm, erects a house, builds a machine, or in any way adds to the general stock of wealth. It would leave every one free to apply labor or expend capital in production or exchange without fine or restriction, and would leave to each the full product of his exertion.

5th. It would, on the other hand, by taking for public use that value which attaches to land by reason of the growth and improvement of the community, make the holding of land unprofitable to the mere owner and profitable only to the user. It would thus make it impossible for speculators and monopolists to hold natural opportunities unused or only half used, and would throw open to labor the illimitable field of employment which the earth offers to man. It would thus solve the labor problem, do away with involuntary poverty, raise wages in all occupations to the full earnings of labor, make overproduction impossible until all human wants are satisfied, render labor-saving inventions a blessing to all, and cause such an enormous production and such an equitable distribution of wealth as would give to all comfort, leisure, and participation in the advantages of an advancing civilization in securing to each individual equal right to the use of the earth. It is also a proper function of society to maintain and control all public ways for the transportation of persons and property, and the transmission of intelligence; and also to maintain and control all public ways in cities for furnishing water, gas, and all other things that necessarily require the use of such common ways.

# The Tariff Act of 1922.

The Fordney-McCumber tariff act was signed by President Harding Sept. 21 1922, and it went into effect at 12:01 A. M., Sept. 22. It was over twenty months in the making. The Republican members of the House Ways and Means Committee began hearings on it Jan. 6, 1921, which continued until Feb. 16, and the bill passed the House July 21, 1921. It rested for eight months and three weeks in the Finance Committee of the Senate, and was reported April 11, 1922, to the Senate with 2,082 amendments. The Senate began consideration of it April 19, and adopted 2,436 amendments. It was passed by the Senate Aug. 19 by a vote of 48 to 25 and was sent to conference at once.

The conference report was submitted to the House Sept. 12 and on the 13th the House sent it back to the Conference Committee by a vote of 177 to 130 (102 Republicans joining with the Democrats) with instructions to eliminate the embargo on dyestuffs and the duty on potash. When submitted again with these changes it was adopted and the bill passed by a vote of 210 to 90 on Sept. 15. The Senate adopted the conference report as amended on Sept. 19 by a vote of 43 to 28.

Treasury experts figure that the new Tariff Act will yield about $400,000,000 a year in revenue, one-half from these four sources: Sugar, $87,000,000; raw wool, $63,000,000; tobacco, $35,000,000; laces and embroideries, $15,000,000. The Underwood-Simmons law yielded last year $308,025,125.17. The Payne-Aldrich law brought $318,891,395.86 into the Treasury in 1913, the last year of its operation.

## FLEXIBLE TARIFF PROVISIONS.

The power of the President to alter rates of duty is provided for under Title III.—Section 315—reads:

"(a) When the President, after careful investigation, finds that the rates of duty in the Tariff of 1922 do not in fact equalize the costs of production of any article or articles between the United States and the principal competing foreign country, he shall determine the rates that will so equalize such difference, and 30 days after the proclamation is made the rates of duty proposed by him shall be in effect on the articles named in the proclamation in lieu of the rates of duty specified in the Tariff of 1922. These rates of duty are to be based upon foreign valuation. He cannot increase or decrease any rate of duty more than 50 per centum of the amount thereof as provided in the Tariff of 1922.

"(b) When the increase or decrease of 50 per centum in the rates of duty based upon foreign valuation do not equalize the difference in the cost of production between the United States and the principal competing foreign country, then the President shall, after due investigation, ascertain the American selling price of the competing article or articles and by proclamation may announce new rates of duty that will equalize the costs of production between the United States and the principal competing foreign country on the articles involved in the inquiry. Such rates of duty, when based upon the American selling price of imported articles, shall not decrease the rates of duty in the Tariff of 1922 by more than 50 per centum of such rates, and shall in no case increase them. The rates based upon the American selling price are to be effective 15 days from the date of the proclamation.

"(c) Differences in the costs of production at home and abroad shall be ascertained by giving due weight to differences in conditions of production, wages, costs of materials, hours of labor, and other items involved in production; differences in the wholesale selling prices in this country of similar domestic and foreign articles; subsidies or other assistance foreign governments give their producers; and any other advantages or disadvantages in competition."

The President can make no proclamation of changes of rates under the flexible tariff provisions until after the United States Tariff Commission has investigated the differences of cost of production at home and abroad.

The investigation by the Tariff Commission is required to be very thorough.

The President must determine in fact that the differences in cost of production really exist or that unfair practices exist, before he can take action. The Tariff Commission shall hold public hearings at which parties interested may be present and heard, and is authorized to make proper rules and regulations for the holding of such hearings.

If, subsequent to any proclamation or a change in rates, the President finds that the costs of production at home and abroad have changed or ceased to exist, he may modify or terminate the rates formerly proclaimed by him.

The President cannot transfer a dutiable article to the free list, or an article on the free list to the dutiable list, or substitute an ad valorem rate for a specific rate, or a specific rate for an ad valorem rate. Nor can he increase a rate beyond the maximum ad valorem rate as provided in the Tariff of 1922, when such act declares that the combined specific and ad valorem rates of duty shall not exceed a specified maximum ad valorem. For instance, if the act says that the rate on any article shall be 20 cents per pound and 40 per centum ad valorem, but that in no case shall the total duty collected be more than 50 per centum ad valorem, the President cannot announce new rates that would increase the total duty beyond the maximum of 50 per centum ad valorem.

Section 316 authorizes the President to investigate unfair methods of competition and unfair acts of importation, and to declare the same to be unlawful. The Tariff Commission is authorized to report upon such methods and acts, and its findings are to be conclusive if supported by evidence; the offending parties may be given a rehearing by the Commission; appeal may be taken to the United States Court of Customs Appeals and its decision shall be final, except that the subject may be reviewed by the United States Supreme Court. In such cases, the President shall increase the duties upon the article or articles in question by not less than 10 per centum ad valorem or more than 50 per centum ad valorem; or the articles may be excluded from entry into the United States. The President's decision is conclusive, but he can modify it thereafter as the facts may warrant.

## RETALIATORY PROVISIONS.

Section 317 provides that when any foreign country discriminates against articles wholly or in part the product or products of this country, by imposing, directly or indirectly, by any unreasonable charge, fee, duty, exaction, regulation or limitation, or other method of discrimination and the commerce in them, and the President finds in fact that said foreign country has done and continues so to do, and that the American public interest will be served thereby, he shall by proclamation declare such new and additional rates of duty, as will offset the burdens placed upon our commerce, not exceeding 50 per centum ad valorem on the commodities from the offending country or countries named in his proclamation; or he may by proclamation exclude the articles named. The provisions of a proclamation become effective 30 days after its date. It is the duty of the Tariff Commission to continually make investigation concerning the welfare of our commerce abroad, and to bring to the attention of the President any discrimination.

In order to give prompt effect to the flexible tariff and retaliatory provisions of the act, the Tariff Commission, under Section 318 is directed to obtain and compile and have ready for prompt use, the conversion costs; costs of production; import costs; growers', manufacturers' or producers' selling prices at home and in the manufacturing, producing and growing centres of foreign countries, which export to the United States competitive articles. This will afford the President, the Congress and the country the information necessary for immediate and effective action.

## TWELVE-MILE LIMIT NOW.

The act extends the zone of search and seizure at sea from the former three-mile extent to twelve miles, in this section:

"Sec. 581—Boarding Vessels—Officers of the customs or of the coast guard, and agents or other persons authorized by the Secretary of the Treasury, or appointed for that purpose in writing by a collector may at any time go on board of any vessel or vehicle at any place in the United States or within four leagues of the coast of the United States, without as well as within their respective districts, to examine the manifest and to inspect, search, and examine the vessel or vehicle, and every part thereof, and any person, trunk or package on board, and to this end to hail and stop such vessel or vehicle, if under way, and use all necessary force to compel

compliance, and if it shall appear that any breach or violation of the laws of the United States has been committed, whereby or in consequence of which such vessel or vehicle, or the merchandise, or any part thereof, on board of or imported by such vessel or vehicle is liable to forfeiture, it shall be the duty of such officer to make seizure of the same, and to arrest or, in case of escape or attempted escape, to pursue and arrest any person engaged in such breach or violation.

"Officers of the Department of Commerce and other persons authorized by such department may go on board of any vessel at any place in the United States or within four leagues of the coast of the United States and hail, stop, and board such vessels in the enforcement of the navigation laws and arrest or, in case of escape or attempted escape, pursue and arrest any person engaged in the breach or violation of the navigation laws."

The more important rates in the tariff law are given below, with the corresponding rates in the Payne-Aldrich (Republican) tariff law of 1911, and in the Underwood (Democratic) law of 1914;

AGRICULTURAL PRODUCTS.

Typewriters.
Shoe machinery.
Tar and oil-spreading machines for road construction.
Chalk, crude.
Coal, anthracite, bituminous, culm, slack and shale, and coke.
Cocoa and cacao beans.
Coffee.
Coins of gold, silver, copper or other metals.
Copper ore and copper in plates, bars, ingots or pigs.
Cork wood or cork bark.
Cotton.
Fans, common palm leaf, not ornamented or decorated.
Guano, basic slag, manures and other substances used chiefly for fertilizers.
Hair of horses and cattle.
Rope made of rawhide.
Hides of cattle.
Ice.
India rubber and gutta-percha, crude.
Iodine, crude.
Iron ore.
Ivory tusks in their natural state.
Jet, unmanufactured.
Junk.
Boots and shoes made wholly or in chief value of leather.
Leather cut into shoe uppers, vamps or soles.
Asphalt and bitumen.
Lemon juice and lime juice, containing less than 2% of alcohol.
Mechanically ground and chemical wood pulp.
Needles, hand sewing or darning.
Newspapers and periodicals.
Oil cake and oil-cake meal.
Oakum.
Whale and other fish oils of American fisheries
Crude petroleum and fuel oil.
Ores of gold, silver or nickel and of the platinum metals.
Parchment and vellum.
Pearl, mother of, and shells, not sawed, cut, flaked or advanced in any value from the natural state.
Personal effects, not merchandise, of citizens of the United States dying in foreign countries.
Phosphates, crude and apatic.
Platinum, unmanufactured or in ingots, bars, sheets or plates.
Potassium chloride and sulphate.
Quinine sulphate.
Radium and salts of.
Shrimps and lobsters.
Silk, raw, and silk cocoons and silk waste.
Sodium nitrates, sulphate, crude, or salt cake and nitre cake.
Standard newsprint paper.
Sulphur in any form, and sulphur ore.
Tar and pitch of wood.
Tea.
Teeth, natural.
Tin ore and black oxide of tin, provided that there shall be imposed upon black oxide of tin a duty of 4 cents a pound and upon bar, block, or pig tin a duty of 6 cents a pound when the American mines are producing 1,500 tons of cassiterite and bar, block and pig tin a year.
Turpentine, gum, and spirits of, and rosin.
Vegetable tallow.
Wax.
All barbed wire, whether plain or galvanized.
Original paintings in oil, mineral, water, or other colors, and original sketches.
Works of art, productions of American artists residing temporarily abroad.

# Constitution of the United States.

THE Constitution originally consisted of a Preamble and seven Articles, and in that form was "Done in Convention by the Unanimous Consent of the States present the Seventeenth Day of September in the Year of our Lord one thousand seven hundred and Eighty seven and of the Independence of the United States of America the Twelfth." The Constitution was declared in effect on the first Wednesday in March, 1789. The signers of the original Constitution, by virtue of their membership in Congress, were:

GO. WASHINGTON, *Presidt. and deputy from Virginia.* NEW HAMPSHIRE—John Langdon, Nicholas Gilman. MASSACHUSETTS—Nathaniel Gorham, Rufus King. CONNECTICUT—Wm. Saml. Johnson, Roger Sherman. NEW YORK—Alexander Hamilton. NEW JERSEY—Wil. Livingston, David Brearley, Wm. Patterson, Jona. Dayton. PENNSYLVANIA—B. Franklin, Robt. Morris, Tho. Fitzsimons, James Wilson, Thomas Mifflin, Geo. Clymer, Jared Ingersoll, Gouv. Morris. DELAWARE—Geo. Read, John Dickinson, Jaco. Broom, Gunning Bedford jun, Richard Bassett. MARYLAND—James McHenry, Dan. Carroll, Dan. of St. Thos. Jenifer. VIRGINIA—John Blair, James Madison, Jr. NORTH CAROLINA—Wm. Blount, Hu. Williamson, Richd. Dobbs Spaight. SOUTH CAROLINA—J. Rutledge, Charles Pinckney, Charles Cotesworth Pinckney, Pierce Butler. GEORGIA—William Few, Abr. Baldwin. Attest: WILLIAM JACKSON, *Secretary.*

The Constitution was ratified by the thirteen original States in the following order:

Delaware, December 7, 1787, unanimously.
Pennsylvania, December 12, 1787, vote 46 to 23.
New Jersey, December 18, 1787, unanimously.
Georgia, January 2, 1788, unanimously.
Connecticut, January 9, 1788, vote 128 to 40.
Massachusetts, February 6, 1788, vote 187 to 168.
Maryland, April 28, 1788, vote 63 to 12.
South Carolina, May 23, 1788, vote 149 to 73.
New Hampshire, June 21, 1788, vote 57 to 46.
Virginia, June 25, 1788, vote 89 to 79.
New York, July 26, 1788, vote 30 to 28.
North Carolina, November 21, 1789, vote 193 to 75.
Rhode Island, May 29, 1790, vote 34 to 32.

## THE CONSTITUTION.

*PREAMBLE.*

WE, the people of the United States, in order to form a more perfect Union, establish justice, insure domestic tranquillity, provide for the common defence, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this CONSTITUTION for the United States of America.

### ARTICLE I.

**Section 1**—(Legislative powers; in whom vested.)

All legislative powers herein granted shall be vested in a Congress of the United States, which shall consist of a Senate and House of Representatives.

**Section 2**—(House of Representatives, how and by whom chosen. Qualifications of a Representative. Representatives and direct taxes, how apportioned. Enumeration. Vacancies to be filled. Power of choosing officers, and of impeachment.)

1. The House of Representatives shall be composed of members chosen every second year by the people of the several States, and the electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislature.

2. No person shall be a Representative who shall not have attained to the age of twenty-five years and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State in which he shall be chosen.

3. Representatives and direct taxes shall be apportioned among the several States which may be included within this Union according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the Congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of Representatives shall not exceed one for every thirty thousand, but each State shall have at least one Representative; and until such enumeration shall be made, the State of New Hampshire shall be entitled to choose 3; Massachusetts, 8; Rhode Island and Providence Plantations, 1; Connecticut, 5; New York, 6; New Jersey, 4; Pennsylvania, 8; Delaware, 1; Maryland, 6; Virginia, 10; North Carolina, 5; South Carolina, 5, and Georgia 3.*

4. When vacancies happen in the representation from any State, the Executive Authority thereof shall issue writs of election to fill such vacancies.

5. The House of Representatives shall choose their Speaker and other officers, and shall have the sole power of impeachment.

**Section 3**—(Senators, how and by whom chosen. How classified. State Executive, when to make temporary appointments, in case, etc. Qualifications of a Senator. President of the Senate, his right to vote. President pro tem., and other officers of the Senate, how chosen. Power to try impeachments. When President is tried, Chief Justice to preside. Sentence.)

1. The Senate of the United States shall be composed of two Senators from each State, chosen by the Legislature thereof, for six years; and each Senator shall have one vote.

2. Immediately after they shall be assembled in consequence of the first election, they shall be divided as equally as may be into three classes. The seats of the Senators of the first class shall be vacated at the expiration of the second year, of the second class at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so that one-third may be chosen every second year; and if vacancies happen by resignation, or otherwise, during the recess of the Legislature of any State, the Executive thereof may make temporary appointment until the next meeting of the Legislature, which shall then fill such vacancies.

3. No person shall be a Senator who shall not have attained to the age of thirty years, and been nine years a citizen of the United States, and who shall not, when elected, be an inhabitant of that State for which he shall be chosen.

4. The Vice-President of the United States shall be President of the Senate, but shall have no vote unless they be equally divided.

5. The Senate shall choose their other officers, and also a President pro tempore, in the absence of the Vice-President, or when he shall exercise the office of President of the United States.

6. The Senate shall have the sole power to try all impeachments. When sitting for that purpose, they shall be on oath or affirmation. When the President of the United States is tried, the Chief Justice shall preside: and no person shall be convicted without the concurrence of two-thirds of the members present.

7. Judgment of cases of impeachment shall not extend further than to removal from office, and disqualification to hold and enjoy any office of honor, trust, or profit under the United States; but the party convicted shall nevertheless be liable and subject to indictment, trial, judgment, and punishment, according to law.

**Section 4**—(Times, etc., of holding elections, how prescribed. One Session in each year.)

1. The times, places, and manner of holding elections for Senators and Representatives shall be prescribed in each State by the Legislature thereof; but the Congress may at any time by law make or alter such regulations, except as to places of choosing Senators.

2. The Congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall by law appoint a different day.

**Section 5**—(Membership. Quorum. Adjournments. Rules. Power to punish or expel. Journal. Time of adjournments, how limited, etc.)

1. Each House shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members in such manner and under such penalties as each House may provide.

2. Each House may determine the rules of its proceedings, punish its members for disorderly behavior, and with the concurrence of two-thirds expel a member.

3. Each House shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may in their judgment require secrecy; and the yeas and nays of the members of

* See Article XIV., Amendments.

either House on any question shall, at the desire of one-fifth of those present, be entered on the journal.

4. Neither House, during the session of Congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two Houses shall be sitting.

**Section 6**—(Compensation. Privileges. Disqualification in certain cases.)

1. The Senators and Representatives shall receive a compensation for their services, to be ascertained by law, and paid out of the Treasury of the United States. They shall in all cases, except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the session of their respective Houses, and in going to and returning from the same; and for any speech or debate in either House they shall not be questioned in any other place.

2. No Senator or Representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased during such time; and no person holding any office under the United States shall be a member of either House during his continuance in office.

**Section 7**—(House to originate all revenue bills. Veto. Bill may be passed by two-thirds of each House, notwithstanding, etc. Bill, not returned in ten days, to become a law. Provisions as to orders, concurrent resolutions, etc.)

1. All bills for raising revenue shall originate in the House of Representatives, but the Senate may propose or concur with amendments, as on other bills.

2. Every bill which shall have passed the House of Representatives and the Senate shall, before it becomes a law, be presented to the President of the United States; if he approve, he sl all sign it, but if not, he shall return it, with his objections, to that House in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it. If after such reconsideration two-thirds of that House shall agree to pass the bill, it shall be sent, together with the objections, to the other House' by which it shall likewise be reconsidered; and if approved by two-thirds of that House it shall become a law. But in all such cases the votes of both Houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each House respectively. If any bill shall not be returned by the President within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Congress by their adjournment prevent its return; in which case it shall not be a law.

3. Every order, resolution, or vote to which the concurrence of the Senate and House of Representatives may be necessary (except on a question of adjournment) shall be presented to the President of the United States; and before the same shall take effect shall be approved by him, or being disapproved by him, shall be repassed by two-thirds of the Senate and the House of Representatives, according to the rules and limitations prescribed in the case of a bill.

**Section 8**—(Powers of Congress.)

1. The Congress shall have power:

To lay and collect taxes, duties, imposts, and excises, to pay the debts and provide for the common defence and general welfare of the United States; but all duties, imposts, and excises shall be uniform throughout the United States.

2. To borrow money on the credit of the United States.

3. To regulate commerce with foreign nations, and among the several States, and with the Indian tribes.

4. To establish an uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.

5. To coin money, regulate the value thereof, and of foreign coin, and fix the standard of weights and measures.

6. To provide for the punishment of counterfeiting the securities and current coin of the United States.

7. To establish post-offices and post-roads.

8. To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive rights to their respective writings and discoveries.

9. To constitute tribunals inferior to the Supreme Court.

10. To define and punish piracies and felonies committed on the high seas, and offences against the law of nations.

11. To declare war, grant letters of marque and reprisal, and make rules concerning captures on land and water.

12. To raise and support armies, but no appropriation of money to that use shall be for a longer term than two years.

13. To provide and maintain a navy.

14. To make rules for the government and regulation of the land and naval forces.

15. To provide for calling forth the militia to execute the laws of the Union, suppress insurrections, and repel invasions.

16. To provide for organizing, arming, and disciplining the militia, and for governing such part of them as may be employed in the service of the United States, reserving to the States respectively the appointment of the officers, and the authority of training the militia according to the discipline prescribed by Congress.

17. To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of Government of the United States, and to exercise like authority over all places purchased by the consent of the Legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dry-docks, and other needful buildings.

18. To make all laws which shall be necessary and proper for carrying into execution the foregoing powers and all other powers vested by this Constitution in the Government of the United States, or in any department or officer thereof.

**Section 9**—(Provision as to migration or importation of certain persons. Habeas Corpus. Bills of attainder, etc. Taxes, how apportioned. No export duty. No commercial preference. Money, how drawn from treasury, etc. No titular nobility. Officers not to receive presents, etc.)

1. The migration or importation of such persons as any of the States now existing shall think proper to admit shall not be prohibited by the Congress prior to the year one thousand eight hundred and eight, but a tax or duty may be imposed on such importation, not exceeding ten dollars for each person.

2. The privilege of the writ of habeas corpus shall not be suspended, unless when in cases of rebellion or invasion the public safety may require it.

3. No bill of attainder or ex post facto law shall be passed.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken.

5. No tax or duty shall be laid on articles exported from any State.

6. No preference shall be given by any regulation of commerce or revenue to the ports of one State over those of another, nor shall vessels bound to or from one State be obliged to enter, clear, or pay duties in another.

7. No money shall be drawn from the Treasury but in consequence of appropriations made by law; and a regular statement and account of the receipts and expenditures of all public money shall be published from time to time.

8. No title of nobility shall be granted by the United States. And no person holding any office of profit or trust under them shall, without the consent of the Congress, accept of any present, emolument, office, or title of any kind whatever from any king, prince, or foreign state.

**Section 10**—(States prohibited from the exercise of certain powers.)

1. No State shall enter into any treaty, alliance, or confederation, grant letters of marque and reprisal, coin money, emit bills of credit, make anything but gold and silver coin a tender in payment of debts, pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant any title of nobility.

2. No State shall, without the consent of the Congress, lay any impost or duties on imports or exports, except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts, laid by any State on imports or exports, shall be for the use of the Treasury of the United States; and all such laws shall be subject to the revision and control of the Congress.

3. No State shall, without the consent of Congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into agreement or compact with another State, or with a foreign power, or engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

## ARTICLE II.

**Section 1**—(President; his term of office. Electors of President; number and how appointed. Electors to vote on same day. Qualification of President. On whom his duties devolve in case of his removal, death, etc. President's compensation. His oath of office.)

1. The Executive power shall be vested in a President of the United States of America. He shall hold his office during the term of four years, and, together with the Vice-President, chosen for the same term, be elected as follows:

2. Each State shall appoint, in such manner as the Legislature thereof may direct, a number of electors

equal to the whole number of Senators and Representatives to which the State may be entitled in the Congress; but no Senator or Representative or person holding an office of trust or profit under the United States shall be appointed an elector.

3. The electors shall meet in their respective States and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same State with themselves. And they shall make a list of all the persons voted for, and of the number of votes for each, which list they shall sign and certify and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate. The President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates, and the votes shall then be counted. The person having the greatest number of votes shall be the President, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such a majority, and have an equal number of votes, then the House of Representatives shall immediately choose by ballot one of them for President; and if no person have a majority, then from the five highest on the list the said House shall in like manner choose the President. But in choosing the President, the vote shall be taken by States, the representation from each State having one vote. A quorum, for this purpose, shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. In every case, after the choice of the President, the person having the greatest number of votes of the electors shall be the Vice-President. But if there should remain two or more who have equal vote, the Senate shall choose from them by ballot the Vice-President.*

4. The Congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

5. No person except a natural born citizen, or a citizen of the United States at the time of the adoption of this Constitution, shall be eligible to the office of President; neither shall any person be eligible to that office who shall not have attained to the age of thirty-five years and been fourteen years a resident within the United States.

6. In case of the removal of the President from office, or of his death, resignation, or inability to discharge the powers and duties of the said office, the same shall devolve on the Vice-President, and the Congress may by law provide for the case of removal, death, resignation, or inability, both of the President and Vice-President, declaring what officer shall then act as President, and such officer shall act accordingly until the disability be removed or a President shall be elected.

7. The President shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United States, or any of them.

8. Before he enter on the execution of his office he shall take the following oath or affirmation:

"I do solemnly swear (or affirm) that I will faithfully execute the office of President of the United States, and will, to the best of my ability, preserve, protect, and defend the Constitution of the United States."

**Section 2**—(President to be Commander-in-Chief. He may require opinions of Cabient Officers, etc., may pardon. Treaty-making power. Nomination of certain officers. When President may fill vacancies.)

1. The President shall be Commander-in-Chief of the Army and Navy of the United States, and of the militia of the several States when called into the actual service of the United States; he may require the opinion, in writing, of the principal officer in each of the executive departments upon any subject relating to the duties of their respective offices, and he shall have power to grant reprieves and pardons for offences against the United States except in cases of impeachment.

2. He shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the S nators present concur; and he shall nominate and by and with the advice and consent of the S nate shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States whose appointments are not herein otherwise provided for, and which shall be established by law; but the Congress may by law vest th appointment of such inferior officers as they think proper in the President alone, in the courts of law, or in the heads of departments.

3. The President shall have power to fill up all vacancies that may happen during the recess of the Senate by granting commissions, which shall expire at the end of their next session.

**Section 3**—(Preside t shall communicate to Congress. He may convene and adjourn Congress, in case of disagreement, etc. Shall receive ambassadors, execute laws, and commission officers.)

He shall from time to time give to the Congress information of the state of the Union, and recommend to their consideration such measures as he shall judge necessary and expedient; he may, on extraordinary occasions, convene both Houses, or either of them, and in case of disagreement between them with respect to the time of adjournment, he may adjourn them to such time as he shall think proper; he shall receive ambassadors and other public ministers; he shall take care that the laws be faithfully executed, and shall commission all the officers of the United States.

**Section 4**—(All civil offices forfeited for certain crimes.)

The President, Vice-President, and all civil officers of the United States shall be removed from office on impeachment for and conviction of treason, bribery or other high crim s and misdemeanors.

## ARTICLE III.

**Section 1**—(Judicial powers. Tenure. Compensation.)

The judicial power of the United States shall be vested in one Supreme Court, and in such inferior courts as the Congress may from time to time ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall at stated times receive for their services a compensation which shall not be diminished during their continuance in office.

**Section 2**—(Judicial power; to what cases it extends. Original jurisdiction of Supreme Court. Appellate. Trial by jury, etc. Trial, where.)

1. The judicial power shall extend to all cases in law and equity arising under this Constitution, the laws of the United States, and treaties made, or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime jurisdiction; to controversies to which the United States shall be a party; to controversies between two or more States, between a State and citizens of another State, between citizens of different States, between citizens of the same State claiming lands under grants of different States, and between a State, or the citizens thereof, and foreign states, citizens, or subjects.

2. In all cases affecting ambassadors, other public ministers, and consuls, and those in which a State shall be party, the Supreme Court shall have original jurisdiction. In all the other cases before mentioned the Supreme Court shall have appellate jurisdiction both as to law and fact, with such exceptions and under such regulations as the Congress shall make.

3. The trial of all crimes, except in cases of impeachment, shall be by jury, and such trial shall be held in the State where the said crimes shall have been committed; but when not committed within any State the trial shall be at such place or places as the Congress may by law have directed.

**Section 3**—(Treason defined. Proof of. Punishment of.)

1 Treason against the United States shall consist only in levying war against them, or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act, or on confession in open court.

2. The Congress shall have power to declare the punishment of treason, but no attainder of treason shall work corruption of blood or forfeiture except during the life of the person attained.

## ARTICLE IV.

**Section 1**—(Each State to give credit to the public acts, etc., of every other State.)

Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State. And the Congress may by general laws prescribe the manner in which such acts, records, and proceedings shall be proved, and the effect thereof.

**Section 2**—(Privileges of citizens of each State. Fugitives from justice to be delivered up. Persons held to service having escaped, to be delivered up.)

1. The citizens of each State shall be entitled to all privileges and immunities of citizens in the several States.

2. A person charged in any State with treason, felony, or other crime, who shall flee from justice, and be found in another State, shall, on demand of the

* This clause is superseded by Article XII., Amendments.

Executive authority of the State from which he fled, be delivered up, to be removed to the State having jurisdiction of the crime.

3. No person held to service or labor in one State, under the laws thereof, escaping into another shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

**Section 3**—(Admission of new States. Power of Congress over territory and other property.)

1. New States may be admitted by the Congress into this Union; but no new State shall be formed or erected within the jurisdiction of any other State, nor any State be formed by the junction of two or more States, or parts of States, without the consent of the Legislatures of the States concerned, as well as of the Congress.

2. The Congress shall have power to dispose of and make all needful rules and regulations respecting the territory or other property belonging to the United States; and nothing in this Constitution shall be so construed as to prejudice any claims of the United States, or of any particular State.

**Section 4**—(Republican form of government guaranteed. Each State to be protected.)

The United States shall guarantee to every State in this Union a Republican form of government, and shall protect each of them against invasion, and, on application of the Legislature, or of the Executive (when the Legislature cannot be convened), against domestic violence.

### ARTICLE V.

(Constitution; how amended. Proviso.)

The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or, on the application of the Legislatures of two-thirds of the several States, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the Legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress; provided that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the Ninth Section of the First Article; and that no State, without its consent, shall be deprived of its equal suffrage in the Senate.

### ARTICLE VI.

(Certain debts, etc., declared valid. Supremacy of Constitution, treaties, and laws of the United States. Oath to support Constitution, by whom taken. No religious test.)

1. All debts contracted and engagements entered into before the adoption of this Constitution shall be as valid against the United States under this Constitution as under the Confederation.

2. This Constitution and the laws of the United States which shall be made in pursuance thereof and all treaties made, or which shall be made, under the authority of the United States, shall be the supreme law of the land, and the judges in every State shall be bound thereby, anything in the Constitution or laws of any State to the contrary notwithstanding.

3. The Senators and Representatives before mentioned, and the members of the several State Legislatures, and all executive and judicial officers, both of the United States and of the several States, shall be bound by oath or affirmation to support this Constitution; but no religious test shall ever be required as a qualification to any office or public trust under the United States.

### ARTICLE VII.

(What ratification shall establish Constitution.)

The ratification of the Conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same.

## AMENDMENTS TO THE CONSTITUTION OF THE UNITED STATES.

THE following amendments to the Constitution, Articles I. to X. inclusive, were proposed at the First Session of the First Congress, begun and held at the City of New York, on Wednesday, March 4, 1789, and were adopted by the necessary number of States. The original proposal of the ten amendments was preceded by this preamble and resolution:

"The conventions of a number of the States having, at the time of their adopting the Constitution, expressed a desire, in order to prevent misconstruction or abuse of its powers, that further declaratory and restrictive clauses should be added, and as extending the ground of public confidence in the Government will best insure the beneficent ends of its institution:

"*Resolved*, By the Senate and House of Representatives of the United States of America, in congress assembled, two-thirds of both Houses concurring, that the following articles be proposed to the Legislatures of the several States, as amendments to the Constitution of the United States; all or any of which articles, when ratified by three-fourths of the said Legislatures, to be valid to all intents and purposes, as part of the said Constitution, namely:"

THE TEN ORIGINAL AMENDMENTS.

(They were declared in force December 15, 1791.)

### ARTICLE I.

**Religious Establishment Prohibited. Freedom of Speech, of the Press, and Right to Petition.**

Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech or of the press; or the right of the people peaceably to assemble and to petition the Government for a redress of grievances.

### ARTICLE II.

**Right to Keep and Bear Arms.**

A well-regulated militia being necessary to the security of a free State, the right of the people to keep and bear arms shall not be infringed.

### ARTICLE III.

**No Soldier to Be Quartered in Any House, Unless, Etc.**

No soldier shall, in time of peace, be quartered in any house without the consent of the owner, nor in time of war but in a manner to be prescribed by law.

### ARTICLE IV.

**Right of Search and Seizure Regulated.**

The right of the people to be secure in their persons houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized.

### ARTICLE V.

**Provisions Concerning Prosecution, Trial and Punishment.—Private Property Not to Be Taken for Public Use, Without Compensation.**

No person shall be held to answer for a capital or other infamous crime unless on a presentment or indictment of a Grand Jury, except in cases arising in the land or naval forces, or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty, or property, without due process of law; nor shall private property be taken for public use without just compensation.

### ARTICLE VI.

**Right to Speedy Trial, Witnesses, Etc.**

In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial, by an impartial jury of the State and district wherein the crime shall have been committed, which districts shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense.

### ARTICLE VII.

**Right of Trial By Jury.**

In suits at common law, where the value in controversy shall exceed twenty dollars, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise re-examined in any court of the United States than according to the rules of the common law.

### ARTICLE VIII.

**Excessive Bail or Fines and Cruel Punishments Prohibited.**

Excessive bail shall not be required, nor excessive fines imposed, nor cruel and unusual punishments inflicted.

### ARTICLE IX.

**Rule of Construction of Constitution.**

The enumeration in the Constitution of certain rights shall not be construed to deny or disparage others retained by the people.

### ARTICLE X.

**Rights of States Under Constitution.**

The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people.

---

*The following amendment was proposed to the Legis-*

*latures of the several States by the Third Congress on the 5th of March, 1794, and was declared to have been ratified in a message from the President to Congress, dated Jan. 8, 1798.*

### ARTICLE XI.
### Judicial Powers Construed.

The judicial power of the United States shall not be construed to extend to any suit in law or equity, commenced or prosecuted against one of the United States, by citizens of another State, or by citizens or subjects of any foreign state.

---

*The following amendment was proposed to the Legislatures of the several States by the Eighth Congress on the 12th of December, 1803, and was declared to have been ratified in a proclamation by the Secretary of State, dated September 25, 1804. It was ratified by all the States except Connecticut, Delaware, Massachusetts, and New Hampshire.*

### ARTICLE XII.
### Manner of Choosing President and Vice-President.

The Electors shall meet in their respective States, and vote by ballot for President and Vice-President, one of whom at least shall not be an inhabitant of the same State with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice-President; and they shall make distinct lists of all persons voted for as President, and of all persons voted for as Vice-President, and of the number of votes for each, which list they shall sign and certify, and transmit, sealed, to the seat of the Government of the United States, directed to the President of the Senate; the President of the Senate shall, in the presence of the Senate and House of Representatives, open all the certificates and the votes shall then be counted; the person having the greatest number of votes for President shall be the President, if such number be a majority of the whole number of Electors appointed; and if no person have such majority, then from the persons having the highest number, not exceeding three, on the list of those voted for as President, the House of Representatives shall choose immediately, by ballot, the President. But in choosing the President, the votes shall be taken by States, the representation from each State having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the States, and a majority of all the States shall be necessary to a choice. And if the House of Representatives shall not choose a President, whenever the right of choice shall devolve upon them, before the fourth day of March next following, then the Vice-President shall act as President, as in the case of the death or other constitutional disability of the President. The person having the greatest number of votes as Vice-President shall be the Vice-President if such number be a majority of the whole number of Electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose the Vice-President; a quorum for the purpose shall consist of two-thirds of the whole number of Senators, and a majority of the whole number shall be necessary to a choice. But no person constitutionally ineligible to the office of President shall be eligible to that of Vice-President of the United States.

---

*The following amendment was proposed to the Legislatures of the several States by the Thirty-eighth Congress on the 1st of February, 1865, and was declared to have been ratified in a proclamation by the Secretary of State dated December 18, 1865. It was rejected by Delaware and Kentucky; was conditionally ratified by Alabama and Mississippi; and Texas took no action.*

### ARTICLE XIII.
### Slavery Abolished.

1. Neither slavery nor involuntary servitude, except as a punishment for crime whereof the party shall have been duly convicted, shall exist within the United States, or any place subject to their jurisdiction.

2. Congress shall have power to enforce this article by appropriate legislation..

---

*The following, popularly known as the Reconstruction Amendment, was proposed to the Legislatures of the several States by the Thirty-ninth Congress on the 16th of June, 1866, and was declared to have been ratified in a proclamation by the Secretary of State, dated July 28, 1868. The amendment got the support of 23 Northern States; it was rejected by Delaware, Kentucky, Maryland, and 10 Southern States. California took no action. Subsequently it was ratified by the 10 Southern States.*

### ARTICLE XIV.
### Citizenship Rights Not to Be Abridged.

1. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

### Apportionment of Representatives in Congress.

2. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when the right to vote at any election for the choice of Electors for President and Vice-President of the United States, Representatives in Congress, the executive and judicial officers of a State, or the members of the Legislature thereof, is denied to any of the male members of such State, being of twenty-one years of age, and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male citizens twenty-one years of age in such State.

### Power of Congress to Remove Disabilities of United States Officials for Rebellion.

3. No person shall be a Senator or Representative in Congress, or Elector of President and Vice-President or holding any office, civil or military, under the United States, or under any State, who, having previously taken an oath, as a member of Congress, or as an officer of the United States, or as a member of any State Legislature or as an executive or judicial officer of any State, to support the Constitution of the United States, shall have engaged in insurrection or rebellion against the same, or given aid and comfort to the enemies thereof. But Congress may, by a vote of two-thirds of each House, remove such disability.

### What Public Debts Are Valid.

4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection and rebellion, shall not be questioned. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States, or any claim for the loss or emancipation of any slave; but all such debts, obligations, and claims shall be held illegal and void.

5. The Congress shall have power to enforce by appropriate legislation the provisions of this article.

---

*The following amendment was proposed to the Legislatures of the several States by the Fortieth Congress on the 27th of February, 1869, and was declared to have been ratified in a proclamation by the Secretary of State, dated March 30, 1870. It was not acted on by Tennessee; it was rejected by California, Delaware, Kentucky, Maryland, and Oregon; ratified by the remaining 30 States. New York rescinded its ratification January 5, 1870. New Jersey rejected it in 1870, but ratified it in 1871.*

### ARTICLE XV.
### Equal Rights for White and Colored Citizens.

1. The right of the citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of race, color, or previous condition of servitude.

2. The Congress shall have power to enforce the provisions of this article by appropriate legislation.

---

*The following amendment was proposed to the Legislatures of the several States by the Sixty-first Congress on the 12th day of July, 1909, and was declared to have been ratified in a proclamation by the Secretary of State, dated February 25, 1913. The income tax amendment was ratified by all the States except Connecticut, Florida, Pennsylvania, Rhode Island, Utah, and Virginia.*

### ARTICLE XVI.
### Income Taxes Authorized.

The Congress shall have power to lay and collect taxes on incomes, from whatever sources derived, without apportionment among the several States, and without regard to any census or enumeration.

---

*The following amendment was proposed to the Legislatures of the several States by the Sixty-second Congress on the 16th day of May, 1912, and was declared to have been ratified in a proclamation by the Secretary of State, dated May 31, 1913. It got the vote of all the States except Alabama, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Rhode Island, South Carolina, Utah, and Virginia.*

### ARTICLE XVII.
### United States Senators to Be Elected by Direct Popular Vote.

1. The Senate of the United States shall be composed of two Senators from each State, elected by the people thereof, for six years; and each Senator shall have one vote. The electors in each State shall have the qualifications requisite for electors of the most numerous branch of the State Legislatures.

**Vacancies in Senatorships, When Governor May Fill by Appointment.**

2. When vacancies happen in the representation of any State in the Senate, the executive authority of such State shall issue writs of election to fill such vacancies: Provided, That the Legislature of any State may empower the Executive thereof to make temporary appointment until the people fill the vacancies by election as the Legislature may direct.

3. This amendment shall not be so construed as to affect the election or term of any Senator chosen before it becomes valid as part of the Constitution.

*The following amendment was proposed to the Legislatures of the several States by the Sixty-fifth Congress, December 18, 1917; and on January 29, 1919, the United States Secretary of State proclaimed its adoption by 36 States, and declared it in effect on January 16, 1920.*

*Early in 1920, the validity of the Eighteenth Amendment was upheld by the Supreme Court of the United States, in suits to void, brought by the States of Rhode Island and New Jersey, and by various brewers and distillers.*

**ARTICLE XVIII.**
**Liquor Prohibition Amendment.**

1. After one year from the ratification of this article the manufacture, sale, or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

2. The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation.

3. This article shall be inoperative unless it shall have been ratified as an amendment to the Constitution by the Legislatures of the several States, as provided in the Constitution, within seven years from the date of the submission hereof to the States by the Congress.

*The following amendment was proposed to the Legislatures of the several States by the Sixty-fifth Congress, having been adopted by the House of Representatives, May 21, 1919, and by the Senate, June 4, 1919. On August 26, 1920, the United States Secretary of State proclaimed it in effect, having been adopted (June 10, 1919–August 18, 1920), by three-quarters of the States. The Tennessee House, August 31, rescinded its ratification, 47 to 24.*

**ARTICLE XIX.**
**Giving Nation-Wide Suffrage to Women.**

1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex.

2. Congress shall have power, by appropriate legislation, to enforce the provisions of this article.

## THE FEDERAL SUFFRAGE AMENDMENT.

THE United States House of Representatives, in January, 1918, adopted a resolution submitting a Federal Suffrage Amendment to the States, but the United States Senate refused its consent. The House, May 21, 1919, readopted the resolution; and the Senate adopted it June 4, 1919. Then the resolution went to the Legislatures of the States, thirty-six of which—the necessary three-quarters of all—adopted Federal Suffrage for women in the following order:

DATES OF RATIFICATION OF SUFFRAGE AMENDMENT.

| States. | 1919. | States. | 1919. | States. | 1919. | States. | 1920. |
|---|---|---|---|---|---|---|---|
| Illinois | June 10 | Missouri | July 3 | North Dakota | Dec. 1 | Nevada | Feb. 7 |
| Wisconsin | June 10 | Arkansas | July 28 | South Dakota | Dec. 4 | New Jersey | Feb. 9 |
| Michigan | June 10 | Montana | July 30 | Colorado | Dec. 12 | Idaho | Feb. 11 |
| Kansas | June 16 | Nebraska | July 31 | | 1920. | Arizona | Feb. 12 |
| Ohio | June 16 | Minnesota | Sept. 8 | Rhode Island | Jan. 6 | New Mexico | Feb. 19 |
| New York | June 16 | New Hampshire | Sept. 10 | Kentucky | Jan. 6 | Oklahoma | Feb. 28 |
| Pennsylvania | June 24 | Utah | Sept. 30 | Oregon | Jan. 12 | West Virginia | Mar. 10 |
| Massachusetts | June 25 | California | Nov. 1 | Indiana | Jan. 16 | Washington | Mar. 22 |
| Texas | June 28 | Maine | Nov. 5 | Wyoming | Jan. 28 | Tennessee | Aug. 18 |
| Iowa | July 2 | | | | | | |

The Illinois Legislature ratified on June 10, 1919, but an error in the State's certification caused a re-ratification on June 17.

Ratification was *defeated* in Ala. (Sept. 2, 1919); Ga. (July 24, 1919); Miss. (Jan. 21, 1920); S. C. (Jan. 24, 1920); Va. (Feb. 12, 1920); Md. (Feb. 17, 1920); Del. (June 2, 1920); La. (June 15, 1920); N. C. (Aug. 17, 1920).

## DATES OF RATIFICATION OF PROHIBITION AMENDMENT.

| 1918. | | 1918. | | 1919. | | 1919. | |
|---|---|---|---|---|---|---|---|
| 1. Mississippi | Jan. 8 | 13. Georgia | July 22 | 23. Washington | Jan. 13 | 35. Utah | Jan. 15 |
| 2. Virginia | Jan. 10 | 14. Louisiana | Aug. 3 | 24. California | Jan. 13 | 36. Nebraska | Jan. 16 |
| 3. Kentucky | Jan. 14 | 15. Florida | Dec. 14 | 25. Arkansas | Jan. 14 | 37. Missouri | Jan. 16 |
| 4. S. Carolina | Jan. 23 | | | 26. Illinois | Jan. 14 | 38. Wyoming | Jan. 16 |
| 5. N. Dakota | Jan. 25 | 1919. | | 27. Indiana | Jan. 14 | 39. Minnesota | Jan. 17 |
| 6. Maryland | Feb. 13 | 16. Michigan | Jan. 2 | 28. Kansas | Jan. 14 | 40. Wisconsin | Jan. 17 |

| 8. Texas | Mar. 4 | 18. Ohio | Jan. 7 | 30. Alabama | Jan. 14 | 42. Nevada | Jan. 21 |
| 9. Delaware | Mar. 18 | 19. Tennessee | Jan. 8 | 31. Iowa | Jan. 15 | 43. Vermont | Jan. 29 |
| 10. S. Dakota | Mar. 20 | 20. Idaho | Jan. 8 | 32. Colorado | Jan. 15 | 44. New York | Jan. 29 |
| 11. Mas'chusetts | April 2 | 21. Maine | Jan. 8 | 33. Oregon | Jan. 15 | 45. Pennsylvania | Feb. 25 |
| 12. Arizona | May 22 | 22. West Virginia | Jan. 9 | 34. N. Hamp. | Jan. 15 | | |

## THE WHITE HOUSE.

THE site was selected by President Washington and Major Peter Charles L'Enfant when they laid out Washington, 1791; architect, James Hoban of Dub'in; plans chosen by competition closed July 15, 1792. Cornerstone laid October 13, 1792. First occupation—President and Mrs. John Adams, November, 1800. Burned by British in 1814. Mr. Hoban superintended the restoration. First White House appropriation from the U. S. Treasury, April 24, 1800, $15,000, for furniture. The first appropriation for repairs, $15,000, March 3, 1807. Congress appropriated $8,137 for enlarging "the offices west of the President's House," 1819. South Portico finished 1823; cost $19,000. East Room finished and furnished by appropriation made in 1826. North Portico added; cost $24,769.25, 1829. Original plans always followed. First heated by gas, 1848; system of heating and ventilation installed, 1853.

A thorough overhauling and restoration was made under direction of New York architects, McKim, Mead & White, during incumbency of President Roosevelt June 20-September 29, 1902. Congress appropriated in all $475,445; the architects returning an unexpended balance of $7,906.10.

The principal apartments in the White House are officially designated: the East Room, Red Room, Blue Room, Green Room, State Dining Room; Family Dining Room, and Usher's Lobby. There are a Family Floor, a main stairway, and a private staircase and elevators.

The dimensions of the White House, in 1840, were length or frontage, 170 feet; depth or width, 86 feet. The mansion was built of gray sandstone, which was painted white after the fire, hence the name "the White House." Architect Hoban had modelled the structure after the palace of the Duke of Leinster. The original cost was defrayed out of the sale of lands donated by Maryland and Virginia.

The President's Office Building is located at the West of the White House. It was built and occupied in 1902, and was enlarged later. The building contains the President's Room, the Cabinet Room, a room for the President's Secretary, a telegraph room, a press room, and rooms for the clerical force.

## U. S. CONSTITUTI'AL AMENDMENTS IN CONGRESS AND IN N. Y. STATE

(Compiled by James Hodgson, Sub-Librarian Legislative Reference Section, N. Y. State Library.)

Notes—Twelve amendments were proposed in 1789, of which New York ratified 11, but only 10 were adopted by three-fourths of the States. An attempt was made to have the amendments ratified by resolution, but the motion failed, 49 to 2.

"Date received in N. Y." means date on which received by the Legislature.

On February 4, 1818, the President reported to Congress that 12 States had ratified the amendment forbidding titles, while 3 had rejected it and 2 were undecided.

A resolution to ratify the amendment of 1865 passed the Senate on February 2, and the Assembly on February 3, 1865, in the Senate, 18 to 8, and in the Assembly, 72 to 40.

The fourteenth amendment was the first ratified in New York by resolution. Others were ratified by statute.

New York State, on Jan. 5, 1870, withdrew its approval of the Fifteenth Amendment.

## NATIONAL STATUARY HALL.

The National Hall of Statuary, formerly a corridor of the United States House of Representatives in the Capitol at Washington, was established by Congress July 2, 1864. Each State was invited to contribute marble or bronze statues of her two most distinguished deceased citizens. The following is a list of statues presented by the States and the dates of the works:

| State. | Name. | Date. | State. | Name. | Date. |
|---|---|---|---|---|---|
| Alabama | J. L. M. Curry | 1906 | New Hampshire | John Stark | 1894 |
| Arkansas | Uriah M. Rose | 1917 | " | Daniel Webster | 1894 |
| Connecticut | Roger Sherman | 1872 | New Jersey | Richard Stockton | 1886 |
| " | Jonathan Trumbull | 1872 | " | Philip Kearny | 1875 |
| Florida | John W. Gorrie | 1914 | New York | Robert R. Livingston | 1874 |
| " | Gen. E. Kirby Smith | 1918 | " | George Clinton | 1873 |
| Idaho | George L. Shoup | 1909 | North Carolina | Zebulon Baird Vance | 1916 |
| Illinois | James Shields | 1893 | Ohio | James A. Garfield | 1885 |
| " | Frances E. Willard | 1905 | " | William Allen | 1887 |
| Indiana | Oliver P. Morton | 1899 | Oklahoma | Sequoyah | 1917 |
| " | Lew Wallace | 1909 | Pennsylvania | J. P. G. Muhlenberg | 1881 |
| Iowa | James Harlan | 1909 | " | Robert Fulton | 1881 |
| " | Samuel J. Kirkwood | 1913 | Rhode Island | Nathanael Greene | 1869 |
| Kansas | John J. Ingalls | 1904 | " | Roger Williams | 1870 |
| " | George W. Glick | 1914 | South Carolina | John C. Calhoun | 1909 |
| Maine | William King | 1877 | Texas | Stephen F. Austin | 1904 |
| Maryland | Charles Carroll | 1901 | " | Samuel Houston | 1904 |
| " | John Hanson | 1901 | Vermont | Ethan Allen | 1875 |
| Massachusetts | Samuel Adams | 1873 | " | Jacob Collamer | 1879 |
| " | John Winthrop | 1872 | Virginia | Washington | 1908 |
| Michigan | Lewis Cass | 1889 | " | Robert E. Lee | 1908 |
| " | Zachariah Chandler | 1913 | West Virginia | John E. Kenna | 1901 |
| Minnesota | Henry Mower R ce | 1916 | " | Francis H. Pierpont | 1903 |
| Missouri | Francis P. Blair | 1899 | Wisconsin | James Marquette | 1895 |
| " | Thomas H. Benton | 1899 | | | |

Works of art in the Capitol have been acquired by gift, from private individuals and from States.

A group containing bust portraits of Lucretia Mott, Susan B. Anthony, and Elizabeth Cady Stanton was placed in the crypt of the Capitol in February, 1921.

## SALARY OF THE PRESIDENT.

The salary of the President of the United States was the cause of discussion in the First Congress, in view of the fact that the Constitution declared that the President should receive compensation for his services. Washington had notified his fellow citizens that he desired no salary. The limits suggested in Congress ranged from $15,000 to $70,000. The salary was finally placed at $25,000, and this remained the compensation until President Grant's second term (March 3, 1873), when it was increased to $50,000. Chapter 2918 of the Laws of the Second Session of the Fifty-ninth Congress, approved March 4, 1907, appropriated "for travelling expenses of the President of the United States, to be expended at his discretion and accounted for by his certificate solely, $25,000." In the Second Session of the Sixtieth Congress the President's salary was fixed at $75,000 a year.

# United States Government.

PRESIDENT.....WARREN GAMALIEL HARDING, of Ohio.....Salary, $75,000
VICE PRESIDENT.....CALVIN COOLIDGE, of Massachusetts..... " 12,000

## THE CABINET.

*Secretary of State*—Charles Evans Hughes, New York.

## PAY IN THE ARMY AND MARINE CORPS.

Base pay of enlisted men ranges from $21 to $126 a month, according to which of the seven grades, due chiefly to length of service, they are in. There are bonuses of $25 and up, for re-enlistments.

Base pay of warrant officers varies from $120 to $148 a month, according to grade and service.

Base pay of commissioned officers below the grade of Brigadier General ranges from $1,500 to $4,000 a year, according to grade and service.

Base yearly pay of a Brigadier General is $6,000; of a Major General, $8,000.

Female nurses receive from $840 to $1,560 a year, according to length of service.

## REAR ADMIRALS IN THE AMERICAN NAVY.

(In the order of seniority, as of Nov. 24, 1922. First year is that of birth; second, that of appointment to the navy. The retirement age is sixty-four years.)

William Ledyard Rodgers, 1860-1874; Harry McL. Pinckney Huse, 1858-1874; Hugh Rodman, 1859-1875; Henry B. Wilson, 1861-1876; Albert P. Niblack, 1859-1876; John A. Hoogewerff, 1860-1877; Marbury Johnston, 1860-1878; Edwin A. Anderson, 1860-1878; Charles W. Dyson, 1861-1879; Clarence S. Williams, 1863-1880; John D. McDonald, 1863-1880; Hilary P. Jones, 1863-1880; Charles P. Plunkett, 1864-1879; Joseph Strauss, 1861-1881; Edward Simpson, 1860-1876; Alexander S. Halstead, 1861-1879; Roger Welles, 1862-1880; William R. Shoemaker, 1863-1880; Edward W. Eberle, 1864-1881; Robert E. Coontz, 1864-1881; Philip Andrews, 1866-1882; Josiah S. McKean, 1864-1889; Newton A. McCully, 1867-1883; Andrew T. Long, 1866-1883; Thomas Washington, 1865-1883; Guy H. Burrage, 1867-1883; Ashley H. Robertson, 1867-1884; Samuel S. Robison, 1867-1884; Charles F. Hughes, 1866-1884; Henry A. Wiley, 1867-1885; Mark L. Bristol, 1868-1883; Archibald H. Scales, 1868-1883; Richard H. Jackson, 1866-1890; Nathan C. Twining, 1869-1885; Benjamin F. Hutchison, 1868-1885; Thomas P. Magruder, 1867-1885; Sumner E. W. Kittelle, 1867-1885; William V. Pratt, 1869-1885; Louis McC. Nulton, 1869-1885; Louis R. de Steiguer, 1867-1885; William W. Phelps, 1869-1885; William C. Cole, 1868-1885; Jehu V. Chase, 1869-1886; George R. Marvell, 1869-1885; Henry J. Ziegemeier, 1869-1886; George W. Williams, 1869-1886; Montgomery M. Taylor, 1869-1886; Carl T. Vogelgesang, 1869-1886.

### REAR ADMIRALS (Staff).

*Medical Corps.*

Cary T. Grayson, 1878-1904; Edward R. Stitt, 1867-1889; George H. Barber, 1864-1889; Albert M. D. McCormick, 1866-1888.

*Supply Corps.*

Christian J. Peoples, 1876-1900; John S. Carpenter, 1860-1881; Livingston Hunt, 1859-1881.

*Construction Corps.*

Washington L. Capps, 1864-1888; David W. Taylor, 1864-1886.

| 1925 | Francis E. Warren, R. | Cheyenne. |

The whole number of Senators is 96. Democrats, 36; Republicans, 60. The salary of a Senator is $7,500 per annum and 20 cents per mile for travelling from and to the seat of Government.

NOTE—Mrs. (W. H.) Rebecca Latimer Felton, of Cartersville, was appointed, temporarily, to fill the place of Thomas E. Watson, deceased, and she was sworn in Nov. 21, and served one day in the Senate, then giving way to her successor, Walter F. George.

Senator Newberry (Mich.) on Nov. 19, 1922, resigned and was succeeded by Couzens.

## HOUSE OF REPRESENTATIVES.

### ALABAMA.

| Dist. | Representatives. | Politics. | P. O. Address. |
|---|---|---|---|
| 1 | John McDuffie* | Dem. | Monroeville. |
| 2 | John R. Tyson | Dem. | Montgomery. |

| 4 | Lamar Jeffers | Dem. | Anniston. |
| 5 | W. B. Bowling* | Dem. | Lafayette. |
| 6 | William B. Oliver* | Dem. | Tuscaloosa. |
| 7 | L. B. Rainey* | Dem. | Gadsden. |
| 8 | Edward B. Almon* | Dem. | Tuscumbia. |
| 9 | George Huddleston* | Dem. | Birmingham. |
| 10 | W. B. Bankhead | Dem. | Jasper. |

### ARIZONA.

*At Large.*

| | | | |
|---|---|---|---|
| | Carl Hayden* | Dem. | Phoenix. |

### ARKANSAS.

| | | | |
|---|---|---|---|
| 1 | W. J. Driver | Dem. | Osceola. |
| 2 | William A. Oldfield* | Dem. | Batesville. |
| 3 | John N. Tillman* | Dem. | Fayetteville. |
| 4 | Otis Wingo* | Dem. | De Queen. |
| 5 | Hence M. Jacoway* | Dem. | Dardanelle. |
| 6 | Chester W. Taylor | Dem. | Pine Bluff. |
| 7 | Tilman B. Parks | Dem. | Hope. |

### CALIFORNIA.

| | | | |
|---|---|---|---|
| 1 | Clarence F. Lea* | Dem. | Santa Rosa. |
| 2 | John E. Raker* | Dem. | Alturas. |
| 3 | Charles F. Curry* | Rep. | Sacramento. |
| 4 | Julius Kahn* | Rep. | San Francisco. |
| 5 | ..... | | San Francisco. |
| 6 | J. H. MacLafferty | Rep. | Oakland. |
| 7 | H. E. Barbour* | Rep. | Fresno. |
| 8 | Arthur M. Free | Rep. | San Jose. |
| 9 | W. F. Lineberger | Rep. | Long Beach. |
| 10 | Henry Z. Osborne* | Rep. | Los Angeles. |
| 11 | Phil D. Swing | Rep. | El Centro. |

### COLORADO.

| | | | |
|---|---|---|---|
| 1 | William N. Vaile* | Rep. | Denver. |
| 2 | Charles B. Timberlake* | Rep. | Sterling. |
| 3 | Guy U. Hardy* | Rep. | Canyon City. |
| 4 | Edward T. Taylor* | Dem. | Glenwood Sp'gs |

### CONNECTICUT.

| | | | |
|---|---|---|---|
| 1 | E. Hart Fenn | Rep. | Wethersfield. |
| 2 | Richard P. Freeman* | Rep. | New London. |
| 3 | John Q. Tilson* | Rep. | New Haven. |
| 4 | Schuyler Merritt* | Rep. | Stamford. |
| 5 | James P. Glynn* | Rep. | Winsted. |

### DELAWARE.

*At Large.*

| | | | |
|---|---|---|---|
| | Caleb R. Layton* | Rep. | Georgetown. |

### FLORIDA.

| | | | |
|---|---|---|---|
| 1 | H. J. Drane* | Dem. | Lakeland. |
| 2 | Frank Clark* | Dem. | Gainesville. |
| 3 | J. H. Smithwick* | Dem. | Pensacola. |
| 4 | William J. Sears* | Dem. | Kissimmee. |

### GEORGIA.

| | | | |
|---|---|---|---|
| 1 | J. W. Overstreet* | Dem. | Sylvania. |
| 2 | Frank Park* | Dem. | Sylvester. |
| 3 | Charles R. Crisp* | Dem. | Americus. |
| 4 | W. C. Wright* | Dem. | Newman. |
| 5 | Wm. D. Upshaw* | Dem. | Atlanta. |
| 6 | James W. Wise* | Dem. | Fayetteville. |
| 7 | Gordon Lee* | Dem. | Chickamauga. |
| 8 | Charles Hillyer Brand* | Dem. | Athens. |
| 9 | Thomas M. Bell* | Dem. | Gainesville |
| 10 | Carl Vinson* | Dem. | Milledgeville. |
| 11 | W. C. Lankford* | Dem. | Douglas. |
| 12 | W. W. Larsen* | Dem. | Dublin. |

### IDAHO.

*At Large.*

| | | | |
|---|---|---|---|
| 1 | Burton L. French* | Rep. | Moscow. |
| 2 | Addison T. Smith* | Rep. | Twin Falls. |

### ILLINOIS.

| | | | |
|---|---|---|---|
| 1 | Martin B. Madden* | Rep. | Chicago. |

## UNITED STATES GEOGRAPHIC BOARD.

*Chairman*—C. Hart Merriam, of the United States Department of Agriculture. *Secretary*—Charles S. Sloane, Bureau of the Census, Department of Commerce. Headquarters, Washington, D. C.

Frank Bond, General Land Office, Department of the Interior.
Lieut. Col. Frederick L. Dengler, General Staff, War Department.
L. N. Morgan, Post Office Department.
J. N. B. Hewitt, Bureau of American Ethnology, Smithsonian Institution.
James McCormick, Geological Survey, Department of the Interior.
Jas. W. McGuire, Coast and Geodetic Survey, Department of Commerce.
Major Lawrence Martin, Div. of Western European Affairs, Department of State.
John S. Mills, Department of the Treasury.
Charles E. Young, Government Printing Office.
George R. Putnam, Bureau of Lighthouses, Department of Commerce.
W. C. Barnes, United States Forest Service, Department of Agriculture.
Capt. Frederic B. Bassett, Hydrographer, Department of the Navy.

By executive order of August 10, 1906, the official title of the United States Board on Geographic Names was changed to United States Geographic Board, and its duties enlarged. The board passes on all unsettled questions concerning geographic names which arise in the departments, as well as determines, changes, and fixes place names within the United States and its insular possessions, and all names hereafter suggested by any officer of the Government shall be referred to the board before publication. The decisions of the board are to be accepted by all the departments of the Government as standard authority.

Permanent Headquarters, 441 Woodward Building, Washington, D. C.

*Chairman*—Cordell Hull. *Treas.*—Wilbur W. Marsh. *Exec. Sec.*—Burt New. *Vice Chairmen*—J. Bruce Kremer, Samuel B. Amidon, Miss Charl Williams, Mrs. Emily N. Blair. *Chairman Fin. Com.*—Harrison Nesbit. *Director of Publicity*—Richard Linthicum.

Alabama—Walter L. Moore, Birmingham; Mrs. John D. McNeel, 1490 Milner Crescent, Birmingham.

Arizona—W. L. Barnum, Phoenix; Mrs. B. J. McKinney, Tucson.

Arkansas—Vincent M. Miles, Fort Smith; Mrs. James D. Head, Texarkana.

California—Isidore B. Dockweiler, Los Angeles; Mrs. Chas. F. Donohoe, Oakland.

Colorado—Miles G. Saunders, Pueblo; Mrs. Gertrude A. Lee, Denver.

Connecticut—Homer S. Cummings, Stamford; Miss Caroline Ruutz-Rees, Greenwich.

Delaware—Andrew C. Gray, Wilmington; Miss Lena Evans, Newark.

Florida—J. T. G. Crawford, Jacksonville; Mrs. Lois E. Mayes, Pensacola.

Georgia—Clark Howell, Atlanta; Mrs. F. I. McIntyre, Savannah.

Idaho—Robert H. Elder, Coeur d'Alene; Theresa M. Graham, Coeur d'Alene.

Illinois—Charles Boeschenstein, Edwardsville; Mrs. A. L. Smith, Chicago.

Indiana—Chas. A. Greathouse, Indianapolis; Mrs. Bessie L. Riggs, Sullivan.

Iowa—Wilbur W. Marsh, Waterloo; Miss A. B. Lawther, Dubuque.

Kansas—Samuel B. Amidon, Wichita; Mrs. Florence G. Farley, Wichita.

Kentucky—Johnson N. Camden, Versailles; Mrs. Campbell Cantrill, Washington, D. C.

Louisiana—Samuel B. Hicks, Shreveport; Mrs. J. E. Friend, New Orleans.

Maine—D. J. McGillicuddy, Lewiston; Mrs. G. M. Pattangall, Augusta.

Maryland—John W. Smith, Snow Hill; Mrs. Julia Hamilton Briscoe, Hagerstown.

Massachusetts—Edward W. Quinn, Cambridge; Mrs. M. F. Sullivan, Fall River.

Michigan—Judge William F. Connolly, Detroit; Mrs. L. C. Boltwood, Grand Rapids.

Minnesota—Howard Everett, St. Paul; Mrs. Peter Olesen, Cloquet.

Mississippi—O. G. Johnson, Clarksdale; Miss Henrietta Mitchell, Jackson.

Missouri—Edward F. Goltra, St. Louis; Mrs. Emily Newell Blair Joplin.

Montana—J. Bruce Kremer, Butte; Mrs. R. R. Purcell, Helena.

Nebraska—W. H. Thompson, Grand Island; Dr. Jennie Callfas, Omaha.

Nevada—Samuel Pickett, Reno; Mrs. James D. Finch, Reno.

New Hampshire—Robert C. Murchie, Concord; Dorothy B. Jackson, Concord.

New Jersey—Robert S. Hudspeth, Jersey City; Mrs. Jas J. Billington, Jersey City.

New Mexico—Arthur Seligman, Santa Fe; Mrs. W. F. Kirby, Tucumcari.

New York—Norman E. Mack, Buffalo; Miss Elisabeth Marbury, New York City.

N. Carolina—Angus W. McLean, Lamberton; Miss Mary O. Graham, Raleigh.

North Dakota—H. H. Perry, Ellendale; Mrs. S. Johnson, Grand Forks.

Ohio—George White, Marietta; Mrs. Bernice S. Pyke, Cleveland.

Oklahoma—George L. Bowman, Kingfisher; Mrs. D. A. McDougal, Sapulpa.

Oregon—Dr. J. W. Morrow, Portland; Mrs. Rose G. Schieffelin, Medford.

Pennsylvania—Joseph F. Guffey, Pittsburgh; Miss Mary Archer, Reading.

Rhode Island—Patrick H. Quinn, Providence; Mrs. Robert E. Newton, Providence.

S. Carolina—John Gary Evans, Spartanburg; Mrs. Leroy Springs, Lancaster.

S. Dakota—James Mee, Centerville; Mrs. William Hickey, Sioux Falls.

Tennessee—Cordell Hull, Carthage; Miss Charl Williams, Memphis.

Texas—Thomas B. Love, Dallas.

Utah—James H. Moyle, Salt Lake; Mrs. Weston Vernon, Logan.

Vermont—Frank H. Duffey, Rutland; Mrs. C. M. Brislin, Rutland.

Virginia—Carter Glass, Lynchburg; Mrs. Beverly H. Munford, Richmond.

Washington—A. R. Titlow, Tacoma; Mrs. E. D. Christian, Spokane.

W. Virginia—C. W. Osenton, Fayetteville; Mrs. Rose McGraw de Berriz, Grafton.

Wisconsin—Joseph Martin, Green Bay; Mrs. Gertrude Bowler, Sheboygan.

Wyoming—P. J. Quealy, Kemmerer; Mrs. R. D. Hawley, Douglas.

Alaska—L. J. Donohoe, Cordova; Mrs. John W. Troy, Juneau.

Dis. of Col.—John F. Costello, Washington, D. C.; Mrs. T. F. Walsh, Washington, D. C.

Hawaii—John H. Wilson, Honolulu; Mrs. L. L. McCandless, Honolulu.

Philippines—Robert E. Manly, Nega Camerines.

Porto Rico—Henry W. Dooley, San Juan; Miss Edmonia Martin, San Juan.

Canal Zone—M. A. Otero, Ancon; Mrs. D. F. Reeder, Ancon.

## DEMOCRATIC STATE CHAIRMEN.

Alabama—James H. Webb, Mobile, Antwerp Bldg.

Arizona—Vernon, Vaughn, Phoenix.

Arkansas—William V. Tompkins, Prescott.

California—Claude F. Birkitt, San Francisco.

Colorado—Raymond Miller, Denver, Albany Hotel.

Connecticut—Edward M. Yoemans, Hartford.

Delaware—Dr. W. F. Hoey, Frederica.

Florida—Robert E. Davis, Gainesville.

Georgia—W. J. Vereen, Moultrie.

Idaho—William Hornibrook, Boise, 316-318 Yates Bldg.

Illinois—Thomas F. Donovan, Joliet (Hdqs. Rm. 304, Sherman Hotel, Chicago).

Indiana—Walter S. Chambers, Newcastle (Hdqs. Hotel Denison, Indianapolis).

For years 1800 to 1850 the figures for interest-bearing debt include the total public debt as of January 1.

Interest charges and interest per capita are for fiscal years.

## REDUCTION IN THE UNITED STATES PUBLIC DEBT.

In a statement on Nov. 3 dealing with the status of the debt of the United States on Oct. 31, 1922, Secretary of the Treasury Mellon shows that except for the temporary increase of $265,000,000 in the debt during October, uninterrupted progress has been made in reducing the debt from the peak registered on Aug. 31, 1919, viz., $26,596,701,648. The following is Secretary Mellon's statement:

"The preliminary statement of the public debt on Oct. 31, 1922, shows the results of the refunding issue of Treasury bonds on Oct. 16, 1922, and at the same time emphasizes the progress which has been made by the Treasury in the orderly funding and gradual liquidation of the public debt, particularly the short-dated debt.

"Ever since the war debt reached its peak, on Aug. 31, 1919, the Treasury has made almost uninterrupted progress in its reduction, though, necessarily, there are fluctuations from time to time as a result of borrowings for refunding purposes and temporary deficiencies in the current revenues. This was the case, for example, in October, when there was a temporary increase in the public debt as a result of the refunding operations on Oct. 16 and the excess of current expenditures, arising chiefly from heavy payments of interest on the public debt.

"Income and profits taxes, which constitute the Government's heaviest receipts, are paid quarterly, in March, June, September and December of each year, while interest payments, which constitute the largest single item of Government expense, fall chiefly in March, April, May, June, September, October, November, December. In these circumstances one month's operations necessarily give a distorted picture, and it takes at least a full quarter, or even a full year, in order to get a correct view of the Government's finances.

"The following table shows the gross public debt (cents omitted) on the basis of daily Treasury statements for each quarter from Aug. 31, 1919, when the debt reached its peak, to Oct. 31, 1922, and indicates how regularly the debt reduction has progressed:

| | *Total Gross Debt.* | *Total Gross Debt, Less Net Balance in General Fund.* |
|---|---|---|
| 1919—Aug. 31.... | $26,596,701,648 | $25,478,592,113 |
| Dec. 31.... | 25,837,078,807 | 24,849,663,347 |
| 1920—Mar. 31.... | 24,698,671,584 | 24,447,049,046 |
| June 30.... | 24,299,321,467 | 23,941,619,784 |
| Sept. 30.... | 24,087,356,128 | 23,652,395,078 |
| Dec. 31.... | 23,982,224,168 | 23,477,272,773 |
| 1921—Mar. 31.... | 23,980,104,397 | 23,365,510,971 |
| June 30.... | 23,977,450,552 | 23,427,772,446 |
| Sept. 30.... | 23,924,108,125 | 23,166,432,894 |
| 1922—Dec. 31.... | 23,438,984,351 | 22,951,216,822 |
| Mar. 31.... | 23,144,616,493 | 22,773,214,705 |
| June 30.... | 22,963,381,708 | 22,691,276,195 |
| Sept. 30.... | 22,812,407,791 | 22,555,568,061 |
| Oct. 31.... | 23,077,783,935 | 22,665,438,396 |

"The progress made in dealing with the short-dated debt has been still more striking. On April 30, 1921, when the Treasury first announced its refunding program, there was over $7,500,000,000 of debt maturing before the end of the present fiscal year. By Oct. 31, 1922, that is to say, eighteen months later, about $4,500,000,000 had already been retired or refunded, leaving about $3,000,000,000 to be refinanced during the balance of the year.

"Treasury certificates outstanding all have tax maturities, and the total is now less than $1,000,000,000, the lowest figure for several years back.

"As for the Dec. 15 maturities of certificates and called Victory notes, the refunding operations have already reduced them to manageable proportions, and there will be further retirements between now and Dec. 15 out of existing Treasury balances, pursuant to general offers already made to redeem called Victory notes and Dec. 15 certificates before maturity.

"Against its December maturities, the Treasury will receive, it is estimated, about $275,000,000 in income and profits taxes, which will still further reduce the amount requiring to be refunded. There is every assurance that the refunding which remains to be accomplished will be completed without strain on the country's financial machinery and without disturbance of the market for outstanding securities."

The United States Treasury Department on Oct. 16, 1922, offered for public subscription 4¼ per cent. United States Treasury bonds of 1947-52. The cash subscriptions totalled $1,899,851,900. Subscriptions aggregating $252,060,900 were also received in the form of exchanges of 4¾ per cent. Victory notes and Dec. 15 Treasury certificates, making the total subscription for the offering in excess of $1,651,900,000. The exchange subscriptions were allotted in full. All cash subscriptions for amounts not exceeding $10,000 were also allotted in full. The others were scaled; subscriptions for over $10,000 but not exceeding $50,000, 40 per cent.; over $50,000 but not exceeding $100,000, 30 per cent.; over $100,000 but not exceeding $500,000, 20 per cent.; over $500,000 but not exceeding $1,000,000, 15 per cent.; over $1,000,000, 10 per cent.

The successful consummation of this large financial operation marks the second phase in the execution of the loan refunding policy inaugurated in 1921 by the present Administration. The first phase may be said to cover the period from April 30, 1921, when the Treasury first announced its refunding program to the close of September of the present year, during which the short-term debt, *i. e.*, the debt maturing within the next two years from the beginning of the period, was reduced from about $7,500,000,000 to about $3,500,000,000 through refunding of about $2,743,000,000 into Treasury notes, with maturities spread over the period from June 15, 1924, to Sept. 15, 1926, and the retirement of the balance. The second phase of the refunding program may be said to have been entered with the placing of the present long-term refunding loan, which matures in October, 1952, but may be redeemed on or after Oct. 15, 1947, on four months' notice.

## UNITED STATES BUDGETS, 1923 AND 1924.

## MONETARY SYSTEM OF THE UNITED STATES.

(Revised by the Director of the Mint.)

GOLD COIN—Weight, 25.8 grains to the dollar; fineness, 900-1000, unlimited as to issue, denominations, $2.50, $5, $10, $20; legal tender, unlimited; receivable for all public dues; exchangeable for gold certificates and subsidiary and minor coin.

STANDARD SILVER DOLLARS—Weight, 412.5 grains; fineness, 900-1000; ratio to gold, 15.988 to 1; coinage ceased in 1905, resumed in 1921; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; exchangeable for silver certificates and smaller ones.

SUBSIDIARY SILVER COIN—Weight, 385.8 grains to the dollar; fineness, 900-1000; ratio to gold 14,953 to 1. Limit of issue, needs of the people. Denominations 10 cents, 25 cents, 50 cents; legal tender not to exceed $10; receivable for all dues up to $10; exchangeable for minor coin; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

MINOR COIN—Weight 5 cent piece, 77.16 grains, 75 per cent. copper, 25 per cent. nickel; 1 cent piece, 48 grains, 95 per cent. copper, 5 per cent. tin and zinc; limit of issue, needs of the people; legal tender not to exceed 25 cents; receivable for all dues up to 25 cents; redeemable in "lawful money" at the Treasury in sums or multiples of $20.

GOLD CERTIFICATES—Limit of issue for gold bullion to two-thirds of the amount of gold certificates outstanding; for gold coin, unlimited, unless gold coin reserve against United States notes (greenbacks) falls below $100,000,000; denominations, $10, $20, $50, $100, $500, $1,000, $5,000, $10,000; made legal tender by ac Dec. 24, 1919; receivable for all public dues; redeemable in gold coin at the Treasury.

SILVER CERTIFICATES—Unlimited as to issue for standard silver dollars; denominations, $1, $2, $5, $10, $20 $50, $100; not a legal tender; receivable for all public dues; redeemable in silver dollars at the Treasury.

UNITED STATES NOTES—Limit of issue, $346,681,016; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender for all debts, public and private, except customs and interest on the public debt; receivable for all public dues; redeemable in gold at the Treasury.

TREASURY NOTES OF 1890—No further issues; volume steadily diminishing by redemption in silver dollars; denominations, $1, $2, $5, $10, $20, $50, $100, $500, $1,000; legal tender, unlimited, unless otherwise contracted; receivable for all public dues; redeemable in gold or silver dollars at the Treasury.

NATIONAL BANK NOTES—Limit of issue not to exceed capital of banks; denominations, $5, $10, $20, $50, and $100; notes of denominations of $1, $2, $500 and $1,000 authorized, but none issued or available for issue; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE BANK NOTES—Issue unlimited, except that issue of $1 and $2 notes is subject to the limitations imposed by the Pittman Act, the deposit of the required security, and by the discretion of the Federal Reserve Board; denominations $1, $2, $5, $10, $20, $50, $100, $500, $1,000; not a legal tender; receivable for all public dues except customs; redeemable in "lawful money" at the Treasury or at bank of issue.

FEDERAL RESERVE NOTES—Limit of issue same as Federal Reserve Bank notes; denominations, $5, $10, $20, $50, $100, $500, $1,000, $ ,000, $10,000; not a legal tender; receivable for all public dues; redeemable in gold at the Treasury, and in gold or "lawful money" at any Federal Reserve Bank.

## MONEY IN CIRCULATION IN THE UNITED STATES.

(United States Treasury statement of the coin and paper circulation of the United States since 1860, with amount of circulation per capita.)

| 1922 | .... | 12,538,997 | 7,181,248,000 |

In the foregoing table the figures for 1890 to 1908, inclusive, but not subsequently, include the number of depositors and the amount of deposits in the State banks of Illinois having savings departments but not the number of such banks, by reason of the fact that general returns from these institutions are incorporated in State banks' returns.

## FEDERAL INCOME TAX CHART.

(Compiled by the Guaranty Trust Co., of N. Y., and based on the U. S. Revenue Act of Nov. 23, 1921.)

Chart shows the tax payable by a married person or head of a family, but does not take cognizance of any exemption for dependents.

| Net Income (See Note). | Rate of Normal Tax. | Rate of Surtax 1921. | Rate of Surtax 1922 & Thereafter. | Amount Subject to Surtax Between Change of Rates. | Amount of Normal Tax. | Amount of Surtax 1921. | Amount of Surtax 1922 and Thereafter. | Total Tax 1921. | Total Tax 1922 and Thereafter. |

Amount of surtax is the total of the instalments for the income considered.

In computing the tax in the above chart a personal exemption of $2,500 is allowed on incomes not in excess of $5,000. On incomes of $6,000 and over, $2,000 is allowed.

Many changes are made in the former law by this act, among which are the repeal of the excess-profits tax and the taxes on transportation, as of Jan. 1, 1922, and the reduction of the surtax to 50 per centum on individual income in excess of $200,000 for the year 1922 and thereafter.

For 1922 and thereafter an individual deriving gains from the sale or exchange of capital assets, may elect to have the gains taxed at the rate of 12½ per cent., the remainder of his net income being taxed in the usual manner for normal tax and surtax. If he elects to be so taxed, the total tax shall not be less than 12½ per cent. of the total net income.

For 1922 and thereafter, corporations are subject to income tax at the rate of 12½ per cent.

### ESTATE TAX.

| Net Estate. | | Rate of Tax. | Tax on Separate Amounts in First Column. | Tax on Totals of Amounts in First Column. | Net Estate. | Rate of Tax. | Tax on Separate Amounts in First Column. | Tax on Totals of Amounts in First Column. |

Personal net income exempt from normal tax in 1920 totalled $15,632,079,896.

For the year 1918 the returns of non-resident aliens and citizens residing abroad were segregated and reported as such in the statistics for that year, whereas in subsequent years it was considered advisable to credit each State with such returns filed therein.

## NUMBER OF TAXABLE PERSONAL INCOMES IN THE U. S.

(By States and by calendar years.)

The table shows the number of returns filed.

| States and Territories. | 1920. | 1919. | 1918. | 1917. | 1916. |
|---|---|---|---|---|---|
| Alabama | 52,984 | 40,789 | 38,988 | 21,844 | 2,097 |
| Alaska | 9,899 | 9,427 | 7,606 | 4,570 | 245 |

## RAILROAD AND PUBLIC SERVICE COMMISSIONERS.

(As of Sept. 1, 1922.)

### INTERSTATE COMMERCE COMMISSION.

Charles C. McChord, Chairman; Balthasar H. Meyer, Henry C. Hall, Winthrop M. Daniels, Clyde B. Aitchison, Joseph B. Eastman, Mark W. Potter, John J. Esch, Johnston B. Campbell, Ernest I. Lewis. Frederick I. Cox; George B. McGinty, Secretary.

ALABAMA Public Service Commission—A. G. Patterson, President; B. H. Cooper, S. P. Gaillard; Hugh White, Secretary.

ARIZONA Corporation Commission—D. F. Johnson, Chairman; Amos A. Betts, Loren Vaughn; F. J. K. McBride, Secretary.

ARKANSAS Railroad Commission—W. E. Floyd, Chairman; Joe Hardage, Joseph G. Walker; Harvey G. Combs, Secretary.

CALIFORNIA Railroad Commission—Harley W. Brundiage, President; Irvin Martin, Chester H. Rowell, H. Stanley Benedict; H. G. Mathewson, Secretary.

COLORADO Public Utilities Commission—Grant E. Halderman, Chairman; A. P. Anderson, F. P. Lannon; Charles H. Small, Secretary.

CONNECTICUT Public Utilities Commission—Richard T. Higgins, Chairman; C. C. Elwell, Joseph W. Alsop; Henry F. Billings, Secretary.

DISTRICT OF COLUMBIA Public Utilities Commission—Cuno H. Rudolph, President; James F. Oyster. Col. Charles Keller; Walter C. Allen, Secretary.

FLORIDA Railroad Commission—R. Hudson Burr, Chairman; A. D. Campbell, A. S. Wells; Lewis G. Thompson, Secretary.

GEORGIA Railroad Commission—Chas. Murphey Candler, Chairman; Paul B. Trammell, Vice-Chairman; James Perry, John T. Boifeuillet, J. D. Price; Albert Collier, Secretary.

IDAHO Public Utilities Commission—Geo. E. Erb, President; E. M. Sweeley, J. M. Thompson; C. J. Callahan, Secretary.

ILLINOIS Commerce Commission—Frank L. Smith, Chairman; Cicero J. Lindly, Hal W. Trovillion, P. H. Moynihan, James F. Sullivan, Alex. J. Johnson; Julius Johnson, Secretary.

INDIANA Public Service Commission—J. W. McCardle, Chairman; Glenn Van Auken, Oscar Ratts, Maurice Douglass, Edgar M. Blessing; L. C. Loughry, Secretary.

IOWA Board of Railroad Commissioners—Charles Webster, Chairman; Dwight N. Lewis, Fred P. Woodruff; Geo. L. McCaughan, Secretary.

KANSAS Public Utilities Commission—Clyde M. Reed, Chairman; H. A. Russell, J. W. Greenleaf; R. C. Dellinger, Secretary.

KENTUCKY Railroad Commission—J. S. Cooper, Chairman; Frank N. Burns, E. C. Kash; W. W. Jesse, Secretary.

LOUISIANA Public Service Commission—Hue P. Long Jr., Chairman; Shelby Taylor, Francis Williams; Henry Jastremski, Secretary.

MAINE Public Utilities Commission—Charles E. Gurney, Chairman; Herbert W. Trafton, Albert Greenlaw; George F. Giddings, Clerk.

MARYLAND Public Service Commission—William M. Maloy, Chairman; J. Frank Harper, Ezra B. Whitman; Benj. T. Fendall, Secretary.

MASSACHUSETTS Department of Public Utilities—Henry C. Attwill, Chairman; Everett E. Stone, Alonzo R. Weed, David A. Ellis, Henry G. Wells; A. A. Highlands, Secretary.

MICHIGAN Public Utilities Commission—Samuel Odell, Chairman; Earl R. Stewart, William M. Smith, William W. Potter, Sherman T. Handy; Peter Fagan, Secretary.

MINNESOTA Railroad and Warehouse Commission—O. P. B. Jacobson, Fred W. Putnam, Ivan Bowen; Thomas Yapp, Secretary.

MISSISSIPPI RAILROAD COMMISSION—C. M. Morgan, President; W. B. Wilson, S. B. Alexander; J. W. Williams, Secretary.

MISSOURI Public Service Commission—John A. Kurtz, Chairman; Edwin J. Bean, Noah W. Simpson, A. J. O'Reilly, Hugh McIndoe; L. H. Breuer, Secretary.

MONTANA Board of Railroad Commissioners—Lee Dennis, Chairman; Daniel Boyle, S. M. Ross; E. G. Toomey, Secretary and Counsel

NEBRASKA State Railway Commission—H. G. Taylor, Chairman; T. A. Browne, H. L. Cook, Hugh LaMaster; John E. Curtiss, Secretary.

NEVADA Public Service Commission—J. F. Shaughnessy, Chairman; W. H. Simmons, J. G. Scrugham; Benson Wright, Secretary.

NEW HAMPSHIRE Public Service Commission—William T. Gunnison, Chairman; Thomas W. D. Worthen, John W. Storrs; Walter H. Timm, Clerk.

NEW JERSEY Board of Public Utility Commissioners—Harry V. Osborne, President; Harry Bacharach, Joseph F. Autenreith; Alfred N. Barber, Secretary.

NEW MEXICO State Corporation Commission—Bonifacio Montoya, Chairman; Hugh H. Williams, J. M. Luna; A. L. Morrison, Clerk.

NEW YORK Public Service Commission—William A. Pendergast, Chairman; Wm. R. Pooley, Chas. Van Voorhis, Oliver C. Semple, Chas. G. Blakeslee; Francis E. Roberts, Secretary.

NEW YORK Transit Commission — George McAneny, Chairman; Le Roy T. Harkness, John F. O'Ryan; James B. Walker, Secretary.

NORTH CAROLINA Corporation Commission—William T. Lee, Chairman; Geo. P. Pell, A. J. Maxwell; R. O. Self, Clerk.

NORTH DAKOTA Board of Railroad Commissioners—Frank Milhollan, President; C. W. McDonnell, W. H. Stutsman; J. H. Calderhead, Secretary.

OHIO Public Utilities Commission—Geo. T. Poor, Chairman; Charles C. Marshall, Elisha A. Tinker; Jos. E. Baird, Secretary.

OKLAHOMA Corporation Commission—Campbell Russell, Chairman; Art. L. Walker, E. R. Hughes; G. F. Smith, Secretary.

OREGON Public Service Commission—Newton McCoy, Chairman; Hylen H. Corey, T. M. Kerrigan; Wm. P. Ellis, Secretary.

*d* Deficit. Operating income is the difference between operating revenues and operating expenses plus taxes and uncollectable revenues.

Net operating income (1920) $58,151,863; (1921) $614,810,531, including a net credit of $6,857,000 for adjustments on guaranty period reserves.

### SUMMARY FIRST SIX MONTHS OF 1922 FOR RAILWAYS.

Revenue tons of freight carried, 802,491,000; freight revenue, $1,859,121,583; revenue passengers carried. 475,016,000; passenger revenue, $502,763,758. Number of employees, 1,593,165; aggregate compensation in the six months, $1,259,424,262.

### RAILROAD DIVIDENDS AND INTEREST ON FUNDED DEBT.

| 1921 | 8,333,979 | 4,267,956 | 12,601,935 | 231,316 | 25,377,404 | 33,162,000 |
| 1922 | 8,914,155 | 4,466,064 | 13,380,219 | 224,288 | 27,819,821 | 35,027,000 |

"Bell Connected Stations" are independently owned, but are connected with Bell lines and exchanges for the interchange of local and long distance service. "Average Daily Messages" represents the number of messages during the year preceding the Jan. 1 date shown, and includes local, toll and long distance messages. Figures for employees, miles of wire, and average daily messages do not include statistics for the independently owned companies which connect with the Bell Telephone System.

Under date of 1919, figures for employees are as of July 31, 1918; figures for messages are for the first seven months of 1918. Under date of 1920, figures for messages are for the last five months of 1919. In the calendar year, 1915 and thereafter, all incomplete messages were rigidly excluded from the statistics.

The total number of telephones, without regard to ownership, in use in the United States on Jan. 1, 1922, was 13,847,752—one to every eight persons or every two families.

## BEAUMONT AND PORT ARTHUR SHIP CHANNEL.

(By Harvey W. Gilbert, member Waterway Committee.)

The Beaumont and Port Arthur ship channel has now become one of the greatest in the United States, both in value of exports and imports, as well as tonnage produced. The imports consist mainly of Mexican petroleum and a small amount of sisal. The first shipping done in this district was through the port of Sabine Pass, which was a natural outlet for the Neches and Sabine Rivers which passed into Sabine Lake and emptied into the Gulf through Sabine Pass.

Seven years ago the channel from Port Arthur to Beaumont was completed, the citizens of Jefferson County putting up one-half of the money to dig this channel, and the U. S. Government furnishing the other half, making a complete waterway from the Gulf up as far as Beaumont, thirty miles inland. The waterway has become the world's greatest oil refining centre.

The bulk of the lumber from the great pine regions of Eastern Texas, and Western Louisiana, as well as the sulphur production of Louisiana, use this waterway. Most of the petroleum from Kansas, Oklahoma, and Texas, is run through the Beaumont refineries. The late John W. Gates settled at and developed Port Arthur.

Approximately 300,000 barrels of petroleum are handled daily on the channel.

## TONNAGE EXPLAINED.

(By the U. S. Shipping Board.)

Deadweight Tonnage expresses the number of tons of 2,240 pounds that a vessel can transport of cargo, stores and bunker fuel. It is the difference between the number of tons of water a vessel displaces "light" and the number of tons it displaces when submerged to the "load water line." Deadweight tonnage is used interchangeably with deadweight carrying capacity. A vessel's capacity for weight cargo is less than its total deadweight tonnage.

Cargo Tonnage is either "weight" or "measurement." The weight ton in the United States and in British countries is the English long or gross ton of 2,240 pounds. In France and other countries having the metric system a weight ton is 2,204.6 pounds. A "measurement" ton is usually 40 cubic feet, but in some instances a larger number of cubic feet is taken for a ton. Most ocean package freight is taken at weight or measurement (W|M), ship's option.

Gross Tonnage applies to vessels, not to cargo. It is determined by dividing by 100 the contents, in cubic feet, of the vessel's closed-in spaces. A vessel ton is 100 cubic feet. The register of a vessel states both gross and net tonnage.

Net Tonnage is a vessel's gross tonnage minus deductions of space occupied by accommodations for crew, for machinery for navigation, by the engine room and fuel. A vessel's net tonnage expresses the space available for the accommodation of passengers and the stowage of cargo. A ton of cargo, in most instances, occupies less than 100 cubic feet; hence the vessel's cargo tonnage may exceed its net tonnage, and, indeed, the tonnage of cargo carried is usually greater than the gross tonnage.

Displacement of a vessel is the weight, in tons of 2,240 pounds, of the vessel and its contents. Displacement "light" is the weight of the vessel without stores, bunker fuel, or cargo. Displacement "loaded" is the weight of the vessel, plus cargo, fuel, and stores.

For a modern freight steamer the following relative tonnage figures would ordinarily be approximately correct: net tonnage, 4,000; gross tonnage, 6,000; deadweight carrying capacity, 10,000; displacement loaded, about 13,350.

Exclusive of lives lost on vessels suffering no material damage.

The above table covers wrecks and casualties on and near the United States coasts, on United States rivers and the Great Lakes, at sea, and on the coasts of foreign countries. Of the 1922 casualties, for example, 40 of the vessels were lost, with 57 lives, at sea and on foreign coasts.

*Interior* includes Col., Ind., Iowa, Ky., Minn., Omaha, Pittsburgh, St. Louis, Tenn., Utah, and Nev.

The extension of rail and water routes to the East, West and South coasts of the United States has transferred the export trade to the great coast ports. The import figures at the *Interior* points mostly relate to parcel post and other mail, and express, matter.

### OTHER NATIONALITIES, NOT INCLUDED IN TABLE.

Number of farmers born in—Scotland, 7,605; Wales, 2,472; Holland, 15,589; Switzerland, 13,051; France, 6,119; Poland, 17,352; Finland, 14,988; Roumania, 693; Greece, 846; Portugal, 4,254; other European countries not in the table, 20,107; Mexico, 12,142; all other countries, 7,765.

*Note by the Census Bureau*—The foreign countries which contributed the largest numbers to the total of 581,068 foreign-born white farmers in the United States as reported for 1920, were as follows: Germany, 140,667; Sweden, 60,461; Norway, 51,599; Canada, 48,668; Russia, 32,388; Austria, 30,172; England, 26,614; and Denmark, 25,565.

It should be noted that this order by no means corresponds to the order in which the various foreign countries have contributed to the total population of the United States.

The immigrants from certain countries, notably Italy, Poland, and Ireland, have gone chiefly into pursuits other than agricultural.

### FOREIGN-BORN WHITE FARMERS IN 1910.

The number of foreign-born white farmers in the United States in 1910, by the Federal Census of that year, by chief races, was as follows: Germany, 221,800; Sweden, 67,453; Canada, 61,878; Norway, 59,742; England, 39,728; Ireland, 33,480; Austria, 33,336; Denmark, 28,375; Russia, 25,788; Switzerland, 14,333; Holland, 13,790; Italy, 10,614; Scotland, 10,220; Poland, 7,228; France, 5,832; Wales, 4,110; Hungary, 3,827.

### FARM MIGRATIONS TO AND FROM CANADA.

The number of Canadian farmers in the United States in 1920 (48,668) was offset, approximately, by the number of farmers born in the United States who are now cultivating land in Canada. This migration across the international border is largely in the Northwest, and is due to the gradual movement north of the wheat-growing lands. There are in the eastern provinces of the Dominion comparatively few farmers who were born in the United States, the migration having been chiefly by the French Canadians into this country, where they engaged in the intensive cultivation of small tracts in New England.

## VALUE OF FARM PROPERTY IN THE U. S.—1850-1920.

(By the Census Bureau.)

| Census Year. | All Farm Property | Land. | Buildings. | Implements and Machinery. | Live Stock. |
|---|---|---|---|---|---|
| 1850 | $3,967,343,580 | $3,271,575,426 | ..... | $151,587,638 | $544,180,516 |
| 1860 | 7,980,493,063 | 6,645,045,007 | ..... | 246,118,141 | 1,089,329,915 |
| 1870 | 8,944,857,749 | 7,444,054,462 | ..... | 270,913,678 | 1,229,889,609 |
| 1880 | 12,180,501,538 | 10,197,096,776 | ..... | 406,520,055 | 1,576,884,707 |
| 1890 | 16,082,267,689 | 13,279,252,649 | ..... | 494,247,467 | 2,308,767,573 |
| 1900 | 20,439,901,164 | 13,058,007,995 | $3,556,639,496 | 749,775,970 | 3,075,477,703 |
| 1910 | 40,991,449,090 | 28,475,674,169 | 6,325,451,528 | 1,265,149,783 | 4,925,173,610 |
| 1920 | 77,924,100,338 | 54,829,563,059 | 11,486,439,543 | 3,594,772,928 | 8,013,324,808 |

Until 1900 land and buildings were not separately stated; including only the reported value of live stock on farms until 1870; including estimated value of live stock on ranges; exclusive of Alaska and Hawaii after 1890; including value of live stock on ranges as well as on farms until 1900; exclusive of Porto Rico in 1910.

The average value of land and buildings per acre of land in farms in the United States in 1920 was $69.38, as compared with $39.60 in 1910.

The average value of land and buildings per farm for the United States as a whole in 1920 was $10,284, as compared with $5,471 in 1910.

In the census reports a distinction is made between farmers operating their own land only and farmers who hire some land in addition to that which they own. The former are classified as "full owners" and the latter as "part owners." The value of farms operated by full owners in 1920 was $30,717,493,565, and of those operated by part owners, $9,156,810,001. The corresponding figures for 1910 were: Full owners, $17,310,639,016, and part owners, $5,056,295,262.

## ANNUAL LOSS IN THE UNITED STATES CAUSED BY INSECTS.

Farm Crops—Cereals, $430,204,600; hay, $116,230,500; cotton, $140,631,100; tobacco, $16,900,800, vegetables, $199,412,600; sugar crops, $8,436,800; fruits, $141,264,300; farm-forest products, $22,138,900; other crops, $29,649,700; farm crop total, $1,104,869,300.

Forests and forest products $100,000,000; products in storage, $100,000,000; insect-borne diseases of man, $150,000,000; damage to domestic animals, $100,000,000; grand total, $1,554,869,300.

### MAJORITY OF INSECTS HELPFUL TO MAN.

As against over 7,000 deaths per year due to railroad accidents there are 97,200 deaths each year in this country due to malaria and intestinal diseases, spread by insect carriers. And while in the whole Spanish War only 300 men were killed by Spanish bullets, 5,000 died of fly-borne diseases. Yet the great majority of insects are either harmless or beneficial to man.

Although we are able to determine the damage done by insects it is impossible to calculate the benefits they confer. Practically no fruits could be formed without the blossom-pollinating aid of insects, and in the production of a harvest, insects, especially bees, of course, dwarf into insignificance all modern implements of husbandry.

It would be impossible to get a single crop of red clover without the aid of insects, and the present scarcity of bumble bees, who usually perform this service, is making itself felt in the smaller crops and lower vitality of the clover seed.

Their importance in this connection was realized in Australia and the Philippine Islands, which imported bumble bees for the sake of their clover crops. Figs could not be successfully grown in this country until a fig pollinating insect was imported from the Mediterranean countries.

A great majority of the beautiful flowers depend on insects for the development of their seed.

## VALUE OF FARM CROPS PER ACRE (1919).

Sugar beets and sugar cane, $108.83; potatoes, $144.54; sweet potatoes, $135.10; hay, $32.54; corn, $38.52; wheat, $27.76; oats, $21.02; rye, $16.81; barley, $27.10; buckwheat, $30.26; rice, $104.58; peanuts, $65.04; beans, (6 States), $50.93; clover-seed, $42.40; kafirs, $32.80; cow peas, $14.76; cotton, $50.71; flaxseed, $21.47; tobacco, $296.90.

## FARM MORTGAGE DEBT, BY STATES.

### CENSUS BUREAU'S NOTE TO FARM MORTGAGE TABLE.

While the figures given above relative to the number of mortgaged farms in the United States include the farms operated by part owners—that is, farms whose owners hired some additional land—the figures representing the amount of the mortgage debt relate only to those farms which consisted wholly of land owned by the operator.

This limitation was made necessary by the difficulty of ascertaining the value of that part of the farm which was covered by the mortgage, where the farmer owned a part of the farm and hired a part of it.

### OWNERSHIP OF MORTGAGED FARMS.

The total number of farms reported as mortgaged in 1920 (1,461,306) comprised 1,217,234 farms operated by full owners and 244,072 farms operated by part owners.

The number of farms operated by full owners for which the amount of mortgage debt was reported in 1920 was 1,193,047, as compared with 1,006,511 in 1910.

The amount of the farm mortgage debt reported was $4,003,767,192 in 1920, as against $1,726,172,851 in 1910.

### INCREASE IN MORTGAGE DEBT.

The amount of debt thus increased $2,277,594,341, or 131.9 per cent., while the value of the mortgaged farms increased 117.6 per cent. during the decade.

The value of the farms for which the amount of the mortgage debt was reported in 1920 was $13,775,500,013.

The debt therefore represented 29.1 per cent. of the value, as compared with 27.3 per cent. in 1910.

The average rate of interest paid on farm mortgages in the United States in 1920 was 6.1 per cent.

## IRRIGATION IN THE UNITED STATES.

THE climatic conditions having the largest influence in determining the necessity for irrigation are the amount and seasonable distribution of precipitation, particularly rainfall, while wind movement and relative humidity also have an influence.

In that part of the United States lying east of the arid and semi-arid States the normal annual precipitation exceeds 25 inches and is so distributed throughout the year as to provide sufficient moisture for the growing of general farm crops. In this section short periods of drought occur sufficiently often to make irrigation desirable for such crops as truck and small fruits, which may be damaged to a large extent by lack of moisture for even short periods, although the irrigation of these crops is not general. Seasons with too little rainfall for the proper growth of general crops occur, but not sufficiently often to justify making provision for irrigation.

Arkansas, Louisiana, and Eastern Texas have a normal annual precipitation of from 40 to 50 inches, which is ample for all crops except rice. It is necessary to keep water standing on rice fields during most of the growing period of this crop, and for this the rainfall is not sufficient. Irrigation in this section is practically confined to the rice fields.

### THE SEMI-ARID REGION.

The States of North and South Dakota, Nebraska, Kansas, Oklahoma, and Western Texas lie in the so-called semi-arid region, and have a normal annual precipitation varying from about 15 inches at their western boundaries to about 25 or more inches at their eastern boundaries. In this section success in growing crops without irrigation varies from year to year according to the amount and distribution of the rainfall, and the practice of irrigation advances eastward and recedes to the west with periods of deficient or excessive rainfall.

The same condition exists on the plains in the eastern parts of Montana, Wyoming, Colorado, and New Mexico. Here crops are grown on the high plains without irrigation, with varying success, while irrigation is generally practised in the stream valleys.

The main ranges of the Rocky Mountains extend through Montana, Wyoming, Colorado, and New Mexico. On the high mountains the precipitation, particularly snowfall, is heavy, while in the valleys between the ranges the precipitation is light and irrigation is necessary for the growing of most crops.

### THE REAL ARID REGION.

West of the Rocky Mountains and between them and the Sierra Nevada and Cascade Mountains and extending from the Mexican boundary to Central Idaho is the real arid region of the United States. Here the normal annual precipitation varies from about 2 inches in Southwestern Arizona and Southeastern California to about 8 inches in Southern Idaho. In this section, comprising the larger parts of Arizona, Nevada and Utah, and considerable parts of California, Oregon, Washington and Idaho almost no crops can be grown in the valleys without irrigation. On the higher lands in Arizona, Utah Idaho, Oregon, and Washington the precipitation is greater and grain and forage crops are grown without irrigation. Northern Idaho, Northwestern Montana, and Northeastern Washington receive sufficient precipitation for growing crops without irrigation.

West of the Sierra Nevada and Cascade Mountains there is a great variation in rainfall. The western coast of Washington and Oregon receives the heaviest precipitation of any part of the United States, but there is a dry period in the late summer, during which irrigation is desirable for crops which make their growth during this period. Irrigation is practised to a limited extent for pastures, vegetables, and fruits.

### IN CALIFORNIA.

Throughout California there is a well-defined wet season in the winter months, and an equally well-defined dry season in summer. Most of the northern part of the State receives sufficient rainfall to mature crops if it were distributed throughout the year, but the growing of crops in late summer requires irrigation. On the other hand, most of the southern part of the State receives less moisture than is usually considered necessary for crop growing, but the concentration of the year's precipitation in the winter and spring makes it possible to mature crops where it would not be possible were the rainfall more widely distributed throughout the year.

The products shown for 1919 include chicken eggs and chickens only, while the 1909 figures include the products of all kinds of poultry. The figures represent the value of the total production of eggs and chickens, including estimates for farms reporting chickens on hand but no eggs or no chickens raised.

## MILK AND BUTTER PRODUCED AND USED IN THE U. S.

(Data and estimates are by the U. S. Dept. of Agriculture.)

The total production of milk in the United States was 98,862,276,000 lbs. in 1921. This shows increase over 1920, when production was 89,658,000,000 lbs. On the basis of production per capita of population this amounted to an increase from 100 gals. (860 lbs.) in 1920 to 107 gals. in 1921.

Milk cows on farms increased 341,000 head during 1921, there being 24,028,000 head on Jan. 1, 1922, compared with 23,594,000 head on Jan. 1, 1921, with an average for the year of 23,811,000 head. In addition, the number of milk cows not on farms was estimated at 1,250,000.

A very great increase in the quantity of creamery butter manufactured occurred during 1921, the total production for the year being 1,054,938,000 lbs., an increase over 1920 of 191,360,000 lbs. The total production of farm and factory butter, exclusive of whey butter, for the year 1921 is estimated to have amounted to 1,705,438,000 lbs., notwithstanding the regular decrease in production of farm butter. This increase of 166,361,000 lbs. in total butter production accounts for the utilization of an additional 3,494,000,000 lbs. of milk during 1921 over the previous year.

Although there was a small decrease in the total production of cheese from 362,431,000 lbs. in 1920 to 355,838,000 lbs. in 1921, the production of whole milk American cheese alone increased from 254,684,000 lbs. to 261,727,000 lbs. during this period.

Condensed and evaporated milk production decreased 113,852,000 lbs. during 1921, dropping from 1,578,015,000 lbs. in 1920 to 1,464,163,000 lbs. Milk powder production also declined from 10,334,000 lbs. in 1920 to 4,243,000 lbs. in 1921.

The increase in the amount of whole milk used for household purposes during 1921, approximating 5,000,000,000 lbs., accounts for the largest share of the total increase over 1920 in the consumption of milk. The average consumption of milk and cream in cities was obtained from reports from 300 cities with a total population of 33,676,563, nearly one-third of the population of the United States. On the basis of this survey, the average quantity of whole milk consumed per person in the cities was estimated at 0.668 of a pint daily, and, in addition, the consumption of cream accounted for the utilization of 0.167 of a pint of milk, making a total equivalent to 0.835 of a pint of whole milk.

Combining the rural and urban consumption, the average per capita consumption of whole milk as milk and cream for household purposes was 1.08 pints daily. This is equal to 49 gals. of milk annually, which is the largest annual per capita consumption on record in this country.

Ice cream production, as indicated by reports from manufacturers, decreased 6% in 1921 compared with 1920. Applying this rate of decrease to the estimated total production of 260,000,000 gals. in 1920, the 1921 production is estimated at 244,000,000 gals.

The average yield of the 25,061,000 milk cows in the United States in 1921 was 3,945 lbs. of milk.

Vegetables include potatoes and sweet potatoes. Hay and forage include $206,934,650 of corn cut for forage.

The 1919 figures include the value of corn cut for forage, which crop was not reported to any extent in 1909. The value of corn cut for forage in the United States in 1919 was $206,934,650, or 8.2 per cent. of the total value of hay and forage.

**Forest Products of Farms**—Value of in 1919: Sold, or cut and held for sale, $217,716,046; used on farm, $176,605,782.

**Nursery and Greenhouse Products**—Value of in 1919: Nursery, $20,434,389; greenhouse, $77,380,230, of which $61,892,352 was from flowers and flowering plants, and $15,487,878 from vegetables and vegetable plants.

In New York State, nursery products sold for $2,310,253; greenhouse products for $8,689,325.

### INCREASE OF VALUE IN FARM CROPS.

The total value of farm crops harvested in 1919 (excluding forest products and nursery and greenhouse products) was $14,755,364,894, as against $5,231,850,683 in 1909. These figures represent an increase of $9,523,514,211, or 182 per cent., for the decade. This increase in the value of farm crops is due mainly to the fact that the prices of crops were unusually high in the year 1919. A tabulation of the quantities of all the important crops harvested in 1919, with values computed on the basis of 1909 prices, indicates an increase of 8.6 per cent. So much of the increase in value, therefore, may be attributed to increased production and the remainder to higher prices.

### VALUE OF FARM CROPS IN 1909.

(Figures represent dollars.)

Cereals, total, 2,655,539,714; corn, 1,438,553,919; wheat, 657,656,801; oats, 414,697,422; other cereals, 154,631,572.

Hay and forage, excluding corn cut for forage, 826,401,175.

Vegetables, total, 418,110,154. Potatoes (white), 166,423,910; sweet potatoes and yams, 35,429,176; other vegetables, 216,257,068.

Tobacco, 704,302,856.

Cotton (including cottonseed), 824,696,287.

All other crops, 392,800,497.

Total of all crops, 5,231,850,683.

| 1921 | 62,408,000 | 794,893,000 | 737,068,000 | 103,850,000 | 3,080,372,000 | 1,302,670,000 |
| 1922 | 56,770,000 | 818,000,000 | 720,600,000 | 103,234,000 | 2,875,000,000 | 1,801,900,000 |

The 1922 wheat and corn figures are September estimates of the U. S. Dept. of Agriculture.
Winter wheat production in 1921 was 587,032,000 bushels; spring wheat, 207,861,000 bushels.
It is estimated that the ear worm, in 1921, damaged 175,612,000 bushels of corn.

## YIELDS OF OATS AND RYE IN THE UNITED STATES.

| Year. (Cal.) | Oats. | | | Rye. | | |
|---|---|---|---|---|---|---|
| | Acres. | Bushels. | Dollars. | Acres. | Bushels. | Dollars. |
| 1900 | 27,365,000 | 809,126,000 | 208,669,000 | 1,591,000 | 23,996,000 | 12,295,000 |

Of the 1921 cotton crop, 2,198,158 bales (500-lbs.) were produced in Texas; 813,014 in Mississippi; 796,936 in Arkansas; 787,084 in Georgia; 776,222 in North Carolina; 754,560 in South Carolina; 580,222 in Alabama; 481,286 in Oklahoma; 301,950 in Tennessee; 278,858 in Louisiana; 69,931 in Missouri; 45,323 in Arizona; 34,109 in California; 16,368 in Virginia; 10,905 in Florida; and 8,715 in other States, including Kentucky and New Mexico, and the linter production of Arizona, California, Florida, Illinois, and Missouri.

In 1921 the cotton mills in the United States consumed 5,408,979 bales of 500 lbs. of which the Southern mills used 3,151,954 bales.

There are over 36,000,000 active cotton spindles in mills in the United States.

Production of cotton seed oil in 1921 was 123,815,000 gallons; cake and meal, 1,352,000 short tons.

Loss of cotton, due to boll weevil insects in the fields, in 1921 was 6,277,000 bales.

| 1922 | 235,500,000 | 920,354 | 234,579,646 | 255,087,236 | 2,954,869 | 252,132,367 |

Production figures exclude pulled wool, estimated at 42,500,000 lbs. for 1922.

The number of woollen mills in the United States exceeds 1,000, and there are about 80,000 looms, over 8,000 of which are used in making carpets and rugs. The number of active spinning spindles exceeds 4,000,000, pretty evenly divided between woollens and worsteds. There are usually from 250,000 to 500,000 idle spindles.

| 1922..... | 454,234,000 | 1,348,000,000 | 1,802,234,000 | 8,464,305,446 | 200,772,997 | 2,033,682,510 | 39,177,600,000 |

The 1922 U. S. cane sugar production figures do not include Texas.

**Sugar Consumption in the U. S.**—(1921), 10,548,451,000 lbs. (97.8 lbs. per capita, as against 58.8 lbs. per capita in 1900). The average net cash price of granulated sugar in 1921 was 6.2 cents a pound.

### IMPORTS AND EXPORTS OF SUGAR, ETC., IN DETAIL.

(For year ended June 30, 1922. Values are in parentheses.)

Imports—Cane sugar (from Cuba), 7,720,255,237 lbs. ($171,300,590); cane sugar (from Philippines), 538,468,567 lbs. ($21,656,224); cane sugar (from Dominica), 93,067,270 lbs. ($2,502,158); cane sugar (from Central America), 43,738,907 lbs. ($1,219,396); molasses, 87,911,060 gals. ($1,673,354); beet sugar, 29,387 lbs. ($1,164); maple sugar and maple syrup, 3,672,489 lbs. ($341,861); sugar candy and confectionery, 870,305 lbs. ($261,872).

Exports of domestic—sugar, 2,002,038,450 lbs. ($77,447,331); molasses, 5,774,935 gals. ($696,916); confectionery, including sweet chocolate, $1,718,665; chewing gum, $824,186; maple sugar and maple syrup (Jan. 1 to June 30, 1922), 242,056 lbs. ($46,214); honey, 2,406,922 lbs. ($261,899); glucose (corn syrup), 258,447,893 lbs. ($6,109,862); grape sugar (corn sugar), 15,534,234 lbs. ($448,244); syrup, 6,717,062 gals. ($1,808,758).

### THE SUGAR INDUSTRY IN THE U. S.

Practically all of the cane sugar is manufactured in La. Ohio, Utah and Wis., and other States, including Col., Idaho, Ill. and Neb. Beet sugar is manufactured in Cal., Mich.

The 1922 tobacco crop was estimated, Sept. 1, by the Dept. of Agriculture, at 1,353,000,000 pounds. Tobacco exports and imports are of the fiscal years ending in year after year named in stub.

### TOBACCO IMPORTS AND EXPORTS.

(For year ended June 30, 1922. Values are in parentheses.)

Imports—Philippine leaf, 503,840 lbs. ($56,954); cigar leaf from other countries, 5,211,021 lbs.($10,940,393); all other leaf, 59,510,576 lbs. ($46,052,498); cigars, cheroots and cigarettes, 1,894,913 lbs. ($5,940,906).

Exports of domestic—Leaf, 451,555,221 lbs. ($156,728,904); stems, scrap, etc., 11,242,130 lbs. ($540,452); cigars and cheroots, 1,096 thousand ($23,265); cigarettes, 9,601,781 thousand ($20,645,019); plug, 3,021,907 lbs. ($1,503,359); smoking tobacco, 2,307,036 lbs. ($943,579); snuff (Jan. 1 to June 30, 1922), 4,561 lbs. ($2,776); other tobacco manufactures $445,383.

Primary horsepower, 43,397.

### TYPES OF AMERICAN TOBACCO.

The leading types of tobacco held are "bright yellow," grown in Virginia, North Carolina, South Carolina, and Georgia, and "burley," grown almost entirely in Kentucky, Indiana, Ohio, and West Virginia. The production of these types is greater than that of any others, and it is therefore to be expected that they would lead in the quantities held at the several report dates.

The type of tobacco ranking third, so far as quantity is concerned, is "dark fired," which is grown in the Clarksville, Hopkinsville, and Paducah districts.

Of the "cigar" types, "Pennsylvania" led in the quantity held for the several report dates prior to January, 1921, being closely followed in this respect by the "Ohio," "Wisconsin," and "New England" types. Since that date "Wisconsin" ranks first.

## WHAT AMERICANS DRINK.

The table does not include for any year withdrawals of distilled spirits for scientific purposes and for use of the United States, or since 1906 withdrawals for denaturation, free of tax.

Production of denatured alcohol in year ended June 30, 1921, totalled, 22,388,825 wine gallons (38,812,139 proof gallons) of which, 12,392,595 wine gallons were completely denatured.

### "NEAR BEER" PRODUCTION.

(Barrels of not more than 31 gallons, year ended June 30, 1921.)

California, 246,053; Colorado, 37,218; Connecticut, 227,716; Delaware, 11,593; District of Columbia, 24,395; Georgia, 14,859; Idaho, 500; Illinois, 964,617; Indiana, 147,262; Kentucky, 130,586; Louisiana and Mississippi, 150,259; Maryland and two lower counties of Virginia, 141,026; Massachusetts, 201,630; Michigan, 193,469; Minnesota, 208,914; Missouri, 841,067; Nebraska, 31,991; Nevada, 5,677; New Jersey, 548,237; New York, 2,258,385; Ohio, 725,617; Pennsylvania, 1,286,227; Rhode Island, 82,577; Tennessee, 37,794; Texas, 60,565; Utah, 1,707; Washington, 8,145; Wisconsin, 629,049; Wyoming, 3,043—Total, 9,220,188.

### IMPORTS AND EXPORTS OF SPIRITS, WINES, AND BEVERAGES.

(For year ended June 30, 1922. Values are in parentheses.)

Imports—Malt liquors, 53 gal. ($62); brandy, 8,507 gal. ($32,210); cordials, 74,432 gal. ($214,164); gin, 10,304 gal. ($21,090); whiskey, 285,441 gal. ($1,246,263); champagne and other sparkling wines, 13,606 doz. qts. ($277,869); still wines (in casks), 492,715 gal. ($533,170); still wines (in other covers), 60,529 doz. qts. ($379,573); mineral waters, 198,239 doz. qts. ($197,083); other beverages, $324,711.

Exports of domestic—Malt beverages, 37,594 gal. ($34,146); distilled liquors, 185,910 gal. ($676,584); wines, 20,628 gal ($26,668); mineral waters (Jan. 1 to June 30, 1922), 86,813 gal. ($69,054); other beverages, $391,430.

| Alaska Territory (1920) | 788 | 90,672 | 27,482 | 70,986,221 | 41,492,124 |
| Total | 7,389 | 210,278 | 192,328 | $172,670,989 | $108,215,348 |

The Alaska seal herd (1921) numbered 587,820; 23,000 were killed for skins.

Hudson River shad fishery (1920), 199,844 lbs. ($56,309).

The Pacific Coast salmon pack in 1920 was 6,289,321 cases. Of the total pack 4,395,937 cases came from Alaska, 1,187,616 from British Columbia, 166,520 from Puget Sound, and 481,545 from Columbia River.

The U. S. Bureau of Fisheries, in 1921, distributed 1,109,637,130 fish eggs; 3,626,262,730 small fry, and 226,589,545 fingerlings and yearlings. Chief varieties were: flounder, cod, pollock, whitefish, haddock, pike, perch, buffalo fish and cisco.

### FISH IMPORTS AND EXPORTS.

(For the year ended June 30, 1922. Values in parentheses.)

Imports—Cod, haddock, hake, and pollock (cured or preserved), 53,706,375 lbs. ($3,241,824); fish in oil, 20,174,952 lbs. ($3,848,400); herring, 64,073,724 lbs. ($3,435,383); mackerel, 12,505,648 lbs. ($988,-132); all other cured, 12,240,690 lbs. ($1,724,537); halibut (fresh), 26,536,184 lbs. ($3,165,740); salmon (fresh), 11,699,953 lbs. ($1,113,902); smelts (fresh), 8,273,758 lbs. ($1,057,916); all other, fresh, 72,976,-400 lbs. ($5,122,088); crab meat, 3,677 629 lbs. ($1,600,484); lobsters (canned), 1,894,896 lbs. ($991,608); lobsters (all other), 7,072,424 lbs. ($1,-234,611); shrimps and turtles, $744,295.

Exports of domestic—Salmon (canned), 69,213,635 lbs. ($9,239,217); sardines (Jan. 1 to June 30, 1922), 7,040,787 lbs. ($594,849); oysters, $529,016; total fish, all kinds, $16,846,314.

## BIRD COUNT IN THE UNITED STATES.

(By the Chief of the Bureau of Biological Survey, United States Department of Agriculture.)

It has been ascertained through these counts that birds in the agricultural districts in the Northeastern United States average slightly more than a pair to the acre, though in parts of the arid West and on the treeless plains this number dwindles to an average of half a pair, or even less, to the acre.

By far the most abundant birds in the United States are the robin and the English sparrow, but several others are common enough to make their total numbers run well into the millions. The counts so far show that the most abundant bird on farms in the Northeastern States is the robin; next to this is the English sparrow, and following these are the catbird, brown thrasher, house wren, kingbird and bluebird, in the order named. The densest bird population anywhere recorded is near Washington, D. C., where a careful count showed, in 1915, one hundred and thirty-five pairs of forty species on five acres. Two city blocks, well furnished with trees, in the city of Aiken, S. C., harbored sixty-five pairs on ten acres.

Some species of ducks and geese and other water birds, together with certain land birds, are decidedly on the increase, while others, some few, appear to be steadily decreasing; but as a whole the bird population seems to be now on the increase. A few species, however, such as the trumpeter swan, Eskimo curlew, Carolina paroquet, and the ivory-billed woodpecker seem to be rapidly decreasing in numbers and may be on the verge of extinction.

### BIRD RESERVATIONS OF NAT. ASSOC. OF AUDUBON SOCIETIES.

Pass A'Loutre Mud Lumps, La.
Freeman's Rock, Me.
Stratton Island, Me.
Little Duck Island, Me.
Matinicus Rock, Me.
Great Duck Island, Me.
Moosehead Lake, Me.
Nash Island, Me.
Old Man's Land, Me.
Cranberry Island, Me.
Wepecket Island, Mass
Huron Islands, Mich.
Cobb Island, Va.
Metrie Island, Me.
Orange Lake, Fla.
Micanopy Rookery, Fla.
Stagger's Prairie, Fla.
Fowler's Prairie, Fla.
Orange Creek, Fla.
Sampson Lake, Fla.
Long Pond, Fla.
Buzzard Island, S. C.
Bird Island, La.
Ray's Lake, La.
Montgomery Prairie, Fla.
San Sebastian Rookeries, Fla.
Craney Island, N. C.
Bird Pond, Fla.
Hogtown Creek, Fla.
Bear Lake, Fla.
Wallace Bay, Fla.
River Styx, Fla.

## MINERAL PRODUCTS—STATES THEY COME FROM.

| Mineral. | Chief Producing States. |
|---|---|
| Aluminum | N. Y., Tenn., N. C. |
| Antimonial lead | Not separable by States. |
| Antimony ore | Nev., Alaska, Idaho. |
| Arsenious oxide | Not separable by States. |
| Asbestos | Ariz., Ga., Cal., Md. |
| Asphalt | Tex., Cal., Okla., Ill. |
| Barytes (crude) | Ga., Mo., Tenn., Ky. |
| Bauxite | Ark., Ga., Ala., Tenn. |
| Borax (crude) | Cal. |
| Bromine | Mich., Ohio, W. Va. |
| Cadmium | Not separable by States. |
| Calcium-magnes. chloride | Mich., Ohio, W. Va., Cal. |
| Cement | Pa., Ind., Mo., Cal. |
| Chromic iron ore | Cal., Ore., Alaska, N. C. |
| Clay: Products | Ohio, Pa., N. J., Ill. |
| Raw | Mo., Pa., N. J., Ohio. |
| Coal: Bituminous | Pa., W. Va., Ill., Ohio. |
| Anthracite | Pa. |
| Coke | Pa., Ala., Ohio, Ind. |
| Copper | Ariz., Mont., Mich., Utah. |
| Diatomaceous (infusorial) earth and tripoli | Cal., Pa., Ill., Mo. |
| Emery and corundum | N. Y., N. C., Va. |
| Feldspar | Me., N. C., Pa., N. Y. |
| Ferroalloys | Pa., N. Y., Va., Ala. |
| Fluorspar | Ill., Ky., Col., N. Mex. |
| Fuller's earth | Fla., Ga., Tex., Ark. |
| Garnet, for abras. purposes | N. Y., N. H., N. C. |
| Gems and precious stones | Mont., Nev., Cal., Ariz. |
| Gold | Cal., Col., Alaska, Nev. |
| Graphite | Ala., N. Y., Pa., R. I. |
| Grindstones-pulpstones | Ohio, W. Va., Mich. |
| Gypsum | N. Y., Iowa, Mich., Ohio. |
| Iron: Ore | Minn., Mich., Ala., N. Y. |
| Pig | Pa., Ohio, Ill., Ala. |
| Lead | Mo., Idaho, Utah, Okla. |
| Lime | Pa., Ohio, Va., Mo. |
| Magnesite (crude) | Cal., Wash. |
| Manganese ore | Mont., Cal., Ariz., Nev. |
| Mica | N. C., N. H., Va., Ga. |
| Millstones | N. Y., Va., N. C. |
| Mineral paints: Nat. pig. | Canvass discontinued. |
| Zinc and lead pigments | Pa., Wis., Kan., Mo. |
| Mineral waters | Wis., N. Y., Cal., Me. |
| Natural gas | W. Va., Pa., Ohio, Okla. |
| Natural-gas gasoline | Okla., W. Va., Cal., Pa. |
| Nickel | Not separable by States. |
| Oilstones, etc | Ala., Ind., Ohio, Vt. |
| Peat | N. J., Ill., Cal., Mass. |
| Petroleum | Okla., Cal., Kan., Tex. |
| Phosphate rock | Fla., Tenn., S. C., Ky. |
| Platinum, allied metals | Nev., Cal., Wyo., Alaska. |
| Potash | Neb., Cal., Utah, Wis. |
| Pumice | Kan., Neb., Cal. |
| Pyrite | Va., N. Y., Cal., Ga. |
| Quicksilver | Cal., Tex., Nev., Ore. |
| Salt | Mich., N. Y., Ohio, Kan. |
| Sand and gravel | Pa., Ohio, Ill., N. J. |
| Sand-lime brick | Mich., Minn., N. Y., Pa. |
| Silica (quartz) | Conn., Md., Tenn., Wis. |
| Silver | Utah, Mont., Idaho, Nev. |
| Slate | Pa., Vt., Me., Va. |
| Stone | Pa., Ohio, Vt., Mich. |
| Sulphur | La., Tex., Wyo., Nev. |
| Suphur. acid from copper and zinc sm | Pa., Ill., Ohio, Tenn. |
| Talc and soapstone | N. Y., Vt., Va., Cal. |
| Thorium miner. (monazite) | N. C. |
| Tin | Alaska, S. D., S. C. |
| Titanium ore (rutile) | Va. |
| Tungsten ore | Cal., Col., Ariz., Nev. |
| Uranium-vanadium mins. | Col., Utah. |
| Zinc | N. J., Mo., Mont., Okla. |

## MINERAL PRODUCING STATES AND THEIR LEADING MINERAL PRODUCTS.

| State. | Principal Mineral Products. | State. | Principal Mineral Products. |
|---|---|---|---|
| Ala. | Coal, iron ore, clay products, cement. | Mont. | Copper, zinc, silver, coal. |
| Alaska. | Copper, gold, silver, coal. | Neb. | Potash, clay products, stone, sand, gravel. |
| Ariz. | Copper, silver, gold, lead. | Nev. | Copper, silver, gold, lead. |
| Ark. | Coal, bauxite, natural gas, clay products. | N. H. | Stone, clay products, mica, sand, gravel. |
| Cal. | Petroleum, gold, copper, natural gas. | N. J. | Zinc, clay products, cement, sand, gravel. |
| Col. | Coal, gold, zinc, silver. | N. M. | Copper, coal, zinc, silver. |
| Conn. | Clay products, stone, lime, sand, gravel. | N. Y. | Clay products, iron ore, cement, salt. |
| Del. | Stone, clay prod., sand, gravel, min. water. | N. C. | Stone, clay products, mica, iron ore. |
| D. of C. | Clay prod. sand-lime brick, stone, min. wat. | N. D. | Coal, clay prod., min. wat., sand-lime brick. |
| Fla. | Phosph. rock, stone, fuller's earth, clay prod. | Ohio. | Coal, clay products, petroleum, natural gas. |
| Ga. | Clay products, stone, iron ore, cement. | Okla. | Petrol., nat.-gas gasoline, zinc, coal. |
| Idaho. | Lead, silver, zinc, copper. | Ore. | Gold, copper, chromite, cement. |
| Ill. | Coal, petroleum, clay products, cement. | Pa. | Coal, clay products, cement, natural gas. |
| Ind. | Coal, cement, clay products, stone. | R. I. | Stone, clay products, graphite, mineral wat. |
| Iowa. | Coal, clay products, cement, gypsum. | S. C. | Clay prod., stone, phosph. rock, min. water. |
| Kan. | Petroleum, coal, natural gas, zinc. | S. D. | Gold, tungsten ore, stone, silver. |
| Ky. | Coal, petroleum, clay products, fluorspar. | Tenn. | Coal, zinc, copper, clay products. |
| La. | Petrol., sulphur, nat. gas., nat.-gas. gasoline. | Tex. | Petroleum, sulphur, coal, natural gas. |
| Me. | Stone, lime, clay products, slate. | Utah. | Copper, lead, silver, coal. |
| Md. | Coal, clay prod., cement, sand and gravel. | Vt. | Stone, slate, talc, lime. |
| Mass. | Stone, clay products, lime, sand, gravel. | Va. | Coal, lime, clay products, stone. |
| Mich. | Copper, iron ore, salt, cement. | Wash. | Coal, clay products, magnesite. |
| Minn. | Iron ore, clay prod., cement, manganif. ore. | W. Va. | Coal, natural gas, petroleum, clay products. |
| Miss. | Clay prod., sand, gravel, min. water, stone. | Wis. | Zinc, iron ore, stone, mineral water. |
| Mo. | Lead, zinc, coal, clay products. | Wyo. | Coal, petroleum, iron ore, nat.-gas gasoline. |

## VALUE OF MINE AND QUARRY PRODUCTS OF THE U. S.

(From data of the Geological Survey.)

| Year. | Metallic. | Non-Metallic. | Other and Total. | Year. | Metallic. | Non-Metallic. | Other and Total. |
|---|---|---|---|---|---|---|---|
| | *Dollars.* | *Dollars.* | *Dollars.* | | *Dollars.* | *Dollars.* | *Dollars.* |
| 1880 | 187,881,000 | 173,582,000 | 367,463,000 | 1910 | 749,879,000 | 1,237,668,000 | 1,987,844,000 |
| 1890 | 303,440,000 | 310,995,000 | 615,429,000 | 1911 | 680,907,000 | 1,242,942,000 | 1,924,081,000 |

Some of the 1921 figures are subject to final revision.

The canvass of sulphuric acid was discontinued in 1917, when the quantity was 1,455,257 short tons (including 119,048 tons of stronger acid), and the value was $16,890,545.

"Unspecified" products in 1921 included the value of the following products: Bismuth, cadmium sulphide, chats, columbite, flint lining for tube mills iron ore sold for paint, lithium minerals, marls, pebbles for grinding, selenium, silica sand and sandstone (finely ground), sodium salts (sodium carbonate, sodium sulphate, trona, and borax) from natural sources, tellurium, and an estimate of the value of miscellaneous mineral products, statistics for which are not collected annually by the Survey.

## MINING AND QUARRYING IN THE U. S.

(U. S. Census of Manufactures, 1919.)

PRINCIPAL INDUSTRIES, BY STATES, RANKED BY VALUE OF PRODUCTS, PRODUCING ENTERPRISES.

| Industry and State. | No. Enterprises. | Wage Earners. | Value of Products. |

| Total | 2,422,006 | 50,067,300 | 53,052,441 | 53,052,441 |

Gold value, $20.67 a fine ounce. Silver valued at $1.09827 per ounce, being the average of the New York price to the end of May, when the Pittman act of $1 per ounce became effective.

## GEMS AND PRECIOUS STONES FOUND IN U. S.

(The figures represent values.)

Corundum (sapphire) (1920) $214,705; (1921) $482,745.

Quartz (1920) $14,676; (1921) $11,114.

Tourmaline (1920) $4,869; (1921) $1,450.

Turquoise (1920) $16,865; (1921) $6,272.

Diamonds, opals, and topazes no longer figure to any extent in the gem discoveries in the United States.

## IMPORTS AND EXPORTS OF PRECIOUS STONES.

(For year ended June 30, 1922. Values are in parentheses.)

Imports—Diamonds (unset) 20,927 carats ($458,462); diamonds (uncut) 49,288 carats ($3,012,732); diamonds (cut but not set) 336,338 carats ($32,215,412); pearls and parts of, not strung or set, $6,011,932; other and total, $47,232,364.

Exports—Diamonds and other stones (Jan. 1 to June 30, 1922) $14,923.

The above table does not include antimonial lead, production of which was 10,064 short tons in 1921.

## COPPER AND LEAD IMPORTS AND EXPORTS.

(Year ended June 30, 1922. Values in Parentheses.)

Imports—Copper ore, etc., 409,120 tons, containing 98,959,369 lbs. of copper ($12,001,869); unrefined copper, 184,734,976 lbs. ($21,750,504); refined copper (pigs, etc.), 274,181,835 lbs. ($32,-869,592). Lead ore and bullion (total) $3,110,734.

Exports of domestic—Copper wire and cable, $3,031,904; refined copper (pigs, etc.), 677,487,373 lbs. ($88,782,115); total, copper and manufactures of, $101,152,264. Lead (pigs, etc.), 83,473,774 lbs. ($3,907,539).

Production of lead pigments and salts in the United States in 1921 totalled over 251,000 short tons, valued at $42,000,000.

## PRODUCTION OF IRON ORE IN THE U. S.

(Ore mined; thousands of long tons.)

| Year. | United States. | Minnesota. | Michigan. | Wisconsin. | Alabama. | Tennessee. | New York. | Pennsylvania. | New Jersey. | All Other States. |
|---|---|---|---|---|---|---|---|---|---|---|
| 1900 | 27,553 | 9,834 | 9,927 | 746 | 2,759 | 594 | 441 | 878 | 344 | 2,030 |

## IRON AND STEEL IMPORTS AND EXPORTS.

(For year ended June 30, 1922. Values in parentheses.)

Imports—Iron ore, 264,318 tons ($1,020,370), pig iron, 82,647 tons ($3,263,635); machinery, $9,384,258; other and total, $29,660,540.

Exports of domestic—Iron ore, 478,113 tons ($2,251,834); steel rails, 240,104 tons ($10,306,346); wire and certain manufactures of (except barbed), 189,057,345 lbs. ($6,476,883); barbed wire, 93,222,312 lbs. ($3,331,193); wire nails and spikes, 114,434,174 lbs. ($3,915,945), cutlery, $4,917,296; tools, $10,339,518; hardware, $5,441,881; other and total iron and steel and manufactures of, $181,798,042.

## STEEL PRODUCED IN THE UNITED STATES.

| Year (Calendar). | Long Tons. | Year (Calendar). | Long Tons. | Year (Calendar). | Long Tons. | Year (Calendar). | Long Tons. |
|---|---|---|---|---|---|---|---|
| 1810 | 917 | 1889 | 3,385,732 | 1900 | 10,188,329 | 1911 | 28,676,106 |
| 1860 | 11,838 | 1890 | 4,277,071 | 1901 | 13,473,595 | 1912 | 31,251,303 |

In addition to mines, the anthracite enterprises reported 245 breakers, 79 washeries, and 81 dredges.

Anthracite in the above table means Pennsylvania anthracite.

Non-producing enterprises, not included in the above, numbered 26, operating 24,707 acres, with $5,617,170 capital, and $1,252,604 expenditures in 1919.

Bituminous coal production in 1919 in short tons in chief States: Pennsylvania, 150,030,000; West Virginia, 77,617,000; Illinois, 60,331,000; Ohio, 35,141,000; Kentucky, 29,426,000; Indiana, 20,505,000; Alabama, 15,411,000; Colorado, 10,183,000.

The U. S. Census Bureau estimates that the production of coal per capita of population was, in short tons: (1879) 1.36; (1889) 2.24; (1899) 3.34; (1909) 5.01; (1919) 5.24.

Figures as to wage earners represent the average number.

Primary horsepower, total for the 14 groups—(1919) 29,507,117; (1914) 22,470,872; (1909) 18,675,376; (1904) 13,487,707; (1899) 10,097,893. The group, iron and steel and their products, in 1919 used 8,082,692 horsepower; lumber and its remanufactures, 3,417,941; textiles and their products, 3,274,090; food and kindred products, 2,571,257; paper and printing, 2,351,224; chemicals and allied products, 2,043,525; stone, clay, and glass products, 1,569,719.

**Value added by manufacture.**—The value of products is not always a satisfactory measure of either the absolute or the relative importance of a given industry. The best measure of an industry, from a manufacturing standpoint, is the value created by the manufacturing operations carried on within the industry. This value is calculated by deducting the cost of the materials used from the value of the products and is termed "value added by manufacture."

## MANUFACTURING IN THE U. S., BY INDUSTRIES, IN 1919 AND 1914.

(U. S. Census figures.)

NOTE.—The figures for some industries do not represent the total production because important establishments that manufacture the same class of products may be included in other industries.

| INDUSTRY. | Census Yr. | No. of Establishments. | Wage Earners (Average Number) | Capital. | Wages. | Cost of Materials. | Value of Products. |

Textile machinery and parts were included in "foundry and machine shop products" prior to 1919.

"All other industries" comprises: In 1919, "straw goods, not elsewhere specified," 1 establishment; "whalebone cutting," 1; "wood carpet," 3. In 1914, "millstones," 2 establishments; "ordnance and accessories," 2; "pulp, from fibre other than wood." 3; "whalebone cutting." 1; "wood carpet," 6.

## INDUSTRIAL PLANTS BY CLASSES.

Out of a total of 290,105 manufacturing establishments in 1919, 48.9 per cent. employed only from 1 to 5 wage earners; 19.4 per cent. employed from 6 to 20; 8.7 per cent. from 21 to 50; 4.3 per cent. from 51 to 100; 3.5 per cent. from 101 to 250; 1.2 per cent. from 251 to 500; 0.6 per cent. from 501 to 1,000; and 0.4 per cent. employed over 1,000 wage earners each.

Of the total number of wage earners reported more than one-fourth (26.4 per cent.) were employed in the big establishments having over 1,000 wage earners each. More than half of the total number of wage earners (53.5 per cent.) were in establishments employing more than 250 wage earners each; 17.4 per cent. in establishments employing 101 to 250; 9.8 per cent. in establishments employing 51 to 100 each; and 19.4 per cent. in establishments employing not over 50 wage earners. The number of wage earners employed in the small establishments having from 1 to 5 wage earners each was only 3.4 per cent. of the total.

ELECTRICAL UNITS AND THEIR POPULAR DEFINITIONS.

The watt is the unit expressing electrical power as horsepower (hp) represents power in mechanics; it is equal to the product of the volts (pressure) times amperes (rate of flow). Thus, 2 volts times 2 amperes would give in a direct current circuit 4 watts. Electrical energy is sold at so much per watt hour or more generally at a given amount per kilowatt hour—which means 1,000 watt hours. This may represent 1 watt for 1,000 hours or 1,000 watts for 1 hour. 746 watts are equal to one horsepower or inversely 1 kilowatt (kw) is equal to about 1⅓ horsepower.

The horsepower represents the power required to lift a weight of 33,000 pounds 1 foot in 1 minute or 550 pounds 1 foot in 1 second.

The ohm is the unit of electrical resistance and represents the physical property of a conductor which offers a resistance to the flow of electricity, permitting just 1 ampere to flow at 1 volt of pressure. For example, 1,000 feet of copper wire of No. 10 B. and S. gauge has just 1 ohm of resistance and allows the flow of 1 ampere at 1 volt.

## PERSONS GAINFULLY OCCUPIED, BY SEX, 1880-1920.

| Sex and Census Year. | Total Population. | Population 10 Years of Age and Over. | Persons 10 Years and Over in Gainful Occupations. | | |

The number of wage and salary earners, in 1920, by chief classes of occupations, was as follows:

| | | | | | |
|---|---|---|---|---|---|
| Actors | 28,361 | Guards, watchmen | 115,553 | Mechanics (misc.) | 281,741 |
| Agts., canvas., collectors. | 175,772 | Housekeepers, stewards | 221,612 | Motormen | 66,519 |
| Architects | 18,185 | Hotel keepers | 55,583 | Millers (grain) | 23,372 |
| Artists, sculptors, etc. | 35,402 | Ins. agents, officials | 134,978 | Milliners | 73,255 |
| Authors | 6,668 | Janitors, sextons | 178,328 | Moulders (metal) | 123,681 |
| Barbers, manicur., hairdr. | 216,211 | Laborers (agriculture) | 4,041,627 | Musicians | 130,265 |
| Bartenders | 26,085 | Laborers (build'g trades) | 686,722 | Miners (coal) | 733,936 |
| Bankers, brokers | 161,613 | Laborers (garag., r'd, st.) | 158,482 | Miners (copper) | 36,054 |
| Bakers | 97,940 | Laborers (coal, lumber yards, warehouse) | 125,609 | Miners (gold and silver) | 32,700 |
| Boilermakers | 74,088 | Laborers (chem. plants) | 74,280 | Miners (iron) | 38,704 |
| Boarding house keepers | 133,392 | Laborers (clay, glass, stone) | 124,544 | Miners (gas and oil) | 85,550 |
| Bookkeepers | 734,688 | Laborers (food industries) | 159,535 | Nurses (trained) | 149,128 |
| Brakemen (railway) | 114,107 | Laborers (iron and steel) | 729,613 | Painters, glaziers | 323,032 |
| Builders, Contractors | 90,109 | Laborers (lumb., furnit'e) | 320,613 | Photographers | 34,259 |
| Carpenters | 887,379 | Laborers (textile) | 171,126 | Plasterers | 46,876 |
| Clerks (not in stores) | 1,487,905 | Laborers (misc. mfg. and mech. indust.) | 463,891 | Physicians, surgeons | 144,977 |
| Clerks (in stores) | 413,918 | Laborers (porters, helpers in stores) | 125,007 | Plumbers | 206,718 |
| Chauffeurs | 285,045 | Laborers (railway) | 495,713 | Policemen | 82,120 |
| Cooks | 398,475 | Laborers (in public serv.) | 106,915 | Porters (not in stores) | 83,168 |
| Clergymen | 127,270 | *Laborers* (cigars, tobacco) | 145,222 | Real estate men | 149,135 |
| Compositors (printers) | 140,165 | *Laborers* (clay, glass, stone) | 85,434 | Retailers (store keepers) | 1,328,275 |
| Commercial travellers | 179,320 | *Laborers* (clothing ind.) | 409,326 | Retailers (meat, incl. ab've) | 122,105 |
| Conductors (railway) | 74,539 | *Laborers* (food industries) | 188,895 | Retailers (groc., incl. ab've) | 239,236 |
| Conductors (trolley) | 63,760 | *Laborers* (iron and steel) | 689,980 | Restaurant keepers | 87,987 |
| College presidents, profs. | 33,407 | *Laborers* (oth. metal ind.) | 91,291 | Sailors, deck hands | 54,832 |
| Deliverymen | 170,235 | *Laborers* (lumb., furnit'e) | 168,719 | Salesmen (in stores) | 1,177,494 |
| Dentists | 56,152 | *Laborers* (print'g, pub.) | 80,403 | Saloonkeepers | 17,835 |
| Dressm'k'rs, sempstresses (not in factories) | 235,855 | *Laborers* (shoe factory) | 206,225 | Servants | 1,270,946 |
| Draymen, expressmen | 411,132 | *Laborers* (textile) | 873,224 | Stenographers, typists | 615,154 |
| Editors, reporters | 34,197 | *Laborers* (misc. industries) | 622,662 | Switchmen, yardmen | 111,565 |
| Electricians | 212,964 | Lawyers, judges | 122,519 | Tailors | 192,232 |
| Engineers (locomotive) | 109,899 | Linemen (telegr., teleph.) | 37,917 | Teachers | 761,766 |
| Engineers (stationary) | 242,096 | Longshoremen | 85,928 | Tinsmiths | 69,735 |
| Engineers (technical) | 136,121 | Lumbermen, woodchop | 205,315 | Telegraphers | 79,434 |
| Farmers, stock raisers | 6,201,261 | Manufacturers | 183,386 | Telephone operators | 190,160 |
| Firemen (not rail. or fire dept.) | 143,875 | Machinists | 801,901 | Theatre owners | 18,395 |
| Firemen (city dept.) | 50,771 | Mail carriers | 91,451 | Undertakers | 24,469 |
| Firemen (railway) | 91,347 | Masons (brick, stone) | 131,264 | Waiters | 228,985 |
| Gardener, florist, nursery | 169,390 | | | Wash women (laundries) | 120,715 |
| | | | | Wash women (not laund.) | 396,756 |
| | | | | Wholesalers, expts, impts | 73,571 |

*Laborers*, in italics, are semi-skilled.

Custom mills and mills cutting less than 50 M feet not included in 1914.
Number of active sawmills (1919) 29,534; (1909) 46,584.

### BY-PRODUCTS OF THE FORESTS.

Consumption of timber in 1919 in by-products was as follows in the United States:

Veneers, 576,581 M feet, worth $25,104,164, of which red gum supplied 198,641 M feet, worth $4,616,727; yellow pine, 67,071 M feet; birch, 54,079 M feet; Cottonwood, 36,739 M feet; tupelo, 34,175 M feet; yellow poplar, 32,653 M feet; and white oak, 30,654 M feet. Smaller quantities were used of maple, walnut, spruce, and other woods.

Dyestuffs, 950,275 tons of wood, worth $12,133,799, of which chestnut supplied 754,972 tons. The timber came mainly from Virginia, Tennessee and North Carolina.

Tanning, 609,130 tons of wood and bark, worth $12,027,687, mostly oak and hemlock.

Extracts, 794,360,977 pounds of wood, worth $34,579,165, mainly chestnut, quebracho, oak, spruce, and hemlock.

Wood used in distillation, 1,442,675 cords, of which hardwoods (mostly beech, birch and maple) supplied 1,186,477 cords. From hard woods are distilled wood alcohol, charcoal, acetates, tar and tar oils. Wood alcohol produced for sale in 1919 totalled 6,980,693 gallons. From soft woods are distilled rosin, turpentine, tar, tar oils, charcoal, and wood creosote.

Value of forest products of farms in 1919—Sold, $217,716,046; used on farms, $176,605,782. Area of merchantable timber on farms (1920) 35,270,527 acres (on 946,871 farms).

| Beech | 358,985 | 376,464 | 511,244 | | | | |

*Redwood* is cut only in Cal. *Sugar Pine* almost all comes from Cal.; *Lodge-pole Pine* from Col. and Wyo.

In 1919 there were produced in the United States, 1,724,078,000 laths and 9,192,704,000 shingles.

Cordwood consumed on farms in U. S. averages 70,000,000 cords a year, worth $350.000,000.

Red oak, when first cut, weighs 5,800 lbs. a cord; chestnut 4,900; cottonwood, 4,200.

| Oth. clerical occup. | 3,917 | 1,306 | 2,611 |

Messengers do not include *telegraph*. Many *clerks* probably are *salesmen*.

The "gainfully occupied" children consist mainly of (1) those working on their own account, such as newsboys, and (2) employees working for gain.

The total number of children gainfully occupied was only slightly more than half as large in 1920 as in 1910, the decrease having been 46.7 per cent. For the several broad groups of occupations the rates of increase or decrease were as follows: Agriculture, forestry, and animal husbandry, decrease of 54.8 per cent.; extraction of minerals, decrease of 60.2 per cent.; manufacturing and mechanical industries, decrease of 29 per cent.; transportation, decrease of 9.1 per cent.; trade, decrease of 10.4 per cent.; public service (not elsewhere classified), increase of 110.4 per cent.; professional service, decrease of 2.8 per cent.; domestic and personal service, decrease of 51.9 per cent.; clerical occupations, increase of 12.9 per cent.

### NOTES ON THE ABOVE TABLE.

For 1890 the rank of Arizona advances from 48 to 47 and that of Oklahoma advances from 46 to 39 when the population specially enumerated in Indian Territory and on Indian reservations is included.

North Dakota included in South Dakota in 1860, 1870, and 1880.

The ranking of Oklahoma in 1900 was 38 and Indian Territory 39. The present ranking for the same census is based on the combined population of Oklahoma and Indian Territory.

For 1890 the rank of South Dakota advances from 37 to 35 when the population specially enumerated on Indian reservations is included.

### U. S. POPULATION GROWTH, IN PERCENTAGES.

The growth of the country's population, exclusive of the outlying possessions, is shown in the following table:

| CENSUS YEAR. | Population. | Increase. | Per Cent. | CENSUS YEAR. | Population. | Increase. | Per Cent. |
|---|---|---|---|---|---|---|---|
| 1920 | 105,710,620 | 13,738,354 | 14.9 | 1850 | 23,191,876 | 6,122,423 | 35.9 |
| 1910 | 91,972,266 | 15,977,691 | 21.0 | 1840 | 17,069,453 | 4,203,433 | 32.7 |
| 1900 | 75,994,575 | 13,046,861 | 20.7 | 1830 | 12,866,020 | 3,227,567 | 33.5 |
| 1890 | 62,947,714 | 12,791,931 | 25.5 | 1820 | 9,638,453 | 2,398,572 | 33.1 |
| 1880 | 50,155,783 | 11,597,412 | 30.1 | 1810 | 7,239,881 | 1,931,398 | 36.4 |
| 1870 | 38,558,371 | 7,115,050 | 22.6 | 1800 | 5,308,483 | 1,379,269 | 35.1 |

The combined population (42,453,437) of the 10 States having more than 100 inhabitants per square mile and of the District of Columbia in 1920 constituted slightly more than two-fifths (40.2 per cent.) of the total population of the United States, while their combined land area (222,675 square miles) represented hardly more than one-fourteenth (7.5 per cent.) of the entire land area of the country.

The 11 States having fewer than 10 inhabitants per square mile are all west of the Mississippi River, 8 being in the Mountain Division (constituting its entire area), 2 in the West North Central Division, and 1 in the Pacific Division. The combined land area of these 11 States (1,101,667 square miles) forms almost three-eighths (37 per cent.) of the entire land area of the United States, while their combined population (5,402,909) represented only about one-twentieth (5.1 per cent.) of the total population of the country in 1920.

## POPULATION URBAN AND RURAL.

(U. S. Census Returns. Urban includes places of 2,500 or more inhabitants.)

The total number of places of certain classes for the United States as a whole is less than the sum of the numbers shown for the individual States of the country, for the reason that each of three cities lies in two adjoining States, namely, Bristol (Va. and Tenn.), Texarkana (Ark. and Tex.), and Union City (Ind. and Ohio), and is counted in each State. Moreover, one of these cities, Bristol, lies in two geographic divisions (South Atlantic and East South Central), and is counted in both. Each of these cities consists of two incorporated municipalities, but each is, from the statistical standpoint, one city and should be classed according to its total population. In each case that part of the population living in each State, whatever its number, is credited to the group of cities to which, according to its total population, the city belongs. Classed in this manner, Bristol fell in 1920 and 1910 in the class of cities having 10,000 to 25,000 inhabitants, and in 1900 and 1890 in the 5,000-10,000 class; Texarkana fell, in 1920, 1910, and 1900, in the 10,000-25,000 class, and in 1890 in the 5,000-10,000 class; and Union City fell at each census from 1890 to 1920 in the 2,500-5,000 class.

The number of incorporated places cannot be exactly determined from the returns of the 1890 census, at which incorporated places were not distinguished from unincorporated ones, and very small places, whether incorporated or not, were not enumerated separately. It has been assumed that those places were incorporated in 1890 which were returned separately in that year and were returned in 1900 as incorporated.

The item (1920) "Incorporated places of less than 2,500" includes 48 places not returned separately.

| La. | 100.9 | 101.7 | 101.1 | Ohio | 105.4 | 104.4 | 102.3 | | | | |

Ratio of males to females, whole U. S., prior years: (1820) 103.3; (1830) 103.1; (1840) 103.7; (1850) 104.3; (1860) 104.7; (1870) 102.2; (1880) 103.6; (1890) 105.0.

In 1920 in the U. S., there were 104.4 white males to each 100 white females; there were 99.2 negro males to each 100 negro females.

## DWELLINGS AND FAMILIES IN THE UNITED STATES.

The following table presents statistics as to dwellings and families for the United States as a whole for each census year from 1850 to 1920.

| Census Year. | Population. | Number of Dwellings. | Number of Families. | Persons to a Dwelling. | Persons to a Family. | Families to a Dwelling. |
|---|---|---|---|---|---|---|
| 1850 | 19,987,563 | 3,362,337 | 3,598,240 | 5.9 | 5.6 | 1.07 |
| 1860 | 27,489,561 | ..... | 5,210,934 | ..... | 5.3 | ..... |
| 1870 | 38,558,371 | ..... | 7,579,363 | ..... | 5.1 | ..... |
| 1880 | 50,155,783 | 8,955,812 | 9,945,316 | 5.6 | 5.0 | 1.11 |
| 1890 | 62,622,250 | 11,483,318 | 12,690,152 | 5.5 | 4.9 | 1.11 |
| 1900 | 75,994,575 | 14,430,145 | 16,187,715 | 5.3 | 4.7 | 1.12 |
| 1910 | 91,972,266 | 17,805,845 | 20,255,555 | 5.2 | 4.5 | 1.14 |
| 1920 | 105,710,620 | 20,697,204 | 24,351,676 | 5.1 | 4.3 | 1.18 |

Population total, 1890, is exclusive of population (325,464) specially enumerated in Indian Territory and on Indian Reservations, for which statistics of dwellings and families are not available.

## AGES OF MARRIED PERSONS: 1920 AND 1910.

(By the U. S. Census Bureau.)

The U. S. census figures of Jan. 1, 1920, establish beyond question the interesting fact that there has been a significant increase during recent years in the proportion of married persons among the younger element of the population. The number of married men 18 years of age increased from 13,321, or 1.4 per cent. of the total male population at that age in 1910, to 24,944, or 2.7 per cent. of the corresponding total, in 1920; the number of married men 19 years of age increased from 33,566, or 3.8 per cent., to 58,909, or 6.5 per cent.; the number of married men 20 years of age increased from 77,658, or 8.6 per cent., to 105,369, or 12.5 per cent.; and the number of married men 21 years of age increased from 152,298, or 16.2 per cent., to 193,663, or 21 per cent.

The number of married women 16 years of age increased from 34,829, or 3.7 per cent. of the total female population at that age in 1910, to 41,626, or 4.2 per cent. of the corresponding total, in 1920; the number of married women 17 years of age increased from 76,683, or 8.7 per cent., to 90,930, or 9.8 per cent.; the number of married women 18 years of age increased from 166,460, or 17 per cent., to 186,645, or 19.2 per cent.; and the number of married women 19 years of age increased from 224,976, or 25.7 per cent., to 264,507, or 28.6 per cent.

For each year of age from 15 to 34 the figures for 1920 show, without exception, in the case of each sex, an increase in the proportion married as compared with 1910, the change being especially noticeable for the younger ages. For the ages from 35 to 44 inclusive, considered as a group, there was also an increase during the decade in the proportion married, but this increase was less pronounced, especially in the case of women, than the increase shown for the younger ages. Among persons at the ages of 45 and upward, considered in three groups—45 to 54, 55 to 64, and 65 and over—the proportion married was somewhat smaller in 1920 than for the corresponding groups in 1910.

The accompanying tables show the marital condition of the population of the United States in 1920, for each specified age or age group, with comparative percentages for 1910.

MARITAL CONDITION, BY AGE, FOR MALE POPULATION.

## THE SPAN OF LIFE IS GROWING IN THE U. S.

Data is official and is based on the 1920 Federal Census. The figures in the columns headed "males" and "females" show to what age the average person in the State named may expect to live.

WHITE (EXCEPT IN HAWAII).

Original registration States include the New England States, Indiana, Michigan, New Jersey, New York, and the District of Columbia.

According to the above table a person born in Kansas has the best chance for a long life.

## U. S. POPULATION BY AGE GROUPS, 1880-1920.

(Official revised U. S. Census figures.)

THE total population according to the census, 105,710,620, included 11,573,230 children under 5 years of age, of whom 2,257,255 were infants under 1. The percentage for infants under 1 was 2.1 in 1920, as against 2.4 in 1910. The decrease in the proportions of young children and infants between 1910 and 1920 is doubtless due, in whole or in large part, to the decline in the birth rate.

The proportion of persons at and above the age of 25 has become larger from census to census since 1880, the increase between 1910 and 1920 having been especially noteworthy in the case of persons aged 45 and over.

The number of centenarians reported in 1920 was 4,267, as against 3,555 in 1910. Of the persons reported as centenarians in 1920, 1,561 were men and 2,706 were women. The greater longevity of women is also shown by the fact that, although the males outnumbered the females in the population as a whole, the women predominated in each of the 5-year age periods above 75, in both 1920 and 1910. The census takers had no means of verifying the ages of the persons enumerated by them, and consequently the age returns, especially for centenarians, are not absolutely accurate. It is probable that the number of centenarians has been somewhat overstated at every census.

### DEFINITION OF THE TERM "CITIZEN."

The total number of citizens, male and female, in the above table, is 54,421,832. The citizens comprise all native persons and all naturalized foreign-born persons.

Under the provisions of the naturalization laws at the time the 1910 census was taken, the citizenship status of a married woman was the same as that of her husband (but if the husband had taken out his naturalization papers only, his wife was classified in the census returns as an alien); for an unmarried woman the process of naturalization was the same as for a man; a foreign-born widow or foreign-born divorced wife of a citizen of the United States retained the citizenship status of her former husband so long as she continued to reside in this country; and a foreign-born widow or foreign-born divorced wife of an alien could become naturalized in the same manner as a man.

### WOMEN LEAD IN NATURALIZATION.

In general, the citizenship returns of 1920 show a greater proportion of women naturalized than of men. The proportion of women shown as having taken out first papers was very much smaller than the proportion shown for men. This is due to the fact that a foreign-born married woman whose husband has taken out his first papers is herself treated as an alien, so that this classification in the case of women relates only to those who are not married.

## FOREIGN-BORN WHITE POPULATION OF U. S. OF VOTING AGE.

## INTERSTATE MIGRATION IN THE U. S.

(By the Bureau of the Census.)

The total population of continental United States (Jan. 1, 1920), 105,710,620, comprised 71,071,013 persons who were living in the States in which they were born, 20,274,450 who were living in other States than those in which born, 13,920,692 who were born in foreign countries, and a group of 444,465 natives consisting of persons for whom the State of birth was not reported, persons born in outlying possessions or at sea under the United States flag, and American citizens born abroad. Of the total population, 67.2 per cent. were living in the States in which born, 19.2 per cent. were living in other States, 13.2 per cent. were foreign born, and four-tenths of 1 per cent were included in the group of 444,465 above mentioned. Of the total native population, 77.8 per cent. were living in the States in which born and 22.2 per cent were living in other States.

These figures do not indicate the amount of interstate migration within any definite period. They simply show, as regards the population of any State, the total net gain or loss up to the date of the census of 1920 resulting from the interstate migration of people living on that date.

On the basis of nativity the population of any State may be divided into three component parts, comprising natives of the State, natives of other States, and natives of foreign countries. The contrast between Eastern and Western States in this classification is rather striking. Thus, while the population of New York State is 63.9 per cent. native of the State, 8.3 per cent. native of other States, and 27.2 per cent. foreign born, the population of California is only 37 per cent. native of that State but is 39.8 per cent. native of other States and 22.1 per cent. foreign born. In the cases of several Western States besides California the population born in the State is less than the population born in other States.

The first of the accompanying tables shows, as regards any State, what proportion of the natives of that State have gone to other States to live, and also what proportion of the native American population resident in that State came from other States; the second table shows the number and proportion of the population of each State born in that State, in other States, and in foreign countries, respectively.

NATIVE POPULATION BY STATE OF BIRTH AND STATE OF RESIDENCE: 1920.

Totals for other States, 1882-1921: Arizona, 31, California, 48, Colorado, 48; Connecticut 1 (in 1886); Delaware, 1 (in 1903); Idaho, 25; Illinois, 30; Indiana, 48, Iowa, 18, Kansas, 46; Maine, 3 (in 1885); Maryland, 28; Massachusetts, 0; Michigan, 8; Minnesota, 9, Montana, 53; Nebraska, 46; Nevada, 12; New Hampshire 0; New Jersey, 1 (in 1886); New Mexico, 34; New York, 2 (1892 and 1896); North Dakota 11; Ohio, 19; Oregon, 19; Pennsylvania, 6; Rhode Island, 0; South Dakota, 29; Utah, 5; Vermont, 0; Washington, 27; Wisconsin, 6; Wyoming, 45.

### THE LYNCHING RECORD FOR 1921.

ACCORDING to the records compiled by Monroe N. Work, of the Department of Records and Research of the Tuskegee Institute, there were 72 instances in which officers of the law prevented lynchings. Of these 8 were in Northern States and 64 were in Southern States. In 1920 there were 56 such instances, 46 in Southern and 10 in Northern States. In 66 of the cases, the prisoners were removed, or the guards were augmented, or other precautions taken. In 6 instances armed force was used to repel the would-be lynchers. Concerning the cases of lynchings, there were 19 instances in which prisoners were taken from the jail and 16 instances in which, before reaching a jail, they were taken from officers of the law.

There were 64 persons lynched in 1921. Of these, 63 were in the South and 1 in the North. This is three more than the number, 61, for the year 1920. Of those lynched 59 were Negroes and 5 were whites.

THE 1921 LYNCHING RECORD—*Continued.*

Two of those put to death were Negro women. Nineteen, or less than one-third, of those put to death were charged with rape or attempted rape. Four of the victims were burned to death. Three were put to death and then their bodies were burned. The charges against those burned to death were: murder, 2; rape and murder, 2.

The offenses charged against the whites were: murder, 4; rape, 1. One of the women put to death was charged with assisting a man to escape who had killed an officer of the law. The other was charged with inciting racial troubles. The offenses charged against the Negro men were: murder, 11; attempted murder, 3; rape, 15; attempted rape, 3, killing men in altercation, 4; no special charge, 3; wounding men, 4; furnishing ammunition to man resisting arrest, 2; leaders in race clash, 2; charge not reported, 3; assisting man to escape who had killed officer of law, 1; making improper remarks to woman, 1; threatening to kill another, 1; entering young woman's room, 1; insulting woman, 1; writing note to woman, 1; attacking a man and woman, 1.

The States in which lynchings occurred and the number in each State are as follows: Alabama, 2; Arkansas, 6; Florida, 6; Georgia, 11; Kentucky, 1; Louisiana, 5; Mississippi, 14; Missouri, 1; North Carolina, 4; South Carolina, 5; Tennessee, 1; Texas, 7; Virginia, 1.

## NEGRO MIGRATIONS.

The total number of Negroes for whom the State of birth was reported comprised at the U. S. Census of 1920, as shown in the table above, 8,288,492, or 80.1 per cent., who were living in the States in which born, and 2,054,242, or 19.9 per cent., who were living in other States. In 1910 the percentage living in other States was 16.6, and in 1900 it was 15.6.

The total number of Negroes reported as born in the South (that part of the country lying south of the southern boundaries of New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Missouri, and Kansas) was 9,600,943. Of these, 7,751,361, or 80.7 per cent., were living in their native States in 1920; 1,068,788, or 11.1 per cent., were living in other Southern States; and 780,794, or 8.1 per cent., were living in the North or West. The total number of Negroes reported as born in the North or West was 741,791, of whom 537,131, or 72.4 per cent., were living in their native States in 1920; 157,437, or 21.2 per cent., were living in other Northern or Western States; and 47,223, or 6.4 per cent., were living in the South. Thus the proportion of Southern-born Negroes who migrated to the North or West, 8.1 per cent., was only about one-fourth larger than the proportion of the Negroes who were born in the North or West and migrated to the South, 6.4 per cent.

The number of Negroes born in the South and living in the North or West less the number born in the North or West and living in the South was 733,571. These may be termed the survivors of the net migration of Negroes from the South to the North and West. The number of Southern-born Negroes living in the North and West increased from 440,534 in 1910 to 780,794 in 1920, forming 40.9 per cent. of the total Negro population of the North and West in the earlier year and 50.3 per cent. in the later.

The migration of Southern Negroes to Northern and Western States undoubtedly took place to a materially greater extent between 1910 and 1920 than during the preceding decade. While it is impossible to calculate exactly the extent of this migration during the recent decade, the available data indicate that approximately 400,000, or somewhat more than one-half, of the 733,571 survivors of the net Negro migration from the South to the North and West prior to Jan. 1, 1920, left the South subsequently to April 15, 1910.

In general, the Negroes born in the North and West and in the northern part of the South have migrated to a much greater extent than those born in the far South. Considering as one group all the Negroes born in the Northern and Western States, the percentage living, in 1920, in other States than those in which born was 27.6; considering as another group those born in Delaware, Maryland, District of Columbia, Virginia, West Virginia, North Carolina, Kentucky, Tennessee, Arkansas, and Oklahoma—i. e., the northern part of the South—the corresponding percentage was 24.8; but for the Negroes born in the far Southern States of South, Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, and Texas, the percentage living in States other than those in which born was only 16.2.

Although migration to the North and West has not taken place among the far Southern Negroes to the same extent, relatively to their total numbers, as among the Negroes in the northern part of the South, there was nevertheless a pronounced increase in such migration from the far South during the past decade. For example: The Negroes who were born in South Carolina and had migrated from that State to Pennsylvania increased from 2,113 in 1910 to 11,624 in 1920; those from Georgia to Pennsylvania increased from 1,578 to 16,196; those from Florida to Pennsylvania, from 393 to 5,370; those from Alabama to Ohio, from 781 to 17,588; those from Mississippi to Illinois, from 4,612 to 19,485; those from Louisiana to Illinois, from 1,609 to 8,078; and those from Texas to Missouri, from 1,907 to 4,344.

The above table covers only immigrant aliens and does not include non-immigrant aliens.

In the year ending June 30, 1922, alien immigrants to the number of 13,731 were debarred, and 4,353 others were deported. Of those debarred 5,529 were paupers; 1,249 unable to read; 672 diseased; 176 criminals.

Of the immigrants deported, 434 were criminals.

## BIRTH RATE IN U. S. BIRTH REGISTRATION AREA, 1915-1920.

(By the United States Census Bureau.)

| YEAR. | Population. | Births. | Per 1,000 Pop. | YEAR. | Population. | Births. | Per 1,000 Pop. | YEAR. | Population. | Births. | Per 1,000 Pop. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 1915... | 30,936,179 | 776,304 | 25.1 | 1917... | 54,771,416 | 1,353,792 | 24.7 | 1919... | 61,483,423 | 1,373,438 | 22.3 |
| 1916... | 32,788,670 | 818,983 | 25.0 | 1918... | 55,515,241 | 1,363,649 | 24.6 | 1920... | 63,659.441 | 1,508,874 | 23.7 |

Births are exclusive of still births. The birth registration area was established in 1915.

The birth rate in 1920 among the general population in the birth registration area was, as shown in the above table, 23.7 per 1,000 population. The white birth rate was 23.5; colored, 27.0. The Negro birth rate in 1920 was 26.3 per 1,000 Negro population; the death rate, 18.4 per 1,000 negro population.

The Japanese birth rate in 1920 in the birth registration area of the United States was 65.0 per 1,000 Japanese population; the death rate was 13.9 per 1,000 Japanese population.

"It is not to be expected," says the Census Bureau, "that this rate of natural increase will be maintained year after year by the Japanese in this country. At present he age constitution of the Japanese in this country is undoubtedly most favorable for a very rapid natural increase of population, but as the years go by and our Japanese grow older this rate will undoubtedly decrease, together with the birth rate, till the latter approximates the birth rate of Japan itself, where in 1917 the official rate is given as 32.4."

## ESTIMATED POPULATION, NUMBER OF BIRTHS AND DEATHS (EXCLUSIVE OF STILL-BIRTHS) BIRTH AND DEATH RATES PER 1,000 POPULATION, DEATHS UNDER 1 YEAR OF AGE, AND INFANT MORTALITY RATES IN THE BIRTH REGISTRATION AREA, 1920.

| AREA. | Population Estimated as of July 1, 1920. | Births (Exclusive of Still-births.) | Deaths (Exclusive of Still-births.) | Rate Per 1,000 Population. | | Births Per 100 Deaths. | Deaths of Infants Under 1 Year of Age. | |

Rhode Island was dropped from the death registration area in 1919.

In 1920, in the registration area, 82 white babies and 132 colored babies out of 1,000 of each color born died n their first year of life. In New York City the number dying in the first year of life was 83 white and 157 colored. The greatest white infant mortality was in Richmond Borough; the greatest colored, in the Bronx.

## ILLEGITIMATE BIRTHS.

The percentage of illegitimate births in 1920 in the United States was 2.27 per 100 births; percentage of white illegitimates, 1.42; percentage of native white illegitimates, 1.67; percentage of illegitimate births by foreign mothers, .052; percentage of Negro illegitimate births, 12.56.

The average number of children ever born to mothers of 1920 was 3.3; the average number of these children living was 2.9. Italian, Austrian and Hungarian mothers of 1920 had an average of 4.0 to 4.5 children each, of which 3.4 to 3.9 were still living.

The largest number of children are born to miners, metal mill workers, guards, watchmen, janitors and sextons; the smallest number to soldiers, sailors, marines, bookkeepers, policemen, designers, technical engineers, chemists, actors, architects, artists, lawyers, doctors, druggists, teachers, authors, reporters, editors, bankers and brokers, chauffeurs and electricians.

One birth in every 100 is of twins or triplets, etc.

## BIRTH RATES AMONG ALIEN WHITE MOTHERS IN U. S.

(Per 1,000 enumerated female population, by country of birth in the registration area and each registration State, 1920).

(Rates are shown in *italics* when the number of births is less than 5.)

| AREA. | COUNTRY OF BIRTH. | | | | | | |

*Birth rates of colored per 1,000 enumerated female population, in the registration area, 1920*—Negro, 52.8; Indian, 48.3; Japanese, 188.5; Chinese, 116.4; other colored, 126.8.

## NATIONAL GEOGRAPHIC SOCIETY, WASHINGTON, D. C.

(By the President, Gilbert Grosvenor.)

FOUNDED in 1899, "for the increase and diffusion of geographic knowledge," the National Geographic Society has filled such an important role in the encouragement of science and its application to the needs of mankind that its membership now exceeds 750,000. In the promotion of its work of increasing geographic knowledge the society pioneered in the study of Alaska and the encouragement of the opening up of that territory; supported Peary in his Polar work; investigated the problems of vulcanism and seismology at Mont Pelee, Messina and in Alaska; explored the ruins of the Inca country of the high Andes, unearthing its holy city, Machu Picchu, and the staircase farms of the Incas, which far eclipse the Hanging Gardens of Babylon; studied the history of the Ice Age, as exemplified in the glaciers of Alaska; discovered the Valley of Ten Thousand Smokes. It is now engaged in a series of excavations in Chaco Canyon, with a view to reconstructing, as far as possible, the primitive history of the pre-Columbian people of that region.

In its recognition of the services to mankind of those who labor to push back the horizons of geography, the society has awarded the Hubbard Gold Medal to Peary for his furthest North in 1906; to Amundsen for achieving the Northwest Passage and locating the North Magnetic Pole; to Gilbert for his physiographic researches; to Shackleton for his Antarctic explorations; and to Stefansson for his discovery of a hundred thousand square miles of territory in the Canadian Arctic. It also awarded special gold medals to Peary and Amundsen for their attainment of the North and South Poles respectively; and to Gen. George W. Goethals in recognition of his service to the world in the building of the Panama Canal. In its work of diffusing geographic knowledge the society relies principally on its leading publication, the National Geographic Magazine. The magazine contains some 1,400 pages of text and illustrations in the twelve numbers of each year. Some of these numbers are monographic, and have become the recognized handbook on the subjects with which they deal—like Nelson's "Larger and Smaller Mammals of North America," McCandless and Grosvenor's "Flag Number," Fuertes's "Dog Number," and Wyllie's "Romance of Military Insignia."

Through the columns of more than 500 leading American daily newspapers and the large plate matter syndicates the society's geographic news bulletins are reaching nto more than half the homes of the United States. These bulletins are furnished gratis to the press, and through them the society is able to interpret the geographic and historical backgrounds that give significance to the news despatches from every corner of the globe. The United States Bureau of Education, in its promotion of the intelligent study of current events in the schools of the country, has co-operated with the society in placing illustrated editions of these bulletins in the hands of the teachers of the United States. Many State Superintendents have requested that they be furnished to every teacher in their jurisdiction.

A further educational activity undertaken by the society in recent months is its Pictorial Geography. By means of a continuing series of loose-leaf geographic text and pictures, prepared in recognition of the fact that the average map and the technical phraseology of geographies mean little to children, the society is aiming to bring them mental pictures of busy places, living peoples and beautiful landscapes and to portray to them nature's moods and processes in terms they understand and forms they enjoy. Another activity of the society in the diffusion of geographic knowledge is the publication of books, maps and monographs on subjects of first interest. Its map of the war zone in France was readily used by American officers at home and abroad; and the War Department has adopted its map of Mexico as the base for the army's military maps of that turbulent country. It has recently published new maps of Europe, Africa, South America, and of the world. In 1917 the society appropriated $20,000 and in 1920 $13,500 out of its reserve fund, the money necessary to save from destruction the privately owned "Big Trees" in Sequoia National Park, California, and had the ground they occupy deeded in perpetuity to the United States for the benefit of posterity. More recently the society and a group of its members added a fund of nearly $100,000 for the preservation of another large group of these big trees.

For a review of the society's scientific work in the past year reference is made to the article on "Scientific Progress in 1921," elsewhere in this ALMANAC. The officers and editorial staff are: President and Editor, Gilbert Grosvenor; Vice-President, Henry White; Vice-Director and Associate Editor, John Oliver La Gorce; Secretary, O. P. Austin; Associate Secretary, George W. Hutchison; Treasurer, John Joy Edson; Assistant Editors, William J. Showalter and Ralph A. Graves; Chief of Illustrations Division, Franklin L. Fisher; Chief of School Service, J. R. Hildebrand.

## CARNEGIE FOUNDATION FOR THE ADVANCEMENT OF TEACHING.

DURING the fifteen years of its existence the Carnegie Foundation has distributed (these data are from the annual report for the year ending June 30, 1922) $9,929,066 in retiring allowances and pensions to 1,000 persons. Of this sum $625,000 has been paid to former teachers of Harvard, $548,000 to former teachers of Yale, and $464,000 to former teachers of Columbia University. Sixteen other universities have each received between one and two hundred thousand dollars. The remainder has gone to eighty different institutions. There are now operative 511 retiring allowances and 98 widows' pensions, entailing an annual expenditure of $1,008,000. The average retiring allowance paid is $1,649.

The total resources of the Carnegie Foundation amount to $26,223,000, of which $15,192,000 belong to the permanent general endowment; $8,535,000 to a reserve fund to be spent in the retirement, during the next sixty years, of teachers now in associated institutions; $1,250,000 to the endowment of the Division of Educational Enquiry, and $612,000 to a reserve fund to be expended in aiding universities and colleges to adopt the new plan of contractual annuities.

The Teachers' Insurance and Annuity Association of America, which was established by the foundation through a gift of $1,000,000 to provide insurance and annuity protection for college teachers without overhead charges, has written 1,095 insurance policies covering $5,578,000 of insurance and 947 annuity contracts providing $1,165,000 annual income at retirement.

## RUSSELL SAGE FOUNDATION.

(Official statement for The Almanac, as of August 1, 1922.)

The Russell Sage Foundation, 130 East 22d Street, New York City, was organized in 1907 for the improvement of social and living conditions in the United States. The endowment, about $15,000,000, was given by Mrs. Russell Sage in memory of her husband. The Foundation is primarily an educational institution. It does not attempt to relieve individual or family need or to duplicate the work of existing social agencies. It studies and interprets facts with regard to social conditions and methods of social work, makes this information available by publications, conferences and other means of public education.

The work of the Foundation is carried on through a central office, through nine departments and through a limited number of subsidies to other organizations. The departments of the Foundation have been developed to meet the particu.ar social needs and opportunities or to give permanent form to investigations or undertakings begun experimentally.

The Department of Recreation has worked in cooperation with the National Community Center Association, the Recreation Committee of New York City, the Boy Scouts, Girl Scouts, Camp Fire Girls, National University Extension Association and the New York Drama League to carry out its purpose, which is that of aiding in constructive social organization of leisure time. Assistance in promoting better motion pictures, both for commercial purposes and for school, club and army and navy service has been continued.

Advisory work has been given in many States, in Canada, China, India, Japan, Cuba, Russia, Sweden, Turkey, Serbia, Uruguay and Argentina.

A free public library containing about 20,000 books and 56,000 pamphlets on social problems, is maintained by the Foundation.

The trustees of the Foundation are: Robert W. de Forest, President; Mrs. William B. Rice, Vice President; Charles D. Norton, Treasurer; John H. Finley, Louisa Lee Schuyler, Mrs. Finley J. Shepard, John M. Glenn, who is also General Director of the Foundation, Frederick A. Delano, and Dwight Morrow.

## NATIONAL SHORTHAND CONTEST.

(New London, Conn., Aug. 24, 1922.)

HELD under the auspices of the National Shorthand Reporters' Association, John R. Gregg, President.

To qualify for the World's Championship, the writers must qualify with at least 95% accuracy in the three individual speeds—200 words a minute, solid matter; 240 a minute, judge's charge to the jury, and 280 a minute, court testimony. In the contest held in 1922 only six writers qualified for the championship, which trophy was won by Nathan Behrin. Charles Lee Swem, former official reporter and personal stenographer to President Wilson, and Albert Schneider won second and third places respectively.

| NAMES OF CONTESTANTS. | Errors at 200. | Errors at 240. | Errors at 280. | Total Errors. | Average Accuracy. |
|---|---|---|---|---|---|
| Nathan Behrin | 4 | 8 | 7 | 19 | 99.84 |
| Charles Lee Swem | 16 | 19 | 12 | 47 | 98.65 |
| Albert Schneider | 12 | 20 | 30 | 62 | 98.36 |
| John J. Daly | 3 | 25 | 38 | 66 | 98.17 |
| Solomon Powsner | 19 | 30 | 26 | 75 | 97.92 |
| Neale Ransom | 50 | 42 | 19 | 111 | 96.92 |

Speed certificates were awarded to all writers who qualified on any of the speeds with less than 5% of errors; forty-nine certificates were awarded as follows: To writers of the Gregg system, 24; to writers of the Pitmanic systems, 25.

## JOHN FRITZ MEDAL WINNERS.

THE John Fritz Medal Board of Award—Societies represented: Amer. Soc. of Civ. Engineers, Amer. Inst. of Mining and Metallurgical Engineers, Amer. Soc. of Mech. Engineers, Amer. Inst. of Electrical Engineers. Office, 29 West 39th St., New York.

The first award of the medal was made to John Fritz at a dinner given to him on his eightieth birthday, Aug. 21, 1902. The other awards have been as follows: 1905, to Lord Kelvin, for work in cable telegraphy; 1906, to George Westinghouse for invention and development of airbrake; 1907, to Alexander Graham Bell, for invention and introduction of telephone; 1908, to Thomas Alva Edison, for invention duplex and quadruplex telegraph, phonograph, development of a commercially practical incandescent lamp, the development of a complete system of electric lighting, including dynamos, regulating devices, underground system protective devices and meters; 1909, to Charles T. Porter, for advancing knowledge of steam engineering and improvements in engine construction; 1910, to Alfred Noble, for notable achievements as a civil engineer; 1911, to Sir William H. White, for notable achievements in naval architecture; 1912, to Robert W. Hunt, for contributions to early development of Bessemer steel process; 1913, no award; 1914, to Prof. John E. Sweet, for achievements in machine design, and pioneer work in construction and development of high-speed steam engine; 1915, to Dr. James Douglas, for achievements in mining metallurgy, education, and industrial welfare; 1916, to Dr. Elihu Thomson, for achievement in electrical invention, in electrical engineering and industrial development, and in scientific research; 1917, to Dr. Henry M. Howe, for his investigations in metallurgy; 1918, to J. Waldo Smith, for providing New York with water; 1918, to Gen. George W. Goethals, as builder of the Panama Canal; 1920, to Orville Wright, for development of the airplane; 1921, to Sir Robert Hadfield, for invention of manganese steel; 1922, to Eugene Schneider, for development of ordnance (75-m. gun); 1923, to Guglielmo Marconi, for the invention of wireless telegraphy.

## EDISON GOLD MEDAL WINNERS.

1909, to Elihu Thomson; 1910, to Frank J. Sprague; 1911, to George Westinghouse; 1912, to William Stanley; 1913, to Charles F. Brush; 1914, to Alexander Graham Bell; 1916, to Nikola Tesla; 1917, to John J. Carty; 1918 to Benjamin G. Lamme; 1919, to W. L. R. Emmet; 1920 to Michael I. Pupin; 1921, to Cummings C. Chesney.

## METROPOLITAN MUSEUM OF ART.

THE Metropolitan Museum of Art, in Central Park, opposite East 80th-85th Streets, New York City, was incorporated April 13, 1870, "for the purpose of establishing and maintaining . . . a museum and a library of art, of encouraging and developing the study of the fine arts, and the application of arts to manufacture and practical life, of advancing the general knowledge of kindred subjects, and, to that end, of furnishing popular instruction." After one-half century of growth, it has to-day, through bequests, gifts, and purchases, collections of incalculable value, embracing both fine and decorative arts. They comprise objects in almost every material—marble, stone, wood, pottery, porcelain, glass, metals, lace textiles, &c.—and embody man's attempts throughout the ages to achieve his ideals of beauty. In date they range from 3000 B. C. to the twentieth century and represent the ancient world—Assyria, Babylonia, Cyprus, Egypt, Greece, and Rome; the Orient, including China, Japan, Corea, India, Persia, and Asia Minor; Europe from the Early Christian and Byzantine Art through the Romanesque, Gothic, Renaissance, and later periods; and our own country.

### TOMBS AND ANTIQUITIES.

These collections are housed in a building erected by the city, in Central Park, affording 280,000 square feet of exhibition floor space. Among the more noteworthy individual objects or collections are the mastaba tomb erected about 4,500 years ago in the Egyptian cemetery at Sakkara for a Theban dignitary named Perneb and re-erected here in its original form, with its painted scenes in low relief still preserved; six large alabaster reliefs from the palace in Nimrod of Ashur-nasir-pal, who reigned over Assyria from 885 to 860 B. C.; an Etruscan bronze chariot of the sixth century B. C., the only complete ancient bronze chariot known; the Cesnola antiquities from Cyprus; a group of Roman fresco paintings from Boscoreale, especially those on the walls of a reconstructed cubiculum (bedchamber), and a gathering of ancient glass, "one of the richest and most important in the world." In the accumulations of Near Eastern Art of special interest are the domed room from a Jain temple in India, recently installed, the gift of Robert W. and Lockwood de Forest, which represents the wood carving of India and is supplemented by an extensive collection of Indian and Thibetan jewelry; the Indian miniatures in the Alexander Smith Cochran Collection, and some remarkable examples of early Indian stone carving; the Persian manuscripts and miniatures in the Cochran Collection; twenty-four manuscripts and a number of single sheets represent such masters of decoration as Behzad and Mirak, and some of the greatest names in Persian caligraphy from the fifteenth to the eighteenth century. The Far Eastern objects include the well-known Benjamin Altman gathering of Chinese porcelains and the Heber R. Bishop assemblage of jades.

The paintings, over twelve hundred in number, represent the Italian, Spanish, German, Dutch, Flemish, French, English and American schools. There is an unusual showing of the works by Rembrandt, twenty in all, thirteen received in the bequest of the late Benjamin Altman. Through the gift of J. Pierpont Morgan the Museum possesses a Raphael, the so-called Colonna Altarpiece, a Virgin and Child Enthroned with Saints. Groups of paintings kept together by the conditions under which they were received are: the George A. Hearn Collection, principally American in character; the Benjamin Altman Collection, strongest in its Dutch paintings, but including four Memlings, a Durer, a Giorgione, a Fra Angelico, two Velasquezes, and other works of rare excellence; the Michael Dreicer Collection of Italian and northern primitives, in which such artists as Memling, Roger van der Weyden, Schongauer, and Piero di Cosimo are represented; and the Catherine Lorillard Wolfe Collection, consisting largely of works by French artists of the early and middle years of the nineteenth century.

Others of special note are the William H. Riggs Collection of Arms and Armor, which in its scope and quality ranks with European national collections, and, with the Ellis and Dino Collections, gives an opportunity to study the development of armor from the fifteenth to the eighteenth century; the Crosby Brown gathering of 3,600 specimens, including representative instruments of all nations, among them the earlier of the two existing pianos by Bartolommeo di Francesco Cristofori, the inventor of the pianoforte; the James F. Ballard Collection of rugs, Turkish, Persian, Indian, and Spanish, of the sixteenth and seventeenth centuries; and the William H. Huntington assemblage of portraits of Washington, Franklin, and Lafayette in all materials.

### THE MORGAN COLLECTION.

The Pierpont Morgan Collection, the gift of J. Pierpont Morgan, fills an entire wing and is a priceless gathering of the decorative arts of Europe from Gallo-Roman and Merovingian periods to the end of the eighteenth century. The rarest and most precious section of the collection represents the supreme work of the goldsmiths, Byzantine and mediaeval enamellers, and ivory carvers. The most comprehensive gathering included in the Pierpont Morgan wing is that brought together by Georges Hoentschel of Paris, the collector, and consisting of two parts; sculpture, furniture, textiles, ivories, woodwork, and architectural fragments of the Gothic period, chiefly of French, Flemish, Dutch, German Spanish, and Italian origin, and French decorative arts of the seventeenth and eighteenth centuries—furniture and woodwork, many samples from historic buildings, decorative paintings, and ormolu fittings. Among the treasures of the Pierpont Morgan Collection are also five Gothic tapestries, known as the Sacrament Set because they picture in weaving the sacraments of the church; two sculptured groups, an Entombment and a Pieta, from the famous Chateau de Biron in southwestern France; superb examples of the goldsmith's craft from the fifteenth to the eighteenth century; a unique collection of snuff boxes, vanity boxes, scent bottles, and dance programmes, signed by famous jewellers of the eighteenth century; and a large collection of watches representative of the work of the best craftsmen in Europe from the sixteenth to the nineteenth century. The Dreicer Collection also contains valuable examples of Gothic and Renaissance sculpture and decorative arts.

### SERVICEABLE TO THE PUBLIC.

To make the museum collections serviceable to the public, to manufacturers and designers, to artists and art students, and to the pupils in the public and private schools of New York City and vicinity is the constant effort of the members of the museum staff, working on behalf of the trustees.

A reference library and a collection of photographs are open to the public and a large collection of lantern slides, photographs, post cards, etc., is available on easy terms for lectures given anywhere east of the Mississippi. Opportunity to copy the objects in the collections themselves is granted with reasonable restrictions. A study room of textiles has been fitted up with every facility for the use of the large collection of laces and textiles, and other study rooms in different parts of the building are intended for the convenience of those who wish to study the various collections at length.

## THE FRANKLIN INSTITUTE OF THE STATE OF PENNSYLVANIA.

(15 South Seventh Street, Philadelphia, Pa.)

THE Franklin Institute of the State of Pennsylvania for the Promotion of the Mechanic Arts was organized in the year 1824, to meet a demand in America for an institution similar to that founded by Count Rumford in London in 1799. The founders intended it not only as an appropriate memorial to the name of Franklin, but as a means of continuing for all time a work which throughout his long life he perhaps regarded as his best, namely, the discovery of physical and natural laws and their application to increase the well-being and comfort of mankind. Membership, 1,500.

Weekly lectures on scientific and technical subjects are given throughout the winter season; the Journal of the Franklin Institute has been published monthly since 1826; monthly meetings are held at which rediscoveries in physical science and important engineering achievements are discussed, and major inventions described. The Committee on Science and the Arts examines and makes reports upon all new and useful machines, inventions and discoveries submitted to it. The membership is divided into the following sections, each group devoting its attention to the branch of technology for which it is organized: Chemistry, Electricity, Mining, Metallurgy, Astronomy, Photography, Physics, and Engineering.

Library.—75,912 volumes, 18,254 pamphlets, 2,292 maps and charts, and 1,349 photographs. Complete sets of over 780 of the leading scientific and technical publications of the world.

## AMERICAN MUSEUM OF NATURAL HISTORY.

THE American Museum of Natural History, located at 77th Street and Central Park West, N. Y. City, was founded and chartered in 1869 for the purpose of encouraging and developing the study of natural science, of advancing the general knowledge of kindred subjects, and to that end of furnishing popular instruction. It is open free every day in the year; on weekdays and holidays from 9 A. M. to 5. P M., on Sundays from 1 to 5 P. M.

The constitution provides for a self-perpetuating board of trustees, not to exceed twenty-five in number, who hold office for terms of five years, with the Mayor, the Comptroller and the President of the Park Board serving as trustees ex-officio.

The building, which is the property of the city, is one of the largest municipal structures in the city, and has cost over $5,000,000. At present only eight sections of the building have been erected, which when completed will cover the entire area of Manhattan Square. The city makes an annual maintenance appropriation for heating, lighting, repairing and supervising the building, caring for its collections, the construction of cases, and other maintenance work. All the collections, however, are the property of the corporation and are acquired by gift of the trustees and members and other friends and supporters. The funds from which the trustees purchase and prepare specimens, carry on explorations in all parts of the world, publish the results of its research work and enlarge its present library of natural history of over 70,000 volumes are raised by the museum and its friends, and derived from the income of an endowment amounting to $9,603,-952.57.

### NOTEWORTHY EXHIBITS.

The American Museum is famous as possessing the largest collection in the world of gems and gem material, the finest and most complete exhibits illustrating the evolution of the horse, the finest series of bird habitat groups, an extensive collection of meteorites, and the largest and best collections of fossil vertebrates and material showing all phases of the life of primitive man.

*First Floor*—Collections illustrating the life of the Indians of the North Pacific Coast, the Eskimo, Indians of the woodlands, plains and Southwest. Two new and large groups (Hopi and Apache) in the Southwest Hall. Forestry Hall—Sections of trees, including one from a big tree of California which measures 16 feet in diameter and is 1,341 years old. Natural woods, with specimens of their leaves and flowers, and sections of the finished woods. Exhibits in food needs and economics (temporarily placed in this hall). Darwin Hall—Specimens, models and groups showing invertebrate life, the Nahant Tide-Pool and the Wharf-Pile Groups being particularly interesting. New exhibit representing a two-inch section of sea-bottom, with its characteristic microscopic plant and animal life, magnified more than 15,000 times.

*Second Floor*—Collections from Africa. Material illustrating the life of prehistoric man of North America. Ancient monuments of Mexico and Central America. Birds of the world. Recent fishes. Mammals of North America. Akeley group of African elephants. Extensive reptile and amphibian material, including a number of beautiful groups (Lower California Lizard, Bullfrog, Great Salamander and New England Spring Groups). The most recent, finest and largest of the groups is the Florida Group. This reproduces a portion of a cypress swamp, with a stretch of sandy lowlands, teeming with characteristic animal life.

*Third Floor*—Shells. Collections from the living tribes of Asia, including Chinese bamboos, porcelain, basketry, inlaid work, embroidery, cloisonne enamel, agricultural implements, carvings in wood, ivory and stone and an especially valuable collection of ancient bronzes and pottery; material illustrating the mode of living, costumes and war implements of Siberia. Large and fine collections from the Indians of South America. Hall of Primates—Monkeys, apes and primitive man. Mammals of the world, including whales. Insect life. Birds of North America (the famous habitat groups). Public health exhibits dealing with problems of water supply, disposal of wastes, bacteria, insects and diseases, military hygiene.

### GEMS AND FOSSILS.

*Fourth Floor*—Collections from the Philippine Islands and the South Seas. Mineral and Gem collections. Hall of Gems, the gift of J. Pierpont Morgan—Collections including practically every variety of known gem, cut and uncut, some of remarkable size and purity of color; largest perfect crystal in the world, mounted on bronze base supported by three Chinese figures; exceptionally fine cameos, carved jade, etc. Hall of Fossil Invertebrates and Historical Geology—Large collections and models of caves and of Copper Queen Mine, showing cross sections and surrounding country. Halls of Fossil Vertebrates devoted to the great collections of the remains of creatures which lived from 30,000 to 20,000,000 years ago. These collections, by right of extent, variety, quality and methods of preparation and exhibition, are the finest in the world. The collections illustrating the evolution of the horse approach in importance and value the combined collections of this sort to be found in all other institutions. Hall of the Age of Man—Casts of prehistoric men and skeletons of the animals of their time (mammoths, mastodons and giant ground sloths). In the adjoining hall are fossil camels, giant pigs, a pigmy hippopotamus and primitive rhinoceros-like animals; fossil lemurs and monkeys which have an important bearing on the ancestry of man. Dinosaur Hall—Remains of fossil reptiles and fishes which lived from three million to ten million years ago. "Mummy" of dinosaur (trachodon) in which the texture of the skin has been preserved. Fossil aquarium reproducing a number of the earliest known fishes, with typical marine surroundings—all prepared on the basis of recovered specimens illustrating the animal and plant life of the time.

*Fifth Floor*—Public reference library. Osborn library of Vertebrate Paleontology. Offices. Laboratories. Studios.

### EDUCATIONAL ACTIVITIES.

In addition to its work in securing and exhibiting natural history specimens, the institution maintains a Department of Public Education, which works in conjunction with the city's public schools and institutions for the blind, giving lectures, and circulating loan collections, slides and motion picture films. In 1921, 869 natural history collections were served to 477 schools and 209,451 slides were circulated. For teaching the blind, special apparatus, including relief globes and maps, are used. On December 23, 1921, the City Administration appropriated $1,500,000 for the construction of the Southeast Wing on Central Park West, and the Southeast Court Building, and on April 21, 1922, it appropriated $570,000 for the construction of the School Service Building.

While the institution is forced, through lack of building space, to keep the great majority of its collections in storage rooms, this material is available for study by persons interested.

## BUFFALO FINE ARTS ACADEMY.

The Buffalo Fine Arts Academy was organized November 11, 1862, and incorporated December 4 same year. The building occupied by the organization was a gift from Mr. John Joseph Albright. It is a white marble structure two hundred and fifty feet long (north and south) and one hundred and fifty feet deep (east and west). Its central feature is based on the east porch of the Erectheum, on the Acropolis at Athens—perhaps the purest type of Ionic architecture The City of Buffalo has been contributing toward the support of the institute since 1909. The permanent collection of the academy consists of 315 paintings, 803 engravings and etchings, and 57 sculptures, including casts. The total membership is 610. During each year several special exhibitions are given; a semi-annual art journal is published. Lectures are given. Special efforts are made to interest the public and the school children. Several foreign exhibits brought over by the director, Cornelia B. Sage Quinton, and passed on to other museums after being first shown at the Albright Art Gallery, have made Buffalo noted in art circles. They included: Exhibition of paintings and sculpture by the Societe Nouvelle of France, of which Rodin was President; exhibition of French textiles; exhibition of the work (sculpture) by Constantin Meunier; collections of the French artists G. La Touche and M. B. de Monvel; the exhibition of American sculpture, held at Albright Art Gallery in 1916.

## SMITHSONIAN INSTITUTION.

THE Smithsonian Institution is legally an establishment having as its members the President of the United States, the Vice President, the Chief Justice, and the President's Cabinet. It is governed by a Board of Regents consisting of the Vice President, the Chief Justice, three members of the United States Senate, three members of the House of Representatives, and six citizens of the United States appointed by joint resolution of Congress. The Secretary of the Smithsonian Institution is its executive officer and the director of its activities.

The institution at Washington, D. C., was established by statute in 1846, under the terms of the will of James Smithson, who bequeathed his fortune in 1826 to the United States to found an institution for the "increase and diffusion of knowledge among men." From the income of the fund a building, known as the Smithsonian Building, was erected on land given by the United States. The institution maintains a library, numbering about 300,000 volumes, which is deposited in the Library of Congress and which consists mainly of the transactions of learned societies, and scientific periodicals. While the body of the library is deposited in the Library of Congress and accessible to all its readers, a working library is maintained at the institution. The Regents are empowered to accept gifts without action of Congress in furtherance of the purposes of the institution, and to administer trusts in accord therewith.

The institution has charge of the National Museum, the National Gallery of Art, the International Exchange Service, the Bureau of American Ethnology, the National Zoological Park, the Astrophysical Observatory, and the United States Regional Bureau for the International Catalogue of Scientific Literature.

The United States National Museum is the depository of the national collections. It is rich in the natural history, geology, paleontology, archaeology and ethnology of America, and has collections of American history (including large war collections illustrative of the part taken by the United States in the recent conflict), as well as many series relating to the arts and the industrial arts. It is an educational and a research museum, and issues scientific publications. The National Gallery of Art consists of the collections of etchings and engravings of George P. Marsh, the collections of Charles L. Freer, containing paintings and etchings by Whistler, and examples of Oriental art; the Harriet Lane Johnson collection, including works of a number of the greatest English portrait painters, and the collection of William T. Evans, of one hundred and fifty-one paintings, representing one hundred and six American artists. The National Museum occupies two special structures, built in 1881 and 1911, containing 650,000 square feet of floor space. There are 6,274 articles in the Freer collection. The amount of the annual appropriations made by Congress for the support of the museum for the fiscal year 1920 was $307,500. In addition there was appropriated for publications, binding of books, etc., $37,500. The buildings are opened to the public 9 A. M. to 4.30 P. M., week days, and in addition the new building at the foot of Tenth Street is opened Sundays, 1.30 P. M. to 4.30 P. M.

Bureau of American Ethnology, for the study of the American Indian; the International Exchanges, for the exchange of governmental and scientific publications between the United States and foreign countries; the Astrophysical Observatory for the investigation of radiation phenomena; the National Zoological Park, at Washington, containing about 1,400 animals and the Regional Bureau of the International Catalogue of Scientific Literature, for the preparation of a classified index to the current scientific literature of the United States, are also branches of the institution.

## NATIONAL ACADEMY OF SCIENCES, WASHINGTON, D. C.

THERE are 186 living members, comprising investigators in many departments of science. The geographical distribution of members covers the United States, but is not considered in their election. The National Academy has often been called into the service of the Government. Committees appointed in accordance with acts of Congress at the request of joint commissions and committees of Congress, of the President of the United States, and of the various departments of the National Government, have reported on a great variety of subjects. From time to time trust funds have been established, the incomes of which are devoted to the award of medals or to grants for research. The will of Alexander Dallas Bache, first President of the Academy, directed that the residue of his estate, after the death of his wife, should be paid over to the National Academy of Sciences for the "prosecution of researches in physical and natural science by assisting experimentalists and observers." Other trusts have been left to the Academy. Several hundred thousand dollars have been disbursed by the academy from the income of trust funds in direct aid of scientific research. A recent gift was that of the Carnegie Corporation, $5,000,000, for a suitable building for the academy and the National Research Council, and for the endowment of the council.

## MOUNT VERNON MUSEUM, AND TOMB OF WASHINGTON.

"MOUNT VERNON," on the west shore of the Potomac River, 15 miles below Washington, belongs to the Mount Vernon Ladies' Association. It was built in 1743 by Lawrence, half brother of George Washington. On the death of Lawrence and of his only daughter, George Washington inherited the estate and went there to live soon after his marriage in 1759. He died and was buried there in 1799. In 1855 John Augustine Washington offered it for sale. A patriotic daughter of South Carolina, Ann Pamela Cunningham, devoted herself to raising $200,000 required for the purpose. In 1858 the Mount Vernon Ladies' Association of the Union was organized, with Miss Cunningham as regent, and vice regents representing 12 States. Contributions were solicited and popular support was enlisted. The full sum was in hand before the end of 1859, and in 1860 Mount Vernon became the property of the association. A further fund was provided for permanent care and maintenance. Portions of the original estate that had been sold have been acquired again; buildings which had fallen into ruin have been restored; the deer park under the hill has been restocked; the mansion has been repaired; many articles of furniture and adornment have been restored to the several rooms; numbers of valuable relics and mementoes of George and Martha Washington and of their time have been deposited here.

## CORCORAN GALLERY OF ART, WASHINGTON, D. C.

THE Corcoran Gallery of Art, at Washington, D. C., founded and endowed by the late William Wilson Corcoran in 1869, solely for encouraging American genius in the fine arts, is a private corporation controlled by a self-perpetuating board of nine trustees. The original home of the institution was at Pennsylvania Avenue and 17th Street; but in 1897 its collections were transferred to the present building, designed by Ernest Flagg of New York, and located at New York Avenue and 17th Street, N. W. The value of the building and grounds connected therewith is $1,000,000, and the present value of the collections is estimated at $1,500,000. The endowment fund amounts to $1,000,000.

The collection of paintings is particularly representative of American artists. In addition the gallery has examples of the French, Dutch, English, and other schools. The sculptures include casts from the antique and the Renaissance, and modern works, as well as original works in marble and bronze. There are over 100 original bronzes by Antoine-Louis Barye, French sculptor of animals. It is open to the public: Mondays, 12 M. to 4.30 P. M.; other week days, 9 A. M. to 4.30 P. M.; Sundays, 1.30 to 4.30 P. M.

## THE HASKELL ORIENTAL MUSEUM OF THE UNIVERSITY OF CHICAGO.

THE Haskell Oriental Museum was erected through the generosity of Mrs. Caroline E. Haskell. Its collections, now exceeding 16,000 original objects, are intended to exhibit as systematically as possible the early civilizations of the Near East. Egypt is most largely represented. Both the Egyptian and the Assyro-Babylonian sections have been augmented in part by expeditions of the university's Oriental Exploration Fund in 1903-7 and by its Oriental Institute in 1919-20. The latter organization is a recent expression of the interest of Mr. John D. Rockefeller, Jr. It supplements the museum not only by adding to its collections but by cataloguing and co-ordinating in research the materials there assembled, both originals and reproductions, with the library facilities of the university. The museum houses also some materials for the study of Palestine and of the religions of the Far East.

## INDEPENDENCE HALL NATIONAL MUSEUM, PHILADELPHIA.

(Data Supplied by Wilfred Jordan, the Curator.)

INDEPENDENCE HALL was at first called "The State House of Pennsylvania." It now comprises the main or central building (Independence Hall), two arcades connecting it with two two-story buildings called the Wings or Province Halls, and two separate corner buildings, one Congress Hall, the other Old City Hall, one on the corner of Fifth Street and the other on the corner of Sixth Street, facing on Chestnut Street, Philadelphia. The State House group of buildings was designed and built by Andrew Hamilton, a Philadelphia lawyer, who bought the land, for which he created a trust. Congress and City Halls were in Hamilton's original scheme of the State House group, but were not built until after the close of the Revolution. The group of buildings covers a frontage of 396 feet on Chestnut Street.

The original building (Independence Hall) in the group was begun in 1732 and was opened and first put to use in September, 1736, when William Allen, Mayor and prominent merchant of Philadelphia, gave a dinner to the citizens. In October, 1736, the Legislature, of which Benjamin Franklin was clerk, moved into the completed part of the structure, then known as the "East Room." In June, 1753, Pass & Stow placed in position in the State House steeple the Liberty Bell, weighing 2,080 pounds. In 1752 a clock was ordered, and in 1759 it was placed and paid for. The State House was practically completed in the latter year. Here are some of the historical events that have taken place in Independence Hall:

June 15, 1775, Washington accepted his appointment as General of the Continental Army.

July 4, 1776, Colonies issued the Declaration of Independence.

July 15, 1776, convention to form a new Constitution for Pennsylvania met here.

September 11 and October 4, 1777, American officers captured at the Battles of Brandywine and Germantown were held prisoners in the building by the British.

Congress, which had left Philadelphia in September, 1777, and which convened in Independence Hall March 4, 1777, left again on September 18, 1777; returned July 2, 1778, and continued to sit there until the close of the Revolution.

July 9, 1778, the Articles of Federation and Union between the States were signed in Declaration Chamber by eight States. The five remaining States signed later, the last, Maryland, on March 1, 1781.

May 14, 1787, the Federal Convention to frame a Constitution for the United States assembled, sitting until September.

December 13, 1787, the Pennsylvania Convention met to ratify the Philadelphia Constitution.

In 1824 Lafayette was given a reception there.

December 6, 1790, the Congress of the United States occupied the County Building, now known as Congress Hall, one of the Independence Hall group, and remained there until the seat of Government was removed to Washington in 1800.

March 4, 1793, George Washington was inaugurated in Congress Hall, at the beginning of his second term as President; and John Adams was inaugurated there March 4, 1797. The House of Representatives occupied the lower floor and the Senate the second floor.

February 7, 1791, the Supreme Court of the United States held its first session on the second floor of the City Building, now known as Old City Hall, one of the Independence Hall group, and stayed there until August 15, 1800. The Supreme Court of Pennsylvania sat on the second floor of the building also. The City Building was used as the municipal headquarters until March 27, 1895.

In 1816 the City of Philadelphia bought the entire property.

There are many historic oil portraits in the National Portrait Gallery, including Washington and other early American public men.

Independence Hall was formally thrown open as a public historical museum July 4, 1876, although parts of this building were used as a museum as early as 1790. Cost of its annual upkeep is $25,000. Its art collection, made up in the main of original pictures of celebrities of Colonial and Revolutionary times, is worth over $500,000. The museum collection consists of furniture, manuscripts, musical instruments, water colors, missiles, maps, coins, currency, weapons, metals, prints, wearing apparel, utensils, and books.

There are no pay days. The National Museum is open to the public daily throughout the year, from 9 A. M. to 4 P M., Sundays, 1 to 4 P. M., except Christmas and Thanksgiving. The National Museum, Independece Hall group, is located on the south side of Chestnut Street, between Fifth and Sixth Streets, and can be reached from the central hotel district and the railroad stations by trolleys or subway trains. A series of free bulletins are issued, which will be mailed upon request.

## THE CLEVELAND MUSEUM OF ART.

THE Cleveland Museum of Art, incorporated in 1913, was opened to the public on June 6, 1916. It is situated in Wade Park on land given by J. H. Wade. The building cost about $1,250,000, was made possible through the wills of John Huntington and Horace Kelley, and the main income is derived from The John Huntington Art & Polytechnic Trust and The Horace Kelley Art Foundation. The Museum is open free on Sundays, Wednesdays, Saturdays and holidays, an admission fee of twenty-five cents being charged on other days. The hours on Sunday are 1 to 10 P. M., on Wedne day, 9 A. M. to 10 P. M., and on other week days and holidays, 9 A. M. to 5 P. M. The membership is approximately 5,000.

Exhibition space comprises a central rotunda, opening on one side into the Court of Tapestries and Armor, and on the other into the Garden Court, and around these as a central axis are arranged fourteen exhibition galleries. The collection of American Colonial art was installed in a gallery directly opposite the main entrance so that the first emphasis for the entering visitor might be on the artistic production of our own country. This has been of aid in developing in the foreign-born visitor the realization of America's traditional and cultural background. The Court of Tapestries and Armor houses an important and striking collection of arms and armor, and a series of eight tapestries depicting the story of Dido and Aeneas. The museum is especially rich in its oriental collections, and has developed other important groups illustrating the art of various countries from ancient to modern times.

The educational work of The Cleveland Museum of Art is being developed along various lines. The conference room is available at all times for clubs or groups desirous of studying art subjects or the museum's collections. Lectures and museum talks are given on request by members of the staff.

The Children's Museum is becoming an important factor of the museum's activities. An appeal is made to the child mind by exhibits of suitable works of art, including series of ethnological models and natural history groups. Drawing materials are placed at the disposal of the children and sympathetic assistance is given them by the attendants, every effort being made to create an interest in and an appreciation of beauty and art. Classes of sixth, seventh and eighth grade public school children work in the museum each day under a supervisor employed by the Board of Education. Classes from the public and private schools and from the colleges come for general tours of the galleries and for correlative study.

A department of musical arts was established in 1920. The museum's reference library contains 5,000 books on art, etc., magazines, and over 7,000 lantern slides.

## THE CITY ART MUSEUM OF ST. LOUIS.

THE City Art Museum of St. Louis was established in 1879, and became a municipal institution in 1909. The building is in Forest Park, 160x350 feet, with 44 galleries on three floors. The collections include paintings, prints, sculpture, textiles, ceramics, metal work, furniture and other objects. The modern paintings are comprehensive, by artists of America, France, Holland, Spain, England, Russia, Sweden, Belgium and other countries. There is a small group of Old Masters. In the print department are etchings, engravings and woodcuts by old and modern masters. The sculptures are chiefly examples by American artists, supplemented by collections of casts from the antique and from masterpieces of the Renaissance. Among the Chinese ceramics are specimens from the Han Dynasty downward, and examples of the Sung, Ming, and K'ang-Hsi periods. There are groups of Chinese paintings, bronzes, jades and other carved stones, lacquer, glass, textiles, &c., as well as objects illustrative of the decorative arts of ancient Greece and Egypt, of Japan, Korea and Persia. The museum is open daily, except Christmas and New Year's Days, 10 A. M. to 5 P. M. Admission free.

## FIELD MUSEUM OF NATURAL HISTORY, CHICAGO.

FIELD Museum of Natural History, established 1893, at the close of the World's Columbian Exposition of 1893, removed June 1, 1920, to its new building in Grant Park. The founding of a scientific institution of this character in Chicago was made possible by a gift of $1,000,000 by Marshall Field, whose name the institution bears, and who on his death, January 6, 1906, bequeathed a further $8,000,000, of which $4,000,000 was for the erection of a permanent building, and $4,000,000 for endowment. The sum of $1,200,000 has been contributed by others, and there is an annual income from other sources than endowment of approximately $120,000.

### FIVE MAIN DEPARTMENTS.

The nucleus of the exhibition material was gathered by gift and purchase at the World's Columbian Exposition. Several departments created at the organization have been abandoned, until, after a lapse of twenty-seven years and expenditure of over $7,000,000, the museum is now divided into five departments: Anthropology, botany, geology, zoology, and the N. W. Harris Public School Extension. Many expeditions for the purpose of obtaining study, exhibition, and exchange material and data have been dispatched to all parts of the world. The results have been published by the museum from time to time. It has a working library of 78,000 titles, an extensive exchange system, fully equipped departmental laboratories, an herbarium of 560,000 sheets, study collections of mammals, birds, fishes, reptiles and insects reaching many thousand specimens, a large taxidermy section, a printing shop, illustration studio, assaying and lapidary rooms, etc. In North America, Philippine, Chinese and Tibetan ethnology, in meteorites, in the world's mineralogy, in economic botany, the museum is particularly prominent, while its series of mounted mammals and birds and plant reproduction furnish examples of advanced museum practice. The institution is open to the public on all days except Christmas and Thanksgiving. A small admission fee is charged except on Thursday, Saturday, and Sunday, when it is free to all. Students, scholars and teachers are admitted free at all times.

### COVERS ELEVEN ACRES.

The museum is incorporated under Illinois State law, and the administrative control rests in a board of twenty-one trustees. The building is 750 feet by 350 feet, but with the exterior outer lines, including entrances and terrace, the structure covers about eleven acres of ground. President, Stanley Field; Secretary and Director, D. C. Davies.

## THE ART INSTITUTE OF CHICAGO.

THE institute is on the lake front at the foot of Adams Street, facing Michigan Avenue. Building constructed of Bedford limestone in Italian Renaissance style, 320 feet long with 120,000 square feet of floor space. The institute has about 150 galleries, school rooms, offices and studios; also Fullerton (lecture) Hall, with seating capacity of 500; the Burnham Library of 3,000 volumes on architectural subjects, and the Ryerson Library, 14,500 volumes on art, one of the few libraries in the world devoted exclusively to art. During the fall, winter and spring months 80 to 100 lectures on art and related subjects are given in Fullerton Hall, also an orchestra concert each Sunday afternoon and evening, and occasionally a pageant or dramatic presentation.

### 1,800 PAINTINGS, 1,100 SCULPTURES.

The museum contains more than 1,800 paintings, 1,000 casts of sculpture, 100 original marble statues and fragments of all periods, 3,500 prints, etchings, engravings and lithographs, 1,500 textiles of ancient and modern times, Peruvian and Egyptian to the Eighteenth Century, and extensive collections of potteries, porcelains, china, etc., a great part of the last named being assembled in Gunsaulus Hall, among them the Blanxius collection of English potteries and porcelains, one of the finest extant. The institute was incorporated in 1879 and achieved international importance with the purchase of fifteen old Dutch Masters of the Demidoff collection, in 1890. These paintings, with other important canvases of their school, hang in the Charles Lawrence Hutchinson Gallery of Old Masters, named in honor of Mr. Hutchinson, who has been President of the institute for over forty years. Rembrandt, Rubens, Van Dyck, Hans Holbein, Hobbema, Von Ostade, ter Borch, Jan Steen, Teniers, Ruysdael, Van de Velde, are represented in this gallery. The Henry Field, A. A. Munger and Nickerson memorial collections include painters of the Barbizon school, the earlier American painters of landscape and figures, the Potter Palmer collections, paintings of modern European impressionists.

### MODERN AMERICAN ART.

Modern American art is chiefly represented in the collection now numbering over one hundred canvases and other works presented by The Friends of American Art. One of the features of the institute is the series of temporary exhibitions of paintings, sculpture, architecture and applied arts which are held during the year. Annual and special exhibitions and collections of various kinds from America and abroad to the number of six to ten at a given time keep the constituency of the Art Institute aware of current achievement in art. Attendance (1921), 1,224,894. Free days for public—Wednesdays, Saturdays, Sundays and public holidays. The institute's sources of income are bequests, gifts, membership dues (total paid membership, Jan. 1, 1922), 18,196, income from its endowment of about $3,000,000 both restricted and free, and a small tax from the South Park Board of the City of Chicago. The building has a value between a million and a half and two million dollars. The collections have a commercial worth far beyond five million dollars. The art school of the institute has an annual attendance of about 4,600 students; often referred to as the largest art school in the world. It has a faculty of about two score teachers and instructors.

## THE CINCINNATI MUSEUM OF ART.

(By the Director, J. H. Gest.)

THE Cincinnati Museum Association, organized in 1880, and incorporated in 1881, gives exhibitions during the year, and has collections of modern American art which include the pictures, sculpture and etchings of Frank Duveneck; paintings, studies, drawings and etchings by Robert Blum; as well as a representation of the other leading American painters and sculptors; and a considerable number of modern French paintings. Casts of Greek sculpture and of carved ivory from the Roman to the Renaissance period are installed in the Schmidlapp Building, and there is a large group of American archaeology. The decorative arts are represented, the department of metal work including, besides the Elkington reproductions, a group of original armor and the Conner collection of original silver. The museum holds also the Doane collection of musical instruments, the Longworth historical exhibition of India shawls, and the exhibition of Rookwood pottery, the Cincinnati art industry with which the museum and its school, the Art Academy of Cincinnati, are closely connected. There is a reference library.

## BROOKS MEMORIAL ART GALLERY, MEMPHIS, TENN.

THE Brooks Memorial Art Gallery, a gift to Memphis by Mrs. Samuel Hamilton Brooks, in memory of her husband, was dedicated May 25, 1916. It is of pure Grecian architecture, of Georgian marble, costing $115,000. Situated in Overton Park, it is under the supervision of the Park Commission, one of which body is chairman of the Art Gallery.

The extension work in the schools is one of the important activities of the Gallery, and is supported by the Memphis Art Association. There is an annual exhibit of local artists' work and students from the schools and studios, every spring. Prizes are given by the Art Association, including one for the best essay by any one from the English classes. The Junior Art Association is the centre of school interest. Several of the schools have already begun to buy good pictures. There are also garden clubs, etc. Each school has a branch of the Junior Art Association with its own officers and plan of work. There are three joint meetings a year, the chairman of which makes a report to the Senior Art Association, thereby forming a circle of work around the Art Gallery. At stated times lecturers are brought to the city.

## TELFAIR ACADEMY OF ARTS AND SCIENCES, SAVANNAH, GA.

FOUNDED 1875, under will of Mary Telfair (daughter of Edward Telfair, revolutionary patriot, signer of the Articles of Confederation, and early Governor of Georgia), and last of her name. She devised to a Trustee the Telfair residence and contents, and an endowment of $100,000. By additions and alterations, the residence was converted into an art gallery, containing: (1) Specimens of Colonial furniture and furnishings of the Telfair family, displayed in the dining room, which is unchanged; (2) Old books and manuscripts found in the residence; (3), a collection of casts of classical statues; (4), about seventy modern paintings by artists of America, England, France, Germany, Holland, Belgium and Italy. Open seven days a week; no pay days. Gives miscellaneous art exhibitions, chiefly from American Federation of Arts, exhibitions of individual painters and etchers, and lectures.

## ISAAC DELGADO MUSEUM OF ART, NEW ORLEANS.

THE Isaac Delgado Museum of Art was dedicated on December 16, 1911. The building was the gift of Isaac Delgado to the City of New Orleans, and is maintained by the city. The Museum is free to the public; except Fridays, 25 cts. The Curator, C. W. Boyle. It is open on Sundays, but closed every Monday. Mr. Delgado was born in 1839, at Kingston, Jamaica, and came to New Orleans when a young man, and became associated with his uncle, Samuel Delgado, in the sugar and molasses business. He died January 4, 1912. Permanent collection includes the Chapman H. Hyams collection of paintings and statuary; the Morgan Whitney collection of jade and other hard stones; the Alvin Howard collection of Etruscan glassware and Greek pottery; the B. M. Harrod collection of paintings and old silverware; the John G. Agar collection of paintings, bronzes and ceramics, and the Eugene Lacosst collection of bronzes and ceramics.

## UNIVERSITY OF PENNSYLVANIA MUSEUM.

(At the University, Philadelphia.)

Director, George Byron Gordon. The collections include Egyptian, Babylonian, Graeco-Roman, Chinese, Mohammedan, Aboriginal America, Africa, the South Seas, Primitive Asia, Ancient Art, Industrial Art the Decorative Arts. There is a library of 10,000 volumes relating to subjects illustrated in the exhibits.

The most important accessions during the year have been an ancient royal feather cloak and cape from Hawaii; a collection of South Sea Island carvings; a collection of ancient Benin carved elephant tusks and bronzes; a Chinese gilt bronze statuette of the period of the Six Dynasties. The number of visitors during the year was 94,056. The expenses of administration amounted to $83,742.03 and the sum of $151,092.95 was spent for expeditions and collections The interest on the Eckley B. Coxe, Jr. Endowment of $500,000 is available for Egyptian explorations. The city appropriated $30,000. The entire income of the museum, including sales of photographs, publications, etc., was $324,854.47.

The museum maintains expeditions in Alaska, Central America, South America, Egypt and Palestine. Open daily throughout the year from 10 A. M. until 5 P. M. Sundays 2 until 6. Organized 1889. First section of the museum opened in 1889, second section opened in 1916. Annual meeting in December. Board meets third Friday of each month, except July and August. Expert guidance is free to all visitors. The Museum Journal is published quarterly, giving accounts of expeditions in the field and of exhibits in the museum. Four series of publications are issued containing studies and investigations in archaeology and ethnology: Anthropological Series, Babylonian Series, Egyptian Series, Mediterranean Series. The public schools are especially looked after in the way of lectures at the institution.

## MUSEUM OF HISTORIC ART AT PRINCETON UNIVERSITY.

THE Museum of Historic Art was founded in the year 1889. It contains the notable T umbull-Prime collection of pottery and porcelain, a few Assyrian, Greek and Roman sculptures, Cypriote and later Greek pottery, and a quantity of Syrian glass from the Princeton expeditions. In the mediæval and Renaissance field there are sculptures and paintings, few but of good quality. The cast collection comprises the history of sculpture in epitome from early Egyptian times through the Italian Renaissance. A new hall of architectural casts is in preparation under the care of the School of Architecture.

A distinctive and probably unique exhibition is the series of full size architectural casts taken from Syrian buildings of late classical and early Christian periods by Prof. Howard Crosby Butler.

The museum, which for a year will be in process of rearrangement, is regularly open to the public from 2 to 5 P. M. Sunday afternoons, and generally on week days during the term on application to the custodian.

## BOSTON MUSEUM OF FINE ARTS.

THE Museum of Fine Arts, Boston, was incorporated February 4, 1870. The first section of the Museum building in Copley Square was dedicated July 3, 1876, and the next day it was opened to the public. The original building was twice enlarged. The first section of the present building on Huntington Avenue was opened November 15, 1909. The total cost of land, building, and installation was $2,900,000. The second section of the proposed completed building, the Robert Dawson Evans Galleries for Paintings, the gift of Mrs. Evans, was opened February 3, 1915. It cost $1,000,000. The annual running expenses are about $200,000. The Museum receives no city or State aid, its funds for running expenses and for purchases being derived entirely from private gifts and bequests. Admission is free whenever the Museum is open: 10 A. M. to 5 P. M. week days (Nov. 1 to March 1, 4 P. M.), 1 P. M. to 5 P. M. Sundays.

The Museum possesses collections illustrating the art of Ancient Egypt, Greece, and Rome, the art of mediaeval, Renaissance and modern Europe, American art, and the art of Asia. Its collection of Egyptian and Greek sculpture and Greek vases and terra cottas is the finest in this country; its collection of the art of China and Japan is unrivalled; its collection of the art of India is the only one in this country; and its collection of paintings and drawings from India is superior even to the one in the British Museum; the textiles, numbering over 7,000 pieces, are recognized as the best comprehensive representative collection in this country; the paintings, of which over 700 are exhibited, include, besides examples of the old masters, a large collection of French paintings of the nineteenth century and also of early American paintings.

## WORCESTER ART MUSEUM.

(By the Director, Raymond Wyer.)

THE Worcester, Mass., Art Museum was founded and incorporated in 1896. It was a gift from the late Mr. Stephen Salisbury who left his entire estate for its maintenance and the formation of a permanent collection. One of the significant collections of early Italian paintings and sculpture in the country has been assembled as well as important examples of painting and sculpture of other schools and periods. Collections of textiles, furniture, ceramics, woodwork, silver and bronzes are being made. Also of special note are the Bancroft Collection of Japanese Prints and the Goodspeed Collection of Engravings by American Artists. Another important feature is the Educational Department, which gives courses of instruction in color and design to school children and lectures on the same subject to adults. It has an important art library. A series of free concerts is given each year to the public as well as a number of transient exhibitions. There is a Worcester Art Museum Arts and Crafts School in a separate building.

## THE MUSEUMS AT HARVARD UNIVERSITY.

THE William Hayes Fogg Art Museum was founded by Mrs. Elizabeth Fogg of New York in memory of her husband, whose name it bears. Mrs. Fogg bequeathed for this purpose $220,000, of which $150,000 was expended on the fireproof building, completed in 1895, in the College Yard. The building is two stories high with a lecture room. Admission to the Museum is free. The hours of opening are: week-days, 9 A. M. to 5 P. M.; Sundays during the college year 12 M. to 5 P. M. The Museum is closed on legal holidays and on Saturday afternoons during the summer vacation of the University.

The collections include original works of ancient sculpture, among them a marble statue of Meleager (possibly a fourth century copy of the original by Scopas; moulds and fragments of Arretine pottery; Greek vases, coins and figurines; a series of Gandhara sculptures; a notable collection of Romanesque sculpture, principally composed of 16 capitals representing the finest type of twelfth century French work; Oriental works of art, including Chinese, Japanese and Thibetan paintings, Persian miniatures and calligraphy, pottery, jade and bronze; textiles; a few American paintings, among them works by Sargent, Winslow Homer and Dodge Macknight; about one hundred Byzantine, Italian, Spanish, Flemish and German paintings of the fourteenth, fifteenth and sixteenth centuries; original drawings and water color drawings by masters of the French, Italian, Northern and English schools; and a large collection of prints, chiefly the work of the German and Italian wood and metal engravers and etchers. The Museum also has a library and a collection of photographs and slides.

### SEMITIC AND GERMANIC MUSEUMS AT HARVARD UNIVERSITY.

The Semitic Museum at Harvard University was founded by Jacob H. Schiff, Esq., in 1899. The objects aimed at have been to aid the regular instruction given in the departments; to furnish the means of research; to illustrate the manners, customs and history of the Semitic peoples and thus to show, as far as may be, what the Semites have contributed to civilization. The Museum building on Divinity Avenue, Cambridge, completed in 1902, is likewise the gift of Mr. Schiff.

The object of the Germanic Museum is to illustrate by means of plaster casts and other kinds of reproduction the outward aspect of the development of Germanic Culture. The new Museum building, erected in 1916 at the corner of Kirkland Street and Divinity Avenue, Cambridge, is called, in honor of its donor, Adolphus Busch Hall.

### PEABODY MUSEUM AT HARVARD UNIVERSITY.

The Peabody Museum of American Archaeology and Ethnology of Harvard University was founded by George Peabody in 1866. Its purpose was the forming and preserving of collections of antiquities and objects relating (1) to the native people of the American continent, and (2) to the various primitive peoples of the world in general. The collections are housed in the Peabody Museum building of five stories which forms the southern wing of the University Museum structure. The five stories have more than 53,000 square feet of floor space for exhibition purposes, and about 18,000 square feet for offices, laboratories and storage.

The collections relating to prehistoric American tribes have been brought together largely by explorations under the auspices of the Museum, those relating to Middle America being unusually complete. In the halls devoted to the Mayan region are grouped the reproductions of the great stone stelae and altars which adorn the plazas and stand before the ruined temples of the great Maya cities. Collections relating to historic American tribes contain rare objects obtained by well-known early explorers.

The material relating to prehistoric Europe contains collections by Gabriel de Mortillet, Lartet and Christy, and Clement, the pioneer archaeologists of the century just past. The primitive people of Oceania are represented, also both the historic and prehistoric tribes of Africa. The osteological collections contain examples of skeletal remains from nearly all sections of the world.

The laboratories of the Museum are open (under proper restrictions) to all specialists and students in anthropology. The collections are also made use of by many of the institutions of higher education in Central New England, in connection with the study of the origin and development of design, architecture, and the various minor arts, as well as of mankind in general. The publications of the Museum consist of papers, memoirs, annual reports and special publications.

## PEABODY MUSEUM OF NATIONAL HISTORY, YALE UNIVERSITY.

THE Peabody Museum of Natural History at Yale University was founded by George Peabody in 1866. Ten years later the first wing of the museum was built, but the complete plan was never carried out, and the building was removed in 1917 to make way for the Harkness Memorial Quadrangle. Since then the greater part of the collections have been in storage pending the erection of a new building, which, it is hoped, will be begun before the end of 1922.

The museum has the following collections: Mineralogy, built up around the Gibbs collection purchased by the University as far back as 1825 and containing, besides an abundance of minerals, one of the largest assemblages of meteorites in the country; Zoology, brought together largely by Yale's distinguished naturalists, the late Professor J. D. Dana and Professors A. E. Verrill and S. I. Smith, and including a vast amount of marine invertebrates accumulated through co-operation with the U. S. Fish Commission; Anthropology, much of which was presented by the late Prof. O. C. Marsh; Invertebrate Paleontology, with material from all parts of this country and representing all geologic ages; Osteology, the gift of Prof. Marsh; and finally the Marsh collection of Vertebrate Paleontology, surpassed by perhaps but one other in the world, and particularly rich in type material from the western part of the United States.

### SCHOOL OF FINE ARTS.

*The School of the Fine Arts* at Yale University contains the Jarves collection of Italian art, numbering 120 paintings from the thirteenth to the seventeenth centuries; the Trumbull Gallery of Historical American Paintings; the Alden collection of Belgian wood-carvings of the seventeenth century, comprising 120 feet of wainscoting, including three confessionals, from a chapel in Ghent; the Frederick Wells Williams loan collections of Chinese porcelains and bronzes, and a number of other valuable objects of art; sketches by old masters, examples of contemporaneous work, casts and marbles representative of various periods of ancient and Renaissance art; bronzes; and Braun autotypes and Arundel prints to the number of about four hundred. These are from time to time supplemented by special collections and exhibitions.

*The William A. Speck Collection of Goethe Literature*, 26 Linsly Hall, includes many first and other important editions of Goethe's works, numerous books dealing with the Faust legend before Goethe's time, and most of the Faust dramas by other authors; also a very full representation of the translations into other languages of Goethe's *Faust*, a large body of commentaries, many portraits of Goethe and his friends, manuscript letters by and about Goethe, views of Weimar during Goethe's time, and an assemblage of medals struck in his honor.

### BABYLONIAN COLLECTION.

*The Babylonian Collection* at Yale University consists of about 10,000 original tablets belonging to the various periods in Babylonian history, from about 4000 to 150 B. C., and includes literary texts (epics and liturgies), syllabaries or dictionaries, mathematical treatises and different kinds of exercises from temple schools, divination texts, legal and business transactions, administrative documents from the archives of Babylonian temples, personal and official letters and records of various kinds, seal cylinders, inscribed bricks, votive objects, reliefs, royal building inscriptions, incantation bowls, etc. The original inscriptions are augmented by the *William Hayes Ward Collection* of seal-cylinder impressions, and by a large number of casts from museums in Europe and America which illustrate the life and customs of the ancient Babylonians and Assyrians. In addition to the Babylonian and Assyrian material, the beginning has been made of a collection of other Semitic monuments, including both casts and originals. *The Whiting Collection* of Palestinian pottery and terra-cotta, numbering 940 pieces, acquired through the generosity of the late Mrs. Francis Wayland, is also available for study.

## THE LIBRARY OF CONGRESS.

THE Library of Congress was established in 1800, destroyed in 1814, by the burning of the Capitol, afterward replenished by the purchase by Congress of the library of ex-President Jefferson, 6,760 volumes (cost, $23,950); in 1851, 35,000 volumes destroyed by fire; in 1852, partially replenished by an appropriation of $75,000; increased (1) by regular appropriations by Congress; (2) by deposits under the Copyright Law; (3) by gifts and exchanges; (4) by the exchanges of the Smithsonian Institution, the library of which (40,000 volumes) was, in 1866, deposited in the Library of Congress with the stipulation that future accessions should follow it. One hundred sets of Government publications are at the disposal of the Librarian of Congress for exchange, through the Smithsonian, with foreign Governments, and from this source are received about 12,000 volumes annually. Other special accessions have been: The Peter Force collection (22,529 volumes, 37,000 pamphlets), purchased 1867, cost $100,000; the Count de Rochambeau collection (manuscript), purchased 1883, cost $20,000; the Toner collection (24,484 volumes, numerous pamphlets), the gift in 1882 of Dr. Joseph M. Toner; the Hubbard collection (engravings).

The collection is now the largest in the Western Hemisphere, and third in the world. It comprises over 2,918,256 printed books and pamphlets (including the law library, which, while a division of the Library of Congress, still remains at the Capitol), maps and charts, pieces of music, and photographs, prints, engravings and lithographs numbering about two million.

The collection is rich in history, political science, in official documents, National, State, and foreign, and in Americana, including important files of American newspapers and original manuscripts (Colonial, Revolutionary, and formative periods). Many of the rare books and manuscripts belonging to the library are exhibited on the second floor.

Among the special book collections are the Yudin, of Russian literature (80,000 volumes); the Schiff, of Judaica (about 20,000); the Weber, of Indica; the Huitfeld-Kaas (Scandinavian); the John Boyd Thacher of Incunabula (930 titles). The Orientalia include some 5,000 volumes (fascicules) of Japanese books and about 40,000 volumes (fascicules) of Chinese. The Division of Prints includes certain collections given or lent, besides a large mass of material received by copyright and some by purchase. The manuscript collections are especially noteworthy for material on American history, some of the most distinguished of which has been received by transfer from the executive departments, the library being now regarded as the main custodian of the historical archive material in the possession of the Government. It has the papers of seventeen Presidents and of various American statesmen, Franklin, Morris, Hamilton, &c.

The library is copying largely documents in foreign archive offices and other institutions of concern to American history. It has already a large body of transcripts from such sources. This policy of transcribing and copying, where necessary by facsimile, is applied also to maps and to music. Through it, the collection of music, in bulk one of the largest in the world, is especially strengthened in full scores of orchestral and operatic music.

In 1897 the main collection was removed from the Capitol to the building erected for it under the Acts of Congress approved April 15, 1886, October 2, 1888, and March 2, 1889, at a cost of $6,347,000 (limit by law, $6,500,000), exclusive of the land, which cost $585,000. The architects who furnished the original designs were John L. Smithmeyer and Paul J. Pelz. By the act of October 2, 1888, before the foundations were laid, Thomas L. Casey, Chief of Engineers of the Army, was placed in charge of the construction of the building, and the architectural details were worked out by Paul J. Pelz and Edward P. Casey. Upon the death of Gen. Casey, in March, 1896, the entire charge of the construction devolved upon Bernard R. Green, Gen. Casey's assistant, and under his superintendence the building was completed in February, 1897, and opened to the public November, 1897. The building occupies three and three-quarter acres upon a site ten acres in extent at a distance of 1,270 feet east of the Capitol, and is the largest and most magnificent library building in the world. In the decorations some forty painters and sculptors are represented—all American citizens. The floor space is 326,195 square feet, or nearly eight acres. The book stacks, including the new stack built over the southeast interior court, contain about 100 miles of shelving, affording space for 3,540,000 of travel volumes and 84,000 volumes of newspapers.

The library is maintained by annual appropriations by Congress for various purposes, including the purchase of books. Total appropriation (1922) $711,120. For service and contingent expenses, $484,155; purchase of books, $98,000; building and grounds, $128,265.

*Library Service*—Library proper, 276 employees; copyright, 91; other, 149; distribution of cards, 53; legislative reference, 30. Total, 450. By virtue of the act of 1897, employees in the library proper are appointed by the Librarian of Congress, "solely with reference to their fitness for their particular duties." Custody and care of the building is under the Superintendent of the Library Building and Grounds, who is also the disbursing officer and appoints the 147 employees of his office.

Entitled by statute to draw books for home use are various officials at Washington. In addition, special permits are freely issued by the Librarian to persons engaged in research.

*Inter-Library Loans*—While not a lending library but primarily a reference library, the Library of Congress maintains an inter-library loan system by which special service is rendered to scholarship by the loan to other libraries for the use of investigators engaged in serious research of books which it is not within the power or duty of the library in question to supply and which at the time are not needed in Washington.

*Copyright Office*—The Copyright Office is a distinct division of the Library of Congress and is located on the ground floor, south side; open 9 to 4.30. It is under the immediate charge of the Register of Copyrights, who, by the acts of February 19, 1897, and March 4, 1909, is authorized "under the direction and supervision of the Librarian of Congress" to perform all the duties relating to copyrights. Copyright registration was transferred to the Librarian of Congress by the act of July 8, 1870. Of most articles copyrighted two copies, and of some one copy, must be deposited in the Library of Congress to perfect copyright.

*Hours*—The library building is open to the public all days in the year excepting 4th of July and Christmas. The hours are from 9 A. M. to 10 P. M. weekdays, from 2 P. M. to 10 P. M. Sundays and Holidays and 9 A. M. to 1 P. M. on Saturdays from June 15 to September 15.

*Librarians Since the Inception of the Library*—1800-1815, the Clerk of the House of Representatives (for the time being); 1815-1829, George Watterston; 1829-1861, John S. Meehan; 1861-1864, John G. Stephenson; 1864-1897 (June 30), Ainsworth R. Spofford; 1897-January 17, 1899, John Russell Young; 1899 (April 5), Herbert Putnam. *Chief Assistant*, Appleton P. C. Griffin; *Chief Clerk*, Allen R. Boyd; *Secretary*, Jessica L. Farnum.

## PAN-AMERICAN UNION.

THE Pan-American Union is the international organization and office maintained in Washington, D. C., by the twenty-one American republics, as follows: Argentina, Bolivia, Brazil, Chili, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, Guatemala, Hayti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Salvador, United States, Uruguay, and Venezuela. It is devoted to the development and advancement of commerce, friendly intercourse, and good understanding among these countries. It is supported by quotas contributed by each country, based upon the population. Its affairs are administered by a Director-General and Assistant Director, elected by and responsible to a Governing Board, which is composed of the Secretary of State of the United States and the diplomatic representatives in Washington of the other American Governments. These two executive officers are assisted by a staff of experts, statisticians, commercial specialists, editors, translators, compilers, librarians, clerks and stenographers. The Union publishes a monthly bulletin in English, Spanish, and Portuguese, which is a record of Pan-American progress. It also publishes numerous special reports and pamphlets on various subjects of practical information. Its *library*, the Columbus Memorial *Library*, contains 50,000 volumes, 25,000 photographs, 180,000 index cards, and a collection of 1,600 maps. The Union is housed in a building erected through the gifts of Andrew Carnegie and the contributions of the American republics.

*Director-General*—Dr. L. S. Rowe; *Assistant Director*—Francisco J. Yanes; *Counselor*—Franklin Adams; *Trade Adviser*—W. A. Reid; *Chief Statistician*—William C. Wells; *Chief Clerk*—Wm. V. Griffin.

## MUSEUM OF ANTHROPOLOGY, UNIVERSITY OF CALIFORNIA.

The Museum of Anthropology of the University of California was founded by Mrs. Phoebe Apperson Hearst in 1901. The collections gathered through her generosity cost more than $1,000,000. The Museum is temporarily located at Parnassus and Second Avenues, San Francisco. It is open daily (except Monday) to the public without charge. The hours are 10 A. M. to 4 P. M. on week days, 10 to 5 on Sundays.

Although the Museum was founded in 1901 it was not opened for public exhibition until 1911. The collections which have been placed on view represent the ancient cultures of the following regions: California, Southwestern United States, the Great Plains, the North Pacific Coast, Peru, Oceania, Asia, Greece, Italy and Egypt.

## NATIONAL ACADEMY OF DESIGN.

(Founded 1825. Headquarters, 109th Street and Amsterdam Avenue, New York.)

The National Academy of Design, and the Society of American Artists (founded 1877) were united, April 7, 1906. All members of the latter organization then became members of the former.

**Council**—Edwin H. Blashfield, President; Harry W. Watrous, Vice President; Charles C. Curran, Corresponding Secretary; Douglas Volk, Recording Secretary; Francis C. Jones, Treasurer. W. Granville-Smith, Robert I. Aitken, Herbert Adams, Emil Carlsen, Charles A. Platt, Hobart Nichols.

ACADEMICIANS.

(The year named is that of election.)

**Painters**—George R. Barse, Jr., 1900; Gifford Beal, 1914; Cecilia Beaux, 1902; George Bellows, 1913; Frank W. Benson, 1905; Louis Betts, 1915; Edwin H. Blashfield, 1888; Max Bohm, 1920; Frederic A. Bridgman, 1881; George DeForest Brush, 1908; Howard Russell Butler, 1899.

Emil Carlsen, 1906; Carlton T. Chapman, 1914; F. S. Church, 1885; B. West Clinedinst, 1898; William A. Coffin, 1912; Colin Campbell Cooper, 1912; E. Irving Couse, 1911; Bruce Crane, 1901; Charles C. Curran, 1904.

Elliott Daingerfield, 1906; W. P. W. Dana, 1863; Charles H. Davis, 1906; Lockwood DeForest, 1898; Franklin DeHaven, 1920; Louis Paul Dessar, 1906; Charles Melville Dewey, 1907; Thomas W. Dewing, 1888; Frederick Dielman, 1883; Paul Dougherty, 1907; Frank Vincent DuMond, 1906.

Lydia Field Emmet, 1912; Ben Foster, 1904; August Franzen, 1920; Frederick Karl Frieseke, 1914.

Daniel Garber, 1913; Edward Gay, 1907; W. Granville-Smith, 1915; Walter Griffin, 1922; Albert L. Groll, 1910.

Hamilton Hamilton, 1889; Alexander Harrison, 1901; Birge Harrison, 1910; Childe Hassam, 1906; Charles Hawthorne, 1911; Robert Henri, 1906; William H. Howe, 1897.

George Inness, Jr., 1899; John C. Johansen, 1915; Francis C. Jones, 1894; H. Bolton Jones, 1883.

William Sargeant Kendall, 1905; F. W. Kost, 1906; W. L. Lathrop, 1907; Ernest Lawson, 1917; DeWitt Lockman, 1921; Will H. Low, 1890.

Henry O. Tanner, Leslie P. Thompson, Walter Ufer, Harry A. Vincent, Edward C. Volkert.

H. M. Walcott, Harry F. Waltman, Everett L. Warner, J. Louis Webb, William Wendt, William J. Whittemore, Guy Wiggins, Charles Morris Young.

**Sculptors**—Chester Beach, Cyrus E. Dallin, Abastenia St. L. Eberle, Rudulph Evans, John Flanagan, Sherry E. Fry, Charles Louis Hinton, Charles Keck (elect), H. Augustus Lukeman.

J. Philip Martiny, Edward McCartan (elect), Andrew O'Connor (elect), Willard D. Paddock (elect), Attilio Piccirilli, Furio Piccirilli, Edmond T. Quinn, Janet Scudder, Mahonri Young.

**Architects**—Grosvenor Atterbury, William A. Boring, Wells Bosworth, J. H. Freedlander, Bertram G. Goodhue, John Galen Howard.

C. Grant LaFarge, Frederick Law Olmsted, John Russell Pope, S. B. P. Trowbridge, C. Howard Walker.

**Engravers and Etchers**—Frank French (elect), Charles Dana Gibson, Ernest Roth, William G. Watt (elect).

## AMERICAN ACADEMY OF ARTS AND LETTERS.

The first seven members of the American Academy of Arts and Letters were selected by the National Institute of Arts and Letters from its own body in 1904 by ballot. The seven were William Dean Howells, Augustus Saint-Gaudens, Edmund Clarence Stedman, John La Farge, Samuel L. Clemens, John Hay and Edward MacDowell. In order to become eligible to the American Academy one must first be a member of the National Institute of Arts and Letters. This society was organized at a meeting of the American Social Science Association in 1898. The qualification for membership is stated in the constitution, "It shall be notable achievement in art, music or literature." The number in the Institute is limited to 250, and the election is by ballot.

The American Academy of Arts and Letters numbers fifty members and the officers are: William Milligan Sloane, President; Brander Matthews, Chancellor; Thomas Hastings, Treasurer; Robert Underwood Johnson, 15 West 81st St., New York City, Secretary.

The following are the living members of the academy, as of November 7, 1922.

John Singer Sargent
Daniel Chester French
James Ford Rhodes
William Milligan Sloane
Robert Underwood Johnson
George Washington Cable
Henry van Dyke
William Crary Brownell
Basil Lanneau Gildersleeve
Woodrow Wilson
Arthur Twining Hadley
Henry Cabot Lodge
Edwin Howland Blashfield
Thomas Hastings
Brander Matthews
Elihu Vedder
George Edward Woodberry
George Whitefield Chadwick
George deForest Brush
William Rutherford Mead
Bliss Perry
Abbott Lawrence Lowell
Nicholas Murray Butler
Paul Wayland Bartlett
Owen Wister
Herbert Adams
Augustus Thomas
Timothy Cole
Cass Gilbert
William Roscoe Thayer
Robert Grant
Frederick MacMonnies
William Gillette
Paul Elmer More
Gari Melchers
Elihu Root
Brand Whitlock
Hamlin Garland
Paul Shorey
Charles Adams Platt
Maurice Francis Egan
Archer M. Huntington
Childe Hassam
David Jayne Hill
Lorado Taft
Booth Tarkington
Henry Bacon
Charles Dana Gibson
Joseph Pennell

The directors of the academy are: N. M. Butler, Hamlin Garland, Cass Gilbert, Thomas Hastings, A. M. Huntington, R. U Johnson, Brander Matthews, W. M. Sloane, and Augustus Thomas.

In 1923 the academy will move into its new building at 155th Street, between Broadway and Riverside Drive, the cornerstone of which was laid by Marshal Foch in 1922.

## NATIONAL COMMISSION OF FINE ARTS.

(1729 New York Ave., Washington.)

*Chairman*—Charles Moore; *Vice Chairman*—John Russell Pope; James L. Greenleaf, James E. Fraser, Henry Bacon, Louis Ayres, H. Siddons Mowbray; *Sec. and Exec. Officer*—H. P. Caemmerer.

## PROMINENT SOCIAL CLUBS IN BIG CITIES IN UNITED STATES.

**Atlanta**—*Athletic*, 37 Auburn Ave.; *Capital City*, Harris and Peachtree Sts.

**Baltimore**—*Arundel*, 1000 N. Charles St.; *Baltimore*, Charles and Madison Sts.; *Country*, Roland Park; *Johns Hopkins*, 227 W. Monument St.; *Maryland*, 1 E. Eager St.; *Merchants'*, 206 E. German St.; *University*, 801 N. Charles St.

**Boston**—*Algonquin*, 217 Commonwealth Ave.; *Automobile*, 100 Stuart St.; *Boston Art*, Newbury and Dartmouth Sts.; *Boston Athletic*, Exeter and Blagden Sts.; *Chilton*, 152 Commonwealth Ave.; *Exchange*, Milk and Battery March Sts.; *Harvard*, 374 Commonwealth Ave.; *Mayflower*, 6 Park St.; *New Riding*, 52 Hemenway St.; *St. Botolph*, 4 Newbury St.; *Somerset*, 42 Beacon St.; *Tavern*, 4 Boylston Pl.; *Tennis & Racquet*, 939 Boylston St.; *Union*, 8 Park St.; *University*, 270 Beacon St.

**Buffalo, N. Y.**—*Buffalo*, 388 Delaware Ave.; *Canoe*, 1051 Ellicott Sq.; *Country*, Williamsville Rd.; *Ellicott*, Ellicott Sq.; *Garret*, 205 Bryant St.; *Park*, 1401 Elmwood Ave.; *Saturn*, 88 Edward St.; *Twentieth Century*, 595 Delaware Ave.; *University*, 546 Delaware Ave.

**Charleston**—*Carolina Yacht*, East Bay; *Charleston*; *Country*.

**Chicago**—*Casino*, 167 E. Delaware Pl.; *Caxton*, 410 So. Michigan Ave.; *Chicago*, Michigan Ave. and Van Buren St.; *Chicago Athletic*, 125 Michigan Ave.; *Literary*, 410 So. Michigan Ave.; *Fortnightly*, 203 Michigan Ave.; *South Shore Country*, 70th St. and the Lake; *Union League*, 108 Jackson Boulevard; *University*, 76 E. Monroe St.; *Woman's Country*, 410 So. Michigan Ave.; *Woman's Athletic*, 606 So. Michigan Ave.

**Cincinnati**—*Commercial*; *Country*, Grandin Rd.; *Queen City*, Seventh and Elm Sts.; *University*, Broadway and Fourth St.

**Cleveland**—*Ohio Country*, Lake Shore Boulevard; *Mayfield Country*, Mayfield, Rd.; *Roadside*, St Clair Ave.; *Tavern*, E. 36th St. and Prospect Ave.; *Union*, 1,211 Euclid Ave.; *University*, 3,813 Euclid Ave.

**Detroit**—*College*, 50 Peterboro St.; *Country*, Grosse Pte. Farms; *Detroit*, Fort and Cass Sts.; *Fellowcraft*, 70 Washington Boulevard; *Ingleside*, Woodward and Atkinson Sts.; *Twentieth Century*, Columbia and Witherell; *University*, Jefferson and Russell; *Yondotega*.

**Los Angeles**—*California*, Fifth and Hill Sts.; *Jonathan*, Pacific Elec. Bldg.; *University*, Sixth and Hill Sts.

**Minneapolis**—*Minikahda; Minneapolis*, So. Second Ave.; *University*, 41 Seventh St.

**New Orleans**—*Boston*, 824 Canal St.; *Carnival German*, Cotton Exchange Bldg.; *Louisiana*, Canal and Carondelet Sts.; *Country*, Napoleon Ave.; *Pickwick*, Canal, near Rampart St.; *Round Table*, 6330 St. Charles Ave.; *Stratford*, 313 St Charles St.

**Philadelphia**—*Acorn*, 1618 Walnut St.; *Art*, 220 So. Broad St.; *Franklin Inn*, Camac and St. James Sts.; *Markham*, 212 So. 15th St.; *Penn*, 720 Locust St.; *Philadelphia*, 1301 Walnut St.; *Princeton*, 1223 Locust St.; *Racquet*, 16th St., near Walnut St.; *Rittenhouse*, 1811 Walnut St.; *St. Anthony*, 32 So. 22d St.; *Union League*, Broad and Walnut Sts.; *University*, 1510 Walnut St.

**Pittsburgh**—*Duquesne*, 325 Sixth Ave.; *Pittsburgh*, 425 Penn Ave.; *Pittsburgh Athletic*, Grant Boulevard and Fifth St.; *Union*, Frick Bldg.; *University*, Grant Boulevard, near Fifth St.

**Richmond**—*Commonwealth*, Monroe and Franklin Sts.; *Country*; *Westmoreland*, 601 E. Grace St.

**St. Louis**—*Commercial*; *Log Cabin*; *Mercantile*, Seventh and Locust Sts.; *Noonday*, Security Bldg.; *Racquet*, 476 N. Kingshighway; *Round Table*; *St. Louis*, 3663 Lindell St.; *University*, 607 N. Grand Ave.; *Wednesday*, Taylor and Westminster Sts.; *Woman's*, 3621 Washington Ave.

**St. Paul**—*Minnesota; Town & Country*, Marshall Ave.; *University*, Summit and Ramsey Sts.

**San Francisco**—*Athenian-Nile*, 14th and Franklin Sts.; *Bohemian*, Post and Taylor Sts.; *Family*, 545 Powell St.; *Francisca*, 560 Sutter St.; *Holluschickie*, 700 Mason St.; *Olympic*, Post St., near Mason St.; *Pacific Union*, 1000 California St.; *Town & Country*, 218 Stockton St.; *University*, Powell and California Sts.

**Savannah**—*Chatham Hunt*.

**Washington**—*Alibi*, 1806 I St.; *Army & Navy*, Farragut Sq.; *Cosmos*, 1520 H St.; *Metropolitan*, 1700 H St.; *Riding & Hunt*, 22d and P Sts.; *University*, 930 16th St.; *Washington*, 1701 K St.

## THE ALFRED B. NOBEL PRIZES.

THE Swedish scientist Alfred B. Nobel, the inventor of dynamite, died in 1896, bequeathing his fortune, estimated at $9,000,000, to the founding of a fund the interest of which should yearly be distributed to those who had mostly contributed to the benefit of mankind improvement during the year immediately preceding that of the award.

The Board of Directors of the Nobel Foundation, exclusively consisting of Swedes, must reside in Stockholm. The board has in its care the funds of the institution, and hands yearly over to the awarders of the prizes the amount to be given away. The value of each prize is on an average $40,000.

## THE FRENCH ACADEMY.

The French Academy, founded in 1630 and incorporated in 1637, was abolished by the Revoluton, but was revived in 1795 as one of the sections of the Institute of France.

The Academy, when full, consists of 40 regular members. There are, in addition, ten members at large (from whom the regular members are selected by the Academy to fill vacancies), eight foreign members, and seventy corresponding members.

| YEAR ELECTED | Names of Members. | Born. |
|---|---|---|
| 1888.... | Othenin de Cleron, Comte d' Haussonville..... | Gurcy, 1843. |
| 1890.... | Charles Louis de Saulses de Freycinet..... | Foix, 1828. |
| 1891.... | Louis Marie Julien Viaud (Pierre Loti) | Rochefort, 1850. |
| 1894.... | Paul Bourget..... | Amiens, 1852. |
| 1896.... | H. G. Anatole Francois Thibault (Anatole France)..... | Paris, 1844. |

### ATTENDANCE IN HIGH SCHOOLS.

One-fourth of the high schools in the United States enroll from 2 to 27 students; another fourth, from 27 to 50 students; another fourth, from 50 to 100 students, and the last fourth, over 100 students.

Similarly, one-half of the 14,000 high schools in the country have an enrolment between 27 and 100 students. Out of every 1,000 students entering high schools, 725 stay into the second year; 525 into the third year; 449 into the fourth year; and 418 graduate.

The public high schools have greater influence in keeping the girls in school than they do in holding the boys. Of the 665,000 secondary students enrolled in the first year, only 45.3 per cent. are boys, indicating that more girls than boys enter high school. In the second year the percentage of boys is still smaller, viz., 42.7. In the third year the corresponding percentage of boys reduces to 41 and in the fourth year to 38.8.

This condition does not exist in the private high schools, where the boys constitute 45.8 per cent. of the first-year enrolment, 45.6 per cent. of the second-year enrolment, 46 per cent. of the third-year enrolment, and 44.6 per cent. of the fourth-year enrolment.

Of the students enrolled in a four-year high school, nearly one-half (47.3 per cent.) are in schools maintained longer than 180 days annually. Almost all of the other one-half of this group of students (48.8 per cent.) are found to be enrolled in schools running from 161 to 180 days each year, only 3.9 per cent. being enrolled in the four-year high schools having a term of 160 days or fewer.

In the three-year high schools over one-third (39.2 per cent.) of the students have a term as short as 160 days. Over one-half (56.6 per cent.) of the students enrolled in these three-year high schools have a term of 161 to 180 days. Only a few (4.2 per cent.) of these students are enrolled in high schools which are in session longer than 180 days.

## SUMMARY OF PUBLIC SCHOOL WORK IN UNITED STATES.

Financial loss due to irregular attendance is estimated on the basis of each State's total expenditure for public schools, compared with time lost, measured by vacant seats.

Enrolment (1890) 12,722,581; (1900) 15,503,110; (1910) 17,813,852.

Expenditures on public school libraries in the year ended June 30, 1919, tota'led $1 292,725, of which States contributed $1,130,054. In New York State the expenditures were $155,745 by the State, and $38,754 from other sources. The next largest contributor was California, $94,179, and $5,286 from other sources

In the cases of public schools, both elementary and secondary, there is no definite information as to the actual number of "schools." but only as to the number of school buildings.

## EDUCATION PROLONGS THE LIVES OF WOMEN.

(From School Life, Published by U. S. Bureau of Education.)

College women live longer than other women, according to a study by Myra M. Hulst, of the American Red Cross, published in the Quarterly Publication of the American Statistical Association. Among 15,561 graduates of three woman's colleges, the death rate between the ages of 20 and 64 years is only 3.24 per 1,000. For college women between 25 and 34 years, the death rate was 2.77 per 1,000, while for women in the general population, it was more than twice as high, namely, 6.10 per 1,000.

Such favorable figures for college graduates are not surprising when it is considered that as a rule only the physically fit continue through the four years to graduation. Physical and medical examinations given to all students bring to light remediable defects and lead to improvement. Favorable living conditions such as college women are likely to encounter, prescribed physical exercise, and general physical education add to the high level of health.

College women as a rule come from high-class homes, where the environment gives them a good start in life. Judging by the names of the women considered in this study, the majority of them are from American stock. Such women, of good financial condition, well fed and clothed, and with opportunity for leisure are likely to have better health than the average woman, whose living conditions are less favorable.

Professional occupations, such as college women usually engage in, have fewer risks than the industrial and other occupations of non-college women. It was found that 58 per cent. of the college graduates had been engaged in teaching.

In this connection, a study was made of the death rate of women teachers in New York City as reported by the City Pension Commission. For ages between 25 and 34, the death rate was 2.98, almost as low as that of the college women for the same ages. The death rates for teachers were found to be the lowest existing in the New York City service.

Clearly education and professional life have a good effect on women's health.

## ILLITERACY IN BIG UNITED STATES CITIES.

(U. S. Census, 1920 returns. Illiterates are those 10 years old and over who cannot read or write.)

NOTE.—All the figures in the table relate to persons 10 years old or over.

The pronounced differences between the percentages of illiteracy for the total population and for native whites which appear for many cities are due to the large proportions of illiterates among the foreign-born whites and the Negroes, the former having a considerable effect upon the average percentages in the Northern cities, and the latter in the Southern cities. For example, in Fall River, Mass., where the illiteracy in the population 10 years of age and over was 11.9 per cent. for all classes combined, it was only 1 per cent. for the native, but was 25.5 per cent. for the foreign-born whites. Again, in Birmingham, Ala., the percentage of illiteracy was 8.4 for the total population, 0.7 for the native whites, and 18.4 for the Negroes.

## ILLITERACY IN THE UNITED STATES IN 1920.

(U. S. Census Figures, as of Jan. 1, 1920.)

THE percentage of illiteracy in the native white population decreased between 1910 and 1920 in all States except six, in which it was very low in 1910 and remained unchanged—Idaho, Wyoming, and Washington, each with three-tenths of 1 per cent., and South Dakota, Nevada, and Oregon, each with four-tenths of 1 per cent.

For the foreign-born white population the percentage illiterate increased between 1910 and 1920 in 17 States, decreased in 29 States and the District of Columbia, and remained unchanged in two States.

In the case of the Negro population the percentage illiterate decreased in the District of Columbia and in every State except four—Vermont, Rhode Island, Wyoming, and Oregon. The largest proportional increase, from 3.4 in 1910 to 4.7 in 1920, appears for Oregon. The largest proportional decrease is that for New Mexico; in which State the percentage illiterate declined from 14.2 in 1910 to 4.3 in 1920, or by more than two-thirds. The explanation of this pronounced decrease is found in the fact that a large increase took place in the total Negro population of New Mexico, due in part to the presence of Negro troops in that State in 1920, and that there were few illiterates among the newcomers.

| STATE. | POPULATION, 10 YEARS OF AGE AND OVER. | | NATIVE WHITE POPULATION, 10 YEARS OF AGE AND OVER. | | FOREIGN-BORN WHITES, 10 YEARS OF AGE AND OVER. | | NEGROES, 10 YEARS OF AGE AND OVER. | |

Figures in current expenses column do not include outlays for capital acquisition.

## AMERICAN COLLEGES AND UNIVERSITIES.

This list is based on the 1921-1922 Education Directory of the United States Bureau of Education, Dept. of the Interior.

Where the name of the institution is in italics, the figures are from the 1922 ALMANAC. In other cases the data are from questionnaires returned by the institution in the year 1922.

## RHODES SCHOLARSHIPS.

Two Rhodes Scholarships to the University of Oxford are assigned to each State in the Union. The scholarships are tenable for three years and have the value of £350 a year. To be eligible a candidate must be—(a) A male citizen of the United States, (b) Over 19 and not over 25 years of age, (c) Above sophomore standing in some recognized degree-granting university or college in the United States. Candidates may apply either from the State in which they have their ordinary private domicile, home, or residence, or from the State in which they have received at least two years of their college education.

Selections are made on the basis of the candidate's record in school and college supplemented by references of persons who know him and by a personal interview with the Committee of Selection. There is no written examination. Elections are made on the basis of—(1) Qualities of manhood, force of character, and leadership. (2) Literary and scholastic ability and attainments. (3) Physical vigor, as shown by interest in outdoor sports or in other ways. No restriction is placed on a Rhodes scholar's choice of studies. He may read for the Oxford B. A. in any of the Final Honor Schools, he may enter for any one of the so-called Diploma Courses, or, if qualified by previous training, may be admitted to read for advanced degrees such as the B. Sc., B. Litt., B. C. L., or Ph. D.

An election is held each year in two-thirds of the States of the Union. In 1923 one scholar will be elected in the following States: Ala., Ariz., Ark., Calif., Colo., Del., Fla., Ga., Idaho, Iowa, Kan., La., Mich., Minn., Miss., Mo., Mont., Neb., Nev., N. M., N. C., N. D., Okla., Ore., S. C., S. D., Tex., Utah, Wash., W. Va., Wis., Wyo. Applications will be due on or before Oct. 21, 1923; the election will be held on Dec. 1, 1923; and the Rhodes scholars so elected will enter Oxford in October, 1924. Application blanks and further information may be obtained from the officers of any college or university in the United States or from President Frank Aydelotte, American Secretary to the Rhodes Trustees, Swarthmore College, Swarthmore, Pa. The Secretary of the Committee of Selection for New York State is Dr. Augustus S. Downing, State House, Albany.

The 1922 Rhodes scholar from New York is Jas. A. Ross, Jr., (Princeton University) 85 Schaeffer St., Brooklyn, N. Y.

## WORKERS' COLLEGE AT KATONAH, N. Y.

(From a 1922 bulletin of the U. S. Department of Labor.)

Brookwood, the first resident college for workers in this country and located at Katonah, N. Y., has been in operation for some months. This experiment in adult education is being carried out under the supervision of two committees, one of which consists of the Presidents of the federations of labor of several States and representatives of several trade unions, including the teachers' union of New York City, and endeavors to enlist the co-operation of labor organizations in the work and to see that the courses offered are applicable to the needs of the labor movement.

The other committee, composed of professors from Columbia University, the University of Pennsylvania, and Amherst College, is an advisory body which assists in so planning the courses offered as to make them valuable to the class of students for whom they are intended.

About 20 students, 7 of whom are women, are in attendance. The students, most of whom are from positions of some sort in labor organizations, are older than those in colleges generally, the average age being 25 years. The government of the college is democratic, each member—student or teacher—having one vote in its management. All students are carrying the same work during the first year of the operation of the college, namely, history of civilization, economics, statistics, English literature, grammar for those who need it, and a course in debate and argumentation.

Once a week a debate is held and the following day a period of two hours is devoted to criticism of the "effectiveness of the argument and the soundness of presentation."

## COLLEGES WITH $1,000,000 ENDOWMENT OR OVER.

## BEGINNINGS OF FAMOUS FOREIGN UNIVERSITIES.

THE University of Oxford is said to have been founded by King Alfred in 872.

The first college of the University of Cambridge was founded by Hugo, Bishop of Ely, in 1257.

The University of Paris was founded by King Philip II. about 1200.

The first university in the German Empire was at Prague, Bohemia, 1348.

Czar Alexander I. founded the Universities of St. Petersburg and Moscow in 1802.

The oldest Spanish university is that of Salamanca, founded in 1240.

The University of Copenhagen, Denmark, was founded in 1479.

The oldest Italian universities are Bologna, founded 1200; Padua, 1222; Naples, 1224; Genoa, 1243; Perugia, 1276; Macerata, 1290. There were nine more founded between 1300 and 1550. Italy was the greatest resort of students for the higher education in the middle ages.

Trinity College, Dublin, was incorporated by royal charter in 1591.

The University of Edinburgh was founded in 1582 by a charter granted by King James VI. of Scotland.

The University of Jagielle, of Cracow, Poland, where Copernicus received his education, was founded in 1364 by the Polish King Kazimiers the Great, and endowed by a later Polish King, Jagielle, in 1400.

Note—The dates of founding of the higher institutions in the United States and Canada will be found in the tables of American colleges and universities.

## INCOME AND EXPENSES OF YALE UNIVERSITY.

Yale University has sent to its alumni the following analysis showing the sources from which it gets its income and the way that income is spent. The item "alumni fund" is the yearly voluntary contribution of its alumni, and "annuities and adjustments" covers the money used in bringing the salaries of professors up somewhere near the high cost of living.

The figures show that the two sources of income, "tuition and fees" and "dormitory," which constitute the ordinary revenues of a business concern, together make up less than one-third of the amount required to run the university.

| Income. | Pct. | Expense. | Pct. |
|---|---|---|---|
| Investment..... | 46.9 | Instruction..... | 43.3 |
| Tuition and fees. | 25.6 | Property..... | 20.7 |
| Alumni fund..... | 12.0 | Annuities, etc.... | 9.3 |
| Dormitory..... | 7.1 | Administration.. | 8.5 |
| Gifts..... | 3.5 | Laboratories.... | 6.7 |
| Miscellaneous... | 2.0 | Library..... | 4.3 |
| | | Scholarships.... | 4.0 |
| Total..... | 97.2 | Printing..... | 3.2 |
| Deficit..... | 2.8 | | |
| | 100.0 | | 100.0 |

## CATHOLIC BOYS' BRIGADE OF THE UNITED STATES.

Founded in 1916, by the late Cardinal Farley, New York City—a national official organization for Catholic boys. National office: National Catholic Welfare Council, 1312 Massachusetts Ave., N. W., Washington, D. C. General Executive Headquarters, 128 West 37th Street, New York. This movement aims to improve, it is announced, the religious and civic character of boys. It has a program of athletics, sports, military exercises, signalling, first aid, civics, music, entertainments, hikes, camping, parades, contests and employment; it aims to promote patriotism, religious practices and higher education. Membership is open to all manly boys 10 years of age or over. *Junior and Senior division* branches all over the country and has its own uniform. Executive officers, N. Y. General headquarters, 130 West 37th St., New York City: Rev. Thomas J. Lynch, Director General; Rev. Fr. Kilian, O. M. Cap., Chief Commissioner; Michael F. Lonergan, Executive Secretary.

## ASSOCIATIONS AND SOCIETIES IN THE UNITED STATES.

The year of establishment is in parentheses. The other figures are those of membership. For organizations not in this list, see Index. Some in this list appear elsewhere with more detail.

**Academy of Design of N. Y., Nat.** (1828), 175 W. 109th St., N. Y.; 279; Pres., E. H. Blashfield; Sec., C. C. Curran.

**Academy of Medicine, N. Y. City** (1847), 17 W. 43d St.; 1,650; Pres., Dr. G. D. Stewart; Sec., Dr. R. S. Haynes.

**Academy of Sciences, N. Y.** (1817), care Amer. Museum Nat. History, 77th St. and Central Park West; 450; Sec., R. W. Tower.

## THE KNIGHTS OF COLUMBUS.

(By John B. Kennedy of K. of C. Headquarters.)

The Knights of Columbus—the leading Catholic laymen's organization in the world—was founded by Rev. M. J. McGivney in 1882 in St. Mary's parish, New Haven, Conn. From an original membership of eleven it grew from city to city in Connecticut and then from State to State and beyond national boundaries, until its membership is more than 800,000, and it operates in the United States and its possessions, in Canada, Newfoundland, Mexico and Cuba. It has more than 2,000 councils, many of which own club buildings and are governed by State jurisdictions, of which there are 55, and by a Supreme Council, composed of elected State representatives, while executive power is vested in a board of directors. The primary object of the Knights of Columbus is to associate Catholic men for religious and civic usefulness. There are four degrees of membership, none of which has any secret or oathbound stipulation—the competent ecclesiastical and civic authorities being empowered to demand and receive the degree work of the order.

The Knights have maintained since their inception an insurance feature for members. Insurance on members now in force approximates $250,000,000. The solvency of the order, as measured by actuarial standards, is over 126 per cent. Non-insurance members are associates. The order was originally made up of only insurance members. Previous to their emergence into general public notice as an agency of war welfare work the Knights had done educational and social work. They founded the first chair of American history in this country—at the Catholic University, Washington—and they endowed the same university with $500,000 for fifty scholarships in perpetuity. State and local councils also supported educational and social work. The Knights aided the victims of many catastrophes.

An important work of the Knights has been their nine-year fight against extreme radicalism through the medium of public forums. Lecturers have been sent through the country to combat materialistic Socialism. This work has met with success and is being continued. The K. of C. first entered war welfare work in the Spanish-American War. When the war with Germany started they raised $1,500,000 among their members and began at the cantonments at home. Later, on Gen. Pershing's invitation, the Knights went overseas and there, as well as at home, supported by a fund of $14,000,000 donated by people of all classes, they carried on an intensive and extensive work.

In all, the Knights received approximately $40,000,000 from the American people. With the balance remaining at the conclusion of active war work, they financed a Nation-wide chain of employment bureaus, finding work for 500,000 former service men at a minimum wage of $20 per week; they awarded 416 free college scholarships to former service men in institutions like Yale and Georgetown, and inaugurated a Nation-wide chain of free night schools for service men and women, with nominal charges for civilians. These schools graduated over 40,000 pupils last year. There are more than 100 of them in operation teaching technical, business and elitzenship courses. The balance of the war camp fund on hand is for use in continuing the educational work in hand and in conducting hospital relief work for the ex-service men in the public health service hospitals, the Knights of Columbus having been specially designated to co-operate with the Red Cross in providing for the comfort and entertainment of these men for whom the war is not yet over.

The most recent national activities of the Knights of Columbus have been the conduct of an American history movement for the improvement of history teaching, in which the K. of C. offered prizes in a monograph contest, both prizes being won by non-Catholics; the institution of the K. of C. National Correspondence School at New Haven for war veterans of America, which in its first year of existence enrolled 35,000 men in 30 free technical and clerical courses, and the expansion of K. of C. hospitalization service so that in 411 hospitals, 165 K. of C. workers, all of war experience, serve some 29,000 war veterans in the same manner in which they were served overseas.

In round figures, the Knights are spending at the rate of $2,500,000 per year in behalf of the American war veterans.

## ELKS, BENEVOLENT AND PROTECTIVE ORDER OF.

Grand Lodge officers (elected at Atlantic City, N. J., July 11, 1922)—*Grand Exalted Ruler*—J. Edgar Masters, Charlerol, Pa. *Grand Esteemed Leading Knight*—Frederick A. Morris, Mexico, Mo. *Grand Esteemed Loyal Knight*—Harry A. Ticknor, Pasadena, Cal. *Grand Esteemed Lecturing Knight*—Fred O. Nuetzel, Louisville, Ky. *Grand Secretary*—Fred C. Robinson, Congress Hotel, Chicago. *Grand Treasurer*—P. J. Brennan, Denison, Tex. *Grand Trustee* (five-year term)—Robert A. Scott, Linton, Ind. *Grand Tiler*—Clement Scott, Vancouver, Wash. *Grand Inner Guard*—Albert E. Hill, Spartanburg, S. C.

The Elks Support Fund has provided vocational training, at a cost of $69,000 to 106 disabled American boys. The total receipts of the W.r Relief Commission, June 5, 1920, to June 15, 1921, were $428,010; disbursements, $191,734. The membership, as of July 1, 1922, was approximately 850,000. Members by States, as of April 1, 1922—Guam, 189; Ala., 3,206; Alaska, 1,502; Ark., 6,518; Ariz., 7,711; Cal., 49,995; Canal Zone, 185; Col., 21,165; Conn., 14,977; N. Dak., 6,623; S. Dak., 9,336; Del., 1,055; Dist. of Col., 2,674; Fla., 5,552; Ga., 5,097; Hawaii, 1,191; Idaho, 9,002; Ill., 47,103; Ind., 28,780; Iowa, 21,336; Kan., 15,748; Ky., 10,388; La., 14,730; Me., 3,985; Md., 4,018; Mass., 36,633; Mich. 31,037; Minn., 18,569; Miss., 4,500; Mo., 15,447; Mont., 8,415; Neb., 13,192; Nev., 2,920; N. H., 5,131; N. J., 37,837; N. Y., 70,862; N. Mex., 3,395; N. C., 14,326; Ohio, 49,066; Okla., 13,063; Ore., 17,653; Pa., 66,793; Philippines, 629; Porto Rico, 304; R. I., 5,728; S. C., 2,213; Tex., 22,602; Tenn., 6,006; Utah, 4,840; Vt., 2,109; Va., 8,157; Wash., 31,487; W. Va., 11,275; Wis., 22,084; Wyo., 4,318. The largest lodge is No. 22, Brooklyn, 10,328 members.

Disbursements for charity in the last three years: (1919) $1,258,560; (1920) $1,566,234; (1921) $2,044,218.

## THE SALVATION ARMY.

(Prepared by That Organization).

National headquarters, 122 West 14th Street, New York City.

In 1920 the United States branch of the movement underwent a thorough reorganization. Three territories were created, with headquarters respectively in New York, Chicago and San Francisco. Separate editions of the War Cry were published in each territory. Commander Evangeline Booth was, up to the time of going to press, in general charge of the work in the entire country.

International officials—William Bramwell Booth eldest son of the founder of the Salvation Army, is General of the entire organization, the international headquarters being in London, England. His wife, Mrs. Bramwell Booth, has charge of the work in the British Isles. Next in rank comes Commissioner Edward J. Higgins, Chief of the Staff, who some years ago was Chief Secretary for the work in the United States of America.

### DOMESTIC STATISTICS.

The Salvation Army in the United States has (as of year ending Sept. 30, 1921) 1,117 corps and outposts, 3,728 officers and cadets, 67 hotels for men, 2 for women and 11 boarding houses for young women, with total accommodation, 7,386; beds supplied, 1,711,118, meals supplied 704,819; 88 industrial homes with accommodations for 2,103 and 1,714,505 meals and 529,437 beds supplied; 6 children's homes, with accommodations for 670, and 206,600 beds and 634,123 meals supplied; 12 slum posts and nurseries, with 76,615 children sheltered in a year; 23 rescue homes and maternity hospitals, with accommodations for 1,709, and 4,393 girls and 2,491 children admitted; Christmas dinners for 293,171, and toys for 108,846 children; 1,383,943 persons afforded temporary relief outside industrial homes and hospitals; outside employment found for 27,310 men and 8,089 women; 336,478 lbs. of ice and 3,274,591 lbs. of coal distributed.

### INTERNATIONAL STATISTICS.

(Year ending December 31, 1921.)

Countries and colonies occupied. 73; languages in which Gospel is preached, 46; corps and outposts, 12,211; social institutions, 1,286; day schools, 752; naval and military homes, 35; officers and cadets engaged in social work, 3,697; persons without rank employed wholly in S. A. work, 5,941, local officers (senior and junior), 74,469; bandsmen (senior) 26,017, bandsmen, (junior) 7,419, songsters, 30,943, corps cadets, 18,846; periodicals issued, 83; total copies per issue, 1,461,880.

## YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF NORTH AMERICA.

General offices, 347 Madison Avenue, New York City. Officers: *Chairman*—Alfred E. Marling *Vice Chairmen*—James W. Specrs, Roger H. Williams, William D. Murray, Abner Kingman. *Treasurer*—B. H. Fancher. *General Secretary*—John R Mott. *Consulting General Secretary*—Richard C Morse The International Committee was incorporated April 16, 1883. It is now composed of an authorized membership of 200 representative business men scattered throughout North America It is the agent of the International Convention of Young Men's Christian Associations, charged with encouraging, promoting and supervising Christian welfare work among men and boys

The International Committee in its organization includes the Home Division with its five regions and eleven departments its Foreign Division and its continued work among soldiers in warring countries where armies are not yet done away with

Forty-two State Committees and the National Council of Canada, co-operating with both the local and international work, maintain closer relations with the local associations in the States and Provinces of North America. These State organizations have 196 secretaries, $1,319,000 of association property and promote the State-wide interests of the movement.

Under the combined co-operative interests of the General Agencies of Supervision there are (Sept. 1, 1922) 1,978 local associations and specific organizations: 5 464 employed officers: 95 795 committeemen, directors and volunteer leaders: 883,169 members, of which 228,860 are boys. The net property of the movement, including State work and international, is $150.400,000' total contributions from friends toward the operating expenditures of the movement $11,551.100, and total operating expenditures of the movement. $47.682,400. These figures do not include any war work data. The service of the association to men and boys includes a great variety of activities among the more important of which are 69 892 socials and entertainments: 67,922 more or less permanent positions found for men: over 56,000 beds in Y dormitories used by men over 15,000,000 times during the year, 68,556 men and boys in Y summer camps, 1,679 industrial plants served physically, educationally, and otherwise. 14,000 foreign-born men taught to speak and write English, and 13,000 trained in citizenship, 110 639 in regular standard educational classes· 303 434 men and boys in regular gymnasium classes: 201 182 enrolled in the regular Bible study classes; over 8 000. 000 attending definite religious meetings; 37,131 decisions for the Christian life and 11,664 united with the church of their choice.

The foreign work of the North American associations has been brought more helpfully than ever under more careful review. It includes work in 21 different countries where at the expense of the North American associations, secretaries from North America are allocated to aid in the development of both the national work of a country like China, as well as in the local associations of such country. In this foreign wor there are 357 different associations with 767 employed officers 214 of which are from America and the rest native; 15,905 members with correspondingly large social physical educational and religious activities. Among the most notable gatherings on the foreign field the past year was that of the World's Student Christian Federation at Peking, attended by over 800 delegates from 32 nations. The $4,000,000 foreign association building programme which was interrupted by the great war, has been resumed, and. it is hoped, will soon be carried to a successful issue.

While the Armistice was signed over 4 years ago, yet large areas overseas are still in war conditions. The National War Work Council was dissolved in March, 1922, after it had passed the remaining part of its work over to a special group of the International Committee. There are still a number of American workers in charge of the association welfare work among from 1,000,000 to 1,500,000 men in such countries as Poland, Greece, Turkey, Italy, Czecho-Slovakia. The reducing process of this war work is being made as fast as possible. Less than a dozen American secretaries are left in connection with the A. F. G. on the Rhine.

## YOUNG MEN'S CHRISTIAN ASSOCIATIONS OF THE STATE OF NEW YORK.

The State Executive Committee of the Young Men's Christian Associations of the State of New York has its general office at 2 West 45th Street, Room 1001, New York City *Chairman*—William M. Kingsley *Treasurer*—Samuel Woolverton. *State Secretaries*—Frank W Pearsall and Fred I. Eldridge. This committee was incorporated under the laws of New York, April 14, 1886. Included in the regular activities the State Committee owns and operates Camp Dudley at Westport-on-Lake Champlain as a summer camp for boys. The membership in the State is 101,940, divided as follows: *General*, 80,507, of which 18,400 are boys; railroad, 17,031; student, 2,245; county and small town, 1,252; colored, 766. ## THE NATIONAL HEALTH COUNCIL.

The National Health Council is an organization composed of the ten leading national voluntary health agencies of this country, together with the United States Public Health Service as a conference member.

The members are as follows: American Public Health Association American Red Cross. American Social Hygiene Association American Society for the Control of Cancer, Conference of State and Provincial Health Authorities of North America, Council on Health and Public Instruction of the American Medical Association. National Child Health Council National Committee for Mental Hygiene. National Organization for Public Health Nursing, National Tuberculosis Association, United States Public Health Service (conference member).

The officers of the council are: Chairman, Dr. Livingston Farrand; Vice Chairman, Dr. L. K. Frankel; Recording Secretary, Dr. S. J. Crumbine; Treasurer, Dr. Wm. F. Snow; Executive Officer, Dr. H. B. Armstrong.

Each member organization elects a representative and alternate to serve on the council. The Surgeon General represents the United States Public Health Service.

The American Child Health Association and the National Child Labor Committee are indirectly members through their affiliation with the National Child Health Council.

## YOUNG WOMEN'S CHRISTIAN ASSOCIATION OF THE U. S. OF AMERICA.

(Contributed by that organization.)

THE purpose of the Young Women's Christian Association is to advance the physical, social, intellectual and spiritual interest of young women, and to promote growth in Christian character and service, and to become a social force for the extension of the Kingdom of God. The Convention is held biennially in April. The officers of the Association are: President, Mrs. Paist, of Philadelphia, Pa.; Vice-Presidents, Mrs. John Hanna, of Dallas, Texas; Mrs. C. R. Wilson, of Detroit, Mich.; Secretaries, Mrs. E. B. Kinsworthy, of Little Rock, Ark., and Miss Marjorie Collier, of Colorado College.

The National Board of the Young Women's Christian Associations is the Executive Committee of the organization, to which the work of the organization is intrusted during the interim of conventions. The officers of the National Board are: President, Mrs. Robert E. Speer; Chairman of the Executive Committee, Mrs. John French; Secretary, Miss Katharine Lambert; Treasurer, Mrs. Samuel J. Broadwell. The General Secretary is Miss Mabel Cratty. It operates through its headquarters and five regional offices. The headquarters building and National Training School are located at 600 Lexington Ave., New York City. The regional offices are in New York; St. Louis, Mo.; Chicago, Ill.; Denver, Col.; San Francisco, Cal.; Atlanta, Ga.

The National Board of the Young Women's Christian Associations interests itself in the city, student, town and country Associations throughout the United States and its territories, and through its Foreign and Overseas Department. It works with other members of the World's Committee of the Young Women's Christian Association in carrying on Association work for the women and girls in Europe, the Near East, the Orient, and South America. Work in the Oriental countries is undertaken by the Association only upon the invitation of the Mission Boards already working in the country. At present work is being carried on under this department in fifteen countries, with a staff of 224 Secretaries.

### THE Y. W. C. A. IN THE UNITED STATES.

There are in the United States 1,152 affiliated Young Women's Christian Associations, with 280 branches. The Young Women's Christian Association of the United States has a membership of 584,000, real property amounting to over $25,000,000, and gross budgets of local Associations, approximately, for 1921, of $22,000,000, about 75 per cent. of which is met by earnings from cafeterias, boarding homes, etc. The National Board during 1921 expended upon its regular work $2,679,245, of which $299,821 was for promoting work in China, Japan, India and South America. The National Board has endowment yielding, approximately, $100,000 annually and income producing features which in 1921 brought in $813,524. Contributions from Associations and individuals totalled $1,242,872.

Under the Continuation Committee of the National War Work Council there was still going on during 1921 certain war work of post-war significance, financed by the balance of sums originally appropriated for this work from war work funds.

### THE Y. W. C. A. IN NEW YORK CITY.

It has in New York City thirteen Association residences, offering comfortable, clean and "homey" rooms at a moderate price. These have 1,114 beds and during 1921, 27,479 girls were housed; 6,186 known placements were made through the Young Women's Christian Association room registry service during the year 1921. There are eleven cafeterias and dining rooms, including those connected with the residences, which furnish wholesome, inexpensive food. Young Women's Christian Association Bureaus for Employment and Vocational Advice in 1921 placed 13,070 girls in positions; 10,665 girls attended Young Women's Christian Association educational classes covering more than forty-five subjects as varied as stenography, Spanish, domestic science and costume designing; foreign-born women and girls of sixty nationalities availed themselves of the service of the baby clinics and employment departments and joined language classes and recreational activities of International Institutes. Attendance in gymnasium classes was 31,970; total swimming pool attendance, 101,631; total attendance at religious service, 103,931.

Officers of the Metropolitan Board: President, Mrs. William Fellowes Morgan; First Vice-President, Mrs. William W. Rossiter; Second Vice-President, Mrs. Dwight Morrow; Secretary, Mrs. William Sloane Coffin; Treasurer, Mrs. William Henry Hays; Assistant Treasurer, Mrs. Warren A. Ransom; Chairman of Finance, Mrs. E. P. Townsend.

## THE AMERICAN LEGION.

(National Headquarters, Indianapolis, Indiana.)

The American Legion, composed of men and women who served honorably in the armed forces of the United States in the World War, was organized in Paris, France, in 1919. The 1922 convention was held at New Orleans, Oct. 16-20.

### NATIONAL OFFICERS.

*Commander*—Alvin Owsley, Denton, Tex. *Vice Commanders*—Edward J. Barrett Sheboygan, Wis.; Watson B. Miller, Washington, D. C.; E. Erle Cocke, Dawson, Ga.; Robert O. Blood, Concord, N. H.; C. P. Plummer, Casper, Wyo. *Chaplain*—Father William P. O'Connor, Cincinnati, O. *Adjutant*—Lemuel Bolles, Indianapolis, Ind. *Treasurer*—Robert H. Tyndall, Indianapolis, Ind. *Judge Advocate*—Robert A. Adams, Indianapolis, Ind. *Historian*—Eben Putnam, Wellesley Farms, Mass. *Assistant Adjutant*—Russell G. Creviston, Indianapolis, Ind.

Among the distinguished guests of the Legion at the convention were: Gen. John J. Pershing, Kenesaw Mountain Landis, Samuel Gompers, Charles Bertrand, member of the Chamber of Deputies, Paris, France, and President of the Inter-allied Veterans' Federation; Major J. B. Brunnell Cohen, representing the British Legion; Gen. James Dinkins, Assistant Adjutant of the United Confederate Veterans; Gen. E. K. Russ, National Vice-Commander-in-Chief of the Grand Army of the Republic; M. Reni-Mel, France; Admiral Magruder, U. S. N. There were Legion delegates not only from every State in the Union, but from Argentina, Brazil, Great Britain, Chile, China, Cuba, Guatemala, India, Japan, New Zealand, Porto Rico, Portuguese West Africa, Venezuela, Panama, and Mexico.

Among the resolutions adopted by the Legion in the convention was one that the American Legion stand for the carrying out of its obligations to the disabled of war and that should another war arise "when the American people are aware of the extent of war profiteering, a national determination will have developed that in any future war there shall be a draft not only of service men, but of the laboring man and capitalist as well. Had there been such a draft, the fundamental basis of adjusted compensation now temporarily thwarted by executive action would never have arisen."

### THE AMERICAN LEGION AUXILIARY—NATIONAL BODY.

The following officers were elected by the second annual convention of the American Legion Auxiliary at New Orleans: *President*—Dr. Kate Waller Barrett, Alexandria, La.; *Vice Presidents*—Mrs. Frank E. Fleming, Augusta, Ga.; Mrs. Flora Spaulding, Manchester, N. H.; Mrs. Margaret Simon, Denver, Col; Mrs. Jennie R. Neeley, Tacoma, Wash.; Mrs. Donald McCrae, Jr., Council Bluffs, Ia. *Secretary*—Katherine R. Lewis, Indianapolis, Ind. *Treasurer*—Miss M. I. McCoy, Topeka, Kan. *Historian*—Mrs. Belle Nye, Albuquerque, N. M. *Chaplain*—Mrs. F. O. Burdick, Wichita Falls, Tex.

### AMERICAN LEGION AUXILIARY—N. Y. STATE BODY.

*President*—Mrs. William G. Keens, Albany, N. Y.; *Secretary*—Mrs. Arthur A. Ransom, Hall of Records, New York City; *Executive Committeewoman*—Mrs. William G. Keens, Albany.

(Note: For other officers communicate with Mrs. Arthur A. Ransom, Hall of Records, New York City.)

### THE AMERICAN LEGION—DEPARTMENT OF NEW YORK.

Officers: *Commander*—Albert S. Callan, Chatham, N. Y.; *Vice Commander*—C. W. A. Cannon, Richmond Hill, L. I., N. Y.; *Adjutant*—John R. Schwartz, 305, Hall of Records, New York City, N. Y.; *National Executive Committeeman*—F. B. McLean, Binghamton, N. Y.; *Finance Officer*—William T. Huise, Westhampton Beach, L. I., N. Y.; *Chaplain*—Rev. Arthur A. LeMay, Soldiers and Sailors' Home, Bath, N. Y.; *Service Officer*—Carl W. Sudhoff, 302, Hall of Records, New York City, N. Y.

(Note: For district and county Chairmen communicate with John R. Schwartz, Adjutant, 305, Hall of Records, New York City.)

## NATIONAL GRANGE, PATRONS OF HUSBANDRY.

*Master*—S. J. Lowell, Fredonia, N. Y. *Secretary*—C. M. Freeman, Tippecanoe City, Ohio. Washington, D. C., Office, 630 Louisiana Avenue, N. W., T. C. Atkeson in charge.

OFFICERS OF STATE GRANGES.

MASTERS.

California, Geo. R Harrison, Sebastopol.
Colorado, John Morris, Golden.
Connecticut, Allen B. Cook, Niantic.
Delaware. Jacob Roosa, Milford.
Idaho, W. W Deal, Nampa.
Illinois, E. A. Eckert, Mascoutah.
Indiana, Jesse Newson, Columbus, R. 10.
Iowa, A. B Judson, Balfour.
Kansas, B. Needham, Lane.
Kentucky, Thos. Urmston, Cynthiana.
Maine, W. J. Thompson, South China.
Maryland, B. John Black, Roslyn.
Massachusetts. E. H. Gilbert, Walpole.
Michigan, A. B. Cook, Owosso.
Minnesota, R. W. Roberts, Austin.
Missouri, C. O. Raine, Hayti.
Montana, Clark Bumgarner, Fife.
Nebraska, Geo. Bischel, Kearney.
New Hampshire, Herbert N. Sawyer, Atkinson.
New Jersey, David H. Agans, Three Bridges.
New York, Albert Manning, Otisville.
North Dakota, T. M. Williams, Des Lacs.
Ohio, Harry A. Caton, Fresno.
Oklahoma, A. E. Geer, Lamont.
Oregon, C. E. Spence, Oregon City, R. F. D. 3.
Pennsylvania, John A. McSparran, Furniss.
Rhode Island, C. Palmer Chapman, Westerly.
South Dakota, W H. Hutchinson, White.
Vermont, O. L. Martin, Plainfield.
Washington, A. S. Goss, Maynard Bldg., Seattle.
West Virginia, H. E. Williams, Trout.
Wisconsin, Herman Ihde, Neenah.
Wyoming, C. H. Peake, Douglas.

SECRETARIES.

California, Mrs. Martha L. Gamble, Santa Rosa.
Colorado, Rudolph Johnson, Boulder
Connecticut, Ard. Welton, Plymouth.
Delaware, Wesley Webb, Dover.
Idaho, Ferrin G. Harland, Payette.
Illinois, Miss Jeannette E. Yates, Dunlap.
Indiana, W. R. Gant, Columbus, R. 10.
Iowa, Mrs. Mary E. Lawson, Oakland, R. 2.
Kansas, A. E. Wedd, Lenexa.
Kentucky, Mrs. O. C. Hafer, Hebron.
Maine, E. H. Libby, Auburn.
Maryland, Mrs. Elizabeth O. Jean, Woodlawn.
Massachusetts, Wm. N. Howard, No. Easton.
Michigan, Miss Jennie Buell. Ann Arbor.
Minnesota, Mrs. John Herzog, Austin.
Missouri, Miss Lulu Fuqua, Hannibal.
Montana, Mrs. P. J. Anderson, Conrad.
Nebraska, Thos. A. Hodson, Gothenburg.
New Hampshire, George R. Drake, Manchester.
New Jersey, Mrs. Mary Brown, Swedesboro.
New York, F. J. Riley, Sennett.
North Dakota, Mrs. Fannie Koester, Beulah.
Ohio, W. G. Vandenbark, Zanesville, R. F. D.
Oklahoma, W. C. Gillespie, Oklahoma City.
Oregon, Miss Bertha Beck, Albany, R. No. 3.
Pennsylvania, Fred Brenckman, Harrisburg.
Rhode Island, Mrs. C. L. Chase, Newport, Box 494.
South Dakota, C. W. Amesden, Millbank.
Vermont, A. A. Priest, Randolph.
Washington, F. W. Lewis, Tumwater.
West Virginia, F. M. Brown, Pliny.
Wisconsin, J. G. Seyfert, Eagle River.
Wyoming, Miss Margaret Bundy, Hillsdale, Box 157.

## THE FEDERAL COUNCIL OF THE CHURCHES OF CHRIST IN AMERICA.

The Federal Council of the Churches of Christ in America was established in 1908 by the official action of thirty Protestant denominations in the United States to represent them and act for them in matters of common interest. The bodies thus composing the Federal Council are:

Baptist Churches, North; National Baptist Convention; Free Baptist Churches; Christian Church: Christian Reformed Church in North America; Churches of God in N. A. (General Eldership); Congregational Churches; Disciples of Christ; Friends; Evangelical Synod of N. A : Evangelical Association; Methodist Episcopal Church; Methodist Episcopal Church, South; African M. E. Church; African M. E. Zion Church; Colored M. E. Church in America; Methodist Protestant Church; Moravian Church; Presbyterian Church in the U. S. A.; Presbyterian Church in the U. S. (South); Primitive Methodist Church; Protestant Episcopal Commissions on Christian Unity and Social Service; Reformed Church in America; Reformed Church in the U. S.; Reformed Episcopal Church; Reformed Presbyterian Church, General Synod; Seventh Day Baptist Churches; United Brethren Church; United Evangelical Church; United Presbyterian Church; United Lutheran Church (consultative member).

The work of the Federal Council is carried on through several important commissions, interdenominational in membership, dealing with various fields of the churches' interest. Through the Commission on Evangelism the evangelistic agencies of the various denominations co-operate in organizing united evangelistic efforts by the churches in communities throughout the country. The Commission on the Church and Social Service carries on extensive educational and research work concerning the church and social questions, particularly emphasizing better industrial relations and organizing conferences between churches and representatives of employers and labor to promote co-operation and a Christian spirit in industry. The Commission on International Justice and Goodwill is pursuing a vigorous programme in behalf of Christian internationalism, stressing at the present time a campaign for the reduction of armament and better relations with the Orient. The Commission on Councils of Churches is responsible for organizing and developing local federations or councils of churches in the larger communities, with a view of making the churches more effective forces in the community life. Among the important developments of the past year were the creation of the Commission on the Church and Race Relations, for the purpose of working for co-operation between the white and the Negro races in securing better conditions for the Negro people; and the establishment of the Committee on Mercy and Relief, as a central agency of the churches in the relief of the Russian famine and other similar appeals. Other important Commissions deal with Christian Education, Temperance, Relations with France and Belgium and Relations with Religious Bodies in Europe.

The Central Office of the Council is at 105 East 22d Street, New York City. Offices are also maintained in the Woodward Building, Washington, D. C., and at 19 South La Salle Street, Chicago, Ill. The officers of the Council are: *President*, Robert E. Speer; *Treasurer*, Alfred R. Kimball; *General Secretaries*, Charles S. Macfarland and Samuel M. Cavert. The officers and secretaries of the Commissions are as follows: On *Evangelism and Life Service*, Rev. J. Ross Stevenson, Chairman; Rev. Charles L. Goodell, Executive Secretary; on *Christian Education*, Rev. William Adams Brown, Chairman; on the *Church and Social Service*, Shelby M. Harrison, Acting Chairman; Rev. Worth M. Tippy, Executive Secretary; Rev. F. Ernest Johnson, Research Secretary; on the *Church and Race Relqtions*, John J. Eagan, Chairman, Dr. George E. Haynes and Rev. W. W. Alexander, Executive Secretaries; on *Temperance*, Carl E. Milliken, Chairman; on *International Justice and Goodwill*, Dr. John H. Finley, Chairman; Rev. Sidney L. Gulick, Secretary; on *Relations with France and Belgium*, William Sloane Coffin, Chairman; on *Relations with Religious Bodies in Europe*, Bishop James Cannon, Jr., Chairman; on *Councils of Churches*, Fred B. Smith, Chairman; Rev. Roy B. Guild, Executive Secretary.

## MOOSE, LOYAL ORDER OF.

*Director General*—James J. Davis, Washington, D. C. *Supreme Dictator*—Hon. T. W. Pierson, New Orleans, La. *Supreme Secretary*—Rodney H. Brandon, Mooseheart, Ill. Instituted 1888. Lodges, 1,669; members, Loyal Order of Moose, 558,057; women of Mooseheart Legion, 32,570; Junior Order of Moose, 5,178; total, 595,805.

New York Lodge, No. 15: *Dictator*—P. A. Shanor, 1465 Broadway. *Secretary*—E. H. Theis, 101 W. 127th St.

## AMERICAN FEDERATION OF LABOR.

*Executive Council*—President, Samuel Gompers; Secretary, Frank Morrison; Treasurer, Daniel J. Tobin, 222 E. Michigan St., Indianapolis, Ind.; First Vice-President, James Duncan, 25 School Street, Quincy, Mass.; Second Vice-President, Jos. F. Valentine, Commercial Tribune Bldg., Cincinnati, Ohio; Third Vice-President, Frank Duffy, Carpenters' Bldg., Indianapolis, Ind.; Fourth Vice-President, William Green, 1102-8 Merchants' Bank Bldg., Indianapolis, Ind.; Fifth Vice-President, W. D. Mahon, 104 East High Street, Detroit, Mich.; Sixth Vice-President, T. A. Rickert, 175 West Washington Street, Chicago, Ill.; Seventh Vice-President, Jacob Fischer, 222 East Michigan Street, Indianapolis, Ind.; Eighth Vice-President, Matthew Woll, 6111 Bishop Street, Chicago, Ill.

Headquarters. A. F. of L. Building, Washington, D. C.

In the Federation are 111 national and international unions, representing 34,000 local unions, 5 departments, 40 State branches, 983 city centrals, and 799 local trade and Federal labor unions.

The building trades, metal trades, mining, railroad and union label trades departments are all at Washington

### STATE BRANCHES, A. F. OF L.

State branches and central bodies of the A. F. of L. are maintained for legislative and educational purposes, and they have no power to call strikes or negotiate wages or working conditions. Following are the chief officers of the State branches:

Alabama. Lewis Bowen, Birmingham.
Arizona. Thos. A. French, Phoenix.
Arkansas. L. H. Moore, Fifth and Scott Streets, Little Rock.
California. Paul Scharrenberg, 525 Market Street, San Francisco.
Colorado. Ed. Anderson, Denver.
Connecticut. I. M. Ornburn, 215 Meadow Street, New Haven.
Delaware. Fred W. Stierle, Wilmington.
Florida. W. P. Mooty, Miami.
Georgia. Louie P. Marquardt, Atlanta.
Idaho. Al Reynolds, Labor Temple, Boise.
Illinois. Victor A. Olander, 164-166 W. Washington Street, Chicago.
Indiana. Adolph J. Fritz, United Building, Indianapolis.
Iowa. Earl C. Willey, Sioux City.
Kansas. William Howe, Topeka.
Kentucky. Peter J. Campbell, Louisville.
Louisiana. Ernest H. Zwally, Shreveport.
Maine. H. B. Brawn, Augusta.
Maryland-District of Columbia. Henry Broening, American Building, Baltimore.
Massachusetts. Martin T. Joyce, Emberton Building, Boston.
Michigan. John J. Scannell, Detroit.
Minnesota. George W. Lawson, 75 West Seventh Street, St. Paul.
Mississippi. Jos. W. Jones, Meridian.
Missouri. R. T. Wood, Springfield.
Montana. J. T. Taylor, Helena.
Nebraska. Frank M. Coffey, Labor Bur., Lincoln.
Nevada. E. C. Mulcahy, Sparks.
New Hampshire. Chas. H. Bean, Jr., Franklin.
New Jersey. Henry F. Hilfers, 16 Clinton Street, Newark.
New Mexico. Jas. J Votaw, Albuquerque.
New York. Edw. A. Bates, Jones Building, Utica.
North Carolina. C. G. Worley, Asheville.
North Dakota. N. M. Aune, Grand Forks.
Ohio. Thomas J. Donnelly, Ferris Building, Columbus.
Oklahoma. Victor S. Purdy, Oklahoma City.
Oregon. W. E. Kimsey, Portland.
Pennsylvania. C. F. Quinn, Commonwealth Trust Company Building, Harrisburg.
Porto Rico. Free Federation of Workingmen, Rafael Alonso, San Juan.
Rhode Island. Lawrence A. Grace, 37 Weybosset Street, Providence.
South Carolina. T. B. Cooper, Columbia.
South Dakota. H. A. Tripp, Sioux Falls.
Tennessee. W. C. Birthwright, Nashville.
Texas. Robert McKinley, Temple.
Utah. J. J. Sullivan, Labor Temple, Salt Lake City.
Vermont. Nelson A. Malmgren, Rutland.
Virginia. J. Gribben, Newport News.
Washington. W. M. Short, Seattle.
West Virginia. H. L. Franklin, Charleston.
Wisconsin. J. J. Handley, Millwaukee.
Wyoming. Ward Hudson, Cheyenne.

### THE RAILWAY BROTHERHOODS.

Brotherhood of Locomotive Engineers, President, Warren S. Stone, B. of L. E. Building, Cleveland, Ohio.

Brotherhood of Locomotive Firemen and Enginemen, President, W. S. Carter, 901 Guardian Building, Cleveland, Ohio.

Brotherhood of Railroad Trainmen. President, W. G. Lee, American Trust Building, Cleveland, Ohio.

Order of Railway Conductors of America. President, L. E. Sheppard, Masonic Temple, Cedar Rapids, Iowa.

### ORDER OF RAILWAY CONDUCTORS.

*Officers of the Grand Division*—L. E. Sheppard, President, Cedar Rapids, Iowa; A. B Garretson, Advisory Counselor, Cedar Rapids, Iowa: S N. Berry, Senior Vice-President, Cedar Rapids, Iowa; C. E. Whitney, General Secretary and Treasurer, Cedar Rapids, Iowa; E. P. Curtis, Vice-President, Crystal City, Tex.; W. M. Clark, Vice-President, 5927 Wabash Avenue, Chicago, Ill.; W. C. Turner, Vice-President, 3111 Eads Avenue. St. Louis, Mo.; M. C. Carey, Vice-President, Apt. 30, Algonquin. Port Huron, Mich.; J. A. Phillips, Vice-President, 1332a Shawmut Place, St. Louis, Mo.; J. M. Larisey, Vice-President, 4 Liberty Street, Charleston, S. C.; J. T. Hughes, Vice-President, 1157 Portland Avenue, St. Paul, Minn.; F. H. Nemitz, Argonaut Hotel, San Francisco; P. Elkins, Grand Inside Sentinel, 3915 Tonty St. Louis, Mo.; W. P Sheahan, Grand Outside Sentinel, Commercial Hotel, Springfield, Ill.

*Trustees*—J. D. Condit, Chairman, West Hotel, Minneapolis, Minn.; J. H. Mooney, 3532 N Gratz Street, Philadelphia, Pa.; A. Anderson, 237 S. Chautauqua Avenue, Wichita, Kan.

*Insurance Committee*—C. F. Bishop, Chairman, 307 N. Walnut Street, Danville, Ill.; H. S. Hopkins, Vice-President, 43 High Street, Skowhegan, Me; M J. Land, 212 N. Irving Street, Cartersville, Ga.

The order was organized July 6, 1869, and on Sept. 1, 1920, it had 54,344 members.

## INTERNATIONAL SEAMEN'S UNION OF AMERICA.

Established April 22, 1892.

Andrew Furuseth, President, A. F. of L. Bldg., Washington, D. C.; Patrick Flynn, First V. P., 58 Commercial St., San Francisco, V. A. Olander, Second V. P., 166 W. Washington St., Chicago, Thos. Conway, Third V. P., 71 Main St., Buffalo, N. Y., P. B. Gill, Fourth V. P., 84 Seneca St., Seattle, Wash.; Percy J. Pryor, Fifth V. P., 1½ Lewis St., Boston; Wm. H. Brown, Sixth V. P., 202 Atlantic Ave., Boston; Oscar Carlson, Seventh V. P., 70 South St., New York, N. Y.

Thos. A. Hanson, Secretary-Treasurer, 355 No. Clark St., Chicago.

Affiliated with American Federation of Labor and International Seafarers' Federation.

| Total | 22,049 | 16,615 | 1,852,498 | 18,104,804 |

Italic dioceses are archdioceses. Cardinals, 2; Archbishops, 17; Bishops 93; secular clergy, 16,026; religious clergy, 6,023; total clergy, 22,049; churches with resident priests, 10 994; missions with churches, 5,621; total churches, 16,615; seminaries 113; seminary students, 8,698; colleges for boys, 222; academies for girls, 718; parishes with schools, 6,258; orphan asylums, 304; orphans, 48,721; homes for the aged, 119.

Population and other figures in the above table cover *dioceses* and *archdioceses*, and no merely the cities named.

## ROMAN CATHOLIC HIERARCHY.

At the head of the Roman Catholic Church is the SUPREME PONTIFF, PIUS XI., Achille Ratti, born at Desio, Italy, May 30, 1857, made Archbishop of Milan, April, 1921; Cardinal, in pectore, June 14, 1921; elected Pope, as successor of Benedict XV., Feb. 6, 1922; crowned Feb. 12, 1922. The Pontiff is, in orders, a Bishop. His ecclesiastical title is: His Holiness, the Pope; Bishop of Rome and Vicar of Jesus Christ; Successor of St. Peter, Prince of the Apostles; Supreme Pontiff of the Universal Church; Patriarch of the West; Primate of Italy; Archbishop and Metropolitan of the Roman Province; Sovereign of the Temporal Dominions of the Holy Roman Church.

### THE COLLEGE OF CARDINALS.

NOTE—The College of Cardinals, when complete, is made up of 70 members, of whom 6 are Cardinal-Bishops, 50 are Cardinal-Priests, and 14 are Cardinal-Deacons. The College is the Senate of the Roman Church. They advise the Pope and elect his successor. The Cardinal-Bishops take their titles from the Suburban Sees of Rome: Porto and Santa Rufina, Albano, Palestrina, Sabina, Frascati, and Velletri.

### NEW RULE AS TO ELECTION OF A POPE.

The American Cardinals reached Rome too late to cast their ballots for a successor to Benedict XV. In consequence, the new Pope, Pius XI., has made a change in the regulations, extending the interval between the death of a Pope and the election of his successor, so as to give the foreign Cardinals a chance to take part.

| NAME. | Office or Dignity. | Nationality | Year of Birth. | Year of Creation. |
|---|---|---|---|---|
| **Cardinal-Bishops—** | | | | |
| Vincenzo Vannutelli | Bishop of Palestrina, Arch-priest of Patr. Liberian Basilica, Datary of the Pope | Italian | 1836 | 1889 |

## MINTS AND ASSAY OFFICES.

**Mints**—Philadelphia, Freas Styer, Supt.; San Francisco, Michael J. Kelly, Supt.; Denver, Robert J. Grant, Supt.

**Assay Offices**—Carson City, Annie H. Martin, Assayer in charge; New Orleans, Leonard Magruder, Assayer in charge.

## UNITED STATES CIVIL SERVICE COMMISSION.

*Commissioners*—Geo. R. Wales, Vermont; Mrs. Helen H. Gardener, District of Columbia.

*Chief Examiner*—Herbert A. Filer, Maryland.
*Secretary*—John T. Doyle, New York.

## THE FEDERAL POWER COMMISSION.

*Commissioners—Chairman, Sec. of War*—John W. Weeks; *Sec. of the Interior*—Albert B. Fall; *Sec. of Agr.*—Henry C. Wallace; *Exec. Sec.*—O. C. Merrill; *Chief Eng.*—Col. Wm. Kelly, U. S. Army; *Chief Counsel*—Major Lewis W. Call, U. S. Army; *Chief Accountant*—Wm. V. King; *Chief Clerk*—F. W. Griffith.

## UNITED STATES BUREAU OF FISHERIES—DEPARTMENT OF COMMERCE.

(From data supplied by the Bureau.)

THE work of the Bureau of Fisheries comprises (1) the propagation of food fishes and their distribution to suitable waters; (2) the inquiry into the causes of decrease of food fishes in the lakes, rivers and coast waters of the United States, the study of the waters of the coast and interior in the interest of fish culture and the investigation of the fishing grounds of the Atlantic, Gulf, and Pacific Coasts, with the view of determining their food resources and the development of the commercial fisheries; (3) the collection and compilation of the statistics of the fisheries; (4) the study of the methods and apparatuses of the fisheries, preservation of fishery products and the development of uses for the little used or neglected products. The bureau also has jurisdiction over the fur seal herds and the salmon fisheries of Alaska. Office, Sixth and B Streets, Washington, D. C. The official force of the bureau is as follows: *Commissioner*—Henry O'Malley. *Deputy Commissioner*—Henry F. Moore. *Chief Clerk*—I. H. Dunlap. Assistants in charge of division: *Inquiry Respecting Food Fishes*—Willis H. Rich. *Fish Culture*—Glen C. Leach. *Statistics and Methods*—vacant. *Alaska Service*—Ward T. Bower.

## SOLDIERS' HOMES.

### NATIONAL HOME FOR DISABLED VOLUNTEER SOLDIERS.

*President of the Board of Managers*.....George H. Wood, National Military Home, Dayton, Ohio.

There are branches of the National Home at Dayton, Ohio; Milwaukee, Wis.; Togus, Me.; Hampton Va.; Leavenworth, Kan.; Santa Monica, Cal.; Marion, Ind.; Danville, Ill.; Johnson City, Tenn, and Hot Springs, S. D. The aggregate number of members cared for is about 25,000.

### STATE HOMES FOR DISABLED VOLUNTEER SOLDIERS.

| States. | Location. | States. | Location. | States. | Location. |
|---|---|---|---|---|---|
| California | Yountville | Missouri | St. James | Ohio | Sandusky, Madison |
| Colorado | Monte Vista | Montana | Columbus Falls | Oregon | Roseburg |

| Minnesota | Minnehaha | | | | |

### UNITED STATES SOLDIERS' HOME FOR THE REGULAR ARMY.

The United States Soldiers Home in the District of Columbia was established by an Act of Congress, approved March 3, 1851, for the relief and support of invalid and disabled soldiers of the Army.

Blank applications for admission may be obtained from the Board of Commissioners, U. S. Soldiers' Home, Washington, D. C.

There were on June 30, 1922, 1,016 resident beneficiaries; 49 on outdoor relief, 45 in St. Elizabeth's Hospital; 205 on furlough; and 71 at the Fitzsimons U. S. A. General Hospital, Denver, Col., for the treatment of tuberculosis, making a total of 1,166.

*Governor*—Major Gen. Tasker H. Bliss (retired). *Dep. Governor*—Major Parker W. West (retired). *Secretary-Treasurer*—Col. Robt. H. C. Kelton (retired), U. S. A. *Attending Surgeon*—Col. H. P. Birmingham (retired), U. S. A. *Quartermaster and Purchasing Officer*—Col. Walter C. Babcock (retired), U. S. A.

## UNITED STATES COAST GUARD.

The United States Coast Guard was created by an act of January 28, 1915, which combined the Revenue Cutter Service, organized by act of Congress approved August 4, 1790, and the Life Saving Service, which latter was originally operated under the Revenue Cutter Service, but on June 20, 1874, created a separate service under the Treasury Department.

The Coast Guard operates: (*a*) Twenty-seven seagoing cutters engaged in the assistance of vessels in distress, the enforcement of the navigation laws, the protection of the seal fisheries in Alaska, the destruction of derelicts, the conduct of the International Ice Observation and Ice Patrol Service off the Grand Banks of Newfoundland, and other maritime duties. (*b*) A number of inshore patrol and harbor tugs, inland water patrol vessels, and launches engaged in the service of the customs. (*c*) 277 Coast Guard stations, of which 227 are in active commission, engaged in saving life and property along the coast, and 8 in part commission. (*d*) A coast patrol system guaranteeing early assistance to vessels and persons in distress. (*e*) A communication system linking by telephone all Coast Guard stations and practically all compass stations. (*f*) One aviation station for the protection of life and property along the coast and at sea contiguous thereto.

The commissioned line officers of the service are appointed by the President, by and with the advice and consent of the Senate, from cadets who have completed a three-year course at the Coast Guard Academy, New London, Conn., similar to the course given at Annapolis. Engineer officers are appointed similarly from those who have completed a special course of one year at the academy.

## UNITED STATES STEAMBOAT INSPECTION SERVICE.

(By George Uhler, Supervising Inspector General of that Bureau of United States Department Commerce.)

The Steamboat Inspection Service, by Act of Congress, approved Feb. 14, 1903, was transferred from the Treasury Department to the Department of Commerce. The transfer went into effect July 1, 1903. The Supervising Inspector General of the Steamboat Inspection Service, George Uhler, reported to the Secretary of Commerce for the fiscal year ended June 30, 1922:

Number of annual certificates of inspection issued to domestic steam, motor vessels and barges, 7,206; decrease from previous year, 547. Number of annual certificates issued to foreign steamers, 337; decrease from previous year, 5. Total number of annual certificates of inspection issued to domestic and foreign, 7,543; decrease from previous year, 552.

Gross tonnage of domestic vessels, all kinds inspected, 10,975,357; decrease from previous year, 2,163,873. Gross tonnage of foreign steamers inspected, 2,956,520; decrease from previous year, 135,451. Total gross tonnage of domestic and foreign vessels inspected, 13,931,877; decrease from previous year, 2,299,124.

Number of officers' licenses issued, 26,044; increase over previous year, 47. Number of new life preservers inspected, 160,894, of which number 3,356 were rejected. Decrease in number of new life preservers inspected from previous year, 145,767. Number of marine boiler plates inspected at the mills by assistant inspectors, 2,259.

## THE UNITED STATES GOVERNMENT PRINTING OFFICE.

In this establishment practically all the printing and binding for the Government is performed, with the exception of postage stamps, stamped envelopes, paper money and bonds. The Public Printer is the executive officer of the Government Printing Office, is appointed by the President, and receives a salary of $6,000 a year. Directly, or through his principal officers, he purchases all the materials, paper and machinery, subject to provisions of certain laws; disburses all moneys; appoints all officers and employees under civil service rules and exercises general supervision over all affairs of the office. George H. Carter of Iowa is the Public Printer.

The Government Printing Office was established in 1860, at which time Cornelius Wendell sold his printing plant to the Government. That plant has gradually grown by additions and new buildings, until at the present time it contains approximately 15 acres of floor space and is well equipped with modern machinery for the rapid production of all classes of printing and binding. Congress now appropriates $2,000,000 as a working capital for this office and is entitled to that amount of printing. In addition, each department and independent establishment of the Government orders printing and makes payment of cost thereof to the Public Printer out of appropriations under their control.

Work is performed at cost, and the output runs in value to over $10,000,000 a year. During one year the compensation of employees amounts to $6,500,000, and the value of paper used to $3,100,000; about 80,000 different jobs are handled, ranging from envelopes and blanks to sumptuously bound volumes in large editions; two billion ems of type are set; 162,000 forms are sent to press; 2,100,000,000 chargeable impressions are run from presses; about one billion postal cards are printed; 200,000,000 sheets are folded; 75,000,000 signatures are sewed, and 33,000,000 copies are ruled.

## UNITED STATES PENSION STATISTICS.

| Year (Fisc'l) | Invalids on Roll. | Widows on Roll. | Total on Pen. Roll | Total Disburs. for Pensions. |
|---|---|---|---|---|

| 1916... | 403,120 | 306,452 | 709,572 | 159,155,089.92 |
| 1917... | 369,936 | 303,175 | 673,111 | 160,895,053.94 |
| 1918... | 340,313 | 306,582 | 646,895 | 179,835,329.00 |
| 1919... | 313,150 | 303,311 | 624,427 | 222,159,292.00 |
| 1920... | 285,110 | 299,363 | 592,190 | 213,295,314.00 |
| 1921... | 267,731 | 290,955 | 566,053 | 258,715,842.54 |
| 1922... | 256,918 | 282,965 | 547,016 | 253,807,583.37 |

Besides the 282,965 widows on the roll in 1922, there were 4,102 dependents, 2,106 minors, and 925 helpless children; of the 256,918 invalids 90 were army nurses of the Civil War. Of the total number of pensioners on June 30, 1922, there were 193,791 Civil War soldiers, as against 218,775 a year before. Of the widows 269,245 were of the Civil War as against 278,098 a year before. To pensioners in foreign countries were paid $1,319,231.39, as against $1,342,022.37 the year before. In the year ended June 30, 1922, there were 25,082 Civil War soldiers who died, as against 24,775 in the previous year.

The largest number of Civil War soldiers on the pension roll, 745,822, was in the year ended June 30, 1898. On June 30, 1922, there were surviving 49 widows of the War of 1812, 73 soldiers and 1,878 widows of the War with Mexico, 3,867 soldiers and 2,748 widows of the Indian Wars, as well as 55,153 pensioners of the War with Spain.

On June 30, 1922, there were 61 World War soldiers and 29 widows and other dependents of that war on the pension roll. For all information as to pensions other than World War, apply to the Commissioner of Pensions, Washington, D. C.

Congress, in May, 1922, passed an act making pensions (except civil) payable monthly.

### WORLD WAR PENSIONS.

World War pensions, &c., are handled by the U. S. Veterans' Bureau, formerly the Bureau of War Risk Insurance, Treasury Dept., Washington, D. C.

The rate of pay given veterans depends upon the degree of disability and the number of dependents. The following section from the War Risk Insurance Act as amended by Act of Congress, December 24, 1919, gives the rate of compensation paid for death or disability resulting from personal injury suffered, or disease contracted in the line of duty.

Section 302. That if the disability results from injury:

1. If and while the disability is rated as total and temporary, the monthly compensation shall be the following amounts: *a*. If the disabled person has neither wife nor child living, $80; *b*. If he has a wife and no child living, $90; *c*. If he has a wife and one child living $95; *d*. If he has a wife and two or more children living, $100; *e*. If he has no wife but one child living, $90; with $5 for each additional child. *f*. If he has a mother or father, either or both dependent on him for support, then in addition to the above amounts $10 for each parent so dependent.

2. If and while the disability is rated as partial and temporary, the monthly compensation shall be a percentage of the compensation that would be payable for his total and temporary disability equal to the degree of the reduction in earning capacity resulting from the disability but no compensation shall be payable for a reduction in earning capacity rated less than 10 per centum.

3. If and while the disability is rated as total and permanent the rate of compensation shall be $100 per month: Provided, however, that the loss of both feet or both hands, or the sight of both eyes, or the loss of one foot and one hand, or one foot and the sight of one eye, or one hand and the sight of one eye, or becoming helpless and permanently bedridden shall be deemed to be total permanent disability: Provided, further, that for double total permanent disability the rate of compensation shall be $200 per month.

4. If and while the disability is rated as partial and permanent the monthly compensation shall be a percentage of the compensation that would be payable for his total and permanent disability equal to the degree of the reduction in earning capacity resulting from the disability, but no compensation shall be payable for a reduction in earning capacity rated at less than 10 per centum.

The Veterans' Bureau, by the Act of August 9, 1921, took over from the Federal Board for Vocational Education, the work of providing for the vocational rehabilitation of disabled persons discharged from the military or naval forces, and also for their hospital care. The bureau also took over the work for veterans done by the U. S. Public Health Service.

Number of claims filed to July 1, 1922, 838,549; number of claims allowed, death, 58,875; number of claims allowed, disability, 351,940; total disbursements covering claims allowed as of July 1, 1922, $359,564,738.

The above figures cover compensation activities of the bureau since its creation.

For the fiscal year ended July 1, 1922, payments were made on 77,195 claims, of which 70,979 were disability claims and 6,216 death claims. The total disbursements for this fiscal period were $123,494,216.

On July 1, 1921, there were being hospitalized in all hospitals 26,869 patients of the bureau, classified as follows: tuberculosis, 10,849; neuro-psychiatric, 9,231; general medical and surgical 6,789.

## WHAT THE U. S. DOES TO HELP EX-SERVICE MEN.

The following bulletin is sent out by the Government with premium notices to ex-service men who have retained their war risk insurance:

THE UNITED STATES VETERANS' BUREAU is: 1. Paying out over $1,000,000 in cash every day, including Sunday, directly into the hands of the ex-service man or his dependents.

2. Providing, without cost, hospital care and treatment to 30,000 veterans. This care includes board and lodging and represents an expenditure by the Government of $60,000,000 per annum.

3. Giving vocational training, without cost, to over 100,000 disabled ex-service men at an expenditure for tuition and supervision of $30,000,000 per annum.

4. Mailing out 650,000 checks every month, representing $42,000,000.

5. Conducting an insurance business for over 600,000 ex-service men without any cost of administration to them. Insurance in force, $3,500,000,000.

6. Conducting over 50,000 medical examinations every month.

7. Giving outside treatment in cases where hospitalization is not required to 20,000 ex-service men every month.

8. Receiving 1,000 new claims every day, in addition to the 1,200,000 already on file, employing 4,000 ex-service men and women in carrying out the work.

9. Requiring for 1922 expenditures in behalf of the disabled ex-service man, $510,000,000—more than the entire expenditure of the whole United States in 1897.

10. The United States of America is already doing more for its disabled veterans than any other country in the world, despite the fact that their losses were far heavier than ours.

11. Do these facts indicate that the disabled ex-service man is being neglected?

C. R. FORBES, Director.

## THE CIVIL SERVICE OF THE UNITED STATES.

Classified employees upon reaching certain ages are automatically retired from the service unless certified for continuance. The requirement age for railway mail clerks is 62 years; for mechanics, post office clerks and carriers, 65 years, and for others 70 years. Those who have served 15 years or more are entitled to annuity based on length of service and salary received during the ten years preceding retirement. The minimum annuity is $180 and the maximum $720 per annum. Deduction of 2½% is made from salaries to provide for this annuity, which will be returned with 4% interest to persons leaving the service before retirement. In case of separation by death the deduction is returned to the person's heirs. If an annultant dies before he receives annuity equal to the deductions made from his salary, with interest, the difference is paid to his heirs.

The number of positions both classified and unclassified on June 30, 1922, was 69,980 in Washington, and 490,883 outside Washington. This made a reduction of 356,897 since the peak of the War.

U. S. NATIONAL CIVIL SERVICE STATISTICS.

## UNITED STATES COAST AND GEODETIC SURVEY.

The Coast and Geodetic Survey of the Department of Commerce is charged with the survey of the coasts of the United States and coasts under the jurisdiction thereof, and the publication of charts covering said coasts.

The results obtained are published in annual reports and in special publications; charts upon various scales, including sailing charts, general charts of the coast, harbor charts, tide tables and current tables issued annually in advance: coast pilots with sailing directions covering the navigable waters; notices to mariners issued weekly as a joint publication of the Coast and Geodetic Survey and the Bureau of Lighthouses, and containing current information necessary for safe navigation; magnetic charts and publications; catalogues of charts and publications and such other publications as may be required to carry out the organic law governing the survey.

STATISTICS AS OF JULY, 1922.

There are about 340,000 square miles of precise triangulation and 3,300 linear miles of precise traverse completed in the United States. Nearly as much again of this precise control work remains to be done before it is brought within fifty miles of every place in the United States. This is the minimum amount required to give adequate control to local surveys. There is tertiary triangulation along the whole coast of the United States proper, but this needs constant revision due to changes in the shore line and to the loss of stations. The necessary triangulation in the Philippine Islands is nearly completed. Alaska, however, has only about one-third of its coast covered by tertiary triangulation. Precise triangulation in the interior of Alaska has just been started.

About 45,000 miles of precise levels have been completed in the United States, and there are about 24,000 miles still to be done to bring the levels within fifty miles of every place in the United States. This is considered the minimum amount necessary to give adequate control for local level lines. There were about 20,000 square miles of precise triangulation, about 400 linear miles of precise traverse and about 900 linear miles of precise levels completed during the past fiscal year.

The first magnetic survey of the United States is nearly finished. Constant revision is needed because of loss of stations from various causes. Observations must be repeated at many stations on account of changes in value of the magnetic elements.

There remains yet to be surveyed 166,000 square miles of water area off the Atlantic and Gulf coasts, besides 5,000 square miles to be developed by dragging close to the shore and such resurveys from time to time in shallow waters as may be necessitated by changes. On the Pacific Coast 67,800 square miles have yet to be done, in addition to 1,400 square miles of dragging and repeated resurveys of shallow water subject to changes. The hydrographic survey of all Alaska is not more than 10 per cent. completed, but a large part of the most frequented waters is surveyed. In the Philippine Archipelago the surveys are 72 per cent. complete. Around the Hawaiian, Porto Rican and Virgin Islands much hydrographic surveying has been accomplished, but there yet remains about three years work for a surveying vessel in each locality.

The foregoing statement refers to the first surveys. Resurveys will at all times be necessary along many parts of the coasts and in harbors, due to changes that are always going on.

## SMILE, POSTMAN! SMILE!

Postmaster General Work, in the Daily Postal Bulletin, April 21, 1922, issued the following rules to Post Office employees:

"1. Smile, use courtesy to all—equals and subordinates, as well as superiors. It requires the use of about thirty-six muscles to smile and of ninety-seven to frown. Why work overtime?

"2. Respect the authority of others and the personal dignity and feelings of subordinates; we are all human beings, not machines.

"3. Criticise constructively. Show how to improve conditions and how to correct and avoid error.

"4. To a patron accept blame for the mistakes of the office: do not air inside differences. If you are doing your best, assume that your fellow workers are doing theirs.

"5. Don't encourage gossip, belittle or adversely criticise a fellow worker. We all have good points, and like credit for good performance.

"6. Be generous when another gets it 'in the neck Fortune's wheel is always turning and you may be on the under side some day.

'7 Don't hide behind cryptic statements and take advantage of the double meanings of words. Cultivate clearness, come clean. Let others know where you stand and what you mean. The old order of secrecy and stealth is gone; speed, analysis, plain speaking and publicity serve better.

"8. Let us have co-operation, intelligent effort, team work and understanding. The old days where only the heads were presumed to have intelligence and the workers were supposed to obey orders blindly and implicitly are gone The executive or supervisor who can get the work out through loyalty and team work rather than direct force of authority is by far the most valued man.

"'All things whatsoever ye would that men should do unto you, do ye even so unto them.' "

## UNITED STATES PATENT OFFICE STATISTICS SINCE 1838.

(By the Com. of Patents. Appl. inc. patents, designs, and reissues. Caveat Law repealed June 25, 1910.)

| YEAR. | Applications. | Caveats Filed. | Patents. | Cash Received. | YEAR. | Applications. | Caveats Filed. | Patents. | Cash Received. |
|---|---|---|---|---|---|---|---|---|---|
| 1838 | ..... | ..... | 520 | $42,123.54 | 1880 | 23,012 | 2,490 | 13,947 | $749,685.32 |

Figures in column under "Patents" caption include designs (3,277) and reissues (239). Cash expended in 1921 was $2,612,429.

The first patent issued in the U. S. in 1922 was numbered 1,401,948. Up to Jan. 1, 1920, the total number of patents that had been issued by chief foreign countries, from the beginning, was as follows: France, 612,032; Great Britain, 562,258; Belgium, 289,061; Canada, 194,255; Italy, 163,013; Austria, 107,850; Switzerland, 85,364; Austria-Hungary, 75,596; Hungary, 74,354; Spain, 61,364; Sweden, 49,614; Japan, 35,292; Denmark, 32,901; Russia, 32,308; Norway, 31,844; Australia, 22,154; New Zealand, 20,198; Mexico, 19,127; Argentina, 16,921; Brazil, 11,786; Portugal, 10,576; Holland, 9,260; Finland, 8,455; Union of South Africa, 5,825; Chili, 3,714; Cuba, 3,301; Turkey, 2,560; Uruguay, 1,331; Colombia, 1,313.

## NATIONAL CEMETERIES.

(Figures show, respectively, acres and interments.)

Alexandria (Pineville), La., 8.24, 4,610; Alexandria, Va., 5.50, 3,570; Andersonville, Ga., 120, 13,737; Andrew Johnson (Greeneville), Tenn., 15, 36; Annapolis, Md., 4.125, 2,565; Antietam (Sharpsburg), Md., 11, 4,816; Arlington (Ft. Myer), Va., 408.03, 32,438.

Balls Bluff (Lecsburg), Va., .0057, 25; Barrancas, Fla., 8.56, 1,691; Baton Rouge, La., 7.50, 3,211; Battle Ground (Takoma Park Sts.), D. C., 1.033, 44; Beaufort, S. C., 29, 9,572; Beverly, N. J., 1, 248.

Camp Butler (Springfield), Ill., 6.02, 1,609; Camp Nelson, Ky., 9.50, 3,667; Cave Hill (Louisville), Ky., 4.29, 5,032; Chalmette (Arabi), La., 16, 13,231; Chattanooga, Tenn., 129.53, 14,050; City Point, Va., 7.49, 6,206; Cold Harbor (Richmond), Va., 1.75, 1,971; Corinth, Miss., 20, 6,747; Crown Hill (Indianapolis), Ind., 1.37, 893; Culpepper, Va., 6, 1,376; Custer Battlefield (Crow Agency), Mont., 640, 1,619; Cypress Hills (Brooklyn), N. Y., 18.14, 9,027.

Danville, Ky., .31, 362; Danville, Va., 3.50, 1,331.

Fayetteville, Ark., 6.63, 1,346; Finns Point (Salem), N. J., 2.50, 2,642; Florence, S. C., 3.76, 3,016; Fort Donelson (Dover), Tenn., 15.34, 682; Fort Gibson, Okla., 6.90, 2,514; Fort Harrison (Richmond), Va., 1.55, 819; Fort Leavenworth, Kan., 15, 5,805; Fort McPherson (Brady), Neb., 20, 882; Fort Scott, Kan., 10.26, 1,023; Fort Smith, Ark., 14.74, 2,482; Fredericksburg, Va., 12.005, 15,203.

Gettysburg, Pa., 14.87, 3,725; Glendale, Va., 2.12, 1,200; Grafton, W. Va., 3.40, 1,302.

Hampton, Va., 19.611, 12,309.

Jefferson Barracks, Mo., 50, 13,157; Jefferson City, Mo., 2, 872.

Keokuk, Iowa, 2.75, 956; Knoxville, Tenn., 9.85, 3,734.

Lebanon, Ky., 2.50, 879; Lexington, Ky., .75, 1,716; Little Rock, Ark., 23.12, 7,160; Loudon Park (Baltimore), Md., 3.69, 4,377.

Marietta, Ga., 24, 10,480; Memphis, Tenn., 43.91, 14,618; Mexico City, Mex., 2, 1,558; Mill Springs (Somerset), Ky., 3.50, 740; Mobile, Ala., 2.68, 1,179; Mound City, Ill., 10.50, 5,490.

Nashville (Madison), Tenn., 65, 16,817; Natchez, Miss., 11.07, 3,530; New Albany, Ind., 5.46, 3,246; Newbern, N. C., 7.69, 3,430.

Philadelphia (Pittsville Sta.), Pa., 13.26, 3,803; Poplar Grove (Petersburg), Va., 8.65, 6,227; Port Hudson, La., 8, 3,855.

Quincy, Ill., .459, 320.

M., 9.44, 1,185; Seven Pines (Richmond), Va., 1.55, 1,403; Shiloh (Pittsburg Landing), Tenn., 10.05, 3,632; Soldiers' Home, D. C., 16, 8,258; Springfield, Mo., 11, 2,581; St. Augustine, Fla., 1.33, 1,820; Staunton, Va., 1.15, 773; Stone River (Murfreesboro), Tenn., 20.10, 6,149.

Vicksburg, Miss., 40, 17,197.

Wilmington, N. C., 5, 2,402; Winchester, Va., 4.89, 4,553; Woodlawn (Elmira), N. Y., 2.36, 3,302.

Yorktown, Va., 3, 2,203.

Total, 392,080.

Of the interments, 238,837 are those of known, 153,243 those of unknown dead.

About 19,700 of the bodies are those of Confederates, being mainly in the National Cemeteries at Arlington, Camp Butler, City Point, Cypress Hills, Finns Point, Fort Smith, Hampton, Jefferson Barracks, Little Rock, Philadelphia, Springfield and Woodlawn.

## THE UNITED STATES CENSUS.

(From data supplied by the Bureau.)

The Constitution requires a census of the United States decennially. The first was in 1790 under the supervision of the President; subsequent censuses, to and including that of 1840, were under the Secretary of State. In 1849 the census work was transferred to the newly organized Department of the Interior, where it remained until the passage, in 1903, of the act creating the Department of Commerce and Labor, by which the Census Bureau was transferred to the new department. Meanwhile Congress, March 6, 1902, had made the Census Office a permanent bureau. Since March 4, 1913, when the Department of Commerce and the Department of Labor were separately organized, the Bureau of the Census has been attached to the former. The work is divided into two branches, the decennial census and special statistical inquiries, the latter mostly made between the decennial censuses.

The Fourteenth Decennial Census was taken as of January 1, 1920. It covers: (1) population, (2) agriculture (including irrigation and drainage), (3) manufactures, (4) forestry and forest products, and (5) mines, quarries, and oil and gas wells. The cost of this census is estimated at $20,179,000, in addition to which $2,371,000 will be spent in carrying on the annual investigations of the bureau during the three-year census period (July 1, 1919, to June 30, 1922). Of the first named amount, $12,500,000 covers the cost of collecting the data through approximately 87,000 enumerators, in addition to supervisors, clerks, and special agents.

The permanent work of the bureau is provided for by the act of Congress approved March 6, 1902, and amendatory and supplemental acts, and include the gathering and publishing of statistical facts pertaining to the dependent, defective, and delinquent classes; wealth, public indebtedness, and taxation; births and deaths; financial and other activities of cities; finances of States; religious bodies; marriages and births; transportation by water; electrical industries; Federal employees; cotton and tobacco stocks, and business conditions. These inquiries are made at intervals ranging in length from ten years to two weeks. The census of manufactures, in addition to forming part of the decennial census, is taken in each mid-decennial year; and a biennial census of products of manufacturing industries and a quinquennial census of agriculture will also be taken hereafter. Special inquiries are made from time to time at the direction of the President, the Secretary of Commerce, or Congress.

The Director of the Census is appointed by the President and receives $7,500 per annum during the three-year decennial census period and $6,000 during the seven "intercensal" years. The Director is William M. Steuart, of Michigan; Assistant Director, Joseph A. Hill, of New Hampshire. The permanent organization includes five chief statisticians —for Population, William C. Hunt; for Manufactures, Eugene F. Hartley; for Statistics of States and Cities, Starke M. Crogg; for Agriculture, Cotton and Tobacco, William L. Austin; and for Vital Statistics, William H. Davis. The permanent employees of the bureau of Washington number approximately 700, and in addition about 700 special agents are employed intermittently in the South for the collection of cotton statistics. The total office force of the bureau, including temporary employees, during the three-year decennial census period reached a maximum of about 6,000.

## THE NATIONAL PARKS AT A GLANCE.

(Number, 19; total area, 11,304 square miles.)

| National Parks in Order of Creation. | Location. | Area in Sq. Miles | Distinctive Characteristics. |
|---|---|---|---|
| Hot Springs, 1832 | Middle Arkansas | 1½ | 46 hot springs possessing curative properties. |
| Yellowstone, 1872 | No'western Wyoming | 3,348 | Geysers; boiling springs; mud volcanoes; petrified forests; Grand Canyon of the Yellowstone. |
| Sequoia, 1890 | Middle eastern California | 252 | 12,000 sequoia trees over 10 feet in diameter, some 25 to 36 feet in diameter; cave. |
| Yosemite, 1890 | Middle eastern California | 1,125 | Valley of world-famed beauty; lofty cliffs; many waterfalls of extraord'y height; 3 groves of big trees. |
| General Grant, 1890 | Mid. east'n California | 4 | Created to preserve Gen. Grant Tree, 35 ft. in diam. |
| Mount Rainier, 1899 | W. central Washington | 324 | 28 glaciers; 48 sq. miles of glacier, 50 to 500 ft. thick. |
| Crater Lake, 1902 | Southwestern Oregon | 249 | Lake of extraordinary blue in crater of extinct volcano; sides 1,000 feet high; lava; fishing. |
| Wind Cave, 1903 | South Dakota | 17 | Miles of galleries and chambers containing peculiar formation. |
| Platt, 1904 | Southern Oklahoma | 1⅛ | Many sulph. and oth. springs possess medicinal value. |
| Sullys Hill, 1904 | North Dakota | 1⅛ | An important wild animal preserve. |
| Mesa Verde, 1906 | So'western Colorado | 77 | Most notable, best preserved prehistoric cliff dwellings. |
| Glacier, 1910 | No'western Montana | 1,534 | 250 glacier-fed lakes; 60 small glaciers; precipices thousands of feet deep. |
| Rocky Mount'n, 1915 | North middle Colorado | 397½ | Heart of the Rockies; snowy range, peaks 11,000 to 14,255 feet altitude. |
| Hawaii, 1916 | Hawaii | 118 | Kilauea & Mauna Loa on Hawaii, Haleakala on Maui. Only active volcano in U. S. proper; hot springs; mud geysers. |
| Lassen Volcano, 1916 | Northern California | 124 | |
| Mt. McKinley, 1917 | South central Alaska | 2,645 | Highest mountain in North America. |
| Grand Canyon, 1919 | North central Arizona | 958 | Greatest example of erosion in the world. |
| Lafayette, 1919 | Maine coast | 8 | Group of granite mountains on Mt. Desert Island. |
| Zion, 1919 | Southwestern Utah | 120 | Zion Canyon, 800 to 2,000 feet deep. |

There are also seven national military and other parks under the jurisdiction of the Secretary of War. They are as follows: Chickamauga and Chattanooga, Georgia and Tennessee; Shiloh, Tennessee; Gettysburg, Pennsylvania; Vicksburg, Mississippi; Antietam Battlefield, Maryland; Lincoln's birthplace, Kentucky; Guilford Court House, North Carolina.

The national parks and national monuments, unless otherwise stated, are under the supervision of the Secretary of the Interior. Congress, by act of August 25, 1916, created a National Park Service, and placed the administration of the national parks and monuments under the Department of the Interior in charge of a director of such service. General information, the annual administrative reports and copies of the rules and regulations relating to the parks may be obtained from the Director of the National Park Service, Washington, D. C., or the Superintendents of the parks.

### NATIONAL MONUMENTS.

Under the Act of Congress, approved June 8, 1906, interdepartmental regulations governing the excavation, appropriation, etc., of prehistoric ruins or objects of antiquity have been promulgated by the Secretaries of the Interior, Agriculture, and War. Application for permits to make excavations on the public lands, Indian reservations, or the national monuments named below should be addressed to the Secretary of the Interior. The following have been preserved from entry and set aside as national monuments: Devils Tower, Wyoming; Montezuma Castle, Arizona; Petrified Forest, Arizona; El Morro, New Mexico; Chaco Canyon, New Mexico; Muir Woods, California; Natural Bridges, Utah; Lewis and Clark Cavern, Montana; Tumacacori, Arizona; Navajo, Arizona; Shoshone Cavern, Wyoming; Gran Quivira, New Mexico; Katmai and Sitka, Alaska; Rainbow Bridge, Utah; Pinnacles, California; Colorado, Colorado; Papago Saguaro, Arizona; Capulin Mountain, New Mexico; Dinosaur, Utah; Verendrye, North Dakota; Casa Grande, Arizona; Scott's Bluff, Nebraska; Yucca House, Colorado.

Eleven other national monuments in national forests have also been set aside under this act and placed under the jurisdiction of the Secretary of Agriculture, to whom inquiries in regard thereto should be addressed. Two other national monuments (Big Hole Battlefield, in Montana, and Cabrillo, in California) are under the jurisdiction of the Secretary of War.

## NATIONAL FORESTS.

| Forest. | State. | Net Area, National Forest Land, Acres. |
|---|---|---|
| Absaroka | Mont. | 841,079 |

The original forests of the United States covered about 822,000,000 acres and contained 5,200,000,000 board feet of timber. There are left (June 30, 1922) 463,000,000 acres of forest land, containing 2,215,000,000,000 board feet. Of this, 137,000,000 is in virgin timber, 112,000,000 acres is culled and second-growth timber large enough for sawing, 133,000,000 acres is partially stocked with smaller growth, and 81,000,000 acres is devastated and practically waste land. The present rate of timber consumption is more than four times the annual growth of the forests. Of the standing timber, 349,000,000,000 feet is in the New England, Mid-Atlantic, Central and Lake States; 1,141,000,000,000 feet is in the Pacific Coast States.

The National Forests include 156,837,282 acres (net). The annual revenue for the fiscal year ending June 30, 1922, was $5,068,527. Of this amount $1,646,996 was for grazing fees pertaining to the fiscal year 1921 authorized by Congress to be paid subsequent to June 30, 1921. The receipts collected in the fiscal year 1922, which properly pertained to that year, were $3,421,531. Cost of administration averages $4,000,000 a year. Thirty-three States have their own forestry departments.

The forest fire losses in 45 States for the six-year period, 1916-1921 inclusive, were $98,546,076. This damage was occasioned by 200,096 forest fires, which burned over 65,172,066 acres.

# The United States of America.

(FEDERAL REPUBLIC.)

| | *Continental.* | *Total.* |
|---|---|---|
| *AREA, square miles* | *3,026,789* | *3,743,510* |
| *POPULATION, 1920* | *105,710,620* | *117,859,495* |

The United States of America, oldest republic, is bounded on the north by Canada, on the east by the Atlantic Ocean and the Gulf of Mexico, on the south by the Gulf of Mexico and Mexico, and on the west by the Pacific Ocean. It comprises 48 States and the Federal District of Columbia. This is called for convenience in reference "Continental United States." Its non-contiguous areas are the Territories of Alaska and Hawaii; Porto Rico, the Philippine Islands, the Virgin Islands of the United States, American Samoa, Guam, Wake and scattered islands in the Pacific; and the Panama Canal Zone, all aggregating 716,721 square miles, which, added to the 3,026,789 square miles of continental United States, give a total of 3,743,510 square miles.

The population of continental United States, Census of 1920, was 105,710,620; of the non-contiguous areas (partly estimated) 12,148,875, the grand total being 117,859,495. (See pages 321 et seq. for population tables).

The general topography of continental United States is so varied, and the climate, natural resources and racial elements also, that the country may be said to be several countries articulated in one national body. In the eastern part, excepting on the south, are several mountain ranges of the Appalachian system, rising never to more than 6,000 to 7,000 feet of altitude, and ranging north and south. The Adirondacks, in northern New York State, are declared by the United States Geological Survey to have been the first land that rose from the original chaos in the western world, being, therefore, the oldest mountains in the United States.

Sweeping westward from the eastern mountains is a vast, fertile plain, the valley of the Mississippi River, a thousand miles wide and about as long, to where the mountain formation again is found, the Rocky Mountain range, highest in North America, beyond which westwardly is a tableland of mean elevation of 3,000 to 5,000 feet, and still further to the westward are other mountain ranges of lesser altitudes, with a low coast range skirting the shores of the Pacific Ocean.

The United States has seven great rivers—the Hudson, entering the Atlantic at the harbor of New York City in the northeastern corner of the country; the Delaware, entering the Atlantic through Delaware Bay, midway down the coast; the Potomac, entering the Atlantic through Chesapeake Bay, just south from Delaware Bay; the Mississippi, greatest of North American rivers in its relationship to civilization, rising in Minnesota, near to Canada, entering the Gulf of Mexico on the southern side of the country; the Ohio, flowing from the eastern mountains westwardly to join the Mississippi in the East Central part of the country; the Missouri, which flows from the northwestern mountains eastwardly to the Mississippi, being confluent with that stream just north of where the Ohio joins it; the Columbia, which rises in British territory, and flows across a vast tableland westof the Rocky Mountains, into the Pacific Ocean one-third of the way down that coast; the Colorado, non-navigable, which rises in the State of Colorado, flows in general course southwestwardly through Utah and Arizona, and between Arizona and California, into the Gulf of California, in Mexico.

Besides these streams, there are many of considerable and navigable size in the areas east from the Rocky Mountains, and the great St. Lawrence River, as the outlet of the Great Lakes on the northern border between the United States and Canada, skirts the northeastern boundary of the United States.

The Great Lakes, Superior, largest inland body of fresh water in the world; Huron, Erie, Michigan, and Ontario, are a striking phase of the geological formation, and carry immense passenger and freight tonnage. The Mississippi, Potomac, Delaware, Hudson and Columbia Rivers are navigable for considerable distances inland from the sea, and the Missouri for light-draught craft quite a distance up from the Mississippi.

Of the lesser rivers, the most important are the Connecticut, Susquehanna, James, Cumberland, Tennessee, Tombigbee, Warrior, Arkansas and Red in the eastern half of the country, and the Sacramento on the Pacific Coast; while the Rio Grande, rising in Colorado, non-navigable, save for 61 miles from its mouth, is the eastern half boundary between the United States and Mexico. (See pages 718-19.)

The largest river under the American flag is the Yukon in Alaska, which rises in small lakes in the Dominion of Canada, flows northwestwardly into Alaska, then westwardly and then southwestwardly into Norton Sound, which in turn makes into Bering Sea. It is navigable for more than 2,000 miles inland.

The climate of the United States is of every gradation, from the north temperate, with rather cold winters and pleasant summers, to the sub-tropical, with every variety of flora suitable to so wide a range of latitude. Eastwardly and westwardly, even greater variation is found. For there are regions of normal moisture precipitation in the northeast, of excessive precipitation in the southeast, of normal precipitation in the central tableland regions, and then of varying degrees of aridity and moistness as one proceeds westwardly, until on the coast of Oregon, at Tillamook, is the heaviest average precipitation in the United States—120 inches a year. (See tables 76-77.)

The Southwestern United States is marked by several almost deserts, susceptible of reclamation by irrigation, some of which were the beds of great inland salt water seas, at some points the present surface elevation being lower than the surface of the ocean.

The area of continental United States was acquired by various purchases, treaties and in wars, from England, France and Mexico, and the dependencies from Russia, Spain, Panama, the former Hawaiian Government, and Denmark. (See tables following.)

The Thirteen Original States included about 900,000 square miles, and were colonies when the War of the Revolution was fought against England, 1776-83.

In natural resources, the United States is one of the richest countries in the world. Its coal, oil, timber and precious metals exist in vast natural stores, and practically every base mineral known to civilization is deposited in its areas. The timber resources have been depleted seriously, but the Federal Forest Service has begun reforestation, and has matured plans to make the natural timber lands perpetual by replanting.

Improvement also of the rivers and harbors has proceeded to a large extent, although by no means as extensive as similar development in Europe. The great navigable rivers mentioned heretofore have been treated by the engineers for removal of obstructions in many places, great jetties have been built at the mouths of the Columbia and Mississippi, large terminal facilities provided at many of the ports, and plans are working out for the perfection of all of them according to modern standards. The most important domestic canal is the New York State Barge Canal; many others were permitted to lapse into non-use when railway transport absorbed attention so exclusively in the last half of the last century. (See pages 721-22.) The natural conditions, however, would permit of almost illimitable canal development if more artificial waterways are needed.

Originally an agricultural people, the presence of so vast natural stores of minerals and timbers, together with increased "pressure of population on land," has operated to induce great industrial development, until the United States is to-day one of the world's greatest merchants on the high seas, its steel, rubber goods, timber, cotton, machinery, foodstuffs and many other commodities going to the ends of the earth.

The increase of industrial interest has been coincidental with and in large part the cause of the very heavy immigration which came in before the present immigration restriction law was enacted. Many came to work in the mines and factories and in construction of railways and industrial works. Up to the latter part of the last century,

the population of the United States was in a majority rural—that is, dwelt on farms or in communities of fewer than 2,500 inhabitants. The increase of industrial concerns has attracted so many to the towns and cities that the 1920 census indicated town dwellers as 51.4 per cent. of the whole population. (See tables following.)

The agricultural interests of the country are very large. The Census Bureau reported for 1920 that of the approximate land area of 1,903,215,360 acres, all farm lands contained 955,863,715 acres; improved lands, 503,073,067 acres; or 50 per cent. of all the land in the farm lands classification; that the value of all farm property was $77,924,100,338; of land alone, $54,829,563,059; of buildings, $11,486,439,543; of implements, $3,594,772,928; and of livestock, $8,013,324,808; the value of all farm crops in 1919 being $14,755,364,894, against $9,523,514,211 in 1909, the increase having been due largely to very much higher prices.

On Sept. 1, 1922, the Department of Agriculture reported that the principal crops of the country would bring to the farmers $1,250,000,000 more than in 1921, prices having been lower in 1921 than before. (See pages 274 et seq.)

The value of mining products in 1921 was given by the United States Geological Survey as $4,056,000,000. (See tables following.)

The total value of the products manufactured in the United States returned in the Census of 1919 was $14,793,902,563. (See tables following.)

The United States has been known as a melting-pot of the peoples of the earth, its population, at first of the ancient races such as the Aztecs, then of the American Indian, and, in the first days of settlement by white people from Europe, English predominating. From the beginning, immigration has been numerous, and attained a million persons a year up to the beginning of the World War, Chinese and Japanese being rigidly restricted. (See tables on pages 354 et seq.) At the present time, other admissible aliens may come in at the rate of only 3 per cent. of their own nationality already here as shown in the 1910 census. (See pages 200-2.)

In the industrial centres, large numbers of Austrians, Italians, Germans and not a few Britons, with very many Slavs, have settled; and in the agricultural sections Scandinavians are numerous in the North Central States, and Germans from the Great Lakes to the border States.

The 1920 census assigned of the total 105,710,620 of population, native white, 81,108,161; native parentage, 58,421,957; foreign parentage, 15,694,539; with 6,991,665 of mixed parentage. Those of foreign parentage and of recently immigrated foreign blood number more than 30,000,000. (See tables on pages 321 et seq.)

By gradual increase of power, as well as increase of legal authority, the President of the United States is the most potent governmental head in the world. Under the Constitution, as originally interpreted, the President had relatively little initiative, but received direction by the Congress in all important matters, especially when they touched foreign affairs. In the last 50 years the balance has changed to a large degree, until the Executive establishment now exercises power little dreamed of when the Republic was established.

The army of the United States has been reduced by 100,000 men by recent reorganizations, leaving it, infantry, 46,423; cavalry 9,871; field artillery 17,173; coast artillery, 12,026; engineers, 5,020; air service, 8,500; signal corps, 2,184; quartermaster corps, 8,000; ordnance, 2,307; finance, 399; chemical warfare, 445; medical, 6,850. Camps for the training of a citizen army for reserve are maintained in several places.

A small contingent of the army is still in Germany, and its early withdrawal is contemplated.

Surplus war materials valued at $139,773,926 have been transferred to the Department of Agriculture for the use of the Bureau of Public Roads, including 29,325 motor vehicles.

The volume of actual circulating medium in this country, as of Sept. 10, 1922, was $4,392,300,000, or $39.93 per capita, the general stock of money being $8,303,549,241. More than a third was in gold and bullion, $3,858,548,202, held in the Federal Treasury or in reserve banks. Private holders have in their possession $416,387,032 of gold. This gold is about one-half the world's known store, it being estimated that since the world began there has been mined a total of $18,000,000,000 of gold, that $10,000,000,000 has been used in the arts or lost, and that $8,000,000,000 remains in the possession of Governments in the several countries. (See tables.)

The money of the United States is accepted at its gold par anywhere in the world. The circulating medium varies with the needs of business, by reason of the operation of the quasi-public Federal Reserve System, which provides a flexible method of expansion and contraction according as conditions change, and a co-ordination of the business credit of the country in a reservoir, precluding, it is held, the possibility of the former periodic panics.

The United States, having had to conquer so large an area and bring its material resources into use, has not developed its artistic life as have some older peoples; however, lately there has been much more attention to art, a phase being the bringing here of a vast accumulation of art treasures, purchased by wealthy Americans, while schools of the several arts are developing rapidly. (See pages 361 et seq.)

Scenically, the United States and its non-contiguous areas possess almost every variety of landscape and mountain view, Mt. McKinley, Alaska, the highest elevation in North America, 20,300 feet, being visible from sea level on Cook Inlet, probably the highest spot on earth to be seen from the surface of the ocean; Mt. Whitney, California, next, 14,501 feet. The scenic attractions are more and more appreciated, and six transcontinental railway routes and the developing automobile routes are thronged nowadays with tourists from all over the world. (See the several States and Territories following.)

The United States is now the second largest in merchant marine in the world, Great Britain leading. (See United States Shipping Board article elsewhere, also tables on pages 716-17.)

In naval strength it equals any. (See article on Washington Conference on Disarmament.)

The United States is not a member of the League of Nations.

## AREA OF UNITED STATES, AND OUTLYING POSSESSIONS, 1790-1920.

| South Atl'c. | 5 | 282,910 | 9.3 | 8 | 35,355 | | | | | | |

The North, with 60.2 per cent. of the total population of the United States in 1920, comprises only 30.9 per cent. of the total area. The corresponding proportions for the South are far less divergent, being 31.3 per cent. for population and 29.8 per cent. for area. For the West, in which only 8.4 per cent. of the total population of the United States was enumerated in 1920, the proportion of the total area is 39.3 per cent. The region east of the Mississippi River, with 70 per cent of the population in 1920, occupies only 29.1 per cent. of the area of the country, whereas the region west of the Mississippi with 30 per cent. of the population, comprises 70.9 per cent. of the area.

## TERRITORIAL EXPANSION OF THE UNITED STATES.

The area of the original thirteen States (1790) was 892,135 square miles.

| Division. | Yr. | Added. Square Miles | Division. | Yr. | Added. Square Miles. | Division. | Yr. | Added. Square Miles. |
|---|---|---|---|---|---|---|---|---|
| Louisiana purchase. | 1803 | 827,987 | Gadsden purchase. | 1853 | 29,670 | Add'nal Philippines | 1901 | 68 |
| Gained through | | | Alaska | 1867 | 590,884 | Panama Canal Zone | 1904 | 527 |

| Florida | 1819 | 58,666 | Porto Rico | 1899 | 3,435 | (now Virgin Isl.). | 1917 | 132 |
| Texas | 1845 | 389,166 | Guam | 1899 | 210 | | | |
| Oregon | 1846 | 286,541 | Philippine Islands. | 1899 | 144,988 | Total added area | .... | 2.851.375 |
| Mexican cession | 1848 | 529,189 | Samoa | 1900 | 58 | Total United States including original 13 States | | 3 743 510 |

Payments for above were made by the United States as follows: Louisiana purchase, $15,440,000; Gadsden purchase, $10.000,000; Alaska, $7,200,000; Florida, $5,000,000; Hawaiian Islands, public debt assumed to the amount of $4,000,000; Mexican cession, $8,250,000.

The Treaty of Paris, of December 10, 1898, terminating the Spanish-American War, provided for a money payment to Spain (for relinquishing claim to Porto Rico, Guam, and Philippine Islands) of $20,000-000, and a subsequent treaty of November 7, 1900, provided for a further payment of $100.000 for other Philippine Islands.

By the first treaty the Philippine Islands were ceded to the United States, and the later treaty of November 7, 1900, ceded certain outlying islands of the Philippines not included in the first cession.

The United States did not acquire, by the Isthmian Canal Convention of November 18 1903 any title to territory in the Republic of Panama but merely a perpetual right of occupation, use, and control of and over a zone of land ten miles in width. For this privilege it paid to the Republic of Panama the sum of $10,000,000, and undertook to pay the sum of $250,000 annually so long as such occupancy continued, such payments beginning on February 26, 1913.

### TREATY WITH COLOMBIA.

The United States and the Colombian Congresses ratified, in 1921, a treaty of the United States with Colombia by which Colombia is to receive $25,000-000 (in yearly instalments of $5,000,000) as compen-

sation for the loss of territorial sovereignty over Panama and the Canal Zone. Ratifications of the two countries were exchanged at Bogota, Colombia, on March 1, 1922. The first payment of $5,000,000 to be made six months thereafter.

For the Danish West Indies, consisting of the islands of St. Croix, St. Thomas and St. John, the United States paid $25,000,000, and took possession on March 31, 1917. They then had 32,000 population.

No money payments were made upon the acquisition of the other Territories mentioned in the list.

## DIMENSIONS AND AREA OF THE UNITED STATES.

THE gross area of the United States is 3,026,789 square miles. The land area amounts to 2,973,774 square miles, and the water area—exclusive of the area in the Great Lakes, the Atlantic, the Pacific, and the Gulf of Mexico, within the three-mile limit—amounts to 53,015 square miles.

The southernmost point of the mainland is Cape Sable, Fla., which is in latitude 25° 07′and longitude 81° 05′. The extreme southern point of Texas is in latitude 25° 50′, and longitude 97° 24′. Cape Sable is therefore 49 miles further south than the most southern point in Texas.

A small detached land area of northern Minnesota at longitude 95° 09′ extends northward to latitude 49° 23′.

The easternmost point of the United States is West Quoddy Head, near Eastport, Me., in longitude 66° 57′ and latitude 44° 49′; the westernmost point is Cape Alva, Wash., in latitude 48° 10′, which extends into the Pacific Ocean to longitude 124° 45′.

From the southernmost point in Texas due north to the forty-ninth parallel, the boundary between the United States and Canada, the distance is 1,598 miles. From West Quoddy Head due west to the Pacific Ocean the distance is 2,807 miles. The shortest distance from the Atlantic to the Pacific across the United States is between points near Charleston, S. C., and San Diego, Cal., and is 2,152 miles.

The length of the Canadian boundary line from the Atlantic to the Pacific is 3,898 miles. The length of the Mexican boundary from the Gulf to the Pacific is 1,744 miles.

The average elevation of Delaware is only 60 feet above sea level, according to the United States Geological Survey, less than that of any other State in the Union, although its highest point, at Centreville, New Castle County, is 440 feet above sea level, higher than the highest points in Florida, Louisiana and the District of Columbia.

## POSITION OF THE CENTRE OF UNITED STATES POPULATION, 1790 TO 1920.

"The centre of population," says the U. S. Census Bureau, "may be considered as the centre of gravity for the population of the United States; that is to say, if the surface of the United States be regarded as a rigid, level plane, without weight, but having the population distributed thereon as at present, each individual inhabitant, being assumed to have the same weight as every other inhabitant, would exert a pressure on any given point in the plane directly proportional to his distance from that point. The centre of gravity for this plane, or the pivotal point on which it would balance, is the point referred to by the term 'centre of population.' That being the case, the cities of Seattle, San Francisco and Los Angeles, with a combined population of 1,398,661, exert a greater influence on the location of the centre of population than the cities of Baltimore, Boston, Buffalo, Cleveland, Philadelphia and Pittsburgh, with a combined population of 5,197,624."

The centre of area," or geographical centre, of the United States, which has nothing to do with the centre of population, is determined by drawing lines across the country's greatest width and greatest length. Ten years ago this intersection was located in Northern Kansas, ten miles north of Smith Center, the county seat of Smith County.

Besides the "centre of population" and the "centre of area," there is still another definition used by the Census Bureau—the "median lines." These lines divide the population evenly north and south of a parallel of latitude and east and west of a meridian of longitude.

## COAST LINE OF THE UNITED STATES.

(By the U. S. Coast and Geodetic Survey.)

*General Coast Line*—The figures under this heading give the length in statute miles of the general outline of the seacoast. The measurements were made with a unit measure of 30 minutes of latitude on charts as near the scale of 1-1,200,000 as possible. The shore line of bays, sounds and other bodies of water whose entrance width is greater than the unit measure is included to a point where such waters narrow to the width of the unit measure, and the distance across at such point is included. Where the entrance width of such waters is less than the unit measure, the distance across is included, but the shore line inside is not.

*Tidal Shore Line, Unit Measure 3 Statute Miles*—The figures under this heading give the length in statute miles of the shore line on tidal waters to points where such waters narrow to a width of 3 statute miles. The figures for Louisiana do not include the shore line of Lakes Maurepas and Pontchartrain, and the delta of the Mississippi River was measured as mainland. The measurements were made on charts of 1-200,000 and 1-400,000 scale when available.

*Tidal Shore Line, Unit Measure 1 Statute Mile*—The figures under this heading give the length in statute miles of the shore line on tidal waters to points where such waters narrow to a width of *one* statute mile, and include the shore line of those bodies of tidal waters more than 1 mile wide which lie close to the main waters, even though the entrance width is less than the unit measure. The measurements were made on charts of 1-80,000 scale for the Atlantic and Gulf coasts, on charts of 1-200,000 scale for the Pacific coast, and on charts as near those scales as available for the other regions.

*The Panama Canal Zone*—Islands outside the 3 nautical mile zone were not included.

### LENGTHS, IN STATUTE MILES, OF GENERAL COAST LINE AND TIDAL SHORE LINE OF UNITED STATES AND OUTLYING TERRITORY.

| Locality. | General Coast Line, Unit Measure 30 Minutes Latitude. | Tidal Shore Line, Unit Measure 3 Statute Miles. | | | Tidal Shore Line, Unit Measure 1 Statute Mile. | | |

## THE CONTINENTAL DIVIDE, AND TRIPLE DIVIDE PEAK.

The Rocky Mountain range is known as the Continental Divide.

Triple Divide Peak—the only mountain in the United States whose drainage flows into the Atlantic and Pacific Oceans and Hudson Bay—is located in Glacier County, Glacier National Park, Montana, in Township 33 North, Range 15 West. The United States Geographic Board has named the small creek flowing southwest from Triple Divide Peak, and tributary to Nyack Creek, Pacific Creek; the small creek flowing a little north of east and tributary to Cut Bank Creek, Atlantic Creek; and has changed the name of the creek flowing north from Norris Creek to Hudson Bay Creek.

The altitude of Triple Divide Peak is 8,001 feet.

## THE CAPITOL AT WASHINGTON.

The Capitol is situated in latitude 38° 53′ 20″.4 north and longitude 77° 00′ 35″.7 west from Greenwich. It fronts east, and stands on a plateau eighty-eight feet above the level of the Potomac. The entire length of the building from north to south is 751 feet 4 inches, and its greatest dimension from east to west 350 feet. The area covered by the building is 153,112 square feet. The dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds. The dome is crowned by a bronze Statue of Freedom, which is 19 feet 6 inches high and weighs 14,985 pounds. It was modelled by Crawford. The height of the dome above the base line of the east front is 287 feet 5 inches. The height from the top of the balustrade of the building is 217 feet 11 inches. The greatest diameter at the base is 135 feet 5 inches.

The rotunda is 97 feet 6 inches in diameter, and its height from the floor to the top of the canopy is 180 feet 3 inches. The Senate Chamber is 113 feet 3 inches in length by 80 feet 3 inches in width, and 36 feet in height. The galleries will accommodate 1,000 persons. The Representatives' Hall is 139 feet in length by 93 feet in width, and 36 feet in height. The cornerstone of the north wing of the original building was laid September 18, 1793, by President Washington with Masonic ceremonies. The foundation of the centre was laid March 24, 1818. The cornerstone of the extensions was laid July 4, 1851, by President Fillmore. The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

## NICKNAMES OF THE STATES.

| | |
|---|---|
| Ala. | "Cotton," "Lizard," "Yallerhammers." |
| Ariz. | "Baby," "Sunset," "Apache." |
| Ark. | "Bear," "Bowie." |
| Cal. | "Golden," "El Dorado." |
| Col. | "Centennial," "Silver." |
| Conn. | "Constitution," "Nutmeg." |
| Del. | "Diamond," "Blue Hen's Chickens." |
| Fla. | "Everglade," "Land of Flowers." |

| Vt. | "Green Mountain." |
| Va. | "Old Dominion," "Mother." |
| Wash. | "Evergreen," "Chinook." |
| W. Va. | "Panhandle," "Mountain." |
| Wis. | "Badger," "Copper." |
| Wyo. | "Equality" (Suffrage Pioneer). |

## ORIGIN OF THE NAMES OF THE STATES AND TERRITORIES.

ALABAMA—Alibama was the Indian name of a tribe in Southern Alabama—a Mushhogean tribe of the Creek Confederacy. Alibamu is from the Choctaw words alba aya mule, meaning "I open or clear the thicket."

ALASKA—From "Al-ay-es-ka," a native Eskimo or Innuit word, meaning Great Country.

ARIZONA—From Ariconac, "Few Springs." Papago name of a ranch in Sonora.

ARKANSAS—Algonkin name of the Quapaw Indians.

CALIFORNIA—Spanish "Calida formax," a hot furnace.

COLORADO—Spanish, meaning red.

COLUMBIA, DISTRICT OF—A poetical adoption of the name of Columbus; applied to the territory in 1791 by the Federal Commissioners who laid it out.

CONNECTICUT—Indian, "Quonecktacut," Long River or River of Pines.

DELAWARE—Named after Lord De La War, of England, Governor of Virginia, who entered the Bay in 1610.

FLORIDA—Spanish words, "Pascua Florida," Feast of Flowers (Palm Sunday), on which day it is said to have been named, in 1512, by Juan Ponce de Leon.

GEORGIA—Named after King George II of England.

HAWAII—English spelling of Owhyhee, where Capt. Cook was killed by the natives in 1779.

IDAHO—Indian words, "Edah hoe," Light on the Mountains.

ILLINOIS—Indian word, by some translated "The River of Men. A form of the word Iliniwek. "Ilini" meant "man," "iw" meant "is," and "ek," was a plural signification.

INDIANA—Named after Indians, State of Indians.

IOWA—The Ioways, or Aiaouez, or Alaouas were a Sioux tribe. The word means "sleepy ones." They called themselves "Pahoja," gray snow.

KANSAS—Name of a tribe of the Sioux.

KENTUCKY—From Wyandot (Iroquoian) name "Ken-tah-teh," meaning to-morrow, or Land of To-morrow.

LOUISIANA—Named by the Mississippi River navigator Robert de la Salle, in 1682, after King Louis XIV of France.

MAINE—From Maine, an ancient province of France, south of Normandy, owned by Queen Henrietta Maria of England, wife of King Charles I.

MARYLAND—Named in honor of the foregoing. Queen Henrietta Marie.

MASSACHUSETTS—An Algonkin Indian name from Massadchu-es-et, meaning "great-hill-small place," indicating a place at or about the big little hills.

MICHIGAN—The Mishigamaw or Mishawiguma were Indians. The word means "big lake" and was applied to Lake Michigan. "Michi" meant "great," and "gama" meant "water."

MINNESOTA—Sioux word for cloudy or smoky water.

MISSISSIPPI—Indian words "Sipu," Algonquin word for river; "Maesi," fish—Fish-River.

MISSOURI—The Missouri were Sioux of that name.

MONTANA—Spanish for mountainous; used now by Peruvians as a name for their Andean districts.

NEBRASKA—An Omaha Indian name for the "wide river," Platte.

NEVADA—A Spanish word, meaning "snow clad."

NEW HAMPSHIRE—Named, in 1629, after the County of Hampshire, England, by the patentee, Capt. John Mason of the Plymouth Council.

NEW JERSEY—In 1664 the Duke of York, of England, granted to Lord John Berkeley and Sir George Carteret a patent or deed to the present boundaries to be called Neva Caesaria, or New Jersey. Caesarea, or Caesaria, was the ancient name of the Island of Jersey of which Carteret had been administrator.

NEW MEXICO—Mexico is a word derived from the Aztec word "mexitli," title of their national war god.

NEW YORK—So called in honor of the Duke of York (1664), who got the patent from his brother, King Charles II of England, and sent an expedition and took possession of New Netherlands.

NORTH CAROLINA—The Carolinas were originally named, it is said, in honor of King Charles IX. of France by Jean Ribault, whose expedition (1562) was financed by Admiral Coligny. "Carolus" is the Latin word for Charles. In 1663, King Charles II. granted a patent to the land under the name of Carolina.

NORTH DAKOTA—"Dakota" means "alliance of friends," and is a Sioux Indian word. Koda in Santee dialect and Kola in Teton dialect are the root words.

OHIO—Iroquois name, denoting great.

OKLAHOMA—Choctaw word for "red people."

OREGON—The Oregon State Librarian, Cornelia Marvin, says various origins of the name have been suggested as follows: *Origanum*, a wild sage found on the coast; *Orejon*, or Oregones, a Spanish name for big-eared (Indian) men; Orgon, a river in Chinese Tartary; *Oyer-un-gen*, a Shoshone Indian word for "place of plenty;" *Aura agua*, Spanish word meaning gently falling waters; *Ouragan*, a French word for hurricanes; *Wau-re-gan*, an Algonkin word for "beautiful water."

PENNSYLVANIA—Penn-sylvania, from Penn; and Sylva, Latin word for grove or woods. Groves of Penn; so called in honor of William Penn, who, in 1681, got a deed for the State from King Charles II of England, in settlement of a debt which the British Government owed Penn's father. William called the country Sylvania, and the King prefixed it with "Penn."

PHILIPPINES—Spanish, "Islas Filipinas," discovered in 1521 by Magellan, whom the natives killed in a skirmish; named in honor of King Philip II of Spain by a colonizing expedition from Mexico.

PORTO RICO—From the Spanish "Puerto Rico," Rich Port.

RHODE ISLAND—"Isles of Rhodes" was the name, chosen by the General Court of the colony, in 1644. The name of one of the islands had been Aquedneck. The name of Providence Plantations then gradually lapsed.

SOUTH CAROLINA—(See North Carolina).

SOUTH DAKOTA—(See North Dakota).

TENNESSEE—Called, from 1784 to 1788, the State of Franklin. "Tennessee" is an Anglicized Indian word—Ten-asse, said to mean "a curved spoon."

TEXAS—According to Elizabeth H. West, State Librarian at Austin, "Texas is an Indian word meaning Friends or Allies. So far as I know, it has not an Aztec origin. It applied, originally, in the Indian usage to the Indian tribes about the early Spanish missions around Eastern Texas; and later to tribes ranging as far west as the Rio Grande, to designate a large number of tribes who were ordinarily allied against the Apaches."

UTAH—Named after the Utes, an Indian tribe.

VERMONT—From Verd and Mont, two French words meaning Green Mountains. The name is said to have been bestowed by Samuel de Champlain when he saw from the lake, later called after him, green hills to the East.

VIRGINIA—Named in honor of Elizabeth, daughter of Henry VIII, sometimes called by her courtiers the "Virgin Queen" of England. The name was bestowed by one of the courtiers, Sir Walter Raleigh, who fitted out the expedition of discovery in 1584.

WASHINGTON—Named after George Washington. When the bill creating the Territory of Columbia was introduced in the 32nd Congress, second session, the name was changed in the bill to Washington because of the existence of the District of Columbia.

WEST VIRGINIA—(See Virginia).

WISCONSIN—An Indian name which, according to Reuben Gold Thwaites, was originally spelled "Ouiscousin" by the French missionaries and in old French-American documents; also was spelled "Miscousing," "Ouisconching," "Ouiskensing." The Yankee settlers spelled it "Wiskonsan," then "Wiskonsin;" but Congress changed it to "Wisconsin."

WYOMING—(By the State Historian, Eunice G. Anderson)—What we would determine to be the most authentic publication upon the derivatives of the name of our State gives the following: "The word Wyoming was taken from Wyoming Valley, Pennsylvania, rendered famous from Campbell's beautiful poem, 'Gertrude of Wyoming.' The word means 'mountains and valleys alternating.' Or, as we construed it, 'Here God has bent down the backs of His mountains for man to make his habitations.'" This is given by Gen. Freeman.

## MOTTOES OF THE STATES OF THE UNION.

| State. | When Adopted. | Motto. |
|---|---|---|
| United States... | 20 June, 1782 | E Pluribus Unum (Many in One). |
| Alabama..... | 29 Dec., 1868 | Here We Rest. |
| Alaska..... | ..... | None. |
| Arizona..... | 1863 | Ditat Deus (God Enriches). |
| Arkansas..... | 3 May, 1864 | Regnant Populi (The People Rule). |
| California..... | ..... | Eureka (I Have Found It). |
| Colorado..... | 1861 | Nil Sine Numine (Nothing Without God). |
| Connecticut..... | Oct., 1842 | Qui Transtulit Sustinet (He Who Transplanted Still Sustains). |
| Delaware..... | ..... | Liberty and Independence. |
| D. of Columbia.. | ..... | Justitia Omnibus (Justice to All). |

From time to time Congress has been asked to adopt a national flower, but has taken no step to that end.

# The States of the Union.

## ALABAMA.

*Area, square miles.....51,998.....28th in rank*
*Population, 1920.....1,449,661.....28th in rank*

Alabama, one of the States of the Old South, is in the heart of the cotton belt, in the East South Central group, on the Gulf of Mexico, bounded on the north by Tennessee, on the east by Georgia, on the south by the Gulf and Florida, and on the west by Mississippi.

It is level and largely alluvial along the seashore and for a considerable distance inland, rising to hilly or low mountainous elevations in the northeast. Forests originally covered most of the area, but have been materially reduced by non-conservation methods of lumbering. The State is well watered, river navigation being available, notably the Tombigbee and Warrior Rivers together for 400 miles inland, and ocean carriage on the Gulf.

On the Tennessee River rapids at Muscle Shoals are the nitrate fixation plants built by the Federal Government in the World War, but not carried to point of production. Henry Ford of Detroit, automobile, tractor, railroad and steel works magnate, seeks possession of the plants for nitrate making and development of latent water power, the contract therefor being before the Federal Government.

Agriculture is the chief interest, although in the past thirty years the mineral industries have been wonderfully developed, Birmingham being known as "the Pittsburgh of the South." In 1920, 2,392,962 tons of pig iron were produced, the State ranking sixth. Alabama, as one of the 16 cotton States, raises normally about one-fifteenth of the country's cotton on about one-thirteenth of the cotton land areas of the Nation. Corn, white and sweet potatoes, oats, tobacco, sugar, hay and fruits abound.

The Census of 1920 showed the iron and steel industries, in value of products, $121,998,000, was second to agriculture, $304,348,638, and ahead of lumber and timber products, $55,139,000, yellow pine being 91.3 per cent. of the cut, with 1,642,588,000 board feet, the oak cut being 61,189,000. Gum, maple, ash, hickory, cypress and tupelo also supply lumber. Cotton mills are becoming important. Coal production is large.

Practically all of the State's foreign commerce passes through Mobile, that Gulf port having been in past years relatively unimportant, but having attained, rapidly, commercial prestige since the mineral industry development began.

Railroad mileage in 1921 was 5,378.

A feature of Alabama is the high proportion of Negro population. Two of each five persons are black. Alabama is intensely American, there being only about 20,000 foreign-born. In some portions of the State, known as "the black sections," however, the Negro population is about 80 per cent. of the total. The rate of illiteracy, by the 1920 census, was 16.1 per cent. of the total population. Of the 1,038,692 native whites, 65,394 were illiterate, or 6.3 per cent.; and of the 674,004 Negroes, 210,690 were illiterate, or 31.3 per cent. Excellent progress, however, is making toward a higher standard, the percentage of illiterates having been reduced from 22.9 in 1910.

A famous agency for this improvement is the Tuskegee Normal and Industrial Institution, founded in 1880 by the late Dr. Booker T. Washington, a Negro acknowledged as leader of his race. The enrolment was 1,736. The enrolment at the University of Alabama, a State endowed and controlled institution, at which only whites matriculate, was 1,860, with 1,315 students in other higher educational institutions.

## ARIZONA.

*Area, square miles.....113,956.....5th in rank*
*Population, 1920.....334,162.....46th in rank*

Whereas Alabama has 45 persons and Massachusetts 479 to the square mile, Arizona, a mountain State, has only 3—and of the 334,162 of population, there are 60,325 Mexicans, which fact, together with the warm climate and the ease of life there, made Arizona one of the picturesque States in the frontier days. Although then precisely characteristic of "the West," it is now modernized, with every agency of civilization.

It is situate in southwestern United States, west from New Mexico, east from California, and south from Utah and Colorado, and is on the boundary between the United States and Mexico.

Arizona prides itself on being a man-made State. Vast reaches of arid and semi-arid lands, useless before irrigating water was turned on, have been made highly productive. Agriculture has greatly increased, and new irrigation projects promise further enrichment. The topography is broken, being mountainous in portions of every section; the northern plateau is 4,000 to 7,000 feet in altitude, and the southern from 500 to 2,500. On the broad plains and mountain sides livestock graze, and through the valleys the irrigating waters are led. Long staple cotton has been developed as a principal crop, other products being wheat, corn, barley, oats, hay, potatoes and immense quantities of sub-tropical fruits. Dates thrive. Ostrich farming is a feature.

Mining is extremely important. Copper mines in the State are among the greatest in the world, the most famous being the United Verde, owned by former United States Senator W. A. Clark, now a resident of New York. In 1919 the value was $84,217,141, Michigan being second. Gold, silver, lead and zinc are also produced. Manufacturing is unimportant, excepting for the large smelting interests.

Railroad mileage in 1921 was 2,478.

Apart from the generally picturesque character of the State, tourists are attracted by the Roosevelt Dam, supplying irrigating waters for the Salt River Valley, one of the two greatest dams in the world, and the Grand Canyon of the Colorado River, one of the scenic wonders of the world, 200 miles long, and averaging 12 miles wide and one mile deep.

Livestock raising lends both economic value and the element of the picturesque to life in Arizona, the industry having caused the development of many very large ranches, some of which comprise hundreds of thousands of acres, with the "cowboy" an essential factor.

On the lower areas the surface of the earth is low, since they were the bed of a primal sea, in which are immense deposits of the several kinds of salts, such as potash, nitrates and others, from which in time it is expected that there will be extractions of great mineral value.

Illiteracy among the native whites is low—2.1 per cent., while among the foreign-born, mostly Mexicans, it is 27.5.

Tucson is the seat of the University of Arizona, and Flagstaff has the Lowell Observatory. Phoenix, the capital and largest city, is the centre of the richest agricultural district, the Salt River Valley.

Arizona has a large population of Indians, 42,400 (1920), mostly Apaches, Navajos, Hopis, on reservations, a number exceeded only in Oklahoma. They occupy 18,653,014 acres, valued at $61,843,402, and with an income of $5,482,039.

## ARKANSAS.

*Area, square miles.....53,335.....26th in rank*
*Population, 1920.....1,752,204.....25th in rank*

Arkansas (pronounced Ar-kan-saw) is of the Old South, situate inland, in the West South Central group, Missouri bounding it on the north, Tennessee and Mississippi on the east, Louisiana on the south, and Oklahoma on the west, and is on the Mississippi River, down which much of its traffic flows. Its topography is mostly level, but in the west rise the mountainous elevations of the Ozarks.

Agriculture is the chief source of wealth. The 1920 census gave $340,813,256 as the value of all crops; lumber and timber products are next with $84,000,000, and there is considerable coal, lead and manganese mining. There are important phosphate deposits, later to become very valuable for land fertilization.

Arkansas produced one-thirteenth of the Nation's cotton on one-thirteenth of the cotton lands, being thus an average for per acre productivity. Its cotton mills are of growing importance.

Wheat, corn, oats, potatoes, white and sweet, hay, tobacco and fruits are produced. Roses are grown extensively for the making of perfumes.

The State is richly endowed with forest wealth, every sort of tree which grows in the temperate zone abounding, with much of the rapidly-disappearing hardwood which forms an important article of Arkansan commerce.

Railroad mileage in 1921 was 5,052.

The Negro represents one-third of the population, with the inevitable consequent illiteracy of 21.8 per cent. among them, that of the native-born whites being 4.5, and the average for the whole population, 9.4. As in all Southern States, keen effort is exerted to improve this matter, average illiteracy having fallen from 12.6 per cent. in 1910.

Likewise, as in most of the Southern States, the

Baptist Church comes first with communicants, the Methodist being second, and Roman Catholic and Presbyterian following in that order.

The Southern custom is followed by providing separate schools for black and white, about 500,000 pupils attending. Besides the State University at Fayetteville, with 650 students, there are several church colleges with about 750 students each.

The Hot Springs, a national reservation in the western part of the State, are world famed and support thousands who attend the wants of tourists.

## CALIFORNIA.

*Area, square miles.....158,297.....3d in rank*
*Population, 1920.....3,426,861.....8th in rank*

California, in the Pacific group, occupies about one-half of the Pacific coastline of the United States; is bounded on the north by Oregon, on the east by Nevada and Arizona, and on the south by Mexico. It is 1,000 miles long. Its topography is most varied and its climate as well. Every phase of surface character is presented, and the geological peculiarity of the North and South American Continents is here seen—the aged mountain ridge that runs from the Arctic Circle southward through the States into Mexico parallel to and near the seashore. There is much plains land, too, and every kind of soil that marks the temperate and sub-tropical zones, with practically all climates which are found in such regions. The State has no navigable rivers, except the lower Sacramento, but abundant waters in smaller streams enable immense irrigation of lands otherwise virtually useless. California is the leading State in irrigation, its enormous fruit, garden and much of the grain output being attributable largely thereto.

Californians especially pride themselves in the climate, which has such fame as to attract visitors from all corners of the earth, particularly in the winter. For their accommodation, numerous luxurious hotels are maintained. Touring is so general also that there are thousands of miles of excellent roads, and ownership of automobiles is so great as to give California second place in per capita relationship to the total number of motor cars.

Railroad mileage in 1921 was 8,356.

Agriculture is enormously developed. There are about 100,000,000 acres in the State, and the farms, which include orchards and vineyards, take up 29,365,667 acres, according to the 1920 census, of which 11,878,339 are improved, some highly so, the value of all being $3,431,021,861.

Literally every product of the temperate and sub-tropical zones is grown there—all cereals, forage crops, vegetables, fruits and nuts. Crops in 1920 were valued at $589,757,377, dairy products, $276,424,216, livestock, $204,378,445, with other large agricultural production.

Mining interests are extensive, in gold, silver, copper, lead and quicksilver.

The stores of petroleum are very large; California produces about the same amount as Texas, and is exceeded only by Oklahoma in output. The product in 1920 was 103,377,361 barrels. A peculiar sight is the oil derricks rising amid the comfortable homes of Los Angeles, and those set in the sea waters below Santa Barbara. The State produces all the borax mined in the United States, 120,320 tons being produced in 1920.

Enormous shipping is carried on, San Francisco being the chief port, the others being Los Angeles and San Diego.

The forests, in common with all States of the Pacific group, are very extensive, comprising every variety of tree which grows north of the purely tropical zone. Coniferous trees are most numerous. The giant redwood groves are the destination of many tourists. California no longer is an exporter of ordinary lumber, being compelled to buy from Oregon and Washington.

It is a State of romance in history. Acquired from Mexican political control in 1846, gold was discovered in 1848, and in 1849, the most remarkable "gold rush" ever known began, it being said that the gold produced thereafter enabled the United States to withstand so well the economic strain of the Civil War which began in 1861. The gold output in 1921 was $15,961,300; silver, $3,696,708.

Illiteracy is low—3.3 per cent. in 1920; it was 3.7 in 1910. Of the 2,075,467 native whites, only 8,747, or 4-10ths of 1 per cent., were illiterate, illiteracy among the foreign-born being 10.5. They are Orientals and Europeans, with some Mexicans.

The Japanese population in 1920 was 71,952, an increase of 30,596 in ten years; and of Chinese, 28,812, a decrease of 7,436

The State has three universities—Leland Stanford Jr., the University of California, which matriculates about 12,000; and the University of Southern California. There are many colleges.

One of the points of interest is the motion picture colony at Hollywood, a suburb of Los Angeles. The atmosphere is so clear that motion pictures may be taken on about 350 days of the year, while the topography and flora afford most varied "locations." Yosemite Park (national) is a scenic wonder. The retention of the Spanish influence in architecture, the climate and the profusion of vegetation where water flows on the lands, attract many tourists.

The United States Department of Agriculture lately has developed cotton growing, which has produced a fibre of the quality of the finest sea island, which, in turn, has given rise to the cotton mill industry. Other manufacturing is extensive, the investment being about $750,000,000, and the output about the same.

The Roman Catholic Church leads all religious bodies, the bequeathal to later generations of the work done by the Catholic missionaries who established a string of 26 missions a day's march apart from the Mexican line to upper San Francisco Bay.

## COLORADO.

*Area, square miles.....103,948.....7th in rank*
*Population, 1920.....939,629.....33d in rank*

Colorado, one of the mountain States, is bounded on the north by Wyoming and Nebraska, on the east by Nebraska and Kansas, on the south by New Mexico, and on the west by Utah.

Its topography is varied, being plains lands in the east and south, but rising to the elevations of the Rocky Mountain range in the west, some peaks towering to an altitude of 14,000 feet. The Union Pacific crosses Marshall Pass at above 10,846 feet, and the Denver & Rio Grande climbs the Tennessee Pass, near Leadville, at 10,219.

Soils vary from arid, when non-watered, to productive. Irrigation is extensive, and has lifted agriculture to first place in the State, ahead of mining and livestock, which come next. The 1920 census showed all crops valued at $181,065,239, even mineral production, $51,217,038, being behind, although the State abounds in mineral wealth, and development is rapid, with petroleum abundant and production great. Minerals produced are gold (second in output in the country), in 1921, $7,347,800; silver, $6,310,694; coal, $28,342,195; copper, zinc, lead, manganese, gypsum; and the State is first in radium output and second in tungsten.

The western ranges abound in forage grasses, on which large numbers of food animals and horses live and produce vast annual wealth.

The climate is warm in summer and cold in winter, but dry and stimulating. It is said that the sky is absolutely cloudless in Denver (the capital and chief city, 5,183 feet above the sea) on 300 days of the year. These qualities have attracted many persons desiring relief from tuberculosis.

Railway facilities are plentiful, and freight tonnage and tourist travel are heavy. The rapidly improving highways are covered by many trans-continental automobile parties, which, en route, seek the local attractions of mountain and valley, chief among which are the mineral springs at Colorado Springs, and everywhere there is unusual conformation and coloration. The State has developed a wonderful highway through the reserved State Park, which is scenic and diverse in interest. The Royal Gorge of the Arkansas, through which the Denver & Rio Grande runs, is justly famed.

Railroad mileage in 1921 was 5,519.

Illiteracy is low at 3.2 per cent. of the whole population in 1920; native white, 1.4 per cent., and foreign-born, 12.4. For a State of 939,629 population, there is unusually large provision for education, with 192,000 public school enrolment in 1919, and the State University at Boulder, University of Denver, State Agricultural College at Fort Collins, State Teachers' College at Greeley, the State Normal School at Gunnison, and the State School of Mines at Golden, which has advanced far in mineralogic science.

## CONNECTICUT.

*Area, square miles.....4,965.....46th in rank*
*Population, 1920.....1,380,631.....29th in rank*

Connecticut, one of the original Thirteen States of the Union, is situate in New England; bounded on the south by Long Island Sound, on the east by Rhode Island, on the north by Massachusetts, and on the west by New York. It was settled early in the seventeenth century by the Dutch from New York, then known as New Amsterdam, and by Puritans from Massachusetts at Hartford, in 1635.

In 1639 it adopted a written constitution, confirmed by a charter from King Charles II. in 1662, and replaced in 1818 by a State constitution.

The State is now intensely industrial, although earlier it was agricultural. The 1920 census indicated that 62.7 per cent. of the people live in towns of 10,000 or more population, and that, including smaller towns, 85 per cent. live urban lives, practically every town having industries. Connecticut presents an unusual contrast in the presence, especially in the western part, of hundreds of beautiful country homes of New York and other city folk, alongside of towns and villages in which industry flourishes.

Proportioned to population, no State has greater industrial strength or a wider range of manufactured products.

Connecticut's surface is broken, there being ridge after ridge, with verdant valleys between. Toward the shores of the Sound, the land is generally flat, but it rises to about 2,000 feet of altitude in the northwestern parts, where the Berkshire Hills begin and extend northward into Massachusetts and Vermont. Originally, the entire State was heavily wooded with all trees known to the temperate zone, hardwood and coniferous varieties abounding. Lumbering has reduced the timber supply materially. The water supply is large for industrial uses. The Connecticut River and the Housatonic are the principal streams, their valleys immensely productive. Tobacco is a very great source of wealth, 45,074,000 pounds being grown on 31,000 acres in 1921.

Besides its pre-eminence in manufacturing industry, Connecticut has in the capital, Hartford, also the insurance centre of the United States, with numerous powerful assurance companies covering every modern phase—life, fire, burglar, etc.

Its industrial output in 1920 was valued at $1,392,432,000, or almost exactly $1,000 per capita, in which there was a net of $706,494,000 added to materials used by the process of manufacture, in which 292,672 persons were employed, or considerably more than 20 per cent. of the total population. It was the large growth of industrial interest that brought in many foreigners as factory and other laborers, so that, although originally intensely New England in social composition, its population now is largely mixed.

The range of industrial output covers brass, bronze, copper products, very many kinds of machinery, silk goods, hardware, cutlery, electrical apparatus, rubber goods, woolens, ammunition, tires, hats, boots and shoes, steam fittings of all kinds, typewriters, firearms, needles, pins, paper, clocks, ordnance, knit goods, dyeing, lumber, clothing, engines and scores of other products.

Agriculturally, Connecticut has fallen off from her one-time superiority, the competition of the virgin soils of the Middle West and the Far West causing the abandonment of many farms a generation ago, these farms having been taken over in recent years for country homes. Against the large industrial output values, the 1920 census gave the value of all crops at $44,472,644.

In early days, shipping was important, but is to-day relatively negligible, excepting for coastwise water-borne traffic. The prevalence of good roads has enabled the development of many motor truck lines, which haul immense quantities of goods and materials to market without utilizing the railway for any part of the haul, while the same good roads have multiplied automobile tourist travel until the State accommodates very heavy vehicular traffic.

Railroad mileage, 1921, was 1,001.

Before the influx of foreigners, illiteracy was almost nil. It is now 6.2 per cent. for the State; 4-10ths of 1 per cent. for the native whites, and 12.8 for the foreign-born. The whole of New England was shown by the 1920 census to be 4.9 per cent. illiterate, and the United States 6 per cent.

Yale University, at New Haven, founded in 1701, has grown to be a world-famed institution, with 4,000 students. Trinity College in Hartford is the other principal higher institution, and there are normal schools for the training of teachers at New Britain, Danbury, New Haven and Willimantic. About 270,000 are enrolled in the public schools, or about 27 for each 108 of population.

## DELAWARE.

*Area, square miles.....2,390.....47th in rank*
*Population, 1920.....223,003.....47th in rank*

Delaware, one of the thirteen original States, next to Rhode Island the smallest, lies in the South Atlantic group, bounded on the north by Pennsylvania, on the east by New Jersey, Delaware Bay, and the Atlantic Ocean, on the south by Maryland, and on the west by Maryland and Pennsylvania. It is 110 miles long with an extreme breadth of 35 miles. The land is low lying, one-twentieth being marshy.

It is essentially agricultural, 85 per cent., 944,511 acres, of the 1,500,000 total State acreage, being in farms, and 653,052 improved, with corn and wheat the chief products, and also much fruit and tomatoes, Delaware being the second State in tomato packing, and famous for its peach crop. Its flat, alluvial soils, practically unbroken, yielded, Census of 1920, $23,058,906, or almost exactly $10 per capita for the 223,000 of population. Oysters and fish are taken extensively.

Relative to the size and population, Delaware has large manufacturing interests. Wilmington, at the northern tip of the State near Philadelphia, with 110,108 persons, about one-half the population, has most of the industries. Leather and knitting lead. The large parent plant of the duPont powder works is in the valley of the Brandywine.

Wilmington is the chief port, ship traffic passing up the Delaware River. A Government canal connects Delaware and Chesapeake Bays. A concrete motor highway completing a trunk line through the State was built at a cost of nearly $4,000,000 by Gen. T. Coleman duPont (U. S. Senator) as a gift to the State.

Railway mileage, 1921, was 335.

About 38,000 attend the public and other schools, and the percentage of illiteracy for the State was, in the 1920 census, 5.9, native white, 1.8, and 19.1 for the Negro, who totals 15 per cent. of the whole population. Educational progress is being made as proved by the 1910 illiteracy percentage, 8.1, reduced materially by 1920. Ability to read and write are requisites for voting.

Delaware is the only State to retain the whipping post as a punishment for criminals.

## DISTRICT OF COLUMBIA.

*Area, square miles.....70.....49th in rank*
*Population, 1920.....437,571.....42d in rank*

The District of Columbia is the seat of the Federal Government of the United States. Its area was originally 100 square miles taken from the sovereignty of Maryland and Virginia, Virginia's portion south from the Potomac being later ceded back to that State. It lies therefore on the west central edge of Maryland on the Potomac River, opposite Virginia. It is in the South Atlantic group. The District is co-terminus with the City of Washington.

Almost the entire activity is governmental, there being regularly employed therein from 100,000 to 120,000 persons. Industrial interest is mostly output for local consumption, although there has been effort by some to develop Washington, the Capital City, as an economic centre. Navigation is carried on via the Potomac River, which is a branch of Chesapeake Bay. The river was naturally capable of accommodating large vessels, and has been improved in depth and otherwise, so that heavy war or commercial craft may pass. Washington is the chief railway stopping point en route between North and South. The Union Station in Washington is said to be not only one of the most efficient in the world for passenger transportation handling but also one of the finest architecturally ever built. Railroad mileage, 1921, was 36.

The distinctive feature of the city municipally is the fact that the Government is by the Congress directly as to legislation, and by Executive Commissioners named by the President of the United States, confirmed by the Senate. Each House of the Congress has a Committee on District of Columbia, and taxation current and for improvements is, by and large, borne half by the Congress, half by the people locally.

Physically, the distinctive feature is the excellent town planning done there by Major Pierre l'Enfant, French engineer, at the instance of George Washington. By a peculiar accident, Washington obtained a most excellent physical arrangement, economic and social. Major l'Enfant, drawing on French history, laid out the city with wide diagonal avenues, traversing streets planned on the "gridiron" method. Major l'Enfant's idea was that, in the event of street riots, artillery could rake the city, and piling of barricades would be difficult if the diagonals were made very wide.

The result was a beautiful city with ideally economic traffic outlets in all directions, wide where needed, narrower where wide highways are not necessary. The streets are wonderfully shaded with a luxuriant growth of trees, which have been brought to high perfection by the United States Department of Agriculture, and brought, as well, from almost every country in the world.

There is generous provision for park space. There is the Mall, running from Capitol Hill toward and

around Washington Monument in large park spaces back of the White House and Executive Departments, being designed (under the newer improved plan, for which Charles Moore of Detroit was chiefly responsible), for the accommodation of a group of governmental structures on a scale apparently never before contemplated by any other Government in the world. There are many smaller parks scattered through the city, and little street crossing resting places. Rock Creek Park is one of the finest in the country for natural beauties.

Many wealthy Americans in late years have erected palatial dwellings in Washington, and there are many fine country estates nearby, with desirable suburban centres on all sides. The Census of 1920 returned 204 farms in the district.

Educationally, the District of Columbia is far advanced. The higher institutions are Georgetown University (Catholic), George Washington University, the Catholic University of America, the National Methodist University, Howard University for Negroes, and two normal schools for the training of teachers.

Illiteracy in the District is low at 2.8 for all, native white, 3-10ths of one per cent, Negro, 8.6, Negro population being almost exactly 25 per cent. of the total. About 6 per cent. are foreign-born.

## GEORGIA.

*Area, square miles* .....*59,265*.....*20th in rank*
*Population, 1920*.....*2,895,832*.....*12th in rank*

Georgia, of the South Atlantic group, which was one of the Thirteen Original States, is bounded on the north by Tennessee, North Carolina and South Carolina, on the east by South Carolina and the Atlantic, on the south by Florida, and on the west by Alabama.

Agriculture is very important. Of the total of about 40,000,000 acres, 25,000,000 are in farms, or 62.5 per cent.; and more than 13,000,000 actually improved, or about 32 per cent.

All crops, Census of 1920, were valued at $540,-613,626, of which $69,720,000 was for cotton in 1,681,907 bales from 4,720,498 acres, Georgia being the second cotton State, only Texas exceeding it. Crops are various—cotton, corn, oats, wheat, sugar cane; corn the most important cereal, with 69,975,-000 bushels produced in 1919.

Ten States exceed Georgia's 25,000 acres devoted to tobacco. Georgia comprehends all things grown in the temperate and sub-tropical zones, is improving its methods with enthusiasm, and livestock values are very high.

Manufacturing has, however, passed agriculture in relative importance, the value of the industrial output, Census of 1920, being $693,237,000. Cotton goods, from the lately developing mills, led with $192,186,000, and oil and cake from cottonseed followed with $99,320,000; so that, cotton and its several forms is Georgia's chief single interest. The cotton mills operate more than 2,000,000 spindles. The percentage of child labor, 1920, was 17.2 in Atlanta.

From the extensive forested area $25,836,000 of lumber and timber products were shipped, land fertilizers were valued at $47,480,000, and other industrial concerns include car works, shipbuilding, machinery, knit goods, flouring mills, food preparations and others.

The State has important mineral resources, coal, iron, manganese, gold and silver, not yet highly developed, and fisheries of oysters and other shellfish are considerable.

Transportation is highly developed, with abundant rail lines and large ocean shipping in and out from Savannah, chief port. A third of a billion of dollars of exports went therefrom in 1920, vessels up to 32 feet draft being accommodated at high tide across the bar, and 26 feet at all times.

Railroad mileage, 1921, was 7,326.

Negro population is 42 per cent. of the total, bringing up the percentage of illiteracy for the whole State to 16.3, that of native white being 5.4 and of Negroes 29.1. Illiteracy percentage in 1910 was 20.7. Of 2,895,832 population, there were, Census of 1920, 570,000 attending school.

Atlanta, chief city and capital, is accounted one of the progressive cities of the South, and nationally holds high place in banking strength.

Water power abounds, and manufacturing advance has been due largely to it.

The lumber cut, mostly pine, exceeds 500,000,000 feet, although production, as in most of the Southern States, is due soon to diminish to negligible quantities for exportation, owing to the enormous areas of the originally large forested lands having been cut over.

Okefonokee Swamp, in the southeastern corner, 400,000 acres, is like the Everglades of South Florida, potentially rich for agriculture when drained.

## FLORIDA.

*Area, square miles* .....*58 666*.....*21st in rank*
*Population, 1920*.....*968,470*.....*32d in rank*

Florida, a South Atlantic State, reputed to have been discovered by the Spaniard, Ponce de Leon in his search for the "fountain of perpetual youth," is the southeasternmost point of the United States, bounded on the north by Georgia and Alabama, on the east by the Atlantic Ocean, on the south by the Straits of Florida, and on the west by the Gulf of Mexico.

It is one of the three or four most important fruit States, its cultivated lands producing in all $80,-256,806 in 1919. Florida is lowest of all Southern States in cotton production. The sub-tropical products prevail in fruits and other land output.

A present and future source of great wealth are the natural deposits of phosphatic rock, whence normally, pre-war, more than 1,000,000 tons were exported for foreign use as land fertilizer, and much was used domestically. It produced $6,678,888 worth in 1919. It is the world's largest phosphate measure.

Florida being of coral formation, there are no high elevations, and in the southern part are vast swamps, the Everglades, which are being drained, providing large potential agricultural wealth.

Less than one per cent of the area is forested, but from it comes about one-half the national supply of turpentine and resin, known commercially as "naval stores."

The State is penetrated by several rivers, chief of which is the St. John, up which steamers ply for 150 miles. At the mouth lies St. Johns, said to be the oldest white settlement on the continent.

Railroad mileage, 1921, was 5,212.

Florida is the resort of very large numbers of winter tourists, there being a dozen places of that character scattered along both coasts and inland. Coastwise, the vegetation is sub-tropical and in the interior is a coniferous tree-clad, sandy region where citrus fruits have been developed highly.

The celebrated resort is Palm Beach on the east coast, to which go some of the most ardent devotees of fashion.

Three of each eight persons are Negro. The illiteracy reported in the 1920 census was 9.6 per cent., against 13.8 in 1910, indicating remarkable progress in popular education. Native white illiteracy was 2.9, and of Negroes 21.5. Public school enrolment was 196,405, and there are the John B. Stetson University of De Land, the University of Florida at Gainesville, Rollin's College at Winter Park, and the State College for Women at the capital, Tallahassee.

## IDAHO.

*Area, square miles*.....*83,888*.....*12th in rank*
*Population, 1920*.....*431,866*.....*43d in rank*

Idaho, of the mountain group, is situate astride the Rockies in the Pacific Coast region, bounded on the north by British Columbia and Montana, on the east by Montana and Wyoming, on the south by Utah and Nevada, and on the west by Oregon and Washington.

Its topography, mountainous with broad level plateaus It classes as of the irrigation States agriculturally, the lands when watered being exceedingly productive, fruit raising having been highly developed. Most of the plains lands which have not been reclaimed by irrigation remain unproductive, with considerable livestock interest thereon. The Rocky Mountains traverse the State, highest elevation being Mount Hyndman, 12,078 feet. The Snake River is the chief stream, is the western boundary of the southern two-thirds of the State, and is navigable for a considerable distance above Lewiston where it makes off into the State of Washington on its way 400 miles to the Pacific Ocean. The climate is dry and stimulating, warm in summer and cold in winter.

Idaho is undeveloped, having large mineral resources, and much land yet to be covered with irrigation waters. The Federal Reclamation Service has already built several important irrigation projects, and many private projects have been carried through.

Present mineral production is very great, especially in the northern or "Panhandle" section, where the lead output is second only to that of Missouri. Zinc production is sixth (value of both lead and zinc, 1921, $9,529,723) among the States, gold

eleventh (1921, $542,200); silver fifth (1921, $7,200,319); lead (1920, $22,292,000); and copper (1920, $491,000). But all the principal metals are present, and tungsten is a source of interest.

The value of the agricultural yields. Census of 1920, was $126,495,111, there being thirty States that exceeded it. Of the total of 60,000,000 acres, there were 42,106 farms, Census of 1920, comprising 8,375,873 acres, of which 3,266,386 were irrigated. Varied crops were raised, wheat, 27,079,000 bushels; oats, 7,740,000; barley, 2,784,000; potatoes, hay, all sorts of vegetables.

The livestock industry is very great, the wool clip alone in 1920 being 21,702,000 pounds; sheep, cattle and horses abounding, cattle numbering 642,000.

Normally, almost a billion feet of lumber are cut. The forest wealth is large, white and yellow pine, larch, white fir and cedar supply activity to many mills. It is claimed that the sawmill at Potlach, Idaho, cutting 750,000 feet daily, is the largest in the world. Idaho pine is famous for ship and yacht masts.

Railroad mileage, 1921, was 2,877.

Only Iowa, with 1.1 percentage of illiteracy shows a better record than Idaho and Oregon with 1.5 each; native white, figures of 1920 census, 3-10 of 1 per cent., foreign-born, 6.5. Educational institutions show an unusually large proportion in school—105,000 of the total State population of 431,866; or one for each four persons. Higher institutions are the University of Idaho at Moscow, the College of Idaho at Caldwell, and State normal schools at Lewiston and Albion.

A summer feature is the running of the dangerous but picturesque Snake River in flatboats, together with the unexcelled fishing in the mountain streams, where speckled trout are taken.

## ILLINOIS.

*Area, square miles.....56,665.....23d in rank*
*Population, 1920.....6,485,280.....3d in rank*

Illinois, the third most populous State of the Union, lies in the East North Central group, its northeastern corner touching Lake Michigan, the Mississippi River flowing along its western boundary line, the Ohio River along its southern end, and is bounded on the north by Wisconsin, on the east by Indiana, on the south by Kentucky and Missouri, and on the west by Missouri and Iowa. It is intensely industrial, agricultural, mining, and water and rail transportation in interest.

Illinois is almost uniformly level, being situate in a glacial moraine, and is alluvial in all parts, with a climate such as prevails in the whole of the Middle West. It is so level that a railway possesses one precisely straight line 100 miles long in which scarcely a dirt cut was necessary—a vast prairie, once largely wooded, now with but 10 per cent. of forest cover. With the exception of Iowa, no other State has so large a proportion of lands susceptible of cultivation.

It is provided with remarkable mileage of riverways, the Mississippi, the Ohio, and the Wabash, which skirts the southeastern corner. The Illinois River is the principal intrastate river. The artificial waterway is the important Chicago Drainage Canal, 40 miles from Chicago on Lake Michigan to Joliet on the Illinois River, a unique engineering device which supplies drainage out from the flat lake-coastal district around the city and the Chicago River, and really reverses the natural tendency to drain into Lake Michigan. Eventually, the canal will be extended by improving the Illinois River to the Mississippi, giving Chicago navigation from "the Lakes to the Gulf" of Mexico.

Traffic on the Great Lakes to and from Chicago (population, 1920, 2,701,705), which is the second most populous city in the country, is attaining immense proportions, in general cargo as well as in ore brought from the Minnesota, Wisconsin and Michigan mines to the great works of the United States Steel Corporation in Gary, Indiana, a suburb of Chicago.

Although second to Texas, which has 16,041 miles, Illinois, in 1921, with 12,188 miles of railway has the heaviest railway transport tonnage in the United States, Chicago being the greatest railway centre in the world.

The industrial interest of Illinois far exceeds its agricultural. The 1920 census gave the State $864,737,833 value of all crops, and $3,250,000,000 value of manufactured products. Were the products of the Gary works included, as economically they should be, the value would be vastly more; while for the same reason, the immense Standard Oil and other steel working industries of the East Chicago-Indiana, district, should be added. The range of industrial output is great—iron and steel, the greatest meat packing works—the Union Stockyards—in the world, machinery, electrical equipment, implements, furniture, motor cars and railway cars, woodenware, flour, woolen goods, and scores of other things. Between $2,500,000,000 and $3,000,000,000 is invested in manufacturing, the products going to all parts of the world.

Everything appertaining to the temperate zone is produced on Illinois lands—all cereals, vegetables, fruits and livestock. The 1920 census gave Illinois's corn production as 301,000,000 bushels, nearly 10 per cent. of the national crop; wheat, 65,675,000; oats, 123,960,000; and immense output of other crops. The Chicago Board of Trade is the principal grain dealing exchange in the country.

Bituminous coal underlies more than half the area of the State, Illinois ranking third in mineral output. The 1920 census assigns coal output values of $240,000,000, with oil and natural gas in generous measure. The other base minerals are found in that belt.

The 1920 census showed 1,116,099 pupils and students in all educational institutions reporting, about one in each six persons. Besides a very extensive public school system, there are 29 colleges and universities, and five State normal schools for training of teachers. The most prominent universities are the University of Illinois at Urbana, 9,403 students; the University of Chicago (endowed for more than $30,000,000 by John D. Rockefeller), 9,032; Northwestern University at Evanston, 4,759; Loyola University at Chicago, 1,621; James Milliken University at Decatur, 1,538.

Illinois shows 3.4 per cent. of illiteracy, Census of 1920, native white, 8-10 of 1 per cent., foreign-born, 11 per cent., and Negro (of whom there has been a remarkable influx induced by the late war demand for labor), 6.7 per cent. Of the 6,485,280 of population, Census of 1920, native-born whites were 5,092,382; foreign-born, 1,206,951; per cent. of native, 78.5; foreign, 18.6; Negro, 2.8. Chicago is the chief Polish centre of the country, with a large percentage of Jews and all classes of immigrants.

Tourists find a wealth of art centres in Chicago, such as the Field Museum and the Chicago Museum of Art, with many art schools. Chicago is a great national convention resort; the Auditorium, seating about 8,000, is usually the place of entertainment.

Chicago's park and boulevard system, as planned, is perhaps the most ambitious ever conceived by any city in the world, with three large parks already developed, connected by a wide boulevard along the lake front cutting through the heart of the city, the whole laid out by some of the greatest city planning and landscape architects in the world.

## INDIANA.

*Area, square miles.....36,354.....37th in rank*
*Population, 1920.....2,930,390.....11th in rank*

Indiana, in the East North Central region, touches Lake Michigan at the northwestern corner of the State and is bounded on the north by Michigan, on the east by Ohio and Kentucky, on the south by Kentucky, and on the west by Illinois. The Ohio River, important in navigation, skirts the entire southern side, and the Wabash River, also susceptible of greater navigation development, about half of the western boundary line. There are 550 miles of riverways navigable.

In general, Indiana occupies a fairly level tableland and was once a glacial moraine. The climate is characteristic of the Middle West, warm in summer and rather cold in winter.

Industry, with $1,901,846,000 output, Census of 1920, exceeds agriculture with $497,229,719 value of all crops, and mining, $59,926,558.

Transportation is heavy, with 7,586 miles of railways. Immense tonnage moves riverwise on the Ohio and Wabash, and also enormous tonnage enters and leaves the Lake Michigan ports of Whiting, Standard Oil town; Indiana Harbor, and Gary (United States Steel Corporation city), in iron ore, steel products, cereals and coal. Electric interurban traffic is the heaviest in the country.

Manufacturing comprehends practically all standard products—steel, machinery, very many motor cars, tinplate, cement, vehicles, flour, glass, oil refining, meat packing, there having been in the past 20 years, as in all Middle Western States, a vast industrial invasion to get nearer ultimate markets and obtain labor. Many Indianans (Hoosiers) divide their time between farm and factory.

The 1920 census showed the value of all crops to be $497,229,719, with corn leading—169,848,000 bushels—about 5 per cent. of the national crop; oats, 45,072,000; wheat, 24,144,000; and all other

temperate zone products, including fruits and livestock, generously represented.

Evansville, on the Ohio River, is the largest hardwood market in the country, selling not only the heavy State cut from hardwood forests of vast value, which formerly covered much of the State, but also handling immense output from Southern forests.

Indiana ranks sixth in coal production, bituminous and cannel—a very fine fuel for fireplaces—with $56,926,558, Census of 1920. There are oil wells also, the State ranking twelfth in production. Many other basic minerals are found.

Railroad mileage 1921, was 7,426.

The increase of industrial interest in the past two decades is the feature of Indiana's later history. In that space of time, the towns along the shore of Lake Michigan have been developed into vast beehives of industry, and Gary especially has become one of the chief steel points, increasing rapidly in population and being known also for its school system which has been copied largely in the East.

Coincidentally, Indiana has developed a remarkable school of fiction and drama writers, among them Booth Tarkington, George Ade, and Meredith Nicholson. In the southern part many mineral springs are found, principally at French Lick, where famous hotels entertain tourists from all parts of the world, and where mineral waters are bottled for domestic and foreign consumption.

Indiana has four educational institutions of fame—De Pauw University at Greencastle, with 1,025 students; Indiana University at Bloomington, 2,659; University of Notre Dame, Catholic, at South Bend, 1,123; Purdue University at Lafayette, 3,113. The public schools enroll 575,000 pupils. illiteracy is low at 2.2 per cent., Census of 1920; native white, 1.3; foreign-born white, 11.8; Negro, 9.5; native whites being 91.8 per cent. of the population; foreign-born, 5.9; Negro, 2.2. A racial phase was the influx of many Germans at the time of the German revolutionary movements of the last century, the result being that now from Fort Wayne southward the German population is predominant in many districts numerically and socially. That portion of the population has always been exceedingly thrifty and dependable economically, and has aided much in the late remarkable industrial development.

In the intense industrial district along the lake the foreign-born population predominates, with Slavs of the several European countries very numerous, and in the World War Indiana responded to the first call for volunteers as promptly as any State in the Union, as proved by the records in Washington.

For the last four decades the centre of population of the United States has been in the southern part of Indiana, moving very slowly west.

## IOWA.

*Area, square miles.....56,147.....24th in rank*
*Population, 1920.....2,404,021.....16th in rank*

Iowa lies in the East North Central part of the Middle West, bounded on the north by Minnesota, on the east by Wisconsin and Illinois, on the south by Missouri, and on the west by Nebraska and South Dakota. The Mississippi River flows along the entire eastern boundary line, and the Missouri River along three-fourths of the western line.

It is very level, only one point of elevation being 745 feet above the mean. Iowa claims the largest proportion of actually arable lands of all States and proves it by the immense agricultural production, soil and climate combining to give it that prestige, the climate being Middle West characteristically.

The value of all crops, Census of 1920, was $890,391,299, exceeded only by Texas with $1,071,542,103 on five times the land area of Iowa. Farm property exceeds $8,000,000,000 in value, its area being 33,474,896 acres of the total of 36,000,000 acres in the State. 14 per cent. of the corn of the country, Census of 1920, was produced in Iowa—444,190,000 bushels—wheat being low with 10,102,000, and potatoes high with 4,728,000 bushels, hay with 4,659,000 tons, and oats with 187,045,705 bushels.

Live stock interests are immense, with all animals raised in the temperate zone abundant, and dairy and poultry outputs likewise enormous.

Fruit interests are confined mostly to the smaller varieties, and garden stuff is heavily cultivated.

The farms number 213,439, averaging 156.8 acres and 134 actually improved. Iowa is the strongest centre of the late agricultural movement, which resulted in the rapid development of the American Farm Bureau Federation, the President, James Riley Howard, being an Iowan, and agrarian influence dominates the State. Iowa has the largest ratio of automobiles per capita of all States, the farmer-owned prevailing.

Transportation is highly developed, with railways literally ribbing the State, for vast through, as well as immense local, tonnage. River tonnage on the Mississippi moves in vast volume, with much on the Missouri.

Railroad mileage 1921, was 9,808. Interurban electric service is greatly developed.

Coal underlies about 19,000 square miles, the output, Census of 1920, being 6,300,000 tons, lead being found in the northeastern part, and quarry output heavy.

Manufacturing naturally consumes mostly agricultural products, in preparation of foodstuffs for the market—meat packing, flour, etc., with considerable development also of machinery making to supply the immense nearby markets. More than $500,000,000 is invested in manufacturing, the output, Census of 1920, having been $310,750,000.

Iowa leads all States in literacy. Only 1.1 per cent., Census of 1920, are illiterate, the percentage of native whites being 5-10 of 1 per cent. of foreign-born white, 4.9, and of Negro, 8.1. The State has a large percentage of native-born whites—89.8.

There are about 600,000 persons at school in Iowa, or one for each four of the population. The public school system is highly advanced, in method and provision for the people of all classes.

The College of Agriculture at Ames is claimed to be the leading institution of that character in the country. It has 4,859 students, and has pursued scientific investigation along all lines that appertain to agrarian interests, with much original research, and development of methods for crop and animal production and care.

The University of Iowa at Iowa City has 2,889 matriculated; Upper Iowa University at Fayette, 388, and Drake University at Des Moines, the capital, 1,460.

A signal enterprise is the utilization of vast electrical power in the Mississippi River at Keokuk, where a remarkable dam has been thrown across the river.

The diffusion of prosperity is indicated, Census of 1920, by the $391,505,000 deposits in savings banks by 905,970 persons, averaging $432.14 per account, or almost one account for each two and a half persons.

## KANSAS.

*Area, square miles.....82,158.....18th in rank*
*Population, 1920.....1,769,257.....34th in rank*

Kansas, a West North Central State, in almost the exact geographical centre of the United States, is bounded on the north by Nebraska, on the east by Missouri, on the south by Oklahoma, and on the west by Colorado. It is varied in topography, with prairies extending westward, where elevations of 4,000 feet are found. There is heavy forest cover in the eastern half, much hardwood, black walnut abounding. The climate is severe in winter and warm in summer, but constantly modified by the prevalent winds. The Missouri River skirts the northwestern side for 150 miles, giving navigation to St. Joseph, Atchison, Leavenworth and Kansas City, the only other considerable river being the Arkansas, which flows through from Colorado. The Kaw is another river.

Railway traffic is mostly east and west, and several of the largest systems have lines, with liberal provision for branch service, to care for the heavy through traffic and the large State production. Railroad mileage 1921, was 9,388.

Kansas is essentially agricultural, although natural mineral wealth adds heavily to production. The Census of 1920 gives $588,923,248 as value of all crops, livestock products not included.

The total acres in the State is 56,000,000, of which by the 1920 census there were 45,425,179 in farms, with 30,600,760 actually improved. Corn is the chief crop—132,786,130 bushels—next to wheat, 140,842,516 bushels, additional production running the gamut of temperate zone foodstuffs in cereals, tubers, sugar beets and the several kinds of animal foods. Farming is marked with the most modern of equipment in machinery. Cotton and tobacco are grown to some extent, the climate and soil being such as to enable the further development thereof when economic conditions demand.

In the western reaches of the valley of the Arkansas River irrigation is extensive and becoming more important (45,000 acres under water) as demand for land increases in the whole country. Dairy and poultry products run above $60,000,000 annually.

Kansas derives wealth from livestock husbandry second to cereal producing. The herds range in the western and southwestern portions mostly, although not relatively so important as in the earlier days

Manufacturing, including smelting of ore, refining of oils, meat handling, and milling is very extensive, the 1920 census assigning $913,667,000 as the value of the products of all industries. Slaughtering and meat packing leads with $427,663,000, and flour milling comes next with $206,881,000, and oil refining with $63,786,000, while car building and repairing by the railways adds annually $28,231,000, and butter alone $24,444,000.

The coal fields underlie more than 15,000 square miles and, Census of 1920, produced 5,982,143 tons, and the oil measures, which are very extensive, yielded 38,501,000 barrels of petroleum. There are zinc, lead and salt.

Kansas has only 1.6 per cent. of illiteracy, that of the native whites being 6-10 of 1 per cent. of foreign-born whites, 10.5; and of the Negroes, 8.8; the Kansas colored man having advanced far along the roadway toward normal literacy. The attendance at all educational institutions is more than 400,000, or about one for each four persons, with 7,500 students in the six colleges.

Kansas was one of the first States to adopt Prohibition, and a unique present feature is the State Industrial Court, which essays to prevent strikes, and which the Governor, Henry Allen, alleges is used more by laborers initiating cases than by employers.

The diffusion of prosperity is to be judged by the fact that agricultural, livestock, dairying, mineral and manufacturing annual production totals about $1,700 000,000, or about $2,180 for each man, woman and child in the State.

## KENTUCKY.

*Area, square miles.....40,598.....36th in rank*
*Population, 1920.....2,416,630.....15th in rank*

Kentucky, grouped as East South Central, a border State between the North and South, is bounded on the north by Indiana and Ohio, on the east by West Virginia and Virginia, on the south by Tennessee, and on the west by Indiana and Illinois. The Mississippi River touches the westernmost tip, and the Appalachian Mountains cross the eastern side, the Ohio River skirting the entire northern boundary. Navigable rivers flow past the State for a total distance of 813 miles. The topography is broken, with many hills dotting the tablelands, of which the famous Blue Grass region in the northern part, east from Louisville, is best known and most productive.

Agriculturally, the State is very productive; $347,338,888 is given by the Census of 1920 as the value of all crops, which included the highest quantity of tobacco of all States, 467,500,000 pounds; and a most varied list of temperate zone products, shading off into those distinctively Southern. The corn crop in 1921 was 82,150,000 bushels.

Livestock interest is important, Kentucky horses having been for long world famed, its thoroughbreds not being excelled anywhere. Other domestic animals abound, and fruits are extensive.

Coal mined in 1920 was 27,678,572 tons, and petroleum lifted, 8,692,000 barrels.

Forest wealth is great, coniferous and hardwood trees abounding, and normally yielding annually $20,000,000.

Manufacturing engages about $200,000,000 of capital, and outputs about $250,000,000 of products, and mostly uses raw materials that come from the soils, although clothing industry is developing.

Railroad mileage, 1921, was 3,929.

The illiteracy percentage is 8.4, that of native whites being 7, of foreign-born 7.3, and of Negroes 21. The State public school system enrolls about 550,000, and four universities, 5,200.

The distinctive natural phenomenon is the 9,000 square miles in Central Kentucky which is ribbed with underground passages and caves, chief of which is the Mammoth Cave, with its 150 miles of connecting passages.

In the old days before Prohibition, Kentucky was famed for its whiskeys, Bourbon County, at Paris, in the Blue Grass region, having lent its name to the corn liquor of that name formerly made and consumed in the United States.

The Kentucky mountains, picturesque and beautiful, have for years been the scene of feuds between families, which descended from father to son through generations, and which often broke in bloody conflicts, now happily passing away.

## LOUISIANA.

*Area, square miles.....48,506.....30th in rank*
*Population, 1920.....1,798,509.....22d in rank*

Louisiana, situate in the West South Central region, on the Gulf of Mexico, at the mouth of the Mississippi River, is bounded on the north by Arkansas and Mississippi, on the east by Mississippi State and the Gulf, on the south by the Gulf, and on the west by Texas. It is practically all alluvial built up from the silt brought down by the Mississippi River, which has thrust out a long point into the Gulf, as the southernmost part of the State.

There are no hills of consequence, and much of the lands are lower than the immediate banks of the great river, powerful levees being necessary to protect from constant overflow. As a consequence of the downwash of river sedimentary matter, the lands were naturally highly enriched, and subsequent overflowing of the waters has added food values to the soils, as does the Nile in Egypt.

The western part, immediately next to Texas, shades off toward the drier character of climate and soils, the climate of Louisiana for the greater part being rather moist and very warm in summer, with little of winter cold. It is semi-tropical.

The Sabine River bounds the State on the west, and with the Red River and the Mississippi, Louisiana has 4,794 miles of navigable waterways, much of it being on the large bayous in the south.

The Mississippi River has always largely determined the character of New Orleans, chief city, for there river traffic from earliest days has been extensive, and New Orleans has dominated the State economically. For some years after the Civil War of 1861-5, river traffic fell off, but is now being revived, and is expected to grow to very heavy volume.

Railroad mileage, 1921, was 5,223.

Agriculturally, Louisiana is prolific—rice, cotton, sugar cane, corn, sweet potatoes, tobacco, especially fine, fruits of all sub-tropical sorts, and nuts are produced largely. The value of all crops, Census of 1920, was $231,506,000. Nearly all the sugar cane and molasses produced in the country comes from Louisiana, the value being $44,000,000, 1920 census. Cotton values the same year were $53,-250,000. Livestock interests are extensive. It is second in output of lumber.

The State ranks fifth in petroleum output, 1920 census, 35,649,000 barrels. Sulphur also is largely produced. There are more than 6,000 square miles water covered, suitable for the propagation of oysters; the shrimp catch is very valuable, and commercial fishing an important industry. Trappers market muskrat, opossum, raccoon, mink and other furs in great quantities.

Manufacturing industry centres mostly around the use of soil raw materials, the annual output being worth about $300,000,000.

Foreign trade through the port of New Orleans is large, 1920 exports equalling $589,409,222, and imports $252,313,000, mainly of cotton and cottonseed, wheat brought down the Mississippi, flour, rice and other products.

There were, in 1921, 355,000 enrolled in the public schools of a population of more than 1,800,000, divided, two-thirds white and one-third Negro. Much of the population retains the original French blood, and considerable numbers the mixture of French and Spanish, which produced the Creoles. About 6,000 attend the colleges and universities.

New Orleans, the chief city, is a welcome resort for tourists in the winter, having picturesqueness and the flavor of olden times, the annual Mardi Gras being the principal attraction. Much through passenger traffic flows through New Orleans to and from the Pacific Coast, railway and steamer facilities being well supplied.

## MAINE.

*Area, square miles.....33,040.....38th in rank*
*Population, 1920.....768,014.....35th in rank*

Maine, in New England, northeasternmost State, is bounded on the north by Quebec, Canada, on the east by New Brunswick, Canada, and the Atlantic Ocean, on the south by the Atlantic, and on the west by New Hampshire and Quebec.

It is naturally heavily wooded, mostly with coniferous trees, is of broken topography, rising to mountainous elevations in the northwest, Mount Katahdin, 5,268 feet, the highest, and slopes in broken form toward the coast, which is rugged, tortuous, picturesque and indented with many harbors, with many islands adjacent, and has very extensive natural water power sites, already somewhat developed, but assuring great industrial capacity in the future.

Its waters abound in fish, its forests in wild animals, and it has a climate rather intensely cold in winter, but beneficent in summer. It has more than 1,600 lakes, several more than 100 miles long. The coastline is 278 miles long.

Agriculture, lumbering, manufacturing, quarrying and fisheries are the chief industries.

Of the 20,000,000 total land acres, about one-third is farming area, of which about two-thirds is improved. Potatoes form the leading crop, the 1920 census showing 25,531,000 bushels worth $52,339,000. Hay is a large crop, and all vegetables and considerable small fruits are produced. The value of all crops, 1920 census, was $100,152,324. Livestock and dairy products add to the wealth, the milk production coming in part to supply New York City.

In granite output it ranks third, Vermont and Massachusetts exceeding; it is first in feldspar, and produces many other of the cruder minerals for building.

Lumber is the principal manufacturing product, the cut, Census of 1920, being 650,000,000 feet, white pine, spruce for wood pulp, hemlock, balsam, birch, cedar, oak, maple, beech, ash, and basswood or linden. The paper pulp mills produce $70,000,000 annually, and along the rivers are many water power motived textile, tanning, oilcloth, boots and shoes, canning, flour and machinery works. The total value of the manufacturing output, 1920, was $465,822,000, paper and wood pulp leading with $93,917,000, cotton goods next with $56,564,000, boots and shoes, $48,689,000 woolen goods, $42,442,000, lumber, $28,515,000, etc.

Transport by water is mostly coastwise, although there is some foreign. The railroad mileage, 1921, was 2,295.

Maine is distinctively a pleasure resort, summer bringing many thousands of tourists and residents for the season, and the fall many hunters. Luxurious hotels are maintained, and there are many private lodges and summer homes, while many artists go to paint the beauties of the Maine landscape and coastline.

Portland, the chief port, has a large steamer tourist traffic, as well as extensive freight tonnage by water and by rail.

Illiteracy percentage is 3.3, that of native whites 1.6, and of foreign-born 11.1. Public schools enroll about 170,000, and higher educational institutions rank well, with Bowdoin, at Brunswick, among the country's best.

## MARYLAND.

*Area, square miles.....12,327.....41st in rank*
*Population, 1920.....1,449,661.....28th in rank*

Maryland, a South Atlantic border State between the North and South, is bounded on the north by Pennsylvania, on the east by Delaware and the Atlantic Ocean, on the south and west by Virginia and West Virginia. It is penetrated from the south by Chesapeake Bay, a wide arm of the Atlantic, and an important channel of water-borne commerce which has made Baltimore a great seaport. The Potomac River flows along the western boundary line, also important in commerce. The topography is varied, low and flat in the portions toward the ocean, and rising to mountain levels in the western sections, Great Backbone Mountain, 3,400 feet, the highest. The State is distinctly separated by the bay into Eastern and Western shore parts, each having somewhat of social and industrial individuality. The climate is warm, with mild, humid winters.

The Census of 1920 showed $109,683,574 as the value of the crops, principally corn, tobacco, wheat, oats, hay, fruits of all kinds grown in the south temperate zone, vegetables being produced heavily for the markets of the larger cities as far north as New York. Products are varied and profitable on account of the proximity of big city markets.

Mining is principally of coal, about 3,600,000 tons being the normal output.

Manufacturing output, Census of 1920, was valued at $873,945,000, and ran the gamut of almost all classes. Shipbuilding led with $60,844,000, followed by clothing, $60,414,000, slaughtering and meat packing, $41,439,000 and the iron and teel industry, $19,884,000, which is fast growing to great importance. The census reports showed 60 classifications with more than $1,000,000 of output each, which afford profitable diversification in industry and employment for a versatile working folk.

Transportation is highly developed, water and rail. Railroad mileage, 1921, was 1,436. Baltimore is one of the country's principal ports, and is growing in importance much faster than the Nation's whole volume increases. Water traffic coastwise is very heavy, and several substantial steamer lines also ply between Baltimore and foreign ports. Much of the product of the South comes through Baltimore, and that port gets large share of the tonnage of the North and West.

The population is 17.9 per cent. Negro, and the percentage of illiteracy for the whole State is 5.6. The swiftness with which educational advantages for the masses is sweeping away illiteracy is shown by the figure of 5.6 for 1920, compared with 7.2 in 1910. In the schools were more than 250,000, and the higher institutions are celebrated. Johns Hopkins University, at Baltimore, is not excelled in any State or country for scholarship and breadth of scientific attainment. To its hospital go patients from all parts of the world to consult eminent specialists. There are other well-known higher institutions, Goucher's College one of them.

Along artistic lines there is high development, principal centres being Peabody Institute for Education in Music, the Maryland Institute School of Art and Design, Walter's Art Gallery, and others.

## MASSACHUSETTS.

*Area, square miles.....8,266.....44th in rank*
*Population, 1920.....3,852,356.....6th in rank*

Massachusetts, one of the Thirteen Original States, lies in New England, bounded on the north by Vermont and New Hampshire, on the east by Massachusetts Bay and the Atlantic Ocean, on the south by Rhode Island, Connecticut and the Atlantic, and on the west by Rhode Island and New York. The highest elevations are in the Berkshires in the west, about 2,400 feet maximum, and now a great summer resort of wealthy city dwellers.

It was naturally wooded in all portions, but retains only a fraction of the original forest wealth, which consisted of all trees which grow in the temperate zone, coniferous and hardwood.

The State has grown to a first place in industry, manufacturing having been developed very greatly, the 1920 census showing the value of all industrial products to be $4,011,182,000, divided into 100 classes each exceeding $5,000,000 annual output. The per capita industrial output is $1,045. Much of the industrial strength is due to the development of extensive water powers in the State's rivers, but coal operates many.

Cotton goods lead with $596,667,000; boots and shoes, $442,466,000; worsted goods, $237,443,000; leather tanning and finishing, $129,595,000; foundry and machine shop products, $111,853,000; slaughtering and meat packing, $110,238,000; woolen goods, $105,183,000; and nine classifications exceeding $50,000,000 output, 12 exceeding $25,000,000, and five exceeding $20,000,000. Practically everything manufactured in modern industry is included, excepting in those basic industries in which the cruder raw materials such as ores are needed. The census showed 11,906 establishments worthy being reported, employing 812,906 persons, paying in wages $766,623,378 capitalized for $2,947,108,527 utilizing 1,729,378 horsepower, consuming $2,260,713,126 of raw materials, and adding by the industrial effort $1,750,468,496 to the original value of the materials.

The State has abundant rail and coastwise shipping facilities; there were 2,106 miles of railroads in 1921, and 2,804 of electric lines. From the earliest generations, the New England States have been efficient in ocean-going shipping, and Massachusetts not less than any.

Massachusetts is the second densest populated State. The dense industrial and residential development is indicated by the 94.8 per cent. of urban population, which leaves agriculture, once dominant, reduced to 32,001 farms averaging 77.9 acres, value of all crops in the 1920 census being $53,700,925, taken from farm property valued at $300,471,743. In value, hay was the leading crop, tobacco next with $6,419,000, and potatoes with $6,000,000, others being wheat, corn, oats, rye, buckwheat, apples, maple sugar, and small fruits, cranberries abounding in the lands along the coast.

It is the leading fisheries State of New England, $11,000,000 of catch being reported in 1920. Mineral products consist chiefly of quarry outputs.

No State is further advanced in primary and higher educational facilities, although, owing to recent heavy influx of industrial foreigners, the percentage of illiteracy is not low at 4.7. Native whites show 4-10ths of 1 per cent., foreigners 12.8, and Negroes, 6.8.

Of the 3,852,356 of population, 1,077,534 are foreign-born, of which 262,021 are Canadians, 117,037 Italian, 163,171 Irish, 92,034 Russian, and the others from all foreign lands.

Enrolment in the schools was 618,828; normal schools number 11, and the list of higher institutions is long and impressive, the greatest proportioned to population in the country. These include Harvard University, Massachusetts Institute of Technology, the State Agricultural at Amherst, Tufts, Williams,

Clark, Worcester Polytechnic, Boston University. Institutions for women include Wellesley, Smith, Radcliffe, an offshoot of Harvard and Mount Holyoke Colleges; Simmons, Lasell and Auburndale.

The colony in pre-Revolutionary times was the centre of republic-making in the North, perhaps in the country, the Boston Tea Party, which signalized the revolt against "taxation without representation" by the mother country, England, taking place on the Boston waterfront. The first shot in the Revolution was fired at Concord, close to Boston, so that visitors to the "Hub" find the flavor of history on every hand. Boston and environs are therefore the resort of tourists.

As with all New England, the State is a great summer resort, the North Shore above Boston being the resort of summerers and many artists, and the long hooklike Cape Cod and the adjacent islands attract thousands. At Provincetown, at the tip of the Cape, the Mayflower made its first landing, moving next to Plymouth. A monument, dedicated by the late Theodore Roosevelt, stands at Provincetown to commemorate the landing.

## MICHIGAN.

*Area, square miles.....57,980.....22d in rank*
*Population, 1920.....3,668,412.....7th in rank*

Michigan, lying along the Canadian border, is divided by Lake Michigan into two parts: the northern peninsula has on the north Lake Superior, and on the south Wisconsin; the southern peninsula has Lake Michigan on the west, Lake Huron, Ontario, Canada, and Lake Erie on the east, and Indiana and Ohio on the south. The interests of the northern peninsula are mostly copper and timber. In the southern there are also minerals and timber, but manufacturing has grown to such large importance that it leads all other concerns.

The State is mostly flat and sandy, with large areas of cut-over timberlands, mostly coniferous, with rugged topography in the north. The State, the Federal Government and large private enterprises are now making great efforts for the reforestation of the land.

No State has greater water boundary lines proportioned to area, transport naturally is great by that means. Rail facilities are abundant, lines having sought the heavy tonnage of the recently developed industry. Railroad lines mileage 1921, was 8,734, and the great Sault Ste. Marie Ship Canal, between Lakes Huron and Superior, accommodates more tonnage than the Suez Canal or any other like canal. The 1920 census assigned it 68,235,554 tons, valued at $914,513,944, of which much is iron ore from Minnesota and copper from Michigan, vast supplies of grains, flour and timber, and coal and supplies for the Northwest.

Michigan is the automobile centre of the world, about two-thirds of the 2,000,000 cars produced annually being made there. There are 68 motor car factories outputting more than $1,000,000 a year, chief of which are the works of Henry Ford at Detroit, which, according to degree of production at the moment make up to 1,500,000 a year, besides farm tractors at Dearborn, nearby, and steel and other mills operated by the Fords. Besides the Ford cheap car, Detroit makes some of the finest built in the world.

There are 8,000 manufacturing establishments, capitalized at more than $2,500,000,000, which represents an increase of 73 per cent. in five years, paying wages of about $800,000,000 a year, using materials worth $2,000,000,000 and employing about 500,000 persons normally. Fifty makers of automobiles, bodies and parts in the State do an annual business of above $1,000,000.

Michigan leads all other States in output of chemicals, drugs, engines, threshing machines furniture and refrigerators. Fourteen copper, brass and bronze manufacturers exceed $1,000,000 of annual output. Stove-making is as great as in any State, and there are many other factories, there being 460 concerns that output more than $1,000,000 annually. Michigan cuts close to a billion feet of lumber.

Production of iron ore was valued in 1919 as $60,906,692; copper, $34,476,336; coal, 1,400,000 tons was produced in 1920 and of salt, 2,000,000 tons.

Agriculture adds annually, Census of 1920, $404,347,810 for all crops, potato production the third largest with a $32,000,000 crop. Sugar beet output is heavy, and all temperate zone crops are raised.

In shipbuilding it ranks seventh among the States. Fisheries catch annually 50,000,000 pounds.

There are more than 6,000 smaller lakes, where fishing and summer sports attract many. Apple production is fourth highest, and the State claims leadership in small fruits. Corn yields about $50,000,000.

Educationally, Michigan has its great State University at Ann Arbor, which was first to admit women matriculates, the oldest agricultural college in the country, many normal schools, and a public school system that enrolls 670,000; it has a literacy percentage of 3; native white, 7-10ths of 1 per cent.; and foreign-born, 9.9.

Detroit, by the Census of 1920, had 993,739, showing an increase of 527,978—113 per cent.—in the decade, and is now (1922) in the million population class. It has a large percentage of foreigners, being the second in Polish of the country.

Beautifully situate along many waterways, it bids successfully for metropolitan repute and constantly attracts newcomers from home and abroad. In summer time, the Mackinac Islands, Belle Island, Ausable and St. Mary's River are popular resorts.

## MINNESOTA.

*Area, square miles.....84,682.....11th in rank*
*Population, 1920.....2,387,125.....17th in rank*

Minnesota, of the West North Central, on the Canadian border line, is bounded on the north by Manitoba, Canada, on the east by Lake Superior and Wisconsin, on the south by Iowa, and on the west by the Dakotas. The Mississippi River rises in Minnesota. It is a State of widely variant natural resources and rapidly developing wealth; is in general a tableland of rolling, timbered, prairies excepting in the western parts, where timber is scarce, and of rugged character in the northeast, where immense deposits of ore, high-grade Bessemer prevailing, supply the steel concerns of Illinois, Pennsylvania and Ohio. Its climate is not excessively warm in summer, and is cold in winter time. There are about 10,000 lakes, many exceedingly beautiful, that abound in fish, and are the resort of pleasure-seekers from all parts of the Union in the summer.

Agriculturally, the State is rich, with $506,020,233 as the value of all crops reported by the 1920 census; a billion feet of lumber cut, mostly white pine; 34,593,000 tons of iron ore, worth $128,377,174, being 61 per cent. of the national production, shipped eastward by steamers on the Great Lakes; manufactures, $1,218,129,735 worth of product in 6,125 establishments, capitalized at $679,386,486, employing more than 147,678 persons, and using raw materials worth $883,989,777. The flouring mills are the principal concerns, leading the United States and the world in annual volume of output, $381,249,000.

Industry is considerably diversified, there being 65 lines, the annual output of each of which was reported by the 1920 census as more than $1,000,000, including meat packing, $146,361,000; butter, $88,862,000; lumber, $37,321,000; railway cars and repairs, $35,351,000; linseed oil, $33,238,000. Manufacture of machinery is now an important industry. Minneapolis and St. Paul the chief centres of all industry.

By adaptation, fruits have been made to thrive, until the crop is large of all kinds grown in the north temperate zone; while corn, in earlier years scarcely known, has by the same process been brought to high value, having won first prize in one national contest at the New Orleans Exposition. The 1920 census reported the crop at 118,000,000 bushels, wheat, once the chief crop, 37,710,000; oats, 90,000,000; with generous yields of all other cereals.

Twenty-five years ago, Minnesota ranked third in lumber output, but has fallen to eleventh place, although there remain an estimated 21,000,000,000 feet of spruce in the forests, which is very valuable for paper woodpulp in these years of diminishing supply. 80 per cent. of the cut is white pine, which also is rapidly disappearing.

Railroad mileage, 1921, was 9,114.

Minnesota has been especially fortunate in the heavy inflow of those European racial migrations from the northern countries whence come good farmers, Scandinavians in the majority, but with almost as many Germans; both nationalities settled in more or less clannish sections, but have helped to develop the State with great thrift and industry.

In illiteracy the State is among the lowest, only 1.8 per cent. being unable to read and write, against an average of 6 per cent. for the United States. The State claims one of the most efficient systems for popular education, with enrolment of about 550,000 in all institutions out of a population of 2,387,125. The University of Minnesota, upbuilt by its late President, Cyrus Northrop, has close to 10,000 students and ranks among the greatest of the country, with smaller colleges such as Hamline

University, St. Thomas, Macalester, Carleton, and a score of others scattered through the State, some supported by church denominations.

The grain trade control in Minneapolis is second only to that of the Chicago Board of Trade; and the water and rail shipping from and to Duluth, at the head of the Great Lakes, on Lake Superior's western end, is immense in ores, coal, cereals, and general freight. The Great Northern Railway Company maintains a fleet that traverses the lakes, and initiates shipments to and from all parts of the world via the lake route.

In the carrying of iron ores, the United States Steel Corporation, which owns mines and railways in the northern ore region, has developed a fleet of monster carriers and a system of prevention of waste time not excelled by any transport agency in the world.

## MISSOURI.

*Area, square miles.....69,420.....18th in rank*
*Population, 1920.....3,404,055.....9th in rank*

Missouri, a West North Central border State, is bounded on the north by Iowa, on the east by Illinois and Kentucky, on the south by Arkansas, and on the west by Oklahoma, Kansas and Nebraska. The Mississippi River skirts the entire eastern boundary line for 500 miles, and the Missouri River the northern half of the western line, cutting then through the State to confluence with the Mississippi at St. Louis. In all it has nearly 1,000 miles of navigable waterways.

Its topography is varied—upland table in the north and west, the Ozark Mountains in the centre and south, with low-lying river bottom areas in the extreme southeast. Its climate is a compromise between the north temperate and sub-tropical.

Economically, it partakes of the characteristics of both North and South, is strong agriculturally, timberwise, horticulturally, industrially and in education.

Manufactures exceed agriculture in value of products, reported by the 1920 census as more than $900,000,000, all crops being valued at $559,047,854. Manufactures rest chiefly on soil produce as raw materials, the list including meat packing, flour milling, machine-making and foundries, with very large production of boots and shoes, chemicals, tobacco products, paints and varnishes, corncob pipes, and lumber and timber products.

Industry centres in St. Louis, principal city, at the junction of the Mississippi and Missouri Rivers, and in Kansas City at the junction of the Kansas and Missouri Rivers on the western border, and is spreading rapidly into other parts, as well as increasing in volume.

Missouri is second in the production of zinc and lead, the value in 1919 being $15,879,177.

Agriculturally, it is a great State. There is a total of about 38,500,000 acres in all, of which the 1920 census assigns to farms 34,774,000, with more than 24,000,000 improved. The corn crop was 182,000,000 bushels, wheat and oats together more than 76,000,000, tobacco, 3,700,000 pounds. The crop of cotton, mostly in the southeast, was 78,000 bales on 117,000 acres, far above the average per acre production.

In livestock the Missouri mule, which is facetiously said to have won the war, has always been used much locally and exported to all other States and foreign countries.

Railroad mileage, 1921, was 8,117.

With 4.8 per cent. of Negro population, the average of illiteracy for the State is 3 per cent. for all classes: native white percentage, 2; and foreign-born, 9.6.

Although the native-born whites are 88.2 per cent., and foreign-born whites only 7, the influx of Germans in the revolutionary times of their native land in the last century left a large proportion of persons of that blood, especially in St. Louis, to this day, those now being practically all natives. They have been noted for thrift.

The schools enroll about 750,000 of a population of 3,404,055 by the 1920 census. The State University at Columbia, Washington University at St. Louis, twelve colleges and seven normal schools are the higher institutions.

St. Louis is the gateway for north and south travel as well as of freight traffic, and many tourists stop there en route. A feature is the famous bridge across the Mississippi, which is said to accommodate more freight cars than any other in the world. River traffic is immense, to and from New Orleans and intermediate points.

## MISSISSIPPI.

*Area, square miles.....46,865.....31st in rank*
*Population, 1920.....1,790,618.....23d in rank*

Mississippi, one of the States of the East South Central group, is bounded on the north by Tennessee, on the east by Alabama, on the south by Louisiana and the Gulf of Mexico, and on the west by Louisiana and Arkansas; the Mississippi River is the western boundary line. It is hilly but not rugged, and in general slopes downward to the great river and the Gulf shore. The climate and production are sub-tropical.

Agriculture is its chief interest. The 1920 census gave the value of all crops as $336,267,156, corn and cotton the main production. It was the sixth cotton State, producing 885,000 bales worth $173,820,000, with cottonseed by-products worth $28,000,000. Other crops are rice, sugar cane, oats, wheat, hay, peanuts, potatoes, and every character of fruit grown in its zone. Apples, plums, pears, apricots, melons, strawberries, peaches, and grapes grow in the western parts, with oranges, lemons, figs and olives in the Gulf coast sections. Nuts are abundant.

Dairying and fishing yield generously.

Manufacturing rests mostly on an agricultural basis for the utilization of the soil products of the State, the total value, Census of 1920, of industrial products being $197,747,000 for 2,455 establishments, employing 64,452 persons, capitalized at $154,117,000. Lumber and timber products lead with $87,508,000; oil and cake from cottonseed yielding $39,202,000. Cotton mills are not yet extensive.

The forest wealth is very great. Of the total of 33,000,000 acres, about 11,000,000 is forested, yellow pine chiefly. There is much of the fast disappearing hardwood.

Transport is supplied by the rail lines and by the Mississippi River, on which traffic, lessening in the recent era of rapid rail development, is growing again to great relative importance.

Railroad mileage, 1921, was 4,369.

Vicksburg is the chief city, and was the theatre of the famous siege by Gen. Grant, Union commander, who took the city in an action said by military authorities to have virtually settled the Civil War issue.

The old plantation life prevails as unchanged as in any Southern State, with spacious mansion houses and large estates, the homes of the old-time aristocracy of the age of the Southern cavalier.

The rate of illiteracy is high—17.2 per cent. on the average—owing to the large number of Negroes, who are 56.2 per cent. of the whole population. Native whites showed, Census of 1920, only 3.6 per cent. illiterate, but the Negroes 29.3. Rapid progress in popular education is being made, the illiteracy percentage in 1910 having been 22.4.

Public school enrolment is about 600,000, more than half of which is colored. A score of higher educational institutions are maintained, the University of Mississippi the leader, and there are several church colleges.

## MONTANA.

*Area, square miles.....146,997.....3d in rank*
*Population, 1920.....548,899.....39th in rank*

Montana, a mountain State, is bounded on the north by Canada, on the east by North and South Dakota, on the south by Wyoming and Idaho, and on the west by Idaho.

The Rocky Mountain range crosses the State in the west, with the Bitter Root range at the extreme western side, the country east of the Rockies sloping off into vast plains and smaller valleys between smaller hill elevations. Its rivers of note are the Missouri, up which crude boat navigation has passed for generations; the Yellowstone, Madison and Bitter Root. Of the 50,000,000 acres, the forests of about 30,000,000 acres are, with other areas, ranges for livestock grazing, which is important.

Mining, copper smelting and refining are the leading interests, producing two-thirds of the total industrial values reported in the 1920 census, $195,624,000; value of all crops being $69,975,000, the wool and sheep of the State ranking third, and cattle bringing in $28,000,000, while dairy and poultry products added about $38,000,000.

Irrigation, by Federal Government and private initiative, has been highly developed, resulting in the production of large quantities of the standard fruits, orchard and small, of the temperate zone, the State, although far north and high in elevation, being especially suited to that activity, largest development being in the Bitter Root, Missoula

and Flathead regions. Wheat, oats, flaxseed, barley, rye, corn, hay, potatoes and sugar beets are produced.

Montana has a stumpage of more than 58,000,000,000 feet of timber, of which much is the increasingly valuable white pine; other kinds are larch, spruce, cedar, Douglas fir, white fir, lodge-pole pine, valuable for telegraph poles, hemlock and yellow pine.

The mineral resources are very great. The 1920 census gave $77.032,000 as the value of coal and metals, excluding manganese, the latter being necessary in all modern steel-making processes. The wide fluctuations of copper, lead and zinc prices in the past few years have rendered the annual mineral output value exceedingly variable. The output value reported in 1920 was not much more than half that of the previous year.

The State produces the third largest amount of copper, and coal underlies about 20 per cent. of the whole State area. All of the metals and minerals are found in vast abundance, large fortunes having been made by organized mineral industry. Montana smelters utilize ore running so low as slightly under 2 per cent. of actual copper, so highly organized are the appliances.

The State leads in silver output (1921, $9,677,020), is second in zinc, eighth in lead, sixth in gold (1921, $1,725,600), and first in semi-precious stones. Considerable oil is produced, and valuable process minerals are graphite, gypsum and tungsten.

A million potential horsepower is available in the waters, of which almost one-third has been developed. Immense reservoirs have been constructed on the Madison and Missouri Rivers to give dependable water supplies.

Railroad mileage, 1921, was 5,072.

Montana is low in illiteracy—2.3 per cent.—that of native whites being only 3-10ths of 1 per cent. Public school enrolment, 1920 census, was 122,000, of a population of 548,000, and there are four well-equipped colleges and normal schools.

Scenically, Montana is not surpassed. Its lofty mountains are rugged and picturesque, and travel by rail or automobile takes one through beautiful and grand places. Glacier National Park, on the line between the United States and Canada, is one of the most wonderful public preserves in the world. Granite Peak, 12,834 feet high, is the highest of many very high elevations.

## NEBRASKA.

*Area, square miles.....77,520.....15th in rank*
*Population, 1920.....1,296,370.....31st in rank*

Nebraska, a West North Central State, is bounded on the north by South Dakota and Iowa, on the east by Iowa and Missouri, on the south by Kansas and Colorado, and on the west by Colorado and Wyoming.

Typical of the American western plains States, its lands a vast inclined plane, sloping off eastward to the Missouri River bottoms. No point rises more than 5,300 feet above sea level, while the average elevation is about 2,000. Its climate is typically north temperate, its products likewise, including almost every species appropriate to that latitude. In the east, rainfall is sufficient for crops, with little irrigation. In the west, irrigation is resorted to, and grows in importance. The live-stock industry is second to agriculture in primary wealth producing, Nebraska supplying very much of the Nation's meat, and packing a large portion of it in the stockyards at Omaha.

Of the 55,000,000 acres in the State, 42,338,000 are included by the census in farm lands, with 24,587,000 improved. The corn crop was 184,000,000 bushels, fourth in rank; wheat, 60,000,000, ranking third, and large quantities of oats, barley, rye, potatoes, buckwheat, flax, cloverseed and sorghum syrup, and sugar beets to some extent. Fruit raising is not extensive.

Nebraska is not rich in mineral wealth. In the west, potash lies in considerable quantity in solvent form in several lakes, from which in the war about 61,000 tons, 45 per cent. of the relatively low United States production, was taken.

Manufactures relate chiefly to the utilization of soil products. The 1920 census gave 2,844 as number of establishments, employing 40,076, and $593,041,000 as the value of the entire products, of which meat packing led with $303,849,000. Manufactures centre in Omaha, which also is one of the greatest rail traffic centres of the United States, being the true eastern terminus of the Union Pacific system.

Railroad mileage, 1921, was 6,166.

With the University of Nebraska at the head, there are 16 colleges and normal schools, liberally attended.

Percentage of illiteracy is exceedingly low at 1.4, that of native white being 4-10ths of 1 per cent., although the percentage of foreign-born whites is 14.8. More than 300,000 attend the public schools of a population of 1,300 000.

## NEVADA.

*Area, square miles.....110 690.....6th in rank*
*Population, 1920.....77.407 .....49th in rank*

Nevada, least populous of all States, less even than the District of Coumbia, is of the Mountain group in Western United States, bounded on the north by Oregon and Idaho, on the east by Utah and Arizona, on the south and west by California.

It is mountainous, and minerals yield $48 528.000 Census of 1920, against $13 980,000 as the value of all crops. Much of the land is arid or semi-arid, and irrigation is developing to large importance The Federal Government has a project to reclaim 160,000 acres, which when complete will add not less than $20,000,000 to the annual crops. Agriculture is not varied, owing hitherto to lack of water, but as irrigation advances, diversification of products proceeds. Live stock interests are relatively large.

With only 77,407 persons indicated by the Census of 1920, there are 2,357,000 acres in farm areas, with 595,000 improved.

Mineral resources are varied—gold (1921, $3,220,500); and silver, third in rank (1921, $6,908.774) leading. Copper, lead, zinc, iron, quicksilver, tungsten, sulphur, graphite, borax, gypsum and quarry stones are produced also.

The forest area is more than 5,300,000 acres, of which 4,971,335 are set aside as national forests.

Manufacturing output, Census of 1920, was about $20,000,000.

Railroad mileage, 1921, was 2,160.

Illiteracy percentage was 5.9, of which native whites showed only 4-10 of 1 per cent. Schools for popular education are well provided, with about 15,000 enrolled.

Reno is known the world over as having been for years the Mecca of persons desiring divorces: but the laws of the Commonwealth recently have been made more stringent in their requirements.

## NEW HAMPSHIRE.

*Area, square miles.....9,341.....43d in rank*
*Population, 1920.....443,083.....41st in rank*

New Hampshire, the Granite State of New England, is bounded on the north by Canada, on the east by Maine and the Atlantic Ocean, on the south by Massachusetts, and on the west by Vermont, and was one of the original Thirteen States.

Its northern parts are rugged, reaching in the White Mountains the highest elevations of the Northeastern United States (Mount Washington, 6,293 feet). Toward the sea, it is more level and agricultural and industrial by utilization of river water power.

With less than half a million people, census of 1920, value of all crops was $23,509,000, while the value of all industrial products was $407,205,000,—cotton goods, $85,986,000; boots and shoes, $73,871,000; paper and wood pulp, $41,826,000; woolens, $31,245,000; with twenty other industries exceeding $1,000,000 in annual output, lumber having $14,992,000, worsteds, $14.699,000.

The industrial production is highly diverse and employs all kinds of workers, from machine tenders to the most skilled.

Railroad mileage, 1921, was 1,252.

New Hampshire has in all 5,779,000 acres, of which in farm lands there are 1,441,111 cultivated. Hay is the chief crop, followed by corn, potatoes, oats, and apples, with relatively large dairy output, milk being shipped to the New York market

The State has 4.4 per cent. of illiterates; native white having 7-10 per cent., and foreign-born, 15.4. Public school enrolment was 70,000. Dartmouth College at Hanover is the leading educational institution, from which many eminent men have come, among them Daniel Webster. There are four other higher institutions.

The White Mountains are par excellence a summer resort for persons from all parts of the United States. A modern system of automobile highways is maintained, ribbing the mountains.

## NEW JERSEY.

*Area, square miles.....8,224.....45th in rank*
*Population, 1920.....3,155,900.....10th in rank*

New Jersey was of the Original Thirteen States, and is in the Middle Atlantic region, bounded on

the north by New York and Pennsylvania, on the east by the Atlantic Ocean and New York, on the south by the Atlantic and Delaware Bay and on the western side by Pennsylvania. It is mostly low and flat, having hilly development in the northern end, where an extensive State park has been set aside.

New Jersey has extensive water navigation facilities, with Delaware Bay, and the Delaware River along most of its western side, the Atlantic on the east, and the valuable facilities of New York City's harbor and branches on the northeast.

Railroad mileage, 1921, was 2,352.

The State grades sixth in industrial strength, production being exceedingly varied, and, although the greater part is in Newark, it is well diffused in all parts. As a consequence, railway facilities are highly developed, and especially in the northern parts the electric railway lines are unusually extensive.

Economically and to a degree politically, New Jersey and New York City have common interests. Very many New Jerseyites work or transact business in the greater city, transit facilities being arranged so that access to New York is as facile as to any other part of the city by means of the Hudson and Manhattan tubes.

The output, Census of 1920, of the industries was valued at $2,990,939,000. The 306 silk mills employed 25,046 persons, and output $120,075,000. Oil refining leads all industries, with $328,120,000, followed by explosives, $197,074,000, chemicals, $189,117,000; machinery, $140,119,000; shipbuilding, $123,884,000; woolens and worsteds, $118,635,000; rubber goods, $98,410,000; wire and wire cloth, $93,350,000; with large productions of pig iron, steel and iron, $66,425,000; cigars and tobaccos, $55,470,000; leather, $44,552,000, and numberless others which employ most varied operators, skilled and unskilled.

Its agriculture is affected most vitally by the proximity of the immense markets of the greater city and the fact that 78.7 per cent. of the population is urban. Market gardening has advanced to large magnitude, very many foreigners, especially Italians, having gone out to work in that line. The 1920 census gave $87,484,000 as the value of all crops. The total land area of the State is 5,779,840 acres, with 1,441,000 cultivated. Corn, wheat, oats, potatoes of both kinds, rye, buckwheat, and hay are the chief crops. Fruits are extensively grown, the cranberry marshes supplying about one quart for each of the population of New York City, and the same of strawberries. The peach and apple crops are always important. The dairy output was reported at $19,198,000.

New Jersey produces minerals abundantly—iron ore, and about one-fourth of the Nation's supply of the important magnetite, zinc and much clay products.

The educational institutions are important; Princeton University at Princeton is one of the country's foremost colleges, of which former President Wilson was President. Rutgers College, New Brunswick, is well known, and there are five other colleges of prominence. More than 700,000 are enrolled in the schools, the percentage of illiteracy being, Census of 1920, 5.1; native white, 6-10 of 1 per cent.; foreign-born, 15.3. In Passaic, Bergen, Union and Middlesex Counties the percentage of foreign-born is from 25 to 35 per cent.

Atlantic City, three-fourths of the way down the eastern coast, is one of the great seashore resorts in the country, and Cape May, the southernmost tip, another. Summer homes are maintained by city folk in many parts.

## NEW MEXICO.

*Area, square miles.....122,634.....4th in rank*
*Population, 1920.....360,350.....44th in rank*

New Mexico, of the Mountain (southeast) group is bounded on the north by Colorado, on the east by Texas, on the south by Texas and Mexico, and on the west by Arizona. The Rocky Mountain range marks the north and centre; the eastern parts are of the flatter tableland of which Texas forms also a part, and in the south are bare, sterile, desolate peaks surrounded by arid and semi-arid plains and deserts, of which the mirage is an interesting phenomenon. The central western portion has drainage by the Rio Grande River, and the Pecos River flows through the eastern districts, both toward the south.

The climate is dry, stimulating, with mean annual rainfall of from 12 to 16 inches in different localities, and with 100 degrees of heat infrequent in summer, the mean for the year being about 50.

The population of 360,000 produces agriculturally. Census of 1920, $40,619,000; from mineral industries, about $45,000,000; about $20,000,000 of manufactures, and heavily of live stock products.

A unique feature of tillage is the production from dry farming, a modern scientific process, causing otherwise dry, almost arid lands to yield. There are more than 945,000 acres included in irrigation projects, with 550,000 actually under water. The 29,845 farms averaged 840 acres, and the chief crops are hay, corn, wheat, oats, barley, rye, kaffir, milo, all the vegetables, potatoes, cotton with 5,000 bales production, broom corn, sugar beets, the fruit industry being extensive.

Railroad mileage, 1921, was 2,972.

New Mexico partakes of the oldtime life of the West so far as does any other State, but is practically of the new day, with all civilized agencies at hand, even the cowboy passing rapidly away as modern devices multiply.

The population is 21,181 Indian on Government reservations (4,697,224 acres in 1920 with a valuation of $21,916,965, and income of $2,196,417), 13,414 of Mexican parentage, of a total of 360,350.

Many go to the State for wintering, and artists have lately resorted there for the painting of Indian and old Spanish types, and the things that remain from the aged Aztec civilization. Albuquerque, Santa Fe, Las Vegas and other cities are popularly sought by the tourists and artists and writers, who are provided with excellent travel facilities by the several standard rail lines.

Students find deep interest in the history of the areas which once were the bed of a great inland salt sea, in which were deposited all the basic salts found in the ocean waters, and which are expected to yield later rich mineral wealth for fertilization of lands and chemical uses.

## NEW YORK.

*Area, square miles.....49,204.....29th in rank*
*Population, 1920.....10,385,227.....1st in rank*

New York, the Empire State, since 1820 the most populous in the Union, is bounded on the north and west by Lake Erie, Ontario, Canada, Lake Ontario and Quebec, Canada; on the east by Vermont, Massachusetts and Connecticut; and on the south by the Atlantic Ocean, New Jersey and Pennsylvania. Its sea front consists of the southern shores of Long Island, Staten Island, and the entrance into New York Harbor, one of the greatest in the world, and the chief port of the United States, into and out from which moves the greater part of the national commerce, foreign and domestic, passenger and freight. Long Island Sound, a wide arm of the Atlantic, which separates Long Island from Connecticut on the north, is navigable for deep sea craft. The Hudson River carries heavy ship tonnage northward from New York Harbor 150 miles to Albany, the capital, and Troy. Large steamers and sailing craft also ply the two Great Lakes, and the St. Lawrence River, which forms part of the northwestern boundary. On the northern part of the eastern boundary line is Lake Champlain, 100 miles long, a historic waterway bearing much commerce and making into the St. Lawrence River at Sorel. New York Harbor also includes the shores of New Jersey, enabling traffic intercourse between the two States.

New York has about 800 miles of navigable ocean, lake and river waterways, the State being penetrated by the New York State Barge Canal (Erie), through which there is capacity for the passage annually of 20,000,000 tons of freight. The canal also connects with Lake Champlain, so that inland tonnage may move between New York City, Buffalo, about 500 miles northwestward on Lake Erie; Oswego, on Lake Ontario, the ports on Lake Champlain northward so far as Rouse's Point at the Canadian border, and on into the St. Lawrence River; besides to several interior New York State points on other minor canal routes.

The Adirondack Mountains (first land to appear in the western world) occupy the northeast part of the State, and are dotted with beautiful lakes and rivers. In the east the Catskill Mountains, made famous by Washington Irving's story of "Rip van Winkle," line the western bank of the Hudson. Just above New York City the topography of the Hudson's banks takes the form of lofty rock Palisades, beautifully conformed and colored, and on the edge of which is a spacious Interstate Park set aside by the States of New York and New Jersey. All of New York is marked with scores of lakes and smaller rivers navigable for pleasure craft. The drainage from the crest west from Utica is in three directions—southeastward into the Atlantic Ocean; northward into Lake Ontario at Oswego, and south-

ward into the rivers that make through Pennsylvania. The east slopes of the Adirondacks drain into Lake Champlain.

The 49,204 square miles of area, equivalent to 27,490,560 acres, contains 1,550 square miles, or 992,000 acres, of inland waterways, leaving a net land surface of 47,654 square miles, or 26,498,560 acres. The chief economic interests are the national and international financial community of New York City, the foreign commerce in New York Harbor, now the heaviest in the world; the large manufacturing, and the rich agricultural resources.

The 1920 census gave $417,046,864 as the value of all farm crops, to which the greater part of the 17.3 per cent. of rural population gave direct or contributory attention. Only California exceeded New York in production of hay and grapes, New York's grapes being from 30,677,555 vines, and the hay weighing 928,874 tons, Kansas coming next.

Literally everything characteristic of the temperate zone is produced in fruits, vegetables, grains and forage crops. New York led all States with 2,778,761 pear trees of bearing age, Michigan being next. In apple trees of bearing age, New York led the country, although Washington, with less trees, harvested more bushels. In acreage of small fruits, New York was second only to Michigan; and only California had larger acreage devoted to vegetables produced for sale. The State was second to Vermont in output of maple sugar, and led all the States excepting Maine in production of potatoes, Minnesota coming third.

Only Pennsylvania led New York in quantity of buckwheat grown; in wool New York with Pennsylvania led all Northeastern States. In the value of dairy products, New York was easily second in the country, with $756,045,942, Wisconsin leading, with $858,258,521; while in value of livestock products of farms, New York led the United States, with $225,465,739, Wisconsin following with $213,022,023. In pure-bred sheep on farms, New York was surpassed by only seven States, while in pure-bred cattle New York was second only to Iowa.

In the number of domestic animals of all kinds on farms, New York led the United States, was far down the list in poultry, and was fifth in amount expended for farm labor. The State was sixth in number of farms mortgaged, and in total amount for which mortgages were given, and these things were developed on a total farmland area which classes the State as nineteenth in the county.

It was at Binghamton the first Farm Bureau was organized, which has grown into the American Farm Bureau Federation, a national organization with more than 1,000,000 members.

Mineral resources are considerable, but in rank the State is below many others. Some iron ore (1919, $5,264,443) is mined in the Lake Champlain region; petroleum (1919, $9,900,894) is produced near the Pennsylvania border, also natural gas. Graphite is produced, also the baser minerals for building and manufacturing purposes. The output of salt in Onondaga County, fringing Lake Ontario (annually 10,000,000 barrels) is a large industry.

In manufacturing, commerce and finance, the figures are very large. More than one-half the export and import shipments of the United States pass through the Port of New York, to organize which into an economic and non-wasteful commercial agency the sovereign State of New York has created the Port of New York Authority, to work co-ordinately with a similar body created by the sovereign State of New Jersey, to the end that commerce flow be more facile.

The number of vessels entering New York port in the fiscal year ending June 30, 1922, was 5,201, of a tonnage of 18,450,608; clearing for other ports 5,280 vessels, tonnage 19,470,642.

Railroad mileage, 1921, was 8,390.

The commerce flowing through the New York State Barge Canals, and through the ports of Buffalo and Oswego, runs into the millions of tons, and includes very heavy haulage of grains grown in the Middle West, destined for European ports.

The value of the total manufactured products in the State according to the Census of 1919 was $8,867,004,906, and comprehends almost everything fabricated in modern industry.

Total resources of all financial and banking institutions, State and national, those subject to supervision by State and Federal authorities, exceed $13,000,000,000. Especially since the World War, New York financial lines criss-cross the earth. The Federal Reserve Bank of New York City transacts about one-third of the total business done by the Federal Reserve System of the United States.

Population figures of the 1920 census of New York State show the presence of large representation of every civilized people on the globe, divided: 65.8 per cent. of native parentage; 13.9 of foreign parentage; 8.1 of mixed parentage, and 11.2 of foreign-born. About fifteen times as many Jews as are in Palestine live in the State, and almost as many Italians as in Rome. Germans numbered 295,650, and Irish 284,747, with 135,305 English.

The percentage of illiteracy was reported at 5.1; native white, ½ of 1 per cent.; foreign-born, 14.2; Negroes, who have increased rapidly since the late war, 2.9 per cent.

Nearly 2,000,000 attend the educational institutions, primary and higher, under control of the Board of Regents of the University of the State of New York (which see), and some of the most famous colleges and universities in the country are in New York State, among them Columbia University, which matriculates more than 20,000; the New York University, the College of the City of New York, Cornell University, Syracuse University, the University of Rochester, Hamilton College, Union University, Colgate University, Buffalo University, St. Lawrence University, Hobart College, College of St. Francis, Fordham University, Rensselaer Polytechnic Institute, and scores of special schools which are suited to every requirement in letters, science, engineering, finance, economics, sociology and art. Of the latter there are many of acknowledged merit, New York City being one of the art centres of the world.

At West Point, on the Hudson above New York, is the Military Academy of the United States Army, in a location famed for beauty.

The interests of the Empire State are so varied along other lines that no listing is attempted here. More than 200,000 transient travellers enter the greater city daily, so it is estimated; and to Niagara Falls, near Buffalo, many more than 1,000,000 go each year. The Adirondacks and the Catskills have each summer hundreds of thousands of tourists and campers, the other lakes their tens of thousands. Safe waters on Long Island Sound are used by many yacht clubs, and the ocean beaches daily have large throngs.

Were the population of the City of New York subtracted from that of the entire State, as shown in the 1920 census, there would remain a total "up-State" population greater than the entire population of any other State except Pennsylvania, Ohio and Illinois, with their large cities included in their total. New York City, within its political boundaries, ranks next to London in population; but the metropolitan district of New York City had in 1920 about 165,000 more persons than the London district of the same character as to population grouping. (See pages 452 et seq. for detailed statistics.)

## NORTH CAROLINA.

*Area, square miles.....52,426.....27th in rank*
*Population, 1920.....2,559,123.....14th in rank*

North Carolina, a South Atlantic State, of the Old South group, is bounded on the north by Virginia, on the east by the Atlantic Ocean, on the south by the Atlantic and South Carolina, and on the west by Tennessee. Physically, it is divisible into three distinct parts—a sloping sandy coastal plain from the low-lying 300-mile sea line on the east, a tableland in the central portion, and a mountainous western one-third running into the Appalachian range, Mt. Mitchell, 6,711 ft., the maximum.

The climate grades from sub-tropical in the east, to milder on the tableland, and relatively cool and stimulating in the mountains.

There are many islands off the northern half of the coastline, with Pamlico Sound and its tortuous shores affording many inlets and potential harbors, a favorite resort for hunters. Cape Hatteras, the easternmost point, is feared by mariners as especially stormy and dangerous.

The Census of 1920 gave $943,808,000 as the value of manufactures, cotton goods leading with $318,368,000, (exceeded only by Massachusetts and South Carolina,) others being tobacco, cigars and cigarettes, $226,636,000; lumber and timber products, $54,928,000; cottonseed oil cake, $46,995,000; chewing and smoking tobacco, $33,188,000; knit goods, $29,834,000; furniture, $29,725,000; fertilizers, $27,551,000 and 30 others from $24,000,000 down to slightly more than $1,000,000, including in part flour, car building, machinery, vehicles, medicines, clay products, silk goods, in a total of 5,999 establishments employing 175,423 persons, capitalized at $669,000,000, and using materials valued at $526,906,000.

Agriculture's principal crops, Census of 1920, were valued at $503,229,000, cotton at 875,000 bales, ranking the State sixth.

North Carolina is the second tobacco State, producing 310,240,000 pounds, corn, wheat, rye, potatoes and peanuts, 4,756,000 pounds, are large crops.

with all others raised suitable to the zone, fruits as well, grapes being especially plentiful.

In minerals, the State is rich, ranking first in production of mica, there being much magnetic iron ore, and some lead, zinc, copper, gold, silver, corundum, tin, feldspar, talc and graphite. A valuable contribution is monazite and zircon, used in making incandescent lamp mantles.

Of the 35,000,000 acres in the State, originally about 11,000,000 were forested, chiefly with yellow pine, of which it is estimated that 15,000,000,000 feet remain on about half a million acres. The annual lumber cut is about 1,200,000,000 feet, the market being largely in the North, considerable coming to New York coastwise in vessels.

Railroad mileage, 1921, was 5,522.

The Negro constitutes 31.6 per cent. of the population, Census of 1920, and the State percentage of illiteracy is 13.1, having been 18.5 in 1910. Illiteracy of native whites is 6.8. Public school enrolment is 725,000, with compulsory instruction. The chief higher institutions are the State University, Chapel Hill, and the Agricultural College, West Raleigh. Much effort is expended by the latter to improve tillage methods, with increase of the per acre production as one result.

A striking feature has been the very large migration of residents of the mountains to the cotton mill towns, where they remain as operatives, whole families accepting employment, including children. The rapid increase of cotton mills has been in the past 20 years especially, causing large tonnage for rail and steamer, in addition to the export cotton, which leaves mostly from Wilmington.

Asheville is the chief resort, being popular in the winter, its golf course one of the most famous in the country. Country homes in the delightful mountain regions are also becoming more numerous, northerners going there.

## NORTH DAKOTA.

*Area, square miles.....70,837.....16th in rank*
*Population, 1920.....646,872.....36th in rank*

North Dakota, in the West North Central group, formed of part of the original territory of Dakota, is bounded on the north by Canada, on the east by Minnesota, on the south by South Dakota, and on the west by Montana. It is drained in the southeastern one-third by the Missouri River, and in the northeast by the Red River, which stream is the line between North Dakota and Minnesota, and the valley of which, an old lake bed, is exceedingly fertile. "Number One Northern Hard" wheat originated there, and is a premium grade of that cereal. The surface in the eastern two-thirds is a vast rolling plain, once with scant rainfall, but now, since cultivation advanced westward, having precipitation enough for the large crops produced.

Agriculture is easily the chief interest, with the value of all crops reported in the 1920 census at $301,782,000, against $57,374,000 for all manufactured products, and that mostly of flour and other grain products consumed locally.

Every cereal and other crop known to the north temperate zone is produced, wheat being the principal crop, 61,540,000 bushels reported in the 1920 census, grown on about 9,000,000 acres, worth $147,696,000; rye, barley and corn being also extensively produced, and the total value of all cereals given at $215,764,000. Hay is raised heavily, more than 4,000,000 tons, worth $56,000,000. On 650,000 acres, 2,972,000 bushels of flaxseed were raised, highest production in the country, value being $13,000,000.

Much of the grain and practically all of the forage crops are for local feeding to livestock, that industry being very important. More than 2,300,000 domestic animals were reported by the 1920 census, with more than 40,000,000 acres of land for grazing in the State.

A vast proportion of the western part is underlain by brown or low-grade coal, which is produced not extensively and only for local domestic consumption, the State depending on the mines of other States for supply.

Railroad mileage, 1921, was 5,311.

North Dakota, with total population of 646,872, Census of 1920, had 131,590 or 27.1 per cent. of foreign-born whites. The percentage of illiteracy is very low at 2.1, native white, 4-10ths of 1 per cent., foreign-born white, 5.6. Foreign-born whites in order of numbers were Norwegian, Canadian, Russian and German.

North Dakota has been the theatre of several advanced social and economic experiments, the State, under the leadership of the Non-Partisan League, entering basic business enterprises including banking, against which some court decisions have militated.

The recreation for outsiders is the big hunting in the west and on the prairies for game birds, the prairie chicken predominant, and the lakes and rivers abounding in geese and ducks.

## OHIO.

*Area, square miles.....41,040.....35th in rank*
*Population, 1920.....5,759,394.....4th in rank*

Ohio, an East North Central State, is bounded on the north by Michigan and Lake Erie, on the east by Pennsylvania and West Virginia, on the south by West Virginia and Kentucky, and on the west by Indiana. It has no considerable elevations, being highest in the centre, and sloping in each direction to the lake on the north and to the Ohio River, a great traffic route, on the southern boundary line. Its climate is characteristic of the north temperate zone, with abundant rainfall.

Ohio has navigable waterways for the 430 miles of the Ohio, the 230 miles of lake frontage, and 100 miles up the Muskingum River in the southeast. It sends much tonnage down the Ohio. Rail transport is very heavy in all directions. Railroad mileage, 1921, was 9,001.

Manufacturing, mining and oil are the chief interests. The value of all products exceeds $2,250,000,000, from 16,000 establishments, employing more than 1,000,000 persons, and representing investment of about $2,000,000,000. The iron and steel ore and reduction and machinery industries lead all others, with 29,649,245 tons of ore received at the Lake Erie port of Cleveland, heaviest handler of ore in the world. Cleveland, Youngstown, Canton, Steubenville and Middletown are the principal iron and steel working points. Manufacturing is very extensive in other lines. Of the 264 industries classified by the Federal Census, Ohio has considerable production in all but 46, ranking first in 18 of them.

Akron is the world's rubber centre, turning out in 1920 tires worth $545,812,000. Fourteen rubber companies there employ 72,397 persons, 1920 census, and pay salaries totalling $142,330 000. The product goes to every country on the globe, as does the machinery made in the State.

The State ranks fourth in mineral wealth extracted, 45,000,000 tons of bituminous having been lifted in 1920 by 50,000 miners who received more than $48,000,000 in wages. Cleveland alone shipped also 22,900,000 tons of coal in 1920.

Oil production is very great, especially in the Lima district, the total value in 1919 being $45,483,525.

The pottery interest used 1,811,000 tons of clay, and has developed large factory production.

The output of automobiles in the Toledo and Cleveland districts is second only to that of Detroit, mostly of medium or higher grades.

But the agricultural wealth also is great, value of all crops and livestock sold being as reported in the 1920 census $904,400,000, which was exceeded by only four other States. Principal crops are cereals, hay, potatoes, tobacco, vegetables, sugar beets, and all products of the zone. Corn totalled 149,844,000 bushels, oats, 46,000,000; hay, 7,600,000 tons; tobacco, 64,420,000 pounds; and canning of fruits and vegetables was extensive, the fruits being those of the north temperate zone, the 1920 report showing the value of the output more than $19,000,000.

Much high-bred livestock is raised, and the meat packing industry is highly developed.

Its mineral wealth includes coal, iron, glass sand, clays, salt, petroleum, natural gas, limestone, sandstone, gypsum, mineral waters, some potash and pyrite.

Standard railway and electric lines total 13,364 miles and include all companies operating in the Middle West.

Illiteracy is low at 2.8 per cent.; native white, 9-10ths of 1 per cent., foreign-born, 12.6, and Negro, 8.1. Foreign-born number 12.5 per cent. of the population, and are in the industrial centres chiefly, although throughout the agricultural districts the German native-born element is numerous, having come when the revolutionary movement broke in Germany in the last century.

The State has very many institutions of higher education, the Ohio State University at Columbus, the capital, leading with 5,165 students, others being Cincinnati University, 3,006; Western Reserve University at Cleveland, 1,990; Ohio Wesleyan University at Delaware, 1,258, Oberlin at Oberlin, 1,178; and eight others with about 4,000 attendance. Public school enrolment is more than 1,000,000.

Ohio is distinguished among the States for the tenseness of its political life. It is regarded as a

politically pivotal State, and is the home of President Harding, whose newspaper is at Marion. It has given the United States five Presidents, all native born, while two others elected as residents of other States, were born in Ohio.

## OKLAHOMA.

*Area, square miles.....70,057.....17th in rank*
*Population, 1920.....2,028,283.....21st in rank*

Oklahoma, in the West South Central group originally set apart for Indian reservations, and formerly known as Indian Territory, is bounded on the north by Kansas, on the east by Arkansas and Missouri, on the south by Texas, and on the west by Texas, a small panhandle strip to the northwest also touching New Mexico. It was the home of these Indian tribes—Cherokees, Creeks, Choctaws, Chickasaws and Seminoles, whose descendants remain as a large part of the present population, numbering 119,255 in 1920, holding 19,551,890 acres with a valuation of $320,496,333 and an income of $39,393,608.

Oklahoma is mostly a vast plain of rolling, fertile prairies, rising in the west to maximum elevations of 4,000 feet, one being 4,700 feet, with mountains in the south central and southwestern portions. It has a fair share of forested area, yellow pine predominating, with about 200,000,000 feet the normal annual cut, and 4,800,000,000 feet of timber standing. It has a healthful climate, rather warm in summer, with good precipitation for watering the large areas of agricultural lands, that with livestock and immense oil production being the main interests.

The 1920 census gave $522,565,000 as the value of all crops, cotton, 1,006,242 bales ranking the State fourth; corn, 74,000,000 bushels; wheat 52,640,000; oats, 49,500,000; and heavy production of other cereals and the basic vegetables with all fruits of the temperate zone abounding.

Dry farming is practised extensively in the western portions, and production of cotton is close to half a bale to the acre, much higher than the average.

Including the refining of oil, Oklahoma's industrial output, Census of 1920, was valued at $401,363,000. Refining led with $150,673,000, flours coming next with $40,844,000. Industry comprehends smelting and refining zinc the product being $19,518,000, oil cake making, $18,907,000; foundry and machine shop output, $13,510,000; and 25 other lines with more than $500,000 annual output.

The number of establishments was 2,445, employing 38,314 persons, with more than $250,000 000 capital.

It is only 18 years since oil was discovered in Oklahoma, yet it has risen to the first rank as a producer. The 1920 figures on production were 105,725,000 barrels. Much of the oil land is owned by persons formerly in moderate circumstances, Indians among them, suddenly made rich by royalties on oil lifted on their lands leased to operating companies. The oil measures are of a kind with those of Texas, as to geological character and abundance, there being considerable litigation between the two States as to title to certain very valuable oil territory.

Railroad mileage, 1921, was 6,572.

The percentage of illiteracy is 3.8; native whites 2.3; Negroes, 12.4; and foreign-born whites, 14; Negroes being about 10 per cent. of the whole.

The public school enrolment is about 600,000 with several promising higher institutions with large attendance.

Apart from the romance of the Indian days and the "cowboy," Oklahoma went into history as the theatre of the most exciting "Sooner" rush for new lands ever staged in the United States, when more than 25 years ago, the Federal Government, after taking large areas from the Indians by treaty, threw them open for settlement, and thousands camped on the boundary line for weeks, rushing across the border when the moment came for admission. The settlement and development into an organized community were remarkably rapid, until now the State has all that appertains to modern life.

## OREGON.

*Area, square miles.....96,699.....9th in rank*
*Population, 1920.....783,389.....34th in rank*

Oregon, of the Pacific (northwest) group, is bounded on the north by Washington, on the east by Idaho, on the south by California and Nevada and on the west by the Pacific Ocean.

It has every character of climate and soil and production known to the temperate zone, the lands ranging from the heavily vegetated coast areas where rainfall is abundant, to the large stretches of semi-arid lands of the southeastern parts, with a touch here and there of almost desert, although negligible in extent.

The coast climate is salutary, never very cold, and seldom very hot. That of the eastern portion, east from the Cascade Mountains, is drier and often colder.

It has very important navigation facilities—the Columbia River flowing into the Pacific with a width at the mouth of up to 14 miles, the river carrying tonnage along the whole of the 400 miles of its seaward course from the Idaho line; and the Snake, running along the northern half of the eastern boundary, already conveying much traffic and being susceptible of greater development.

Into Oregon pour the products of "The Inland Empire," a region comprising 250,000 square miles in Eastern Oregon, Eastern Washington, and Northern Idaho, the Columbia being the waterway outlet, and the railways following the water grades from the Empire through the Columbia River Gorge to Portland, the "Rose City," which is actually on the Willamette River, ten miles from the Columbia, but economically on the Columbia. Portland has very heavy foreign commerce.

The products of that Inland Empire are most varied, as are those of Oregon which are very large fruit production, immense salmon fisheries, most extensive cereal production, and timber from forests that are the most extensive of any American State, it being estimated that the standing timber is 500,000,000,000 board feet.

The part of Oregon west from the Cascade Mountain range, which has peak elevations up to 12,000 feet, is slashed north and south by the Coast Range, a very aged ridge now eroded to lower levels. The whole of the western one-third of the State has abundant rainfall, although not so much nor so constantly as many believe, the average precipitation at Portland being about that of Chicago or New York. There are such forests as may be found in few parts of the world, immense numbers of trees attaining 20 feet in diameter, while there are vast stretches in which the lumbermen have taken only trees not less than eight feet in diameter, and regarded it as cut-over land. The chief varieties are Douglas and white fir, spruce, hemlock, cedar, and larch, west of the Cascades, with yellow pine in the eastern Blue Mountains, another range. Oregon has almost one-half the more than one trillion feet of timber standing in the three Coast States, Oregon, Washington, and California. Some of the trees are more than 300 feet high. In the southwest are found forests of the redwoods, with at least 20 other varieties of timber in abundance, some of it excellent for furniture manufacture, which is a considerable industry. The cut of timber is the third in the United States, Washington and Louisiana exceeding. The lumber is shipped to all foreign lumber-buying lands, more than a billion feet comes by the Panama Canal to the Atlantic Coast, and much is distributed by rail to the Middle West.

The fruit industry is among the most important in the country. Especially in apples the world calls for Oregon products, and the varieties of fruit grown include also peaches, pears, prunes—ranked the best known—apricots, plums, and all the small kinds. Hood River, Medford, The Dalles and other towns are the centres of highly developed fruit raising.

In agriculture, development has been rapid, there being about 1,000,000 acres under water, and more than 2,000,000 included in irrigation projects, Federal and private. The lands not needing irrigation, which are very extensive, produce richly. The 1920 census assigned $131,884,000 as the value of all crops; wheat, about 20,000,000 bushels; more than 2,100,000 tons of alfalfa; hops, 4,788,000 pounds; and more than 8,000,000 bushels of oats.

In livestock the State is productive. The wool clip was 16,000,000 pounds, and $17,000,000 was realized from dairy products. The Coast States are especially fine for dairying.

Although undeveloped as yet, there are all the basic minerals in Oregon. Gold, silver and copper are mined, with also stores of lead, oil, quicksilver, chromic iron ore, platinum, and all the clays.

The value of the products of manufactures in the 1920 census was $366,783,000, lumber leading with $85,348,000, flour following with $42,550,000, other industries being shipbuilding, meat packing, canning, there being 20 others with more than $1,000,000 annual output.

The salmon fisheries centring in Astoria, at the mouth of the Columbia, are among the world's third greatest, the pack in 1920 being 481,545 cases.

Railroad mileage, 1921, was 3 305.

In illiteracy Oregon ranks with Iowa and Idaho as the highest in the country the percentage being 1 5, that of native-born 4-10ths of 1 per cent. There are several colleges, the State University at Eugene, the celebrated Agricultural College at Corvallis, Reed Institute at Portland, and others.

The coast resorts are much patronized, and Portland, with mild climate, is also the summer home of many from surrounding regions.

Oregon initiated the national movement for direct primaries, the initiative and referendum, and the recall, and adopted Prohibition independently of the national amendment.

Its great Columbia Highway, unexcelled for scenic beauty running up the river from Portland: Mt. Hood and other lofty mountains, and the unique Crater Lake, are points of tourist interest.

Each October a great cowboy roundup is held at Pendleton Eastern Oregon, to which thousands of visitors go.

The mountains in all parts of the State are summer camping grounds. Klamath River in Southern Oregon is said to yield the largest trout in the world; and half a dozen Indian reservations are favorite resorts of tourists, writers and artists.

## PENNSYLVANIA.

*Area, square miles.....45,126.....32d in rank*
*Population, 1930.....8.720,017.....2d in rank*

Pennsylvania, of the Middle Atlantic group is bounded on the north by Lake Erie and New York, on the east by New York and New Jersey, on the south by Delaware, Maryland and West Virginia, and on the west by Ohio and Lake Erie.

It is of varied topography, like most Atlantic States having leveller lands to the east, and rising to higher altitudes to the westward. The Appalachian range traverses the central part from northeast to southwest a higher mountain region being in the extreme west, and another lower plane running down to the shores of Lake Erie. It has rivers important in navigation—the Ohio, the Susquehanna, the Delaware, the Allegheny and the Monongahela

Viewed by and large, Pennsylvania may be said to lead all States in mineral and industrial production Its mineral riches are very great. The 1920 census reported anthracite coal output at 86,200.000 tons· bituminous, 145,300,000 tons; worth together about $900 000,000. The coke output alone was $160 357.000 The natural wealth in iron ore, oil (value in 1919 $66,271,961), once leading the United States, and the quarries is large.

The State has built its industries largely on these basic elements. It produced nearly half the steel of the country, shipping it to all parts of the world. Its production in pig iron in 1920 was 13,983,134 gross tons Pittsburgh is the centre of the greatest metal production ever attained in one locality. Its supplies of iron ore come mostly from Minnesota, and its operations have made more millionaires than any other single industrial centre in the country. It was there that the late Andrew Carnegie built up his fortune, developing new steel making processes The perfected tonnage from Pittsburgh is the heaviest excepting at New York and Chicago. Electrical goods and equipment is made in Pittsburgh in large quantity.

The State leads all Midwest States in cotton goods, is second in silk and wool goods, ranks first in leather output, glazed kid the most important. The census reports more than 20,000 industrial establishments, employing 1 523,000; paying $1,-864.000,000 in wages $312 000,000 in salaries; using $5.075 000.000 of capital and making more than $8.500 000.000 of products

The principal port is Philadelphia, which receives and sends to all world ports. It was the capital of the United States, 1790 to 1800. The great Baldwin Locomotive Works is located there, and also extensive electrical equipment manufacturing

Scranton is the greatest hard coal centre of the country, and makes much steel.

Erie on Lake Erie is the lake port.

Railroad mileage, 1921, was 11,550.

Pennsylvania produced, Census of 1920, more than $500,000.000 of crops, the region around Reading, Lancaster and York, with English names is the seat of the famous German (Pennsylvania Dutch) agricultural development not perhaps equalled in any other section of the United States.

Production is varied in all parts of the State the cereals, forage crops, fruits, and all that the temperate zone raises. The crops are spread evenly through the whole list, with large diversification and consequent steadiness of prosperity. Tobacco raised was 57,900,000 pounds, 1920 census.

In educational facilities the State ranks high. The principal higher educational institutions are the University of Pennsylvania at Philadelphia, the Pennsylvania State College, the University of Pittsburgh, and the Carnegie Institute of Technology at Pittsburgh, Lafayette College, Lehigh University at Bethlehem, Temple University, Bucknell University, Dickinson College, Alleghany College, Duquesne College, Grove City College, Pennsylvania College, and Swarthmore College, there being three colleges for women at Bryn Mawr, Pittsburgh and Chambersburg, Bryn Mawr having been distinguished especially.

Public school enrolment exceeds 1.600,000, and the rate of illiteracy is 4.6 per cent.; native white, 8-10 of 1 per cent.; foreign-born, 18.9; Negro, 6.1. Of the total of 8,720,017 persons, the native white population is 80.8 per cent.; foreign, 18.8. In the industrial districts reside the bulk of the foreigners, the Census of 1920, showing in all 1,387,850, of which 120,194 were German, 90,666 Irish, 122,755 Austrian, 222.764 Italian, 161,124 Russian, 171,380 Hungarian, the Slavic strain being numerous. The urban population is 63.3 per cent.

In the past there have been bitter industrial conflicts, which happily have subsided to a large degree The present era sees industry, mining and agriculture the three interests, with lumbering lately reduced to unimportance, although once a leading activity.

Under Gifford Pinchot, formerly Chief Forester of the United States, serving as State Forester for several years, a great reforesting movement has begun.

The Pennsylvania State Police, serving mostly the rural districts, have become an establishment of social import.

The mountains are popular for summer resorting, with many fine country seats developed by the wealthy from old farm estates.

## RHODE ISLAND.

*Area, square miles.....1,248.....48th in rank*
*Population 1920.....604,397.....38th in rank*

Rhode Island, smallest of States, of the Original Thirteen, and in New England, is bounded on the north and east by Massachusetts, on the south by the Atlantic Ocean and on the west by Connecticut. Only 1,060 square miles of it is land. With 566.4 per square mile, it is the most densely populated State, exceeds all others in the per capita industrial output; it is 97.5 per cent. urban, and exerts influence out of all proportion to size and numbers.

The 1920 census gave these figures. Number of manufacturing establishments, 2,466, employing 156.012 persons, paying $168,509,358 in wages and salaries, using $415,989,203 of materials, and producing $747,323,000 in all, or $1,245 for each man, woman and child in the State, using $594,337,448 of capital. It ranks fifth in the making of cotton textiles, third in woolens, sixth in silk, has a large list of other industrial activities, mostly calling for rather skilled operatives.

The first cotton spinning works of this country were established in Pawtucket in the eighteenth century, and since then Rhode Island has carried on large textile industry.

Jewelry, rubber goods, electrical equipment, hosiery, knit goods, and many other lines are produced. Providence, Woonsocket, and Pawtucket are the chief centres of industry.

Although so small in all ways, yet the agricultural output by the 2.5 per cent of rural population. Census of 1920, was $5,340,378, and included about everything produced in the temperate zone.

A large traffic coastwise and foreign passes through Providence, as well as heavy passenger travel, rail and water. Railroad mileage, 1921, was 211.

Newport, on Narragansett Bay, has been for decades the most famous of America's watering places. Palatial summer homes were built by the socially prominent of the past one or two generations, embellished by every art of architect and landscape gardener. A private bathing beach for the socially elect is a feature.

On the western side of Narragansett Bay, Narragansett Pier is a popular summer resort, with large hotels and broad beach.

The State enjoys extensive educational facilities, with Brown University and the State Normal School at Providence as the best known. Public school enrolment is 95.000

The percentage of illiteracy is 6.5· native white, 7-10ths of 1 per cent.; foreign-born, 16.5. Foreign-born are 28.7 per cent. of the population, numbering 173,499—English, 25,782; Scotch, 22,253; Canadian, 36,400; Italian, 32.241.

## SOUTH CAROLINA.

*Area, square miles.....30 989.....39th in rank*
*Population, 1920.....1,683.724.....26th in rank*

South Carolina, in the South Atlantic group, of the Original Thirteen States, is bounded on the north by North Carolina, on the southeast by the Atlantic Ocean, on the southwest by Georgia. Its topography is, like that of North Carolina, mountainous, 4,000 feet the maximum, in the western part, a plateau in the central strip, and low-lying and sandy toward the 200-mile seafront.

The climate westward is comparatively cool, in the central part medium, and nearer the coast subtropical and humid.

The coast is indented with several harbors, Charleston having the most important one, and being a prominent coastwise and foreign shipping port, cotton a principal outgo to Europe.

Agriculture easily leads in production, with $437,121,000 as the value of all crops, Census of 1920; cotton with 2,631,718 bales ranking the State fifth. Of the 193,000 farms, Negroes cultivated more than half, and owned very many. The sea island cotton grown there is the finest grade produced in the country.

All of the cereals, peanuts, tobacco, in which it ranks fifth, sugar cane and all the vegetables are produced in profusion. Fruits are abundant, of temperate zone and sub-tropical varieties.

Livestock of higher breeds is an increasingly valuable adjunct.

Naturally, about half the area was forested, yellow pine predominating with much hardwood, but the lumbering has been so extensive that the forested area is reduced to about 1,000,000 acres, and the cut is diminishing rapidly. About 14,000,000,000 feet of pine remains standing.

In cotton mill spindles, 4,974,460, the State is second only to Massachusetts. Much of the labor in these mills is supplied by mountain families who were induced to migrate to the lower levels by the higher incomes offered, the industrial development having been peculiar to the Southern cotton-mill States in the building of towns owned entirely by the companies. Much child labor is employed.

Railroad mileage, 1921, was 3,814.

About 400,000 are enrolled in the public schools, 200,000 being colored, who form 55.2 per cent. of the population, the State percentage of illiteracy being 18.1, against 25.7 in 1910. That of native whites is 6.5, of foreign-born white, 6.2, and of Negro, 29.3.

The University of South Carolina at Columbia is the leading higher educational institution, Clemson Agricultural College being next. Clemson in 1898 opened the first textile school in the United States, which has achieved much in training technical mill workers and foremen.

## SOUTH DAKOTA.

*Area, square miles.....77,615.....14th in rank*
*Population, 1920.....636,547.....37th in rank*

South Dakota, West North Central, lower portion of the former Territory of Dakota, is bounded on the north by North Dakota, on the east by Minnesota and Iowa, on the south by Nebraska, and on the west by Wyoming and Montana. Its climate is that of the temperate zone northern latitudes, cold in winter and pleasant in summer. Before cultivation of the soil was extensive, it lacked rainfall; but precipitation swept westward as tillage advanced, until it now has normally abundant watering.

Its highest elevations are in the Black Hills in the southwest, the remainder of the State being a vast rolling prairie, falling off to lower levels in the northeast, which drains into the Mississippi River and into the Red River of the North. The major part of the State is drained by the Missouri River, which cleaves the State through the centre north and south. There are several minor drainage basins, feeding the larger rivers, with a succession of fertile valleys highly productive, and a fair area of forests, yellow pine, spruce, and others, 1,100,000 acres being under forest cover.

About 120,000 acres are irrigated, with about 200,000 acres normally in the irrigable sections.

It is claimed that more than 90 per cent. of the total area is arable. Of the 50,000,000 total acreage, 34,500,000 is in farmlands, with about 19,000,000 improved, farms numbering, Census of 1920, 74,564, crops being valued at $321,202,000.

Corn leads with 91,200,000 bushels; wheat, 30,175,000; oats, 53,650,000; barley, 19,250,000, and all the other cereals. Only the hardier fruits are grown.

The Census of 1920 shows livestock shipped valued at $154,631,000; dairy, fruit, poultry and other things, $50,000,000; the total revenues from all sources of wealth produced being $400,000,000, or about $600 per capita.

Mineral wealth is practically all in the Black Hills, where gold mined ranks the State fourth (value in 1921, $6,523,000). Silver, lead, and basic minerals also abound. There is coal in the northwestern parts, not yet accessible to transport.

Railroad mileage, 1921, was 4,276.

The 1920 census reports manufactures to be mostly of soil products, valued at $62,420,000, and population 84 per cent. rural, 100,628 foreign-born of the total of 636,547, of which 16,000 were Norwegian, and 15,000 German.

Illiteracy is 1.7 per cent.; native white, 4-10ths of 1 per cent. About 100,000 attend the schools.

A feature is the large area in Indian reservations—the Rosebud, Cheyenne River, Pine Ridge, and the Lower Brule. The Indians numbered in 1920, 23,010; they engage in agriculture and livestock husbandry, occupy 6,685,734 acres, valued at $63,265,900, and have an income of $4,331,940.

## TENNESSEE.

*Area, square miles.....42,022.....34th in rank*
*Population, 1920.....2,337,885.....19th in rank*

Tennessee, in the East South Central group, is bounded on the north by Kentucky and Virginia, on the east by North Carolina, on the south by Mississippi, Alabama, Georgia and North Carolina, and on the west by Arkansas and Missouri.

The eastern parts are in the Great Smoky Mountains, the surface sloping toward the west, first to an elevated tableland, then to the bottoms of the Mississippi River, which skirts the western border. It has the Tennessee River, which sweeps into Alabama from the northeast and returns to Tennessee at the northwest corner.

The forests cover about 30,000 square miles, and yield half a billion feet of lumber—oak, yellow pine, gum, yellow poplar, hemlock and chestnut.

The 1920 census showed $318,285,000 as the value of all crops, which include all things grown in the temperate zone, shading off to the almost subtropical in the south. Eight other States exceed its 264,562 bales of cotton produced; its tobacco crop was 112,367,000 pounds, and all cereals and vegetables were grown.

Coal production was given at 6,026,000 tons; and there are stores of iron ore, 450,000 tons, with 380,000 tons of pig iron; copper, 15,629,454 pounds; zinc, oil, and manganese.

The census figures on industry show 4,589 manufacturing establishments, employing 113,360 persons, engaging $410,203,000 of capital, and producing $556,253,162 in all. The census analysis indicates a rather broad basis laid for future development of industry, the list revealing 56 lines with more than $1,000,000 annual product. Flour leads with $51,913,000, and cottonseed and lumber have their usually large proportions as in all Southern States; but considerable beginnings have been made in the manufacture of dyestuffs, leather tanning, iron and steel furnaces, woolen goods, vehicles, bedding, implements, and cotton goods, product of which was $22,461,000.

Railroad mileage, 1921, was 4,078.

Tennessee is almost wholly American in population—foreign-born whites being 7-10ths of 1 per cent. Negroes are 19.3, and the percentage of illiteracy is 10.3 for the State; native white, 7.3; Negro, 22.4.

Attending school were 630,000 persons. The main higher educational institutions are the University of Chattanooga, University of Tennessee at Knoxville, Fisk University at Nashville, Vanderbilt University at Nashville, Cumberland University at Lebanon and the University of the South at Sewanee.

The Tennessee Mountains, like those of Kentucky, are beautiful, delightful summer resorts. Lookout Mountain, scene of a celebrated battle in the Civil War, is the object of chief interest in Nashville.

## TEXAS.

*Area, square miles.....265,896.....1st in rank*
*Population, 1920.....4,663,228.....6th in rank*

Texas, of the West South Central group, up to 1836 part of Mexico, then an independent republic, becoming one of the United States on Dec. 29, 1845, is bounded on the north by New Mexico and Oklahoma, on the east by Oklahoma, Louisiana and the Gulf of Mexico, on the south by the Gulf

and Mexico, and on the west by Mexico and New Mexico. It is the largest State, embracing nearly 8 per cent. of the area of the whole country, and is about 800 miles long by about the same wide.

In the western part it is mountainous, the "Staked Plains" lying in the northwest, a great prairie in the central portion, and a lower lying region nearer to the Gulf. Western Texas is mostly without forestation, but in the east naturally there was a large wooded area, nearly 8,000,000 acres, materially reduced by extensive lumbering, the normal annual cut being more than 1,250,000,000 feet, mostly yellow pine.

In all lines Texas produces heavily. It is easily the first cotton State, the 1920 census returning 11,522,537 acres devoted to its culture, 2,971,757 bales the output. Rice was grown on 164,481 acres, yielding 5,306,369 bushels; 122,170 tons of sorghum came from 35,589 acres; 49,093 acres of vegetables were raised, 6,139 acres of small fruits, sugar cane, tobacco, most of the cereals, potatoes, the forage foods, and a large variety of other soil products.

The census reports Texas the only State in which the total of all crops exceeds a billion dollars—$1,071 542,103,—the total return from crops, fruits, livestock lumber and oil and other minerals being more than $1,500,000,000.

The farmland area was 113,580,000 acres, in 436,033 separate farms, of which 33,700,000 were improved acres, the value of all farm property being more than $4,400,000,000. There are about 2,000,000 acres irrigable, and nearly 600,000 acres actually irrigated.

The corn crop was 156,920,000 bushels, and there was large production of wheat, oats, etc. Potatoes, white and sweet, yielded 11,500,000 bushels, and so on through the whole list.

The fruit production ranges from the varieties which are grown in the temperate zone to the semi-tropical kinds, and the pecan nut is a large crop.

The 12,000,000 domestic animals bring immense sums annually, the wool clip alone being from 15,000,000 to 20,000,000 pounds, with very heavy returns from cattle, horses, pigs and sheep, which range on the vast mid-western prairies, some of the ranches being of several hundred thousand acres. It leads the country in the cattle breeding industry.

The mineral resources of Texas are not yet defined. Development has wrought to yields of about 40,000,000 barrels of petroleum, according to the market demands (value of product in 1919 $143,337,362). and refining has become an important interest. Oil is found all the way from the northwest to the southeast on the Gulf the field there being somewhat concurrent with that of Mexico. In the north and northwest, the formation runs with that of Oklahoma and Kansas, in all sections the content being rich.

More than 2,000,000 tons of coal were mined, and asphalt and pottery clay were important products, as also all the base minerals, silver, lead, quicksilver and copper being naturally present and somewhat developed as to production.

In the northwest the bed of a former inland salt sea contains the salts that appear in all sea waters, and the Univeristy of Texas at Austin and the United States Geological Survey have announced the discovery of potash the work of proving the extent thereof being now in progress. The announcement in 1921 caused the usual rush of prospectors and speculators with boom times resultant.

The 1920 census gave $999 995,796 as the total value of all industrial products, there being 5,724 establishments, employing 130,911 persons, paying $145,907,000 in wages and salaries, and using $701,170,000 of materials, with $585,776.000 of capital invested.

The three principal manufacturing industries were petroleum refining, $241,757,000; meat packing, $125 192,000; cottonseed oil and cake, $102 122,000 Flouring mills brought in $73,064,000, lumbering, $47,884,000 with 60 other industries which totalled each more than $500 000 of annual products. Cotton goods manufacture is not proportioned to the immensity of the cotton growing, the amount reported being $13,920 000.

Texas leads in railroad mileage, having 16,125 miles in 1921, Houston being the most important railway centre, claiming 17 different lines. Transport is heavy to Galveston, the largest seaport of Texas, on the Gulf 50 miles from Houston, and to New Orleans with large tourist travel to and from the Pacific Coast.

Public school enrolment is about 1,125,000 for a population of 4,663,228 reported in the 1920 census. The University of Texas at Austin is well known and has authority in many lines of research, especially in geology. There are a dozen other well established higher institutions.

The percentage of illiteracy was reported at 8.3; native white, 3 Negro, 17.8, foreign-born white, 33.8. The 249,652 Mexicans are the largest body of foreigners, communication across the international boundary line being in peace time constant and extensive.

Texas is a strange mixture of the old West and the progressive new South, the cowboy remaining in the western parts, and the eastern cities taking on modernities, with steady tendency toward the upbuilding of industry.

In the recent troubles with Mexico, there has been much disturbance on the border, but normally now Mexico is a source of wealth and prosperity to Texas. Galveston, the chief port, is expected to develop much vaster commerce than its already large tonnage. Galveston has a wonderful concrete seawall as protection against the fearful tidal wave and hurricane which swept it more than 20 years ago, practically destroying the city.

In late years, an automobile route has been popularized through Texas to the Pacific Coast, and eiforts are making to improve the roads, not yet very facile for motor car passage.

In San Antonio, close to the border, the Alamo, a fortress defended to the death by the Texas patriots, is the chief point of interest to tourists, and in various places the visitor is shown battlefields on which the Lone Star State won freedom from Mexico.

## UTAH.

*Area, square miles.....84,990.....10th in rank*
*Population, 1920.....449,396.....40th in rank*

Utah, of the Mountain group of the Far West, is bounded on the north by Idaho and Wyoming, on the east by Colorado, on the south by Arizona, and on the west by Nevada. It has several mountain ranges, which attain up to 12,000 feet elevation (the highest peak, Kings Mountain, 13,498 feet), the greater part of the State being a plateau 6,000 feet above sea level. The rivers are useful only for irrigation, more than 1,300,000 acres being under water. The Great Salt Lake, salt being 20 per cent. of the fluid content, is in the northwest part, altitude 4,218 feet, and has no known outlet. The climate is dry, stimulating and wholesome, warm in summer, rather cold in winter, and the sky so clear that no cloud specks it on 300 days a year.

The value of all crops in the Census of 1920 was $87,890,000, of which hay and forage led, with $24,583,000, mostly alfalfa. All the temperate zone cereals are produced. Emphasis is placed on forage crops.

The fruit production ranges from temperate to sub-tropical zone varieties, which latter grow in the southern tier of counties.

The wool clip in the 1920 census was 11,690,239 pounds.

Mineral resources are most varied, including gold, silver, lead, manganese, copper, gypsum, petroleum, sulphur, zinc, salt and coal, the State ranking third in copper. The total value of mineral output given in 1920 was $45,169,328. Coal was mined, 5,800,000 tons.

Production of uranium and vanadium, especially valuable, is the second in the Union.

Semi-precious stones are taken in large quantities, and a high grade of marble and onyx for building is quarried.

The manufactures consist mostly of smelting and refining of lead and copper, and the making of beet sugar, sugar beets being raised worth $10,048,611, for 930,427 tons. Manufactures are mostly in Salt Lake City and Ogden. The number of establishments was given as 1,159, capital, $143,366,000, wages paid $21,396,000, and value of all products, $156,804,000, for a population of 449,396, of which 48 per cent. was urban.

Railroad mileage, 1921, was 2,161.

Illiteracy is low, at 1.9 per cent.; native white three-tenths of 1 per cent., foreign-born 6.3, there being 56,455 of foreign birth, English most numerous. About 100,000 attend the schools, and higher educational institutions are becoming numerous and well established.

The distinguishing feature is the Mormon Church, the Latter Day Saints, as they call themselves, numbering three-fourths of all church membership. The Mormons came originally to Utah from the Midwest, being driven out by persecution, and journeyed to the territory when it was almost completely a wilderness, subduing it and building a social formation based on the domination of the Mormon Apostles and Bishops, with close interrelationship between church and government, the tithing system being adopted.

Salt Lake City, the capital, has several celebrated structures built by the church, among them the great Tabernacle and the Temple.

The "Great American Desert" lies in the northwestern corner of Utah, reaching over into Nevada.

## VERMONT.

*Area, square miles.....9,564.....42d in rank*
*Population, 1920.....352,428.....45th in rank*

Vermont, a New England State, is bounded on the north by Canada, on the east by New Hampshire, on the south by Massachusetts, and on the west by New York. Lake Champlain, more than 100 miles long, marks the western boundary line. The Green and Latonic Mountains cross the State. The climate like its topography is rugged and characteristic of the north.

The 1920 census gives $47,999,600 as the value of all crops, and $168,159,000 as the value of all manufactures. Vermont has the largest value of dairy products per capita in the Union, the value being returned as $27,152,954, and it leads all States in the production of maple sugar. Agricultural production takes a wide range, including even tobacco, and covers all the cereals suitable to the zone, with considerable fruits, apples predominating.

Known as "The Green Mountain State," its chief mineral wealth is in its quarries, leading all States in output of granite (value, 1919, $3,563,734), marble (value, 1919, $2,108,872), asbestos and talc, its granites and marbles having gained Nation-wide markets, some of the most celebrated buildings having been erected with them.

Railroad mileage, 1921, was 1,076.

Vermont is a popular resort in the summertime for persons from all Eastern cities, the mountain scenery being beautiful, and a system of roads being now in process of building up to modern standards. The shores of Lake Champlain, for 100 miles, afford excellent boating, and the area of the State teems with historic interest, having been the theatre of many battles in the former wars.

The illiteracy percentage is 3; native white 1.5, and foreign-born 11.3. Of the total population of 352,428 reported in the 1920 census, foreign-born numbered 44,526; Canadians, 24,868.

The University of Vermont and Middlebury College are the leading institutions of learning.

Vermont was the first State admitted after the adoption of the Federal Constitution.

## VIRGINIA.

*Area, square miles.....42,627.....33d in rank*
*Population, 1920.....2,309,187.....20th in rank*

Virginia, one of the South Atlantic, and one of the Thirteen Original States, is bounded on the north by West Virginia and Maryland, on the east by Maryland and the Atlantic Ocean, on the south by North Carolina, and on the west by West Virginia and Kentucky. Part of its original territory was taken in 1863, during the Civil War, to form West Virginia. On its eastern side, the great waterway, Chesapeake Bay, cleaves the State, cutting off a small portion between which and the main portion is the entrance past the Capes to the bay, and there are many rivers which flow into the bay, with navigation up the James, the York, the Rappahannock and the Potomac.

The topography is varied, beginning with the low lying lands along the coast, known as Tidewater Virginia, rising to an extensive tableland in the central part, and finding mountain elevations up to 5,700 feet in the west. In the northwestern corner is the rich Shenandoah Valley. The Potomac River bounds the State on the north, making off from the bay. The mountains are the Alleghanies, the Shenandoahs and the Blue Ridge. The climate is as varied as the topography, characteristic in each portion, cool in the higher elevations and rather warm in the lower.

Fundamentally, Virginia is agricultural, its manufacturing being based on utilization of the soil products and some of the minerals, with which the State is well endowed.

Railroad mileage in 1921 was 4,703.

The 1920 census gives $292,824,260 as the value of all crops, Virginia being the third State in tobacco production, with 102,391,226 pounds, the culture of the plant having been first done by whites at Jamestown 300 years ago. The temperate zone grains, vegetables and fruits are grown in profusion. The corn crop was reported as 44,800,000 bushels, with peanuts, 5,282,000 bushels, the third largest in the Union.

Livestock husbandry has been in late years emphasized especially, effort being exerted to bring in pure blood strains. Much of the progress in this line is due to the incoming of many Northerners, who have taken over rural estates to obtain the social advantage of the delightful country life of the Old Dominion State, which was of the flower of the old time era of the cavaliers.

The manufactures have an ouput running at more than $300,000,000, and are growing in importance. Cotton goods especially are becoming great in volume, the mills having about 600,000 spindles, Virginia using much more raw cotton than it produces. The lumber cut averages about 800,000,000 feet, and is unusually varied, including yellow pine, oak, gum, hemlock, cypress, chestnut, yellow poplar, cedar, tupelo, basswood, hickory, and walnut.

The tobacco and cigarette factories send their finished product across the earth, besides which large quantities of tobacco are sent to England and other European countries for manufacture there into cigarettes, cigars and smoking tobacco.

Manufacturing also comprehends extensive canning of fruits and vegetables, leather, coke, sawmill machinery, woodenware, pig iron, clothing, implements, silk and knit goods.

Mineral output includes coal, the State ranking ninth, with 9,500,000 tons; iron ore output, these figures from the 1920 census, being 320,000 tons, with all the basic crude minerals also produced, including large supplies of building minerals, and with salt, copper, lead and zinc produced. The mineral output averages about $50,000,000 for 35 kinds mined.

In Hampton Roads the United States maintains a great navy yard, as the principal rendezvous of the navy, utilizing the James River as a chief anchorage.

In Newport News, on the James River, an extensive shipbuilding plant constructs vessels of many types, including warships of heaviest tonnage.

Norfolk has large shipping interests, and is one of the principal centres for the manufacture and distribution of land fertilizers.

Fortress Monroe, on the peninsula between the James River and Chesapeake Bay, has strong, modern fortifications, commanding all adjacent waters.

Near the fortress, large hotels, maintained for many years on Government-owned lands, have been mined for instant blowing up in the event of war, to remove obstruction to the range of the big guns.

The illiteracy percentage is 11.2, Census of 1920; native white, 5.9; foreign-born, 7.1; and Negro 23.5. The Negro constitutes 29.9 per cent. of the population, having fallen from 32.6 per cent. in 1910. As to illiteracy, no State offers a wider range of gradations, the older families showing very low percentage, and the mountain regions very high.

In higher educational institutions, Virginia ranks among the foremost States, having such well-known establishments as the University of Virginia, founded by Thomas Jefferson, at Charlottesville, from which many men famous in history have been graduated; Washington and Lee University at Lexington; William and Mary College, the oldest in the United States, at Williamsburg; Virginia Polytechnic at Blacksburg; Virginia Military Institute at Lexington; Hampden-Sidney College at Hampden-Sidney, and Hampton Normal School at Hampton, the first well developed school for Negroes established in the South. More than 500,000 attend the public schools.

The "Old Dominion," first in population of the States until 1820, prides itself on its Revolutionary heroes, its five Federal Presidents, and its social prestige. It was the theatre of the decisive campaign in which the Civil War ended with the surrender at Appomattox of General Lee, head of the Confederate armies.

## WASHINGTON.

*Area, square miles.....69,127.....19th in rank*
*Population, 1920.....1,356,621.....30th in rank*

Washington, of the Pacific (Northwest) group, is bounded on the north by British Columbia, on the east by Idaho, on the south by Oregon, and on the west by the Pacific Ocean. It has the Columbia River as southern boundary line for 300 miles from the west, and many streams of importance, mostly for irrigation uses, with the Snake River in its eastern reaches. In the northwestern third of the State the great Puget Sound, with tortuous shores and innumerable harbors, on which Seattle, Tacoma, Everett, Olympia and other important cities are situate, is not excelled as a commercial terminus for rail and water.

The Cascade Mountains cut the western third from the State's area, with the usual lower mountain range nearer to the ocean shores. A dozen peaks, snowcapped, rise in the west. Mt. Rainier or Mt. Tacoma (according to which city you may be in

at the moment) is a beautiful attraction with its 14,408 feet of height, now a national park, and the Olympic range in the northwest is surpassingly beautiful.

Standing timber is about 330,000,000,000 feet; Douglas fir, yellow pine, white pine, spruce, larch, cedar and other trees abound. Normally, the State cuts more than 4,000,000,000 feet, leading all the States, and shipping the product all over the world, much coming to the North Atlantic States via the Panama Canal, and going by rail to the Central West, while Washington shingles are used throughout the whole northern half of the country.

The trees are magnificent, like those of Oregon, and with that State Washington leads all others in amount of timber remaining.

Agriculture is developing rapidly. All crops reported in the 1920 census were valued at $227,-212,000, and included all the cereals, vegetables, forage crops, and the fruit production is famous, the irrigated sections all the way from the south to the very border of Canada being prolific and yielding products demanded in all Eastern fruit markets Every variety known to the temperate zone is produced; the fruit and nut crop, 1920 census, was worth $51,662,000, apples alone being worth $38,-823,000.

The geology is the same as that of Oregon—arid and semi-arid lands in the east, interspersed with fertile portions, and in the west much rainfall with resultant profusion of vegetation.

East of the Cascades most of the wheat is grown, the crop being 41,837,000 bushels, with many sheep, cattle and horses. "Horse Heaven" is located on the banks of the Columbia in Eastern Washington. The wool clip runs above 5,000,000 pounds. The livestock interest is mostly in the east, where the great ranges are, with mild winters in the valleys, with winter grazing.

The 1920 figures on manufactures showed 4,918 establishments, employing 150,479 persons, with $574,235,000 of capital, outputting $809,622,000 of products, lumber and timber leading with $220,-512,000, steel shipbuilding next with $140,980,000, flour milling with $81,141,000, and meat packing with $34,398,000; wooden shipbuilding and boat building yielding $25,539,000. Forty-five other lines had more than $900,000 of annual production.

All the basic minerals are present, coal being produced in considerable quantity (value 1919, $10,737,656) and gold, silver, lead and zinc also.

Shipping is very extensive from Puget Sound ports to the Orient, and coastwise via the Panama Canal, and the bulk of the shipping to and from Alaska is handled on Puget Sound, which, in the years of the great Klondike goldfields rush, made of Seattle and Tacoma scenes of feverish activity. The salmon fisheries of the Washington sea waters are very extensive.

Railroad mileage, 1921, was 5,587.

In illiteracy, the State has a percentage of 1.7; native white, 3-10ths of 1 per cent.; foreign-born, 4.7. Foreign-born number 250,055, being 18.4 per cent. of the population, of which Japanese and Chinese are numerous.

About 300,000 attend the public schools, and the State University at Seattle, with several well established colleges, provide ample higher educational facilities.

The shores of Puget Sound are very popular as summer resorts, with many hotels and cottage colonies, while steamer tourist travel to and from Alaska is extensive.

## WEST VIRGINIA.

*Area, square miles.....24,170.....40th in rank*
*Population, 1920.....1,463,701.....27th in rank*

West Virginia, of the South Atlantic group, was set off from the original State of Virginia. It is bounded on the north by Ohio and Pennsylvania, on the east by Pennsylvania, Maryland and Virginia, on the south by Virginia and Kentucky, and on the west by Kentucky and Ohio.

It is essentially mountainous, the Appalachian range having several spurs therein. Its western parts drain into the Ohio River, and its eastern portions down the Potomac River to the Atlantic Ocean. The mountains are in the east. The climate is moderate, and between the north and south extremes.

Mining is the leading activity, the State ranking second in the production of coal, with 75,500,000 tons as the production reported in the 1920 census. Some of the finest steaming coal in the world is produced, especially the Pocahontas. It ranks first in output of natural gas, gaining about $40,-000,000 annually therefrom. In petroleum output it ranks eighth. All of the base minerals are present in abundant supply, and the total mineral output runs above $200,000,000. It is in West Virginia that for years industrial disturbances have upset production and affected political and social conditions, being now the subject of Federal inquiry that final settlement may be effected amicably to both sides.

West Virginia produces more hardwood than any other State, excepting Arkansas, and has vast timber wealth, including yellow poplar, birch, ash, oak, spruce, hemlock and walnut.

Its agriculture is not so important, total value of all crops reported in the 1920 census being $96,-537,000, the leading crops being corn, hay, tobacco, potatoes, and fruits of all kinds suitable to the zone.

Its transport by water is abundantly served with the Ohio River on the west. Railroad mileage, 1921, was 3,996.

Its illiteracy percentage is 6.4; native white, 4.6; Negro, 15.3; and foreign-born, 24. Negroes are 5.9 per cent. of the population, and foreign-born 4.2. Public school enrolment was reported at 360,000, and there are many colleges, church denominational schools being numerous; industrial schools also.

In recent years many Northerners have gone to the State to take country homes in the mountains. White Sulphur Springs in the eastern part is one of the most celebrated pleasure resorts, popular socially, and with a famous golf course on which some of the greatest golfers have played.

## WISCONSIN.

*Area, square miles.....56,066.....25th in rank*
*Population, 1920.....2,632,067.....13th in rank*

Wisconsin, of the East North Central group, is bounded on the north by Lakes Superior and Michigan, on the east by Michigan and Lake Michigan, on the south by Illinois and Iowa, and on the west by Iowa and Minnesota. The Mississippi River forms the southern half of the western boundary line. It has the characteristic climate of the northern tier of States, cold in winter and pleasant in summer, dry and stimulating.

The value of the total manufactured product at about $1,000,000,000 exceeds that of all crops reported in the 1920 census at $445,347,868, although its agricultural activities are vitally important and thorough, a large proportion of foreigners from thrifty countries having attained high grade tillage. The mineral production also is large.

Railroad mileage, 1921, was 7,554.

Everything grown in the north temperate zone is produced, in grains, vegetables and fruits, agriculture being especially well diversified—corn, wheat, rye, barley, hay, flaxseed, potatoes, sugar beets, with considerable quantities of tobacco for cigar wrappers, hops, peas, sorghum and maple syrup. More peas are canned than in any other State, and more hemp raised. The grape production is very large, and the output also of cranberries, apples, cherries and plums.

Manufactures include the most lumber cut in the Great Lakes region. The State has the most creameries of any State, refines much beet sugar, makes much woodwork and implement products, considerable pig iron output, ranks fifth in zinc production, fourth in iron ore output, the valuable hematite kind chiefly, and the fisheries on the lakes are highly productive, the whitefish being highly valued.

The story of Wisconsin forests, as of all of the Lake States, is tragic. Naturally, almost the entire State was covered with pine, hemlock, and the invaluable hardwoods. Lumbering proceeded without regard to conservation, until more than 8,000-000,000 feet were cut annually; production on account of the exhaustion of the supply then falling off, until the 1920 census reported the cut as 1,275,-000,000 feet, with an estimated stand remaining of about 2,500,000,000 feet. There are therefore enormous areas of now useless cut-over forest lands, with comparatively scattered timber tracts left.

Superior, at the head of Lake Superior, opposite Duluth, is the main terminus of the Great Northern Railway, and has great ore, lumber, wheat and coal dockage, with considerable manufacturing of iron products.

Of the 2,632,067 population shown by the 1920 census, the number of foreign-born was 460,128, or 17.5 per cent., Germans numbering 151,250.

The percentage of illiteracy was 2.4, against 3.2 in 1910. The native white illiteracy in 1920 was 7-10ths of 1 per cent.; foreign-born, 8.4; Negro, 4.1.

The University of Wisconsin at Madison is especially far advanced in sociologic research, domestic science and the practical arts. The 1920 matricula-

tion was 10,155, including the summer school; and a correspondence course is conducted by which 15,554 persons are instructed. There are besides many colleges and smaller schools.

Wisconsin has been and is the scene of intense political battles and advanced social experiments, of which Robert Marion La Follette has been the leader, as Governor and United States Senator. It has a large percentage of foreign-born and foreign-extracted population, with numbers of Socialists.

The Great Lake shores contain many pleasure resorts, while the smaller lakes of the State are also popular with summerers, fishing being prime, and hunting in the fall.

## WYOMING.

*Area, square miles.....97,914.....8th in rank*
*Population, 1920.....194,402.....48th in rank*

Wyoming, a Mountain Group State, is bounded on the north by Montana, on the east by North Dakota and Nebraska, on the south by Colorado and Utah, and on the west by Utah, Idaho and Montana. It is a lofty region, its mean elevation about 6,000 feet—a broad plateau traversed by the Rocky Mountains, highest point of which is Mt. Gannett, 13,785 feet. Topography is varied.

Its waters flow in all directions, drainage by the Green River to the southwest, by the Yellowstone and Snake Rivers to the northwest, by the Big Horn to the north, and by the North Platte, Sweetwater and Laramie Rivers to the southeast, none of them navigable. The river waters are however valuable for irrigation, more than 1,200,000 acres being actually under irrigation, and an area of nearly 2,700,000 acres being included in irrigation projects which are under construction.

The climate is that of the rarefied air of high elevations, and is salutary, with severe winters and pleasant summers, moisture precipitation being low at about 12 inches mean annually.

With less than 200,000 population reported in the 1920 census more than $50,000,000 was assigned as the value of all crops, hay the leader, mostly alfalfa, and corn, potatoes, oats, wheat, rye and barley also produced.

Stock raising is the most important industry, sheep husbandry being the second in rank in the United States, the wool clip reported at 33,000,000 pounds.

Mineral resources are extensive, coal production, 1920, 8,928,000 tons; copper of considerable quantity, and petroleum high with 16,500,000 barrels. Petroleum stores are known to be very great. Gold, silver, iron ore, platinum ore and all the base minerals abound, with vast development assured for the future.

Manufactures are practically all for home consumption.

Railroad mileage, 1921, was 1,931.

The 1920 census reported the percentage of illiteracy as 2.1; native white, 3-10ths of 1 per cent; foreign-born, 9. There were 25,255 foreign-born, mostly from Europe.

The 1920 school enrolment was 47,553. The University of Wyoming at Laramie had 913 students.

The Yellowstone National Park in the northwest corner is one of the world's most famous resorts for the tourist; its giant geysers, waterfalls and high coloration of the rugged gnarled rocks attract heavy travel from all parts of the country and from foreign lands.

The ranch life retains much of the old time flavor of the West, and many Easterners go there to enjoy it. The annual cowboy roundup at Cheyenne attracts many.

## ALASKA, TERRITORY OF

AREA, 590,884 square miles (including the Aleutian Islands).

POPULATION, Census of 1920, 54,899 (27,883 whites 26,421 Indians and Eskimos).

CAPITAL, Juneau, population, 1920, 3,058.

*Governor*, Scott C. Bone, 1921-24, appointed June, 1921.

*Consuls* maintained at Juneau by Norway; at Nome by Russia (Consul General) and Sweden; at Skagway by Great Britain.

Alaska occupies the northwestern part of the North American continent. It is bounded on the north by the Arctic Ocean, on the west by the Arctic and Bering Sea, on the south by the North Pacific Ocean and on the east by Canada. From the southwestern corner the Aleutian Islands stretch out westward 1,200 miles to longitude 172° E. Cape Wrangell, facing Siberia. Bering Strait, 54 miles wide, separates the mainland of Alaska from Asia. The "Panhandle" runs southeast 600 miles along the Pacific to Dixon Inlet, and includes all the islands, the boundary with Canada along the mountain crests being fixed by arbitration in 1903, international survey completed, 1913.

Alaska, then, sparsely colonized by Russian trappers and Indian traders, was bought from Russia by Secretary W. H. Seward, by the treaty of March 30, 1867, for $7,200,000. It was made a Territory by the act of Aug. 24, 1912, which gave it a Legislature elected by direct vote and a Governor, appointed for four years by the President. Congress reserves the right to legislation on certain subjects.

Alaska is mountainous with high plateaus; the coast range extends through the southern part, the chief peaks being Mt. St. Elias (alt. 18,024 ft.), Mt. Wrangell (14,005 ft.) and further inland Mt. McKinley (20,300 ft.), the highest peak on the North American continent. There are more than a dozen active volcanoes, notably Mt. Katmai now with the "valley of 10,000 smokes" a national monument. Mt. Katmai which had been dormant, suddenly blew the top of its head off June 6, 1912—one of the greatest eruptions in history. The mountains and the Sitka district are densely timbered, mainly coniferous, but the islands are treeless. The most notable glaciers are the Muir, Malaspina and Seward. The Yukon is the chief river, 2,000 miles long, navigable for about 1,800 miles. The length of the coast line is about 4,750 miles, including islands 26,364 miles. There are many excellent harbors, one Dutch Harbor, Unalaska Island, being of great naval importance.

There is great diversity in climate. In the interior a temperature of 60° below zero in winter is not unusual, with a temperature of 90° in the summer, but on the coast owing to the Japanese current the thermometer rarely falls below zero in the winter with a maximum of about 80° in the summer. Rain there is abundant. All the hardier vegetables and the cereals, except corn, thrive during the short summer with its long hours of sunlight. Of the 378,165,760 acres the census of 1920 reported 90,652 in 364 farms, 5,836 acres only being under cultivation.

Reindeer were introduced from Lapland and from Siberia to insure the support of the Eskimos by the Government, which brought in 1,200 head between 1892 and 1902. These increased under careful handling to 22,107 in 1910, 92,933 in 1920 (valued at $2,238,562) and (estimated) 216,000 in 1922. Some reindeer meat has been successfully exported. Fur farming also is on the increase, especially of foxes, the export of fox skins in 1919 being about $800,000. The killing of seals on the Pribilof Islands having been brought under control in 1910 and pelagic sealing prohibited by treaty in 1911, the seal herds have increased from 215,000 to 524,000 in 1919; 1919-20, 30,198 dressed sealskins, valued at $1,509,600, were shipped to the United States. The shipment for 1920-21 was 24,859, valued at $995,660, and for 1921-22, 26,293, valued at $1,005,175.

Fishing is an important industry; in 1920, 788 vessels were engaged in it; 27,482 persons were employed, $70,986,221 capital was invested and the value of the products was $41,492,124. The salmon pack weighed 211,004,976 pounds, valued at $37,050,212.

Since the discovery of gold at Juneau in 1880 (the great Klondike rush through Skagway into Canadian territory and the Upper Yukon began in 1896) up to January, 1921, Alaska has produced $320,000,000 of gold, nearly two-thirds of it from placer mines. Copper ($127,000,000) and other metals produced bring the total yield up to $460,000,000. The U. S. Geological Survey estimates the value of the placer gold reserve to be at least $360,000,000, this in addition to gold in veins that could not be estimated. There are large coal deposits, which are not yet fully developed. The coal by U. S. Navy has been found equal in steaming value to Pocahontas coal.

Congress in 1914 authorized the building of a railroad not to exceed 1,000 miles in length. The line is in operation from Seward to Fairbanks, 467 miles; with spurs to coal mines that brings the total up to 521 miles. The cost at wartime prices exceeded $52,000,000. The rest of the system it is expected will be finished in 1923.

Merchandise passing through the port of Juneau to and from foreign countries was:

| Fiscal Year. | Exports. | Imports. |
|---|---|---|
| 1920-21 | $1,627,579 | $1,099,161 |
| 1921-22 | 1,441,310 | 1,202,535 |

Alaska's commerce with the United States for the last three fiscal years, ending June 30, was:

| Fiscal Year. | Exports to U. S. | Imports from U. S. | Gold Shipments. |
|---|---|---|---|
| 1919-20.... | $66.498,871 | $33,998,462 | $8,793.085 |
| 1920-21.... | 54,126,718 | 27.333,972 | 7,072,114 |
| 1921-22.... | 36,775 810 | 23,625,161 | 6.881.020 |

## HAWAII, TERRITORY OF

AREA, 6 449 square miles (Hawaii, 4,016 square miles: Oahu, 598: Maui, 728; Kauai, 547; Molokai: 261: Lanai. 140; Niihau. 73; Kahoolawe, 44, Molokini, 2.7).

POPULATION. Census of 1920, 255 912.

CAPITAL, Honolulu, population, 83,327; other city, Hilo 10,431.

*Governor*, Wallace R. Farrington (1921-24) assumed office, July 5, 1921.

*Consuls* are maintained at Honolulu by Belgium, Brazil, Chili, China, Denmark, France, Great Britain Italy, Japan (Consul General), Mexico (vacant), The Netherlands, Norway, Panama, Peru, Portugal, Russia, Spain (vacant), and Sweden (vacant).

The Hawaiian Islands—the crossroads of the Pacific—are twenty in number of which nine are inhabited, lying in the North Pacific Ocean in longitude 154° 40′—160° 130′ west, latitude 12° 16′—18° 55′ north, and more than 2,000 miles from the nearest mainland. The group extends for 390 miles from northwest to southeast. San Francisco is distant 2,089 miles: Panama, 4,640; Auckland, N. Z., 3,800; Manila, 4,350; Hongkong, 4,950; and Yokohama, 3,440.

The islands are mountainous and volcanic in origin, filled with extinct craters, Haleakala on Maui being the largest in the world. On the island of Hawaii is Mauna Kea (altitude 13,823 feet) quiescent, and Mauna Loa (altitude 13,765 feet) active. Sixteen miles east of the latter is the largest active volcano in the world, Kilauea (altitude 4,400 feet) with its "pit of eternal fire." The last eruption was in March, 1921, and the island is scarred with many vast lava flows.

The islands are clothed with luxuriant tropical vegetation; with abundant rainfall and cooled by the prevailing northeast trade winds the climate is perpetual summer without enervating heat. The higher elevations of the mountains are covered with forests. and 820,000 acres are set apart as a forest reserve. The soil is very fertile and all tropical and sub-tropical fruits and vegetables are grown. The farms number (1920) 5,284, valued at $151,-129,085, with 2,702,245 acres, of which 435.242 were improved and 599,531 in woodlands. Of the 5,284 farmers 892 were white (627 owners) 679 Hawaiian (546 owners), 3,098 Japanese (188 owners, 11 managers, and 2,899 tenants), and 560 Chinese (56 owners, 7 managers, and 497 tenants). In 1919 29,571,845 pounds of rice were produced and 19,-883,650 pounds of coffee; 86 farms reported (1920) 1,407 breadfruit trees that produced a crop of 101,268 breadfruit. Banana cultivation has been pushed, 160,953 bunches being produced in 1919.

The largest industry of the islands is the growing of sugar cane and the production of raw sugar. The value of the sugar produced in 1919 was $80,-236,000, from 123.165 acres. The yield per acre is larger than any other country; about five tons of sugar per acre on an average; irrigated land yielding 70 per cent. more than unirrigated. The employees on the sugar plantations, about 45,000 in number, of many nationalities, receive house fuel, water and medical attendance free and are paid a basic monthly wage and a bonus, which varies with the price of sugar. In 1920 the minimum basic wage was $20 and the bonus. extraordinarily large, was 276 per cent. of the wage. For 1921 the bonus was $30. Much welfare work is done.

The second largest industry is the growing and canning of pineapples. The product increased 1,094 per cent. in the 1909-1919 decade and in 1920 143,473,536 two-pound cans valued at approximately $31,000,000 were produced. About 46,000 acres are under cultivation.

Hawaii exported to the United States in 1921 raw sugar valued at $46,693,305 and canned pineapple, $19 905,416. Imports from the United States were chiefly iron and steel manufactures, mineral oil, breadstuffs, meat and dairy products, lumber, textiles, etc., fertilizers, automobiles, rubber goods, leather and paper.

Honolulu, on the island of Oahu, is the capital and chief commercial city and port of the islands. It has a fine natural harbor which needs improvement and development. Its needs have been neglected by Congress which alone can appropriate the money for them. The customs receipts Federal income and other taxes paid to Washington by the Territory amount to about $25 000,000 yearly. The Federal Government maintains a large army post on the islands with quarters for a division of 30,000 men at Schofield Barracks and the subsidiary forts. The Navy Department has a large base at Pearl Harbor with drydock, opened Aug. 31, 1919. There are also a large aviation field and a powerful radio station.

Hawaii has an excellent system of roads, and in Honolulu much concrete construction is used. The islands have approximately 350 miles of steam railroads besides about 625 miles on the sugar plantations. In the fiscal year 1920-21, 1 001 ships with a tonnage of 6.008,689 entered the ports of the islands.

The native population of Hawaii at the time of the discovery has been estimated at about 200,000. With civilization it has dwindled and the race seems destined to disappear through intermarriage with other stocks rather than by deaths. Of the total population of 255,912 reported by the Census of 1920, there were, Hawaiians, 23,723; part-Hawaiian, 18,027; Portuguese, 27,002; Porto Rican, 5,602: Spanish, 2 430 other Caucasian, mostly American, 19 708: Japanese, 109,274; Chinese, 23,507; Filipino, 21 031; Korean, 4.950; Negro. 308.

Hawaii came under the influence of American missionaries in 1820, and a large proportion of the natives embraced the Christian faith. The impetus given to education was great, and elementary education has always been free. The language in general use in the schools is English. The Japanese have many so-called Buddhist schools. which their children attend in addition to the American schools. The school plants, both public and private, are of very high order. The University of Hawaii is State supported. The Bishop Museum at Honolulu is a scientific institution of the first order devoted especially to the preservation of the life of the native Hawaiians and to the study of the ethnology of Polynesia.

Pan-Pacific conferences on vital matters have been promoted during the last three years with great success; and the islands are yearly welcoming increasing numbers of tourists, being well favored with steamship communication.

The Hawaiian Islands were discovered by Capt. Cook in 1778, and there he met his death on his second visit in 1779. King Kamehameha brought the islands under one rule in 1791. The rule of his dynasty, which became a constitutional monarchy in 1840, ended when a revolution drove Queen Liliokalani from the throne in 1893. An attempt to secure annexation to the United States failing, a republic was proclaimed, July 4, 1894. On the outbreak of the Spanish-American War Hawaii was annexed to the United States by a joint resolution of Congress, July 7, 1898, and created a Territory by the act of April 30. 1900.

The chief executive officer of the Territory of Hawaii is the Governor, who is appointed by the President with the approval of the Senate for a four-year term, and who must be a resident of the islands in order to be eligible for appointment. The Territorial Secretary is appointed in the same manner, but the heads of the Territorial departments are appointed by the Governor, with the approval of the Territorial Senate.

The Legislature of Hawaii consists of the Senate of 15 members, elected for four-year terms; and the House of Representatives, of 30 members, elected for two-year terms. The Delegate to Congress is elected every two years, and has floor privileges in the House, but no vote.

The judiciary consists of a Supreme Court, four Circuit Courts and numerous District Courts. The Justices of the Supreme Court and Circuit Courts are appointed by the President, with the approval of the United States Senate.

Hawaii's commerce with the United States is as follows:

| Fiscal Year. | Exports. to U. S. | Imports. From U. S. |
|---|---|---|
| 1919-20..... | $142,246,003 | $59,261,621 |
| 1920-21..... | 127,692,879 | 77,324,114 |
| 1921-22..... | 68,335,073 | 51,581,621 |

The revenue of the Territory is derived from real and personal taxation, etc. For the fiscal year 1920-21 the receipts were $9,553,450, expenditures, $8,338,041, with a cash surplus of $4,392,557.

# Dependencies of the United States.

## THE PHILIPPINE ISLANDS.

AREA, 114,400 square miles.

POPULATION, Census of 1918, 10,350,730.

CAPITAL, Manila, (Luzon), pop. 1918, 283,613 (summer capital Baguio, pop. 5,462) other cities, Cabu, pop. 65,300; Albay (Luzon), pop. 53,105; Iloilo, (Panay), pop. 47,808; Batangas (Luzon), pop. 41,182; Ormoc (Leyte), pop. 38,247; Laoag (Ilocos Norte), 38,294; Baybay (Leyte), pop. 36,934.

*Governor General*, Major Gen. Leonard Wood, appointed February, 1921; assumed office Oct. 5, 1921; resigned, to take effect Jan. 1, 1923.

*Consuls General* maintained at Manila by China, Great Britain, Japan, Mexico, The Netherlands and Spain. *Consuls* maintained at Manila by Argentina, Belgium, Brazil, Chile, Denmark, France, Italy, Liberia, Mexico (vacant), Nicaragua, Norway, Peru, Portugal, Russia, Sweden and Switzerland; at Cebu and at Iloilo by Great Britain, The Netherlands, Norway and Spain.

The Philippine Islands, the largest island group in the Malay Archipelago, were discovered by Magellan in 1521 and conquered by Spain in 1542; they were ceded to the United States by the treaty of Paris (Dec. 10 1898) following the Spanish American War. Admiral Dewey had destroyed the Spanish fleet in Manila Bay, May 1, 1898, and Major Gen. Wesley Merritt had captured the City of Manila on Aug. 13, 1898.

The land area of the islands lies between 21° 10′ and 4° 40′ north latitude and between 116° 40′ and 126° 34′ east longitude. There are 7,083 islands extending 1,152 statute miles from north to south and 682 miles from east to west. Of this number 462 have an area of 1 square mile or over; 2,441 are named and 4,642 unnamed. The largest, Luzon, contains 40,814 square miles, and Mindanao, the next, 36,906. Panay has 4,448, Cebu, 1,695; Palawan, 4,500; Mindoro, 3,794; Bohol, 1,534; Masbate, 1,255 Between and about lie the other groups including the Sulu or Jolo Islands in the south, the Babuyanes and Batanes in the north, the Catanduanes in the east, Culion in the west. Population by the Census of 1918 was 10,350,730, of which all but about 62,000 were Filipinos. There were 5,776 Americans, 43,802 Chinese, 7,806 Japanese, 3,945 Spanish, 1,148 Britons, 286 Germans, 182 French, 125 Swiss. In Manila in 1918 there were 3,124 Americans.

The archipelago has a coast line of 11,444 statute miles which exceeds that of the entire United States. There are 21 fine harbors and 8 landlocked straits, the principal being Manila, Subic, Batangas, Tayabas and Hondagua, Iligan, Iliana, Nasipit, Sibuguey, Sarangani Bays; the Gulfs of Lingayen, Ragay, Lagonoy and Davao, and the San Bernardino, San Juanico, Surigao and Basilan Straits and the Verde Passage. Manila Bay, with an area of 770 square miles, and a circumference of 120, is the finest in the entire Far East It is a roadstead in all parts of which vessels can anchor, but a breakwater has been constructed for vessels to shelter behind in bad weather. Manila, Cebu, Iloilo, Zamboanga, and Jolo are the ports of entry.

The extensive mountain system of the Philippines belongs to the succession of volcanic ranges of the Pacific system of the world's surface. There are 20 more or less active volcanoes. Mount Apo (Apo means master), 9,610 feet, in Mindanao; Mayan Volcano, 7,943 feet, in Albay; Taal, 984 feet, in Batangas; Canlaon, 7,995 feet, in Negros; Banajao, or Majayjay, 7,144 feet, are the most famous of these. Other high mountains are Pulog, 9,580 feet. Halcon 8,481 feet; Malingdang, 8,560 feet: Santo Tomas, 7,400 feet.

Nearly all the principal islands have important river systems. In Luzon are the Rio Grande de Cagayan, 220 miles long, which drains 16,000 square miles of territory, the Rio Grande de Pampanga, emptying into Manila Bay through a dozen mouths; the Agno, the Abra Bued, and the more familiar Pasig. The Rio Grande de Mindanao, 330 miles long, is the largest in the islands, and the Agusan, also in Mindanao, the third in size. Mindoro has 60 rivers and Samar 26.

November, December, January and February are the temperate months. The mean average temperature at this season is about 77° to 79° Fahrenheit. In April, May and June, the hot months, the mean average is between 83° and 84°. In the other months it is about 80°. The nights are seldom unpleasantly hot even in the hot season, and a temperature of 100° is a rarity in Manila. The mountain regions of the north are cool as September in the temperate zone. There are two seasons, the rainy and the dry. The rains are heaviest in July, August and September; lightest in February and March. The lowest average rainfall for the last twelve years for the whole archipelago was 60.73 inches in the driest region, the highest 125.68 in the wettest. Manila's average was 75.46.

The preamble of the Jones Act, passed by the United States Congress and approved Aug. 29, 1916, declared that "it has always been the purpose of the people of the United States to withdraw their sovereignty over the Philippine Islands and to recognize their independence as soon as a stable government can be established therein." On assuming office in March, 1921, President Harding sent Major Gen. Leonard Wood, and W. Cameron Forbes, (Governor General 1909-13) to the Philippines to make a complete survey of conditions. In their report they recommended among other things "that the present general status of the Philippine Islands continue until the people have had time to absorb and thoroughly master the powers already in their hands" and "that under no circumstances should the American Government permit to be established in the Philippine Islands a situation which would leave the United States in a position of responsibility without authority."

The Jones Act of 1916 abolished the Philippine Commission under which the islands had been governed under the act of July 1, 1902. It substituted as the Upper House of the Legislature a Senate composed of 24 members, and instead of the Assembly, a House of Representatives of 91 members, elected triennially. The Governor-General, who remains as the head of the Islands, is appointed by the President. All the Cabinet heads, except Education, are Filipinos. Senators are elected for six years.

The Philippine Archipelago is divided into 48 provinces, 11 special provinces and 2 chartered cities. The chief executive of a regular province is the Provincial Governor, who is an elective official. He, together with two other elective members, form the provincial board which constitutes the legislative branch of the provincial government. In the special provinces, with the exception of Mindoro, Palawan and Batanes, the Provincial Governors are appointed officials.

Of the 24 Senators only two—those from the Twelfth District, which is composed of the Mountain Province, the City of Baguio, the Province of Nueva Vizcaya and the Department of Mindanao and Sulu—are appointed by the Governor General; all the others are elected by popular vote; as are also the 91 Representatives, excepting the nine who represent the Mountain Province, the Province of Nueva Vizcaya and the Department of Mindanao and Sulu.

Filipinos have been admitted to the civil service in increasing numbers. On July 1, 1920, there were 20 Americans and 30 Filipinos acting as chiefs or assistant chiefs, and 760 Americans and 12,074 Filipinos connected with the Government.

The government of the towns is practically autonomous, the officials being elected by the qualified voters of the municipality and serving for three years. The officials consist of a President, Vice President, and Councillors, the latter varying in number according to population. Local municipal government has been instituted in about 873 municipalities and 312 municipal districts.

The administration of justice in the Philippines is intrusted to the Supreme Courts, the Court of First Instance, the Municipal Court of the City of Manila and the Courts of the Justices of the Peace.

There are 99 school districts in the islands. Among the special Government institutions are the Normal School, the School of Arts and Trades, the Nautical School, and the Central Luzon Agricultural School. There are provincial trade schools and ships. In 1919, in the public schools, there were scholars as follows: Primary, 347,839 males, 253,501 females; intermediate, 55,082 males, 27,935 females; secondary, 12,025 males, 3,942 females. There are 300 private schools with 38,500 pupils. The State supported University of the Philippines in 1921-22 had 4,718 students and the Dominican University of Santo Tomas (founded 1611) 701. The dominant religion is Roman Catholic.

The 1919 crop values of the islands were: Rice, $94,300,000; cocoanuts and products of, $37,200,000; sugar and products of, $37,200,000; abaca (hemp), $32,500,000; corn and products of, $18,800,000; tobacco leaf, $8,700,000; other and total, $230,800,000. Fruits and vegetables are not included in the above. Cocoanuts and tobacco are valuable products. In 1918 there were 603,000 cattle and

1,271,000 water buffalo (carabao). Virgin forests cover 40,000 square miles. There are 73,000,000 acres of public lands.

Under the act of 1919 any citizen of the Philippine Islands or of the United States over the age of 18 years, or the head of a family who does not own more than 59 acres of land in the Philippines may enter a homestead of not exceeding 59 acres of agricultural land of the public domain. Total homestead fee, $10. Any citizen of lawful age of the Philippine Islands or of the United States, and any corporation or association of which at least 61 per centum of the capital stock or of any interest in said capital stock belongs wholly to citizens of the Philippine Islands or of the United States, may purchase any tract of public agricultural land of not to exceed 247 acres in the case of an individual and 2,530 acres as a corporation or association.

During 1921, 871 foreign vessels with a tonnage of 2,646,455 entered the ports of the islands.

There were, in 1921, 778 miles of railroads, and 6,200 miles of public roads. The Manila Railroad Company has been taken over from the British owners by the Government and the line of the Philippine Railroad Company is about to be taken over. Silver, lead, zinc, copper, iron, coal, petroleum, asbestos and manganese are mined, as well as clay, marble, salt, etc. The islands are rich in mineral resources, but these are as yet undeveloped. The production exceeds $3,000,000 a year.

According to Dr. Merton Miller, former Chief Ethnologist, Philippine Bureau of Sciences, from the extreme northern end of the archipelago to its southernmost limits, with the exception of the few scattered Negritos, the people of the Philippines, pagan, Moro and Christian, are one racially. There is some reason for believing that they migrated into the Islands at two different times. But in all probability they came from the same general region and have a common ancestry. There are many different languages or dialects in the Philippines, but all are closely related to one another, the pronunciation and mode of speech vary but little from one section of the Philippines to another, and the majority of the words are common to two or more of the Philippine languages. These languages, whether spoken by pagan, Moro or Christian, belong to the great Malayo-Polynesian family, branches of which are found in Sumatra, the Hawaiian Islands, Madagascar and on many other islands between. The early immigrants into the Philippines were the Indonesians and the Malays and the blend of these two races characterizes the people of the Philippines to-day. This admixture of the Indonesians and the Malays has become so thorough that it is difficult to distinguish one group from another.

## PORTO RICO.

AREA, 3,453 square miles.

POPULATION, Census of 1920, 1,299,809.

CAPITAL, San Juan, population 70,707; other cities, Ponce, 41,561; Mayaguez, 19,069.

*Governor*, E. Mont Riley.

*Consuls* maintained at San Juan by Argentina, Belgium, Brazil, Chili, Colombia, Cuba, Denmark, Dominican Republic (C. G.), France, Great Britain, Guatemala, Haiti, Honduras, Italy, Mexico (vacant), The Netherlands, Norway, Panama, Peru, Portugal, Spain, Sweden, Uruguay and Venezuela.

Porto Rico is the fourth largest of the Greater Antilles, with the Atlantic Ocean on the north and the Caribbean Sea on the south. Santo Domingo is about 45 miles to the west, and St. Thomas 40 miles to the east. The island of Culebra, population 839, and Viequez, population 11,651, to the east, form part of the territory. It is 95 miles long (from east to west) and 35 miles wide, with a coast line of about 345 miles. The best harbors are at San Juan and Ponce. Through the middle of the island, from east to west, runs a range of mountains with an altitude of 1,500 to 3,750 feet, cultivable to the summits. The soil is extremely fertile and largely under cultivation. The lower lands to the north are well watered, but irrigation is needed in the south; an extensive system has been constructed by the Government. Sugar, pineapples, oranges, grapefruit, tobacco and coffee are the chief exports. Sugar production under modern methods increased from 35,000 tons in 1899 to 490,000 tons in 1921. Stock raising is an important industry. Valuable salt deposits are worked. Mineral production is under-developed. The climate is the most healthful of the Western Hemisphere in the tropics.

Porto Rico was discovered and named by Columbus in 1493. Ponce de Leon conquered it for Spain in 1509-11. It was conquered by Major Gen. Miles in the Spanish-American War and ceded to the United States by the Treaty of Paris, Dec. 10,

The years 1898 and 1899 are calendar; 1900 covers January 1 to June 30; 1901, and succeeding years are fiscal. Imports from the United States in 1899 included coin and bullion.

1898. It is administered under the Foraker Act, April 12, 1900, as amended July 15, 1909, and as extensively altered by the Jones Act, March 2, 1917, which extended American citizenship to all Porto Ricans, and granted manhood suffrage. The Governor is appointed by the President. The Legislature—a Senate of 19 members and a House of Representatives of 39—is elected for four years by direct vote. The Commissioner of Education, the Attorney General and the United States Judge are appointed by the President, and the five Supreme Court Justices and minor Judges by the Governor. The Governor appoints the executive leaders of the departments of Justice, Finance, Interior, Agriculture, Labor, and Health, subject to the approval of the insular Senate. The six heads of departments form the executive council. The island elects a resident Commissioner at Washington with a voice but no vote in the House of Representatives, for a term of four years.

The distribution of the population according to color in the Census of 1920 was: White, 948,709; black, 49,246; mulatto, 301,816; all others, 38. Education has been compulsory and free since 1899, when the percentage of illiteracy was 83; in 1920 it was 55. The Roman Catholic religion is dominant.

A commission from the Rockefeller Foundation reported that 90 per cent. of the people of the island were infected with uncinariasis (hookworm). The insular Commissioner of Health, himself a Porto Rican, wrote in 1920: "More than 70 per cent. of our population are in the country, badly housed and fed, ill in health, and ignorant of the first principles of hygiene." A great improvement, however, has been made in economic and social conditions during the last decade.

In 1920-21 there entered the ports 1,986 American and foreign vessels, tonnage 5,347,723. The island has 339 miles of railroads.

## VIRGIN ISLANDS OF THE U. S.

AREA, 132 square miles.

POPULATION, (Census 1917), 26,051.

CAPITAL, Charlotte Amalie (Isl. of St. Thomas). population, 7,747.

*Governor*, Capt. Sumner E. W. Kittelle, U. S. N.

*Secretary*, Lt. C C. Timmons, U. S. N.

*Consuls* maintained at St. Thomas by Belgium, Brazil, Colombia, Cuba, Denmark (vacant), Dominican Republic, France, Great Britain, Guatemala, Haiti (C. G.), Italy, Mexico, The Netherlands, Nicaragua, Norway (vacant), Panama, Peru, Portugal, Spain, Sweden, Uruguay and Venezuela.

The Virgin Islands of the United States, formerly the Danish West Indies, were bought for $25,000,000 by the United States from Denmark in a treaty proclaimed Jan. 25, 1917. The group consists of three islands, St. Thomas, population Census of 1917, 10,191; St. Croix, 14,901 and St. John, 959, with about 50 smaller ones, mostly unnamed, and uninhabited; and lies about 60 miles due east of Porto Rico. The language is English.

They are administered by the Navy Department under the organic act of Congress approved March 3, 1917. The Governor is appointed by the President of the United States. The Danish code of laws, dated April 6, 1906. remains in force so far as compatible. Six appointed heads of departments —Health, Judiciary, Public Works, Education, Supply, Police and Fire,—with naval aides make up the Governor's Cabinet. The islands comprise two municipalities, that of St. Thomas and St. John, with a legislative council of 11 members elected by popular vote and 4 appointed by the Governor; and that of St. Croix with a membership of 13 and 5 respectively. The municipal franchise extend to males of unblemished character, 25 years old, resident on the islands for 5 years and possessed of an income of 1,500 francs a year. The estimated revenue for the fiscal year ending June 30, 1921, was 1,409,868 francs, derived from customs. income tax and local taxes. The annual deficit in the operation of the government is made up by Congressional appropriation. Agriculture and cattle raising are the chief industries, and the islands produce the finest bay oil and bay rum in the world, exporting in 1919 about 60,000 gallons.

Charlotte Amalie has one of the finest harbors in the West Indies and is an important coaling and oil fueling station. The Naval Station St. Thomas has a powerful radio equipment. Education is compulsory.

The commerce of the Virgin Islands with the United States for the fiscal years ending June 30, 1921 and 1922 was:

| Fiscal Year. | Exports. to U. S. | Imports. from U. S. |
|---|---|---|
| 1920-21 | $3,571,787 | $4,162,949 |
| 1921-22 | 754,729 | 1,836,567 |

## AMERICAN SAMOA.

AREA, 57.9 square miles.

POPULATION, 1920, 8,324, including 266 Americans of the U. S. Naval Service.

CAPITAL, Pago Pago (Isl. of Tutuila), population, 8,056.

*Governor*, Capt. Edwin T. Pollock, U. S. N.

America Samoa, composed of the islands of Tutuila, Aunun, Ofu, Olosenga and Tau, and the uninhabited coral atoll of Rose Island, became a possession of the United States by virtue of the tripartite treaty with Great Britain and Germany in November, 1899, accepted by the United States, Feb. 13, 1900. The census of January, 1920, gives it a native population of 8,068. Pago Pago is the most valuable harbor in the South Pacific and possibly in the entire Pacific Ocean. It was ceded in 1872 by the native king to the United States for a naval and coaling station. For 1920 the exports were valued at $98,213 and the imports amounted to $235,293. American Samoa is extremely valuable in its relation to the expansion of American trade in the Pacific.

American Samoa is 4,160 miles from San Francisco, 2,263 miles from Hawaii, 1,580 miles from Auckland, 2,354 miles from Sydney and 4,200 miles from Manila. The natives can all read and write and are all Christians of different denominations. They are of the highest type of the Polynesian race and are greatly on the increase due to the laws forbidding foreigners buying their land.

Under the tripartite treaty of 1899, the United States owns Tutuila and the other islands of the Samoan group east of 171 degrees of longitude west of Greenwich. The Samoan Islands west of that meridian belonged to Germany until the World War. Under the 1919 peace treaty they were taken over by Great Britain and are administered by New Zealand.

The commandant of the United States Naval Station at Pago Pago is also the Governor of American Samoa. He is appointed by the President. There is a naval radio station on the island of Tutuila.

All of the land on the islands is privately owned. Under the American Commandant-Governor there is a native Governor in each of the three political divisions. The native Governors appoint the County Chiefs, who appoint the Village Chiefs. American Samoa has an area of 57.9 square miles. The chief product of the soil is cocoanut (the dried kernel is called copra). Other fruits are grown, but not exported.

## GUAM.

AREA, about 210 square miles.

POPULATION, 1920, 14,246, of which 13,698 were natives.

CAPITAL, Agana; population est. 9,000.

*Governor*, Capt. I. C. Wettengel, U. S. N.

The Island of Guam, the largest of the Marianas, was ceded to the United States by Spain by Article 2 of the Treaty of Paris, Dec. 10, 1898. It lies between latitudes 13° 13′ and 13° 39′ north and longitudes 144° 37′ and 144° 58′ east. It is 32 miles long and 4 to 10 miles wide. Distance from Manila, 1,506 miles; from San Francisco, 5,044 miles. The inhabitants call themselves Chamorros, but the present generation are a mixed race with the Malay strain predominating. Their language, a Polynesian tongue, is also called Chamorro. About 10 per cent. speak English. Instruction in the English language is compulsory in the public schools. The northern half of the island is a plateau from 400 to 600 feet in height and is, except where cleared for cultivation, wooded. The southern half is broken by hills from 1,200 to 1,300 feet high.

The total population, July 1, 1918, exclusive of officers and enlisted men of the navy and Marine Corps and their families was 14,344, of whom 14,124 were classed as "natives." Of the foreign-born population only 69 were Americans. Death rate per

thousand was 17.6; birth rate, 47.2. Guam is under the Navy Department, as a naval station. The Governor is a naval officer, designated by the President. A marine barracks, naval hospital and station ship are maintained. The Commercial Pacific Cable Company has a cable station in Guam, and cables from Manila, Yokohama, Midway and Yap Islands are landed here. There is a powerful Government radio station here. The port of entry is Apra, which is closed to foreign vessels, except by permit from the United States Government. Apra is commodious, but unimproved.

## WAKE AND THE MIDWAY ISLANDS.

The United States flag was hoisted over Wake Island on July 4, 1898, by Gen. F. V. Greene, commanding Second Detachment Philippine expedition. It is a small island in the direct route from Hawaii to Hongkong, about 2,000 miles from the first and 3,000 miles from the second.

The Midway Islands, owned by the United States, are a group in the North Pacific, northwest of the Hawaiian Islands. A relay cable station of the Commercial Cable Co. is established there.

## VACANT PUBLIC LANDS IN THE UNITED STATES.

(As of July 1, 1922; official data.)

THE lands in the original thirteen States, Connecticut, Delaware, Georgia, Maryland, Massachusetts, North Carolina, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, South Carolina, and Virginia, also in Texas, never formed a part of the public domain; their disposition is governed by the State laws and information concerning same should be sought from the State authorities.

There are no public lands in the States of Kentucky and Tennessee and none is known to this office remaining undisposed of in the States of Illinois, Indiana, Iowa, Missouri, and Ohio.

The unappropriated lands in Alaska are not included herein. The total area of Alaska is 378,165,760 acres, of which about 25,754,000 acres are reserved. Approximately 1,552,128 acres have been surveyed under the rectangular system. 120,708,187 acres thereof are reserved for forestry purposes.

VACANT PUBLIC LANDS, AS OF JULY 1, 1922.

| Michigan | 73,956 | ..... | 73,956 | Wisconsin | 4,348 | ..... | 4,348 |
| Minnesota | 254,296 | ..... | 254,296 | Wyoming | 15,353,437 | 1,506,156 | 16,859,593 |
| Mississippi | 27,847 | ..... | 27,847 | | | | |
| Montana | 4,370,848 | 1,289,395 | 5,659,879 | Grand total | 126,131,035 | 56,755,275 | 182,886,310 |

Cash receipts of the General Land Office during the fiscal year ended June 30, 1922: Disposal of public lands, $2,377,382.26; sales of Indian lands $545,711.91; power permits, $11.871.28; coal leases, $7,831.72; receipts under mineral leasing act, public lands, $6,374,143.52; receipts under mineral leasing act, naval petroleum reserve lands, $2,425,324.65; depredations on public lands, $11,998.71; miscellaneous, $30,431.59.

Area of public and Indian lands originally entered during the fiscal year 1922. 10,367,153.15 acres. Area of lands patented, 12,904.821.57 acres.

The total number of entries, acres sold and amount received therefor under the Timber and Stone Acts of June 3, 1878 and August 4, 1892, were from June 3, 1878 to June 30, 1922: Entries, 105,711; acres, 13,668,307.16; amount, $34,852,144.29.

Under the provisions of the act of March 8, 1922, entitled "An act to provide for agricultural entries on coal lands in Alaska," upon the unreserved, unwithdrawn public lands in Alaska, homestead claims may be initiated by actual settlers on public lands which are known to contain workable coal, oil or gas deposits, or which may be, in fact, valuable for the coal, oil or gas contained therein.

## UNITED STATES RECLAMATION SERVICE.

(From data furnished by the Service; as of July 1, 1921.)

DIRECTOR, Arthur P. Davis, Interior Department Building, Nineteenth and F., N. W., Washington, D. C. Employees: Washington office, 75; field, 3,000 to 5,000. Expenditure per year, about $10,000,000.

The Reclamation Service was organized as a bureau of the Interior Department, under the Reclamation Act of June 17, 1902. It is engaged in the investigation, construction, and operation of irrigation works in the 17 arid and semi-arid States of the far West. Twenty-five primary projects comprising 2,825,000 acres and three Indian projects comprising 384,000 acres are under construction or operation, and the major works aid in serving an additional 1,100,000 acres under private canals that generally get stored water from the Government reservoirs. The funds for this work have come chiefly from the sale of public lands, from repayments by the water users, and more recently from oil-leasing and other mineral operations, and the money expended is returned to the fund by graduated payments of settlers, usually in twenty annual instalments without interest, in accordance with the Reclamation Extension Act of August 13, 1914.

The Service has built about 13,600 miles of canals, ditches, and drains (including 117,000 canal structures), involving the excavation of 200,000,000 cubic yards of materials. In connection with this work there have been constructed 100 storage and diversion dams with an aggregate volume of 14,500,000 cubic yards, including Arrowrock Dam (349 feet high), Idaho, on the Boise River and the Elephant Butte Dam (306 feet high), New Mexico, on the Rio Grande. The Service has built 101 tunnels, 1,000 miles of road, 83 miles of railroad, 3,280 miles of telephone line, a dozen power plants, and 840 miles of transmission lines. It is mining coal, and has manufactured 1,676.000 barrels of cement and sand cement. The net construction cost as of June 30, 1922, was $135,000,000.

Over 450,000 persons are living on the 33,000 farms irrigated by the Service and in the project towns and cities. Of the 2,825,000 acres above referred to, water was furnished in 1921 to 1,227,500 acres, and of this area 1,157,900 acres were harvested in 1921, producing crops worth nearly $50,000,000, or an average of about $43 per acre. The additional lands using stored water yielded crops worth $45,000,000 more.

Public land farm units on the several projects are opened for settlement from time to time as canals are extended to make irrigation water available. Under present law, soldiers of the World War have a preference right to enter these farms, and at recent openings such soldiers have taken all units.

Information in regard to farms available for settlement may be obtained by addressing Director, U. S. Reclamation Service, Department of the Interior, Washington, D. C.

The Service issues the "Reclamation Record," an illustrated monthly publication, containing articles of interest to irrigation farmers and engineers. An annual report is also issued.

An engineering library of about 5,000 manuscript and printed volumes on the subject of irrigation is maintained in the Washington office of the Service. This library contains descriptions of the construction and operation of the projects, with numerous photographs and maps, plans, specifications, cost data, and results of original experimental investigations, and is available for consultation by those interested.

# New York State Statistics.

The Almanac presents, in the following pages, tables and other detailed data relating to the State of New York.

## ALTITUDES OF PLACES IN NEW YORK STATE.

## POPULATION AND AREA OF NEW YORK STATE COUNTIES.

(In computing the increase from 1890 to 1900 for certain counties the population of Indian reservations in 1900 has been deducted from the total population of the county in order to make it comparable with the total for 1890, which does not include the population of Indian reservations. The deductions thus made for the several counties are as follows: Cattaraugus, 1,982; Chautauqua, 31; Erie, 1,305; Franklin, 1,253; Genesee, 346 Niagara, 337: Onondaga, 530.)

| COUNTY. | When Formed. | Land Area Sq. M. | Population 1920. | Pop. Per Sq. M. 1920 | Population 1910. | Population 1900. | Population 1890. | Population 1880. | Population 1870. |

### STATE TOTALS FOR THOSE NOT IN TABLE ABOVE.

Armenia, 5,599; Belgium, 5,300; Canada, French, 15,560; Cuba, 3,136; Czecho-Slovakia, 38,247; Denmark, 14,222; Finland, 12,504; France, 32,179; Greece, 26,117; Jugo-Slavia, 8,547; Lithuania, 12,121; Netherlands, 13,772; Norway, 27,573; Roumania, 40,116; Scotland, 37,654; South America, 6,446; Spain, 12,548; Sweden, 53,025; Switzerland, 15,053; Syria, 8,127; Wales, 6,763; West Indies (exc. Cuba and Porto Rico), 6,396.

### PERCENTAGES, 1920 AND 1910.

The 1920 percentage of foreign-born whites in chief counties (1910 percentage in parentheses) is as follows: Manhattan, 40.4 (45.4); Bronx, 36.5 (0.1); Kings, 32.7 (35.0); Richmond, 27.1 (28.2); Niagara, 24.7 (26.0); Queens, 23.8 (27.9); Erie, 23.2 (27.0); Westchester, 23.2 (28.6); Monroe, 22.6 (25.1); Suffolk, 21.7 (22.9); Schenectady, 21.7 (23.8); Montgomery, 21.3 (23.8); Nassau, 20.6 (23.0); Oneida, 20.3 (21.9); Chautauqua, 20.0 (22.2); Onondaga, 17.2 (19.8); Herkimer, 17.1 (18.3); Sullivan, 16.6 (13.3); Albany, 15.8 (18.8); Orleans, 15.5 (18.1); Rockland, 15.3 (20.7); Cayuga, 14.5 (14.9); Fulton, 14.2 (14.7); Rensselaer, 14.1 (17.3); Genesee, 14.0 (17.2).

In almost every county of the State the percentage of foreign-born whites has decreased and in 40 of the 62 counties there was also a decrease in the number of foreign-born whites.

## POPULATION OF N. Y. STATE BY STATE OF BIRTH.

(U. S. Census figures as of January 1, 1920.)

Of the 10,385,227 inhabitants of New York, 6,634,469, or 63.9 per cent., were natives of that State; 925,383, or 8.9 per cent., were natives of other States or of the outlying possessions; and 2,825,375, or 27.2 per cent., were born in foreign countries.

The percentage of native Americans in the total population of the State increased from 69.8 in 1910, to 72.8 in 1920, and the percentage foreign born decreased from 30.2 to 27.2. The percentage of natives of New York increased during the same period from 62 to 63.9, and the percentage born in other States and the outlying possessions increased from 7.9 to 8.9.

| 1911..... | 43,074,192 | 1915..... | 63,997,272 | 1919..... | 95,840,984 | | |

Appropriations include advances for Federal Rural Post Roads: (1920) $300,000; (1921) $7,964,748; (1922) $6,204,042.

### NEW YORK STATE REVENUES FROM EXCISE AND INHERITANCE TAXES.

| Year. | From Excise. | From Inheritance. | Year. | From Excise. | From Inheritance. | Year. | From Excise. | From Inheritance. |
|---|---|---|---|---|---|---|---|---|
| 1897..... | $12,268,341 | $1,829,942 | 1906..... | $18,719,324 | $4,713,311 | 1915..... | $17,766,783 | $8,263,894 |
| 1898..... | 12,640,708 | 1,997,210 | 1907..... | 19,057,236 | 5,435,395 | 1916..... | 21,068,145 | 5,984,018 |
| 1899..... | 12,643,594 | 2,194,612 | 1908..... | 8,044,537 | 6,605,891 | 1917..... | 20,747,509 | 15,077,631 |
| 1900..... | 12,622,958 | 4,334,803 | 1909..... | 18,005,494 | 6,962,615 | 1918..... | 22,616,443 | 11,433,400 |
| 1901..... | 12,467,674 | 4,084,607 | 1910..... | 18,102,822 | 8,213,557 | 1919..... | 5,487,449 | 13,339,583 |
| 1902..... | 12,511,369 | 3,303,555 | 1911..... | 18,319,880 | 8,157,344 | 1920..... | 2,039,613 | 21,259,641 |
| 1903..... | 17,741,257 | 4,665,736 | 1912..... | 18,210,084 | 12,153,189 | 1921..... | 233,718 | 18,135,507 |
| 1904..... | 17,879,636 | 5,428,052 | 1913..... | 18,142,558 | 12,724,237 | 1922..... | 21,452 | 15,385,042 |
| 1905..... | 18,197,906 | 4,627,051 | 1914..... | 18,109,271 | 11,162,478 | | | |

1908 figures cover only five months, because the excise year was changed so as to begin Oct. 1 instead of May 1.
Figures for 1917 and later cover years ended June 30.

### FINANCIAL SUMMARY OF NEW YORK STATE GOVERNMENT.

| Revenue Receipts. | Fiscal Year Ended— June 30, 1922 | June 30, 1921 | General Expenditures. | Fiscal Year Ended— June 30, 1922 | June 30, 1921 |
|---|---|---|---|---|---|
| | *Dollars.* | *Dollars.* | | *Dollars.* | *Dollars.* |
| Gen. Property Taxes.. | 23,892,350.08 | 36,795,248.50 | Admin., Maint., Oper. | 52,850,031.75 | 58,160,186.50 |
| Special Taxes..... | 92,374,498.29 | 102,928,836.51 | Fix'd Chgs & Contribu | 61,293,279.95 | 67,397,715.22 |
| Other rev. & receipts.. | 9,114,494.55 | 7,588,697.94 | Capital Outlays..... | 12,525,860.75 | 10,050,273.18 |
| Total rev. receipts.. | 125,381,342.92 | 147,312,776,95 | Tot. General Expen. | 126,669,172.45 | 135,608,174.90 |

This statement shows the operations under the General Budget of the State and does not include transactions under sinking funds, special funds, bond moneys and trust funds.
Personal income tax collections (1921) $36,435,572; (1922) $29,669,411.

## NEW YORK STATE BANKING STATISTICS.

(The data are as of June 30, 1922.)

### CONDITION OF THE 238 STATE BANKING INSTITUTIONS.

| RESOURCES. | | LIABILITIES. | |
|---|---|---|---|
| Specie | $6,496,244 | Capital | $58,098,000 |
| Other authorized U. S. currency | 28,761,378 | Surplus (includ. all undivided profits) | 83,641,315 |
| Cash items | 173,820,315 | Preferred deposits | |
| Due from Fed. Res. Bk. less offsets | 95,061,224 | Due N. Y. State sav. banks | 32,019,641 |
| Due from res. depositaries, less offsets | 32,215,676 | Due N. Y. State sav. & loan assns. | |
| Due from other finan. instit. | 24,411,809 | credit unions & land banks | 1,105,245 |
| Stock and bond investments | 340,593,763 | Dep. by the State of N. Y. | 11,396,017 |
| Loans & dis. secured by real est. col. | 12,752,994 | Dep. by Supt. of Bks. of St. of N. Y. | 721,695 |
| Loans & dis. secured by other collat. | 251,358,767 | Other dep. sec. by pledge of assets | 4,824,965 |
| Lns, dis. & bills purch. not sec. by col. | 389,818,654 | Deposits otherwise preferred | 317,663 |
| Own acceptances purchased | 6,651,030 | Due depositors, not preferred | 1,172,435,373 |
| Overdrafts | 271,073 | Due trust companies, banks & bankers | 35,286,479 |
| Bonds and mortgages owned | 24,931,487 | Bills payable | 6,443,523 |
| Real estate | 24,364,359 | Rediscounts | 1,952,189 |
| Customers' liability on acceptances | 23,983,994 | Accept, drafts payable in future or authorized by letters credit | 26,019,097 |
| Other assets | 9,257,737 | Other liabilities | 11,087,016 |
| Add for cents | 1,055 | Add for cents | 441 |
| Total | 1,444,748,059 | Total | 1,444,748,059 |

Above table does not include National Banks in the State, but only banks now operating under a State charter. For condition of National Banks see elsewhere in the Almanac.

State banking institutions in the Borough of Manhattan (included in above table) showed the following data, as of June 30, 1922—Capital $36,500,000; total resources, $1,022,077,273; surplus, including undivided profits, $58,248,958; deposits, $889,635,555.

### CONDITION OF THE 98 TRUST COMPANIES IN THE STATE.

| RESOURCES. | | LIABILITIES. | |
|---|---|---|---|
| Specie | $6,916,560 | Capital | $159,959,500 |
| Other authorized U. S. currency | 23,115,914 | Surp. (includ. all undivid. profits) | 217,438,078 |
| Cash items | 250,291,306 | Pref. dep. due N. Y. St. sav. bks. | 53,172,513 |
| Due from Fed.Res.Bk.N.Y., less offsets | 269,600,064 | Due N. Y. St. sav. & loan assns, cr. unions & land banks | 1,267,617 |
| Due from approv. res. dep., less offsets | 65,662,598 | Due as exec., adminis., guard, receiver, trust com. or dep | 224,059,128 |
| Due from oth. bks., trust cos. & bkrs. | 75,029,329 | Deposits by the St. of N.Y. | 29,012,748 |
| Stock and bond investments | 857,445,354 | Dep. by Supt. Bks. of St. of N.Y. | 1,140,478 |
| Loans & dis. sec. by real est. collat. | 18,182,268 | Oth. dep. sec. by pledge of assets | 29,026,799 |
| Loans & dis. sec. by other collateral | 1,025,357,244 | Deposits otherwise preferred | 1,069,117 |
| Loans, dis. & bills pur. not sec. by col. | 588 366,899 | Due depositors, not preferred | 2,414,866,805 |
| Own acceptances purchased | 6,951,912 | Due trust companies, banks and bankers | 221,883,101 |
| Overdrafts | 439,935 | Bills payable | 5,922,000 |
| Bonds and mortgages owned | 93,725,867 | Rediscounts | 6,582,437 |
| Real estate | 62,010,628 | Accept. of drafts, payable in future, etc. | 90,299,866 |
| Customers' liability on acceptances (per contra, see liabilities) | 80,856,611 | Other liabilities | 59,565,662 |
| Other assets | 91,313,360 | Add for cents | 47 |
| Add for cents | 47 | | |
| Total | 3,515,265,896 | Total | 3,515,265,896 |

Data as to trust companies in the Borough of Manhattan (included in above table)—Capital, $117,500,000; resources, $2,?71,325,119; surplus, including undivided profits, $170,725,740; deposits, $2,272,408,651.

A minus sign (—) denotes decrease.
1870 values are computed gold values, being 80 per cent. of the currency values reported.

NUMBER OF FARMS, BY SIZE, 1880 TO 1920.

| Size Group. | 1920. | 1910. | 1900. | 1890. | 1880. |
|---|---|---|---|---|---|
| Total number of farms | 193,195 | 215,597 | 226,720 | 226,223 | 241,058 |
| Under 10 acres | 13,720 | 18,655 | 16,760 | 13,166 | 14,913 |
| 10 to 19 acres | 12,820 | 15,533 | 15,782 | 15,779 | 17,229 |
| 20 to 49 acres | 27,267 | 31,047 | 35,123 | 36,955 | 40,386 |
| 50 to 99 acres | 50,784 | 56,821 | 63,789 | 67,835 | 70,661 |
| 100 to 499 acres | 87,390 | 92,194 | 93,909 | 91,323 | 96,273 |
| 500 to 999 acres | 999 | 1,104 | 1,109 | 972 | 1,315 |
| 1,000 acres and over | 215 | 243 | 248 | 193 | 281 |

In New York the number of "dairy cows," including heifers 1 year old and over, reported for January 1, 1920, was 1,730,082, as compared with 1,509,594 "cows kept for milk" reported for April 15, 1910. This represents an increase of 220,488, or 14.6 per cent. The number of "beef cows" reported for January 1, 1920. was 26,664, as compared with 138,461 "cows not kept for milk" reported for April 15, 1910, representing a decrease of 111,797, or 80.7 per cent.

FARM ACREAGE AND VALUE, BY SIZE OF FARM, 1920 AND 1910.

| Size Group (Acres). | All Land in Farms (Acres). 1920. | All Land in Farms (Acres). 1910. | Improved Land in Farms (Acres). 1920. | Improved Land in Farms (Acres). 1910. | Value of Land and Buildings. 1920. | Value of Land and Buildings. 1910. |
|---|---|---|---|---|---|---|
| Total | 20,632,803 | 22,030,367 | 13,158,781 | 14,844,039 | $1,425,061,740 | $1,184,745,829 |
| Under 20 | 248,049 | 307,362 | 209,843 | 267,909 | 107,997,044 | 108,633,214 |
| 20 to 49 | 914,599 | 1,028,991 | 694,860 | 801,480 | 148,987,988 | 129,618,019 |
| 50 to 99 | 3,661,658 | 4,068,580 | 2,651,613 | 3,053,725 | 317,697,839 | 264,212,934 |
| 100 to 174 | 7,317,041 | 7,804,307 | 4,911,933 | 5,540,335 | 445,882,444 | 360,162,667 |
| 175 to 499 | 7,416,504 | 7,550,324 | 4,325,013 | 4,746,402 | 353,816,726 | 277,308,685 |
| 500 to 999 | 616,743 | 685,906 | 269,368 | 316,532 | 31,179,064 | 27,143,232 |
| 1,000 and over | 458,209 | 584,897 | 96,151 | 117,656 | 19,500,635 | 17,667,078 |

MORTGAGED FARMS, 1920 AND 1910.

(Owned farms only; includes all farms owned in whole or in part by the operator.)

| Class. | No. of Owned Farms. | | Increase. | | Class. | No. of Owned Farms. | | Increase. | |
|---|---|---|---|---|---|---|---|---|---|
| | 1920. | 1910. | No. | Per Cent. | | 1920. | 1910. | No. | Per Cent. |
| Total | 151,717 | 166,674 | —14,957 | — 9.0 | Mortgaged | 66,633 | 72,311 | —5,678 | —7.9 |
| Free from mortgage | 75,522 | 93,118 | —17,596 | —18.9 | Unknown | 9,562 | 1,245 | 8,317 | 668.0 |

A minus sign (—) denotes decrease. The marked difference in figures for farms free from mortgage and mortgaged is due to the fact more farms were tabulated "unknown" in 1920 than in 1910.

MORTGAGED FARMS (OR FARM HOMES), 1890 TO 1920.

| Class. | Owned Farms. | | Owned Farm Homes. | | Per Cent. of Total. | | | |
|---|---|---|---|---|---|---|---|---|
| | 1920. | 1910. | 1900. | 1890. | 1920. | 1910. | 1900. | 1890. |
| Total | 151,717 | 166,674 | 170,503 | 174,652 | 100.0 | 100.0 | 100.0 | 100.0 |
| Free from mortgage | 75,522 | 93,118 | 89,655 | 97,509 | 53.1 | 56.3 | 53.7 | 55.8 |
| Mortgaged | 66,633 | 72,311 | 77,164 | 77,143 | 46.9 | 43.7 | 46.3 | 44.2 |
| Unknown | 9,562 | 1,245 | 3,784 | | | | | |

*Total* includes "free from mortgage" and "mortgaged."

MORTGAGE DEBT, 1920 AND 1910.

| Item. | Owned Farms Mortgaged. | | Item. | Owned Farms Mortgaged. | |
|---|---|---|---|---|---|
| | 1920. | 1910. | | 1920. | 1910. |
| No. farms reporting amt. of debt | 59,735 | 62,555 | Aver. int. paid, per cent. | 5.4 | |
| Value of land and bldgs. | $388,114,245 | $284,659,163 | Average value per farm | $6,497 | $4,551 |
| Amt. of mortgage debt | $145,533,268 | $97,309,848 | Average debt per farm | $2,436 | $1,556 |
| Ratio of debt to value | 37.5% | 34.2% | Aver. equity per farm | $4,061 | $2,995 |

Includes only farms consisting wholly of owned land and reporting amount of debt. In considering the comparative figures it should be borne in mind that the mortgage debt may have been more completely reported at one census than at the other.

NUMBER, ACREAGE, AND VALUE OF FARMS, BY NATIVITY AND RACE. 1920 AND 1910.

| Color and Nativity or Race. | Number of Farms. | | Land in Farms, 1920 (Acres). | | Value of Land and Buildings, 1920. |
